[Summerdiscover@jpkeefehs.org](mailto:Summerdiscover@jpkeefehs.org)

Dear Parents/Guardians,

As stated on our application, and required by the Framingham Board of Health, children with food allergies may be restricted from participating in our Culinary Arts, Baking, or Pastry Making programs. Our intro campers participate in one or all of these careers.

As stated on your child's medical records he/she has a food allergy and therefore will not be able to participate in food making careers. They will rotate through our other careers which include: cosmetology, horticulture, pipe design, metals, woodworking, graphic arts, and photography.

If you and your child's pediatrician feel your child's food allergy is not severe enough to miss out on the cooking programs, and being in the kitchen will not harm your child, you and the pediatrician may sign and return the bottom of this form to the above address along with an allergy action plan.

Thank you for your understanding of this important issue.

---

Yes, I give permission for my child to participate in the cooking programs

No, I do not give permission for my child to participate in the cooking programs
