

Business/Non-Instructional Operations

Concept and Roles in Business and Non-Instructional Operations

The Board of Education recognizes that sound fiscal management comprises the foundational support of the whole school program. To make that support as effective as possible, the Board of Education intends to:

1. Encourage advance planning through the best possible budget procedures;
2. Explore all practical sources of dollar income;
3. Guide the expenditure of funds so as to extract the greatest educational returns;
4. Establish top-quality accounting and reporting procedures; and
5. Maintain the level of expenditures needed to provide high-quality education within the ability of the community to pay.

The Board of Education expects operation and maintenance of the school plant and equipment to set high standards of safety, to promote the health of students and staff, to reflect the moral and cultural aspirations of the community at its best, and to support environmentally the efforts of the staff to provide a good education.
