

The Chapel of Unity

The Chapel of Unity is the spiritual heart of the College, embodying our ideals of inclusion and diversity. It is where every First Former begins their time at Methody and where every 6th Form Leaver has their last assembly as a pupil. Opened to celebrate the centenary of the College, the Chapel now requires a 50th birthday makeover. The cost of upgrading of this building is currently estimated to be £400,000.

This project aspires to include a major restoration of the Chapel organ, a gift from Corpus Christi College. This unique instrument is used for public performances, including BBC broadcasts, by organ scholars, and for weddings and services held in the Chapel. By supporting this development you will be securing the future of the musical excellence that the College has developed a global reputation for and helping to enhance a building that captures and celebrates all that Methody stands for.
