

## Comprehensive Progress Report

**Mission:** We at Cullowhee Valley believe that every child has unique qualities that make him or her an important part of a bigger story. Therefore, our mission is to provide a learning environment that celebrates and supports the individual, grows an awareness of connections between self and others, and provides skills that open and expand visions of future opportunities.

**Vision:** Our students are prepared to achieve their personal best as contributing members of their communities.

**Goals:**  
By the end of the year, the MTSS team will meet with 80% of teachers in grade levels K-3 to mainline the process for MTSS interventions.  
Currently a third of our school is below proficiency according to iReady math diagnostic assessment. Using NCCAT resources for school-wide professional development, we will implement research-based math instructional strategies.

Core Function:		Dimension A - Instructional Excellence and Alignment			
Effective Practice:		Curriculum and instructional alignment			
KEY	A2.04	Instructional Teams develop standards-aligned units of instruction for each subject and grade level.(5094)	Implementation Status	Assigned To	Target Date
<i>Initial Assessment:</i>		Grade levels meet on weekly basis. Cross-Grade level teams for ELA, Math, Science, & Social Studies meet on a monthly basis. Instruction is partially aligned at this point. ASW is being implemented in Art, Music and PE.	Limited Development 09/27/2016		
<i>How it will look when fully met:</i>		All core subject areas (ELA, Math, Science, and Social Studies) will have pacing guides that are common to each grade level. Pacing guides will be developed during Professional Learning Communities by the grade level teams through a thorough review of the NC Standard Course of Study, Unpacked Standards, vertical grade level standards, state assessments, and state released tests. Representatives from each grade level participate in system-wide planning. Instruction will be aligned with NCSCOS Standards and objectives. Grade level meetings will meet weekly, planning instructional strategies aligned with the pacing guides. Assessments will be developed and the resulting data analyzed. Formal and informal classroom observations will confirm that pacing guides are being followed.		<b>Kathryn Kantz</b>	<b>11/30/2020</b>
