# WELCOME TO THE 2019-2020 SCHOOL YEAR!

Thank you for your support of the Sun Prairie Area School District! As one of the fastest growing school districts in the State of Wisconsin, we have a strong history of partnership with our community in support of our students. Please accept this calendar as another way that you can stay connected to the students and staff of the Sun Prairie Area School District!

Enjoy our student artwork each month, and let the beautiful pieces of art inspire you as they have inspired us throughout the year.

Take time to learn more about the school district through our monthly "Did You Know?" sections. Certainly, each of these monthly sections are fun facts, but the sections also help illustrate the scope of offerings and services that the Sun Prairie Area School District has to offer.

Remember, you have a wide range of ways to stay informed. From our website to our Facebook page, and from our Instagram feed to my monthly radio program on 103.5 WLSP-LP, you always have a way to stay connected and engaged.

Join us in our excitement for a new school year and in our best wishes to staff and students for a wonderful 2019-2020 school year.

See you soon,  
Brad

You can be a Hunger Hero by donating to the Hunger Hero Campaign. The Sun Prairie community comes together to help those in need and right now we have students in the district that are unable to pay for a meal during the school day. Research shows a clear correlation between nutrition and brain development, and hunger and the ability to concentrate and learn. Community partners have stepped up to help in a powerful way – from businesses and churches to individuals and civic groups. Your donations are tax deductible and always appreciated.

Call (608) 834-6544 or stop by the School Nutrition Office for more information.

**We are so thankful for this support!**

## DID YOU KNOW ?

Kindness Retreats are held at all nine elementary schools each year. These day-long retreats presented by Youth Frontiers, Inc., a Minneapolis-based nonprofit organization, teach 4th grade students how to treat others with kindness. Through this work and focus on kindness, we hope to help reduce bullying in our schools. School employees and community members are encouraged to include this tag in posts related to Kindness Retreats and other acts of kindness. Let us spread kindness around Sun Prairie like confetti!

Youth Apprenticeship opportunities are offered to juniors and seniors who have defined a career pathway that they are interested in pursuing after graduation. The High School collaborates with the Dane County School Consortium and the State of Wisconsin to offer this opportunity. Apprenticeships are currently available in the following areas: accounting/finance, agriculture, automotive, biotechnology, construction, engineering, information technology, manufacturing, nursing assistant, and pharmacy tech. Students spend part of their school day working in their selected career field and part of the school day at the high school. This is an amazing opportunity for students who want to get a head-start on their career!

## DID YOU KNOW?

Sun Prairie Community Schools is the name of SPASD's community schools initiative. Across the nation, the Community Schools strategy has demonstrated that when a school integrates student supports, expands learning time and opportunities, actively engages families and the community, and uses collaborative leadership practices:

- Students attend school more
- Students succeed academically
- Families, school staff, and students create a strong climate of trust

Here in Sun Prairie, we use the community schools strategy to support:

- Improving academic achievement for all students, while targeting supports especially for our students of color and economically disadvantaged students
- Increasing school attendance
- Increasing family connectedness to the school and community

We support four community schools in Sun Prairie with dedicated Community School Site Coordinators and Site Leadership Teams. Our original schools are Westside Elementary and Prairie Phoenix Academy. In 2018, we added Patrick Marsh Middle School, and in 2019 we will expand to CH Bird Elementary School. For more information find us on the district website.

## DID YOU KNOW?

SUN PRAIRIE AREA SCHOOL DISTRICT RECEIVES A REBATE FROM THE SUSTAINABLE ENERGY GROUP TOWARDS OUR ELEMENTARY SCHOOL CONSTRUCTION PROJECTS.

We use geothermal energy to harness the heat capacity of the ground to help heat and cool our buildings. The temperature of the ground stays relatively unchanged, so we absorb heat from the ground to help heat our building in the winter and then absorb heat from our building and transfer it to the ground during summer. This allows us to reduce the amount of natural gas or electricity needed for heating and electricity used for cooling. The system works by passing liquid through a system of wells drilled deep into the ground, which allows the energy transfer to happen with the earth. The liquid is then pumped into the building to air handling equipment that exchanges the energy to either heat or absorb heat from the building. As the District has built new schools they have been able to incorporate the use of geothermal energy. Currently, Sun Prairie High School, Horizon Elementary, Creekside Elementary, Token Springs Elementary and Meadow View Elementary all have geothermal systems.

Personalized learning is an approach to learning that places student learners at the center of the school experience. The environments are often flexible: desks and chairs are easily movable, and flexible furniture allows for greater student movement. In our schools today, you can expect to see aspects of personalized learning in action, whether it is through our literacy workshop model, co-taught and multi-age classrooms at the elementary schools, innovative houses at each of our middle schools, or interdisciplinary teams and bundled classes at the high school. Our focus is to build the capacity of our learners to: know how to grow as learners and people; set goals; learn from failure; and communicate their learning to others. We strive to work with students, families, and the community to provide our students with the greatest experiences to become engaged, life-long learners.
