### **Excluded Member (White)**

Students are moved here when they have been on level yellow for two consecutive school days. The student sits in seat away. They do not get teacher or student attention. They have no recesses and eat their lunch in the non-member area. Students must complete class work and a Behavior Debriefing Form. After spending the whole day as a non-member in our classroom the student will buy back up to level blue at the cost of 40 points. This keeps students from staying on level yellow and giving up hope causing them to not advance behaviorally or academically.
