

Fremont Union High School District
 RFQ/P 19-05 - CHS Athletic Field Improvements Project
 Addendum 1
 10/28/2019

#	Question	Answer
1	I work for a general contractor company and we saw some projects that we are interested with I wonder if you can tell me how much would be the estimated engineering's value for each one.	The RFQ/Ps are posted on the District website at: www.fuhsd.org/departments/business-services Each project has a project estimate listed in Appendix A.
2	We'll review SOQ forms and bid package, could you also let us know what's the tentative date for this project start date?	All the information is in the RFQ/P and in the presentation that was given at the Informational Walk. Both are posted on the District website at: www.fuhsd.org/departments/business-services .
3	We'll be working on a bid price for this project, do prequalification documents need to be provided prior to bid or submitted with our bid?	You must be prequalified by the District prior to submitting your response.
4	Is it known yet if the District plans on interviewing GCs before the projects are awarded?	We won't decide whether we will need interviews until we see how many responsive proposals we receive.
5	Given the extent of information required in the 20 page RFQ/P response, can proposers include supporting documentation (e.g., resumes and project experience sheets) in an appendix that would not count against the 20 page maximum limit?	Yes, you may submit only resumes and project experience in an appendix and it will not be counted against the 20 page maximum. However, in your response, in the appropriate section(s), please note that these two items are in an appendix and Identify the appendix.
