11/02/2019 6:51 AM	Janine Kenyon	Janinekenyon@hotmail.com	Cooper Mountain Elem				Our family is part of the Cooper Mountain ES Family and belongs to the small part that does not continue on to Highland Park MS but to Mountain View. Of course we do want our children to stay together with their friends, at an age where so much development is happening, we want strong friendships to continue to give them social stability. I believe this would help them focus on new academic challenges instead of being forced to find an entire new support system and place at school. I know there is always the option of moving, as many have done before, however, it is not in everyone's ability to do so. Please consider keeping Cooper Mountain ES together at Highland Park MS! We appreciate you looking into this issue! Feel free to reach out with anything I can do to support the process.
11/04/2019 11:06 PM	Baotong Xie	xiecchmc@gmail.com	Findley Elem	Stoller MS	Sunset		Since the New Middle School is intended to relieve overcrowding in the northern part of the District, the northwest two elementary school - Rock Creek and Springville - can change to feed to Five Oaks MS; the Elmonica ES and Baver Acres ES that correctly feeding to the Five oaks can change to Meadow Park MS; the Bethany ES and the Oak hill ES, the two elementary schools that are north of Hwy26 and currently in Meadow Park MS, join the new middle school, together with Terra Linda ES, Bonny Slope ES, and Cedar Mill ES .
11/05/2019 6:10 AM	Brian and Molly Bates	jollymolly82@hotmail.com	Nancy Ryles Elem	Conestoga MS	Mountainside		Our children attend Nancy Ryles which splits between Conestoga and Highland Middle Schools. While they will attend Conestoga, the majority of their friends (or ALL friends in one child's case) will go to Highland. It is unfortunate that at a vulnerable age with a huge transition in their life they are separated from their core support group whom they've grown up with. It is our hope the committee is able to work out a way for feeder schools to stay together. If not, we would hope the committee will design a way to give families an option to choose which Middle School they attend if their elementary is one of the schools divided. Thank you for your consideration and efforts.
