YSSF

The Young Scientist Science Fair (YSSF) is an after-school program for **sixth-grade** students, designed to increase students' passion for the sciences and to improve on important life-skills of research, communication, and presentation. On Monday 10/7, your child was introduced to the program and was handed a registration form, detailing the program, meetings, and sign-up procedure. Parkland High School students will guide your child throughout the process, answering any questions your child may have. At each meeting, students will be given valuable instruction on research methods, presentation etiquette, and public speaking. Next year, students in the seventh grade Science GHP classes will be required to conduct a science fair project. YSSF teaches students the foundational principles of scientific research, providing early guidance on essential skills needed for next year.

Interested students must send the registration form to Dr. Sandt at Parkland High School by October 30, 2019.

If there are any questions, please contact YSSF President Dharshan Tharumia at dharsantharumia.yssf@gmail.com.
