

Antelope Elementary Community Council Minutes

September 19, 2019

Welcome and introduction of all members of the council!

The council watched a mini-training video, reviewed the responsibilities of the Community Council, and reviewed the information on the school's website.

The council elected this year's leadership. Trystin Glover was elected as Chair, Riley Thomson was elected as Co-Chair, and Kim Bockholt was elected as Secretary.

This year's School Improvement Plan and the status of this year's Trustlands budget were discussed.

The amount we spend on tutors comprises a significant amount of the budget. Their salaries were underestimated for this year's budget, so there are not any extra funds in the budget at this point. We will monitor the use of our tutors to make sure we are using them efficiently and increasing student achievement.

Beginning of Year reading data were shared.

The council added an October meeting to the schedule. Our next meeting will be October 24 at 4:00.

Action Items for Next Month's Agenda:

- Mrs. Conrad will prepare attendance numbers so we can monitor progress towards this year's attendance goal.
- Council members will explore options for teaching students about digital literacy and creating a safe internet environment.
- Mrs. Bennett will attend a training about Safe Routes (which replaces the SNAP plan).
