Lessons

Our three-week program is dedicated to teaching the fundamentals of skiing or snowboarding while instilling a passion for the mountain environment for all levels of participants. The consistent schedule and working with the same group of coaches each week helps to build confidence, and create an experience where students feel comfortable. Students will be assigned to a class each week based on their age and ongoing ability level. All participants require a lift ticket and ski equipment. These can be included as a package along with the lesson booking.
