

EARLY GRADUATION

The New Hanover County Board of Education (Board) recognizes the accomplishments of their high school students through graduation. For sound educational and vocational reasons, students wishing to graduate from high school in less time than the ordinary 9-12 grade sequence may request permission to complete their graduation requirements on an accelerated schedule.

Students and parents/guardians shall consult with a school counselor to develop an early graduation plan. The student's written intention to accomplish this shall be submitted to the Assistant Superintendent of Instruction and Academic Accountability through the principal.
