Southeast Florida Interschool Equity and Inclusion Mission

(discussions
in progress)

The IEI group exists to help us ensure that we foster environments in which all students in our schools feel safe, valued, and cared for in the entirety of their identity. Furthermore, we aim to nurture the maximum number of students possible to be compassionate and culturally competent so that they may become agents of positive change in both their current and future communities. While our schools compete in sports and academics, when it comes to the well-being of the young people we serve, we join forces to make our efforts stronger and more effective. We do this by supporting each other as equity and inclusion practitioners and by creating events and sharing resources and expertise.
