**REVISED NOTICE OF PROPOSED AWARDS**

Grant Solicitation GFO-17-607
School Bus Replacement for California Public School Districts, County Offices of Education, and Joint Power Authorities

Electric School Bus Awards
July 24, 2019

On May 31, 2018, the California Energy Commission released a Grant Solicitation and Application Package entitled “School Bus Replacement for California Public School Districts, County Offices of Education, and Joint Power Authorities” under the Clean Energy Job Creation Program and the Clean Transportation Program, also known as the Alternative and Renewable Fuel and Vehicle Technology Program.

The grant solicitation announced \$75 million in Clean Energy Job Creation funding to fund projects that replace old diesel school buses in California. These funds are distributed evenly among four regions (\$18.75 million per region): Northern, Central, Southern California, and Los Angeles County. The Clean Transportation Program component of this solicitation was an offer to fund up to \$60,000 in electric vehicle (EV) infrastructure for each of the electric school buses awarded under this solicitation.

The attached table, “Revised Notice of Proposed Awards” (NOPA), identifies application withdrawals, new applicants and new buses selected and recommended for funding, applicant name corrections and an award amount correction for the Holtville Unified School District. This notice is posted on the Energy Commission’s website at <https://www.energy.ca.gov/funding-opportunities>.

In each region, staff listed the number of buses that could be fully funded. There remains insufficient funding for an entire bus in each region. This NOPA proposes to pool the four regions’ remaining funding to award an amount sufficient to fund an entire bus replacement. This pooled funding will fund the highest ranked bus, regardless of region.

Funding of proposed projects from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission business meeting and the execution of a grant agreement.

(Health and Safety Code 124040, 124085)

(cf. 5111 - Admission)

(cf. 5141.3 - Health Examinations)

(cf. 6173 - Education for Homeless Children)

(cf. 6173.1 - Education for Foster Youth)

(cf. 6173.2 - Education of Children of Military Families)

(cf. 6173.3 - Education for Juvenile Court School Students)

The Superintendent or designee shall notify parents/guardians of all kindergarten students of the requirement to obtain a health screening and of the availability of the Child Health and Disability Prevention (CHDP) program established pursuant to Health and Safety Code 124025-124110 to assist eligible low-income families in obtaining the health screening. (Health and Safety Code 124100)

(cf. 5145.6 - Parental Notifications)

The notice and certification form shall be included with the notification of immunization requirements provided to parents/guardians prior to their child's enrollment in kindergarten and shall encourage completion of the health screening simultaneously with immunizations. The notice shall also be provided to the parent/guardian of any student who is enrolling in first grade without having attended kindergarten in the district.

(cf. 5141.31 - Immunizations)

In lieu of the certification, the parent/guardian may submit a waiver on a form developed by DHCS indicating that he/she does not want or is unable to obtain a health screening. If the waiver indicates that the parent/guardian was unable to obtain the services, the reasons should be included in the waiver. (Health and Safety Code 124085)

The waiver form shall be provided to a parent/guardian upon request.

The completed certification form or the waiver shall be maintained in the student's health file or cumulative record. (5 CCR 432)

(cf. 5125 - Student Records)

During the first 90 days of the school year, the Superintendent or designee may contact any parent/guardian of a first-grade student who has not provided either the certification form or the waiver to ensure that the parent/guardian understands the health screening requirement and, if appropriate, his/her possible eligibility for the CHDP program.

The Superintendent or designee shall exclude from school, for not more than five school days, any first-grade student who does not present evidence of a health screening or a waiver on or before the 90th day after entering first grade. The exclusion shall begin on the 91st day after the student's entrance into the first grade, or if school is not in session, then on the next succeeding school day. (Health and Safety Code 124105)

The Superintendent or designee may exempt a student from exclusion when his/her parents/guardians have been contacted at least twice between the first day and the 90th day after the student's enrollment in first grade and the parents/guardians refuse to provide either a certification form or a waiver. (Health and Safety Code 124105)

Board Policy

Unmanned Aircraft Systems (Drones)

BP 3515.21

Business and Noninstructional Operations

The Board of Trustees recognizes that unmanned aircraft or aerial systems (drones) may be a useful tool to enhance the instructional program and assist with district operations. In order to avoid disruption and maintain the safety, security, and privacy of students, staff, and visitors, any person or entity desiring to use a drone on or over district property shall submit a written request for permission to the Superintendent or designee.

(cf. 1330 - Use of School Facilities)

(cf. 1330.1 - Joint Use Agreements)

(cf. 5142 - Safety)

A small unmanned aircraft system or drone is an aircraft weighing less than 55 pounds that is operated remotely without the possibility of direct human intervention from within or on the aircraft and the associated elements, including communication links and controls, required for the pilot to operate the aircraft safely and efficiently. It does not include model aircraft or rockets such as those which are radio controlled and used only for hobby or recreational purposes. (49 USC 40101 Note; 14 CFR 107.3)

The Superintendent or designee may grant permission to district employees and students for the use of drones only if the planned activity supports instructional, co-curricular, extracurricular, athletic, or operational purposes. Such uses may include, but are not limited to, instruction in science, technology, engineering, and math (STEM), the arts, or other subjects; maintenance of grounds and facilities; and campus security. When used for instructional purposes, there shall be a clear and articulable connection between drone technology and the course curriculum. Students shall only operate a drone on or over district property under the supervision of a district employee as part of an authorized activity.

The Superintendent or designee may grant permission to other persons or entities under terms and conditions to be specified in a memorandum of understanding.

Any person or entity requesting to operate a drone on or over district property, including a district employee, shall provide a description of the type of operation requested, flight location, date and time of the planned flight, anticipated duration, and whether photos and/or video will be taken. As applicable, the applicant shall also present a copy of his/her Certificate of Waiver or Authorization or exemption issued by the Federal Aviation Administration.

Any person or entity, other than a district employee or student, who is requesting or operating a drone on or over district property shall agree to hold the district harmless from any claims of

harm to individuals or property resulting from the operation of the drone and provide proof of adequate liability insurance covering such use.

(cf. 3530 - Risk Management/Insurance)

In determining whether to grant permission for the requested use of a drone, the Superintendent or designee shall consider the intended purpose of the activity and its potential impact on safety, security, and privacy. The decision of the Superintendent or designee shall be final.

Any person authorized to use a drone on district property shall sign an acknowledgment that he/she understands and will comply with the terms and conditions of the district's policy, federal law and regulations, state law, and any local ordinances related to the use of drones.

When any use of drones is authorized, the Superintendent or designee shall notify the drone operator of the following conditions:

1. The operator is responsible for complying with applicable federal, state, and/or local laws and regulations, including federal safety regulations pursuant to 14 CFR 107.15-107.51 which include, but are not limited to, requirements that the drone not be flown at night, above 400 feet in altitude, or over any people unless they are in a covered structure or stationary vehicle. The operator shall maintain the visual line of sight with the drone at all times.
2. The drone shall be kept away from any area reasonably considered private, including, but not limited to, restrooms, locker rooms, and individual homes.
3. The district reserves the right to rescind the authorization for use of drones at any time.

The Superintendent or designee may remove any person engaged in unauthorized drone use on district property and/or may confiscate the drone. He/she may also shut down the operation of any authorized drone use whenever the operator fails to comply with the terms of the authorization or the use interferes with district activity, creates electronic interference, or poses unacceptable risks to individuals or property.

(cf. 3515.2 - Disruptions)

Any student or staff member violating this policy shall be subject to disciplinary action in accordance with district policies and procedures.

(cf. 4118 - Dismissal/Suspension/Disciplinary Action)

DATE YOU WISH TO HAVE YOUR ITEM CONSIDERED: **August 14, 2019**

ITEM: Receive the following revised Board Policy and Administrative Regulation for information.

PURPOSE: The following Board Policy and Administrative Regulation is being updated to clarify applicability of the policy to nonemployees providing services to the district pursuant to a contract. Policy reflects NEW STATE REGULATIONS (Register 2018, No. 20) which add a definition of national origin and make it an unlawful employment practice to inquire into or discriminate against an employee on the basis of immigration status. Policy also reflects NEW LAW (SB 1300) which (1) prohibits districts from requiring an employee, in exchange for a raise or bonus or as a condition of employment or continued employment, to sign a nondisparagement agreement or release the right to file a claim against the district for unlawful acts in the workplace, including sexual harassment, and (2) provides that a district may be responsible for any harassment (not just sexual harassment) of employees by nonemployees if the district knows or should have known of the conduct and failed to take action. Regulation revises section on "Measures to Prevent Discrimination" to reflect a requirement, formerly in BP, to post the California Department of Fair Employment and Housing (DFEH) poster on workplace discrimination and harassment and to add the requirement to post the DFEH poster on the rights of transgender employees. Regulation also reflects NEW LAW (SB 1300) which authorizes training on bystander intervention.

The school keeps all restrooms open during school hours when students are not in classes and keeps a sufficient number of restrooms open during school hours when students are in classes, except when necessary to temporarily close a restroom for student safety or to repair the facility.

In addition, in a school serving any of grades 6-12 in which 40 percent or more of the students in the school or school attendance area are from low-income families, at least 50 percent of the school's restrooms are stocked with feminine hygiene products, for which students are not charged. (Education Code 35292.6; 20 USC 6314)

15. Roofs: Roofs, gutters, roof drains, and downspouts appear to be functioning properly and are free of visible damage and evidence of disrepair when observed from the ground from inside and outside the building.

16. Drainage: School grounds do not exhibit signs of drainage problems, such as visible evidence of flooded areas, eroded soil, water damage to asphalt playgrounds or parking areas, or clogged storm drain inlets.

17. Playground/School Grounds: Playground equipment (exterior fixtures, seating, tables, and equipment), school grounds, fields, walkways, and parking lot surfaces are functional and free of significant cracks, trip hazards, holes, deterioration that affects functionality or safety,

and other health and safety hazards.

18. Overall Cleanliness: School grounds, buildings, common areas, and individual rooms appear to have been cleaned regularly and are free of accumulated refuse and unabated graffiti. Restrooms, drinking fountains, and food preparation or serving areas appear to have been cleaned each day that school is in session.

In addition, to ensure the health and safety of students, the Superintendent or designee shall provide for the testing of drinking water on campus and of the soil and painted surfaces of school facilities for the presence of lead and/or other harmful substances, in accordance with state and federal standards.

The Superintendent or designee shall ensure that any necessary repairs or removal of hazards identified during the inspection are made in a timely and expeditious manner.

An assessment of the safety, cleanliness, and adequacy of school facilities, including any needed maintenance to ensure good repair as defined in Education Code 17002, shall be reported on the school accountability report card. (Education Code 33126)

(cf. 0510 - School Accountability Report Card)

Any complaint alleging a school facility condition that poses an emergency or urgent threat to the health or safety of students or staff, or alleging that a school restroom is not clean, maintained, or kept open, shall be addressed in accordance with AR 1312.4 - Williams Uniform Complaint Procedures.

(cf. 1312.4 - Williams Uniform Complaint Procedures)

BRANDMAN UNIVERSITY

and

Hanford Elementary School District

- **Multiple Subject Internship Credential**
- **Single Subject Internship Credential**
- **Education Specialist Internship Credential**

An Internship Credential authorizes the same service at the same level as the Preliminary Credential with some exceptions. The Internship Credential is only valid in one school district or consortium under the preconditions established by State law (see Appendix A).

For this reason, interns must have a contract before a credential can be issued. Each intern candidate is to work under the direct and continuing supervision of a Brandman University Supervisor, from the Visalia Campus, and District Mentor who provides general support at the classroom level of the cooperating school. Also, the Internship Credential shall be issued initially for a two-year period. (Education Code Section 44455).

I. General Provisions

a. The UNIVERSITY agrees and verifies that:

- i. Each Intern Teacher shall have met the requirements for enrollment in its Credential Programs
- ii. Each Intern Teacher must have completed the minimum number of preservice hours of University Credential Program course work, as required by the CCTC for issuance of the Intern Credential.
- iii. Each Intern Teacher shall apply for the Internship Credential through the Teacher Accreditation Department at Brandman University, upon verification of employment from the School District.

b. The DISTRICT agrees and verifies that:

- i. The intern assumes full teaching and legal responsibility for their classroom from the first day of the teaching assignment as a paid employee of the

District for at least one academic year, subject to the District's personnel policies and State law(s).

- ii. The intern will attend department and faculty meetings and parent-teacher conferences when appropriate. No intern may coach extracurricular activities nor be required to attend meetings that present a conflict with his/her internship responsibilities at Brandman University.
- iii. The intern is expected to attend all school and district in-service training sessions whenever possible. The intern will also attend assigned District and School orientations that occur prior to the start of the school. If there is a conflict between University and District training, University meetings shall take priority during the Internship period.

II. Support and Supervision Requirements

Pursuant to California Education Code §44321, the supervision and support of interns is the responsibility of both the Commission-approved teacher preparation program and the employer. The Commission requires that each approved intern program must have a signed Memorandum of Understanding (MOU) outlining the respective responsibilities of the program and of the employer.

a. General Support and Supervision Provided to All Interns

The UNIVERSITY and DISTRICT together shall provide a minimum of 144 hours of support/mentoring and supervision to each intern teacher per school year including coaching, modeling, and demonstrating within the classroom, assistance with course planning and problem-solving regarding students, curriculum, and development of effective teaching methodologies. The minimum support, mentoring and supervision provided to an intern teacher who assumes daily teaching responsibilities after the beginning of a school year shall be equal to four hours times the number of instructional weeks remaining in the school year. A minimum of two hours of support/mentoring and supervision must be provided to an intern teacher every five instructional days.

- i. The UNIVERSITY shall select supervisors that have current knowledge in their subject matter area; understand the context of public schooling; ability to model best professional practices in teaching and learning, scholarship and service; knowledge about diverse abilities, cultural, language, ethnic and gender diversity; and understanding of academic standards, frameworks, and accountability systems that drive the curriculum of public schools.
- ii. The UNIVERSITY shall provide supervision and ongoing support for a minimum of 72 hours per school year. University supervisors will conduct classroom observations a minimum of four times each term that include pre

and post observation discussions. Supervisors will maintain weekly contact with the intern to provide support related to planning, curriculum, and instruction in addition to problem solving regarding students.

- iii. The DISTRICT shall select mentor teachers who meet the following qualifications:
 - (1) valid corresponding Clear or Life credential,
 - (2) three years successful teaching experience, and
 - (3) the English Learner (EL) Authorization (if responsible for providing specified EL support).

If the mentor does not hold an EL Authorization, the district must identify an individual who does have a valid EL authorization and who is immediately available to assist the intern with planning lessons that are appropriately designed and differentiated for English learners, for assessing language needs and progress, and to support language accessible instruction, through in-classroom modeling and coaching as needed.
- iv. The DISTRICT shall provide supervision and ongoing support for a minimum of 72 hours per school year with a minimum of two hours of support/mentoring and supervision per week. The mentor(s) role is to provide support specifically addressing issues in the intern's classroom (See Appendix B for examples of support/supervision activities). Interns without an English Language Authorization must also receive focused English Language instruction support.
- v. The UNIVERSITY shall provide orientation and training for the district mentors and university supervisors.
- vi. The UNIVERSITY provides the 10 hour CTC mandatory mentor training.
- vii. The DISTRICT requires mentors complete the CTC mandatory 10 hour training.
- viii. The University Supervisor and District Mentor shall meet together regularly with the intern to ensure the intern is following the California Teaching Performance Expectations.

The minimum support/mentoring and supervision provided to an intern teacher who assumes daily teaching responsibilities after the beginning of a school year shall be equal to five hours times the number of months remaining in the school year. The support/mentoring and supervision should be distributed in a manner that sufficiently supports the intern teacher's development of knowledge and skills in the instruction of English learners.
- ii. The DISTRICT shall identify an individual who will be immediately available to assist the intern teacher with planning lessons that are appropriately designed and differentiated for English learners, for assessing language needs and progress, and for support of language accessible instruction through in-classroom modeling and coaching as needed. The identified individual may be the same mentor assigned pursuant to section I above provided the individual possesses an English learner authorization and will be immediately available to assist the intern teacher. (See Appendix B for examples of support/supervision activities).
- iii. An individual who passes the California Teaching of English Learner (CTEL) examinations prior or subsequent to the issuance of the intern credential may be exempted from the additional 45 hours of support/mentoring and supervision specific to the needs of English learners.

Consider the adoption of Resolution #01-20: Budget revisions – 45 day update.

PURPOSE:

There are several budget revisions resulting from the signing of the State budget on June 27, 2019. Education Code requires such changes be available for public review within 45 days of the signing of the State budget. Attached are all the budget revisions that have occurred since the last set of budget revisions were presented to the board meeting on June 26, 2019.

FISCAL IMPACT:

The signing of the state budget included an increase of \$93k to SELPA funding and \$93k to the After School Education and Safety Program. There is also a \$16k net cost increase related to the changes in the budgeted STRS/PERS rates and \$326k decrease to the budgeted SELPA excess cost resulting from equalization in SELPA funding.

Additionally, there are a variety of budget changes associated with the updating of budget carryover and staffing updates.

RECOMMENDATIONS:

Adopt Resolution #01-20.

Subject: Proposal/Agreement for Development Fee Justification Study

Dear Mr. Endo:

Odell Planning & Research, Inc. (Odell Planning) is pleased to present this proposal/agreement to prepare a Development Fee Justification Study for the Hanford Elementary School District (District). Our scope of work, fee, and schedule for completion of the work is presented below.

A. Scope of Work

Our goal will be to prepare a complete, well-documented and defensible study that will provide the information currently required for “Level 1” fee justification as authorized by Education Code Section 17620 and Government Code Section 65995.

Our scope of work for the study will include the following components:

- Residential development projections will be prepared, based upon relevant local planning agency information, proposed and approved development projects and other available information.
- Student generation rates used in the study will be determined using address-match analysis or other data sources.
- The number of students generated by new development will be projected, based upon the residential development projections and student generation rates.
- The cost of school facilities for new development students will be estimated, based upon school building construction or reconstruction costs, site acquisition and site development costs, and considering any local funding that the District has for facilities.
- The Level 1 residential fee will be calculated, based upon the projection of new development students, school facilities capacity information, cost of facilities and average dwelling unit square footage.
- The commercial/industrial fees justified will be calculated, based upon cost factors and employee generation data pertaining to the District.
- A report will be prepared that presents the above information.

As required by Government Code Section 66001, the study will demonstrate how there is a reasonable relationship between:

- the fee's use and the type of development project on which the fee is imposed;
- the need for the public facility and the type of development project on which the fee is imposed; and
- the amount of the fee and the cost of the public facility or portion of the public facility attributable to the development on which the fee is imposed.

B. Fee

The scope of work will be completed for a fixed fee of \$6,200. The fee will be billed as follows: 40 percent (\$2,480) upon signing of the agreement and 60 percent (\$3,720) upon acceptance of the final report.

If requested, we will present the final report at a Board meeting as an extra service on a time and expense basis in accordance with our current hourly rates (Attachment A).

C. Schedule

The statutory fee amounts will be adjusted at the State Allocation Board's January 2020 meeting (late January). Our goal will be to time the preparation of the study such that it can be adopted by the Board in February 2020.

D. Terms and Conditions

1. The District will provide the background information needed to complete the study, including but not limited to:
 - a. Developer fee collection records showing the addresses, type and square footage of residential units in excel format. The records should also show the date and square footage of any commercial or industrial development.
 - b. Information on school enrollment and school building capacity;
 - c. Estimated building construction, site acquisition and site development costs; and
 - d. Information on any existing funding sources for school facilities, including bond funds.
2. Odell Planning will provide the District with an electronic copy of the draft and final reports. The District shall be responsible for printing any hard copies of the report that are needed.
3. If requested, Odell Planning will assist with the preparation of board resolutions, newspaper notices, and California Environmental Quality Act exemption documentation.
4. The scope of work does not include any work or costs related to any future litigation pertaining to the fee study or development fees adopted by the District.
