Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$ 1,000 Individual; \$3,000 Family.	For out-of-network services, you must pay all the costs up to the deductible amount before this plan begins to pay for covered services. The deductible starts over every Jan. 1. See chart on page 2 on how you pay after meeting the deductible .
Are there services covered before you meet your deductible ?	Yes. Preventive Care and some in-network services are covered before you meet your deductible	
Are there other deductibles for specific services?	\$ Yes	There is a \$500 deductible for each pre-certified out of network hospital admission. There is a \$100 deductible for each pre-certified in-network hospital admission.
What is the out-of-pocket limit for this plan ?	\$7,150 Individual; \$14,300 Family (Medical & Prescription combined out-of-pocket)	The out-of-pocket limit is the most you could pay during a coverage period of one year for your share of the cost of covered services. This limit helps you plan for health care expenses
What is not included in the out-of-pocket limit ?	Premiums, penalty for failure to obtain pre-certification, balance-billed charges, services the plan doesn't cover.	Even though you pay for these services, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.indecscorp.com or call 800-810-2583 for assistance in locating an in network provider.	This Plan uses a provider network. You will pay less if you use a provider in the Plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your Plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you receive services.
Do you need a referral	No	You can see the specialist you choose without permission from this plan.

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
