The statement about professional dress is very important. You would need to follow this rule for our clinical visits. Below is a statement that all our speech therapy students must abide by, it is relevant to your visit:

"Statement on Professional Dress"

All students are expected to dress professionally during graded classroom presentations and clinic. Professional dress can be casual business attire such as khakis, but should not include jeans, low riding pants or short skirts. Clothing should be comfortable to allow for mobility while not allowing for exposure of skin at the waist, chest, etc. During clinic, students should make sure that shoes are non-slip and provide appropriate support. Hats should not be worn, and jewelry should not be worn that might interfere with any clinical activities.

If you have any further questions, please do not hesitate to contact me.

I look forward to meeting you,
