

The Washingtonville Central School District is committed to the intellectual, cultural, physical and emotional growth of our children in a safe and supportive environment.

A special thanks to the Washingtonville Central School District Board of Education for your continued support and commitment to early intervention programs and services.

Washingtonville Central School District

Pre-School Diagnostic Center

“Opening Avenues to Learning”

▶ **PRE-SCHOOL DIAGNOSTIC CENTER**

Purpose:

The goal of the Preschool Diagnostic Center is to assist student attainment of critical developmental and school readiness knowledge and skills. Skills associated with successful transition to kindergarten and general education programs are measured and interpreted to determine corrective intervention. All children ages 2.5 through age 5 are eligible for preschool evaluations at no cost to parents. Moreover, children identified with special needs are also eligible for intervention programs and services at no cost to parents.

Research indicates that early intervention is crucial in assisting children with disabilities. It is our purpose to help identify those children and provide them with the appropriate services.

Evaluative areas are grouped as follows:

- Personal health and safety skills
- Social and emotional development
- Language development and communication skills
- Cognitive development/ intellectual abilities
- Approaches to learning and motor development

The skill level for these areas encompass a range of abilities and are measured to determine eligibility for services.

Evaluation Team:

Kathryn Luttman- Chairperson, Committee on Pre-School Special Education and School Psychologist

Jamie Serra - Occupational Therapist

Jill Dodd - Physical Therapist

Maureen Limperopulos - Speech/ Language Pathologist

If you are concerned about your child's development, please contact our office for a consultation. Our staff of experts is available to meet with you to discuss any concerns you may have.
