

Wi-Fi Hotspot Quick Start Guide

This Quick Start Guide introduces the basic operation of the Wi-Fi Internet Hotspot

The Wi-Fi hotspot will work in an enclosed space such as a pocket or bag. Please note, if it gets hot, it will shut the internet off or power the entire hotspot off. If this happens, put in a ventilated area to help cool off.

To connect,

1. Hold the power button until all the lights stay on, two red lights will remain on until it is ready. The device will take a few seconds to completely turn on.
2. On your Laptop or Mobile Device, select the Wi-Fi icon
3. Select your available wireless and click connect
4. Enter your network security key
5. To shut off, Hold the power button until all lights are off
