**1. Quinebaug Valley Community College
“Partnership Program”**

This is an opportunity for a junior or senior with a minimum of 3.0 GPA to enroll in *one free* semester course at QVCC (pending available funding). Students are encouraged to take advance classes at QVCC through the Partnership Program. One college class per semester is typically provided at no cost. The course can be transferred to the high school at the end of the semester for credit (1/2 credit). QVCC will waive the tuition, college fee, and application fee for this program. The credits could possibly transfer to the student’s college of choice after graduation. Students must take a Basic Skills Assessment only if a prerequisite in English or Math is required for the college course.

2. Quinebaug Community College “Running Start” Program

By participating in this program seniors spend their entire year at QVCC and are able to earn dual credit to meet high school and college requirements. The program is open to **seniors** who hold a minimum of 2.8 GPA. Students must obtain recommendation by their counselor and permission from parent/guardian. Application deadlines are May 30th for the fall semester and November 30th for the spring semester and **must be done in the student’s junior year**. Students are assigned a college advisor who is familiar with the needs of high school requirements. Students must maintain a full-time semester schedule (4 courses) and must also meet remaining high school graduation requirements. Also, students may take Virtual High School Online Courses to further enrich their career pathway experience after consulting the pathway teacher. All expenses are paid by the student/family. **Financial Aid is not available** to high school students. (**One class per semester may be free**, per criteria of the “High School Partnership Program”). For more details, students are asked to meet with their counselor.

3. QVCC College Course

A high school student who is 16 years or older and who has maintained a 3.0 or higher GPA may elect to take a college-level course (100 level or higher) for dual credit. All expenses are paid by the student/family. The student can transfer the course credit to KHS for high school credit (1/2 high school credit for semester college course).

4. 5th-Year at QVCC for High School Completion

A 5th-year student may opt to finish high school by taking classes as QVCC. The student would receive high school and college credit. All expenses are paid by the student/family, however, there may be opportunities for financial assistance available.

SCHOOL-TO-CAREER PROGRAM

It is our continued goal to work and assist our student body to craft an individual student education and occupational plan that involves a process of career choice, identification of a career pathway and a variety of opportunities for post-secondary education through extensive career counseling, utilization of the Career Center, the School-to-Career office and meeting Performance Graduation Requirements.

The School-to-Career Program encourages students to choose a broad career pathway, or cluster, that relates to their aptitudes and interest. Each career cluster delivers core academics in a career context and provides similar work-based experiences. As students progress, they and parents learn of career options available to them and the education that is required for each option. The program emphasizes career exploration and guidance to help students discover career options and select courses for a smoother transition and more productive transition from high school.

Career Center

The **Career Center** houses computers with full internet access and a laser printer is also available for student use. Students may utilize these resources for class assignments on an *as available* basis. The Career Center maintains information where students can learn about available jobs, obtain scholarship information and applications and visit career related web sites. Among those valuable opportunities and activities that are offered through the School-to-Career Program and Career Center are:

- Job-Shadow Exploration
- Portfolio Development
- Volunteer Experiences
- Career Counseling
- Job Postings/Opportunities
- Employability Skill Development/Mock Interviews
- Speakers Bureau specifically aimed at connecting activities from community partners
- Apprenticeship Training Placement
- Career Fairs
- Company Tours

School-to-Career Advisory Board

Currently there are 5 specific Career Pathway Advisory Boards that support Killingly High Schools' School-to-Career Program. Membership is quite diversified with representation from education, industry, technical trades, students, alumni, Quinebaug Valley Community College and State Representatives.

Career Pathway Student Representatives

There are approximately 20 student representatives representing the 8 career pathways. Students take an active role in the development of topics to be discussed at scheduled Advisory Board Meetings. In addition, students take an active role in co-chairing scheduled meetings and developing leadership training workshops.

Career Pathway Alumni Association

The Career Pathway Alumni Association was developed in the fall of 2004. Graduates from each of the career pathways are encouraged to participate at a scheduled advisory board meeting. The long-term goal of the association is to provide vital resources to pathways to insure future growth and development.
