

St. Stephen's Episcopal Day School seeks passionate, contemporary teachers who will join elementary teams to create integrated, personal learning experiences for our students. As described by Hayes-Jacobs and Alcock, we need teachers who can self-navigate their professional learning, act as a social contractor, media critic, media maker, publisher, innovative designer, globally-connected citizen, and advocate for learners and learning. Not only should applicants be seekers of new information and skills, but they should be digitally literate with a wealth of educational applications available to support learning and a willingness to share their knowledge with colleagues. We look forward to hearing from anyone looking to join a co-teaching team for the 2020-2021 school year.
