Risk Management

---

**5000.060**

The School District promotes safety and accident prevention for its students and employees. The following ongoing measures are designed to further this undertaking:

1. Building principals shall regularly report to the Superintendent or his/her designee:
  - a. Accidents, injuries and property loss or damage within their school buildings.
  - b. Perceived risks of future harm within their buildings and recommendations to minimize such risks.
2. The Director of Finance or his/her designee shall:
  - a. Review all School District insurance policies and recommend to the Superintendent and the Board of Education areas in which modifications in coverage are warranted.
