

Standards Grades Report from PowerTeacher Portal

(updated 11/20/2019)

1. Click sqlReports from the PowerTeacher portal page

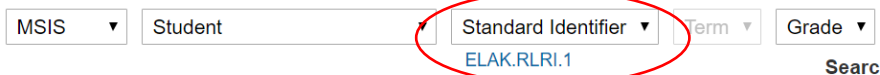

2. Click Gradebooks
3. Click Standards
sqlReports -

4. Select your Language Arts or Math class from the Section drop down menu
5. Select the correct term from the Term drop down menu (you will only want to select Q1, Q2, Q3 or Q4 here. Selecting 19-20, E1, E2, S1, S2 or Y1 will not return any data)
6. Click Submit
7. This will give you a list of students and their standards grades with the standard identifiers.

Different ways to view this report:

1. You can sort this list by student to see all standards grades for each student – click the arrows next to the Student column header
2. You can sort by standard to view all grades for one standard – click the Standard Identifier drop down menu and select a standard to view only one standard

To clear the standard click on the blue standard identifier to remove it.

3. You can keep this report open and view your gradebook by right clicking the PowerTeacher Pro link on the left and choose “Open Link in New Window” to make it easier to enter grades based on the previous quarter.
