

Open Internet Explorer and go to <https://vpn.lpsid.org> - Enter your domain login credentials that you use to log into computers while in District. Once you click Login the Cisco AnyConnect Secure Mobility Client will begin to download and install.

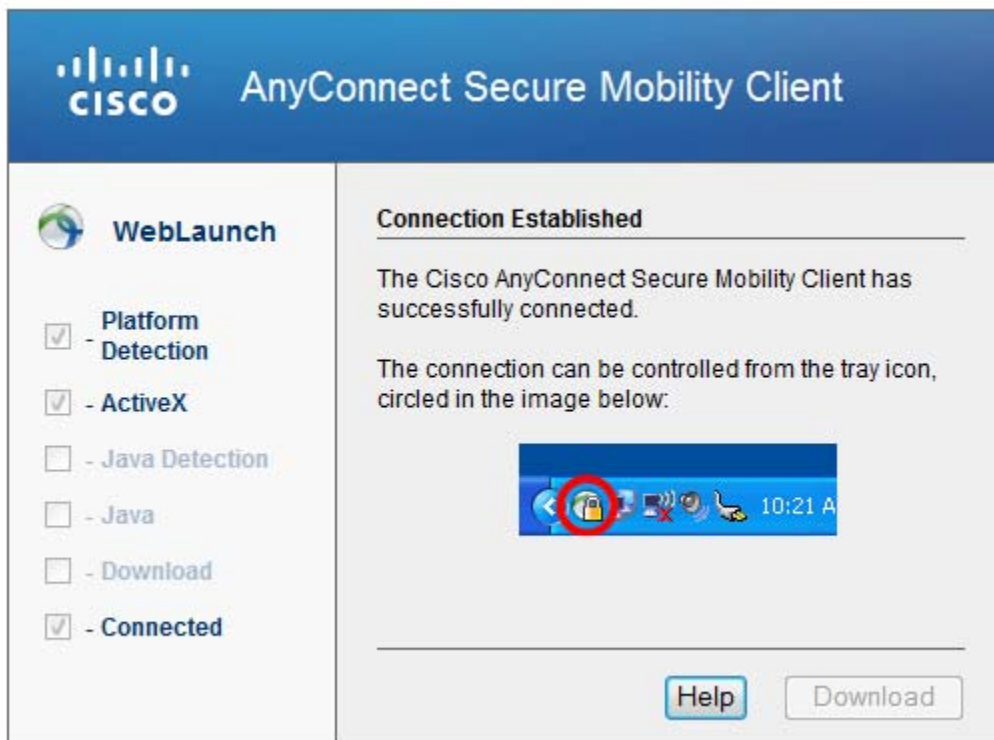

On the bottom of the screen a bar will appear stating that the client is attempting to install. Click Install

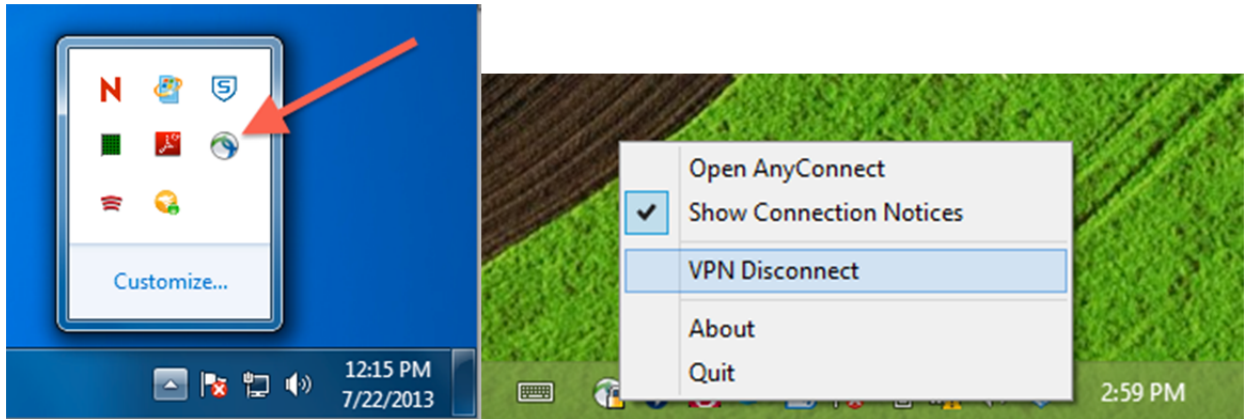

Click Install again when the Security Warning box appears.

Once the Client is installed you will see the following screen.

Once the client is installed you can right click on the AnyConnect icon in the task tray and you will get the option to Disconnect from the VPN session and Quit the Client.

To restart the client, you can go back to <https://vpn.lpsid.org> and login again or run the Cisco AnyConnect Secure Mobility Client from the Start Menu and then login directly into the client.

Once you are connected to VPN:

To access eSchool go to <https://eschool.lpsid.org/eSchoolPLUS>

To access eFinance go to <https://efpapp.lp.local/gas2.50/wa/r/plus/finplus51>
