## Principal Welcome

Dear Parents,  
We are off to a GREAT start! I am excited to share we recently purchased a site license for an exciting math program called Reflex Math. Reflex Math is designed to build math fact mastery and fluency in addition, subtraction, multiplication, and division. To produce optimal growth, students are encouraged to do three sessions per week with each session lasting about 17 minutes (they go until they see the green light). Reflex Math has an app and it can be done in class, at home, or on your mobile device. Our goal is to ensure high growth for all students. Reflex Math is a small but significant support piece that is customized to meet your child exactly where he/she is and move them forward. Each child will receive their username and password next week. Teachers will show the kids how to use the program. Our goal is for all of our students to not only gain mastery but fluency with their math facts. Reflex Math will definitely help. Thank you!

We are excited about Grandparents' Honor Day! We want grandparents and grand-friends to visit the classroom at 8:30 a.m. and enjoy a special chapel together at 9:15 a.m. Your child will receive two invitations to give to his/her grandparents or grand-friends, provided through the classroom teacher next week (more will be available for you in the main office).

**Important Note! (1st-4th grade)**

We will be showing a video of pictures of our grandparents during the program, but we need your help! Please send in 1 or 2 pictures of your child with their grandparents to be used in the video. Please e-mail these, clearly labeled with your child's name and homeroom to Kristy Morrison at [kmorrison@wcatrojans.org](mailto:kmorrison@wcatrojans.org).

## Box Tops for Education

We have gone digital! Now you can support WCA's Trojan Club without ever searching for your scissors again. Just download the new Box Tops App and snap a picture of your receipt when you shop for groceries, and WCA Athletics will receive funds directly!
