11/7/19	Aditya Kukday	kukday@gmail.com					<p>Thanks for getting back. Really really appreciate it.</p> <p>I wanted to understand the advisory members impartiality. Can we know which of the advisory members who will be voting on the maps before they are forwarded to BSD superintendent are personally impacted by this process. What I am trying to get to is if these folks are personally impacted, then their biases will creep in their recommendations. Are these members residents of BSD areas, do they have kids in impacted elementary / middle schools?</p> <p>I opened a public records request for this info.</p> <p>Also if the advisory board members are going to be impacted, will BSD take this into consideration when reaching a decision?</p> <p>Many thanks again, Regards Aditya</p>
11/12/19	Aditya Kukday	kukday@gmail.com					<p>For the current middle school redistricting advisory committee, I would like to know if the advisory committee members have kids in elementary school or middle school and if they are going to be impacted by redistricting. This is to understand if there is going to be a bias in their voting. For example, are there any Findley parents on the advisory board who will pursue biased agenda of keeping Findley feeding to Stoller at the expense of other schools like Sato or Springville who will have to drive for more than 30 mins to go to either Five Oaks or Timberline.</p>
11/13/19	Aditya Kukday	kukday@gmail.com					<p>I see a serious conflict of interest issue here. For example, it is well known that Findley parents are lobbying extremely aggressively for Findley to be included in Stoller boundary. However, a Findley parent is in the redistricting advisory committee. So the recommendation cannot be trusted since he is personally motivated. Folks with skin in the game cannot & should not be allowed to influence the decision. The goes against the well established jurisprudence no-no of power of judge, jury and executioner residing in the same person.</p> <p>Commissioner Grotting needs to publish in advance what BSD is going to do to address this clear conflict of interest. Or else, the redistricting will not have any legitimacy or legality. Also to preclude potential mitigation's to this clear conflict of interest, please also note that there could be quid-pro-quo arrangement between advisory committee members - for example even if Stoller member is not allowed to vote on Stoller boundary, he/she could align with another board member (for example five oaks). The Five Oaks member would vote a certain way (aligned with Stoller member), and Stoller member would reciprocate when voting for Five Oaks (aligned with Five Oaks member). So not allowing members to vote for their particular middle school is not a good mitigation. The process to manage the conflict of interest has to be robust and win the trust of the residents/tax payers. Regards, Aditya</p>
11/13/2019	B. Jones	b_jones78@yahoo.com					<p>It seems that most of the proposals have unfairly and illogically targeted Springville elementary school being changed to feed into Five Oaks instead of into Stoller. All other elementary schools in this area, including Findley, are closer to Five Oaks than Springville is. It does not make sense that Springville is being targeted to feed into Five Oaks. Please create more proposals that keep Springville feeding into Stoller.</p>
11/13/2019	Florentina Perjeru	dr_perjeru@hotmail.com	Springville K-8	Stoller MS	Westview		<p>Please consider distance from neighborhoods to the new middle school if Stoler is not the option for Springville neighborhood and the impact will it have on student travel. What are the efforts taken to bring Five Oaks to same academic level as Stoller, there are significant differences in academics at all levels. We chose where to buy a house for the level of rigor Stoller brings to middle school experience, therefore, is it under consideration what the impact on families who paid high premiums on housing to attend Stoler if the middle school attendance boundary changes for Arbor Oaks community. Thank you.</p>

11/13/2019	Arta Montero	arta.pecaj@gmail.com	Rock Creek Elem	Stoller MS	Westview	These changes have huge impacts on people's lives and people typically decide to purchase a house based on the school they prefer to attend. If schools start filling beyond capacity areas added last should be removed. This way, we establish some normalcy. Else, one never knows where to settle because of school boundary changes. These changes everything and one never knows what is going to happen and when. It makes sense that Rock creek stays at Stoller. This way we move from top down as is the case now. I don't understand why do we need to focus on regrouping based on east west now and deviate from current establishment.	
11/14/19	Aditya Kukday	kukday@gmail.com				<p>Many thanks for the reply. I am really appreciative of the open communication and transparency from BSD. My public records requests are getting quickly answered, and emails immediately replied. Many thanks again.</p> <p>With regards to proof of bias, will the voting of advisory committee be public or confidential (vote of every member)? That voting will be a clear confirmation if there is bias or not. Thank you for making this part of the record.</p> <p>Thanks & regards, Aditya</p>	
11/14/2019	Linda Eld	lindaeld6556@gmail.com	Bethany Elem	Stoller MS	Westview	It is of great concern to us that boundary changes are being considered to take children from the Stoller area and move them to Five Oaks Middle school - 1. Five Oaks is not even close to the Stoller area - Stoller starts at West Union and Laidlaw on the North side of HWY 262. Stoller Middle School is within walking distance for many students. Home owners have purchased in this area specifically based upon the current schools. More children would have to be bussed. Opposed to boundary change. Linda Eld	
11/14/2019	Shilpa Nangunoori	Shilpa.nangunoori@gmail.com	Rock Creek Elem	Stoller MS	Westview	Some of the proposals suggest Rock Creek Elementary students be redirected to Five Oaks Middle School instead of the existing Stoller middle school. I vehemently oppose this proposal. It makes no sense to have kids travel to a school farther away from their neighborhood. Stoller has been serving the Rock creek students well and should be continuing to do so.	
11/14/2019	Annie Wang	Anniewang236@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset	ISB	Dear Sir/Madam, Our family has been living in the Bethany area for 15 years, and saw the development of this area from a lot of farmland and forest to currently residential area, and more houses are planned in North of Bethany area. Current Elementary school and middle school Stoller are both over crowded, and there are more new constructions and the potential for more students need to get into this school. Both the infrastructure including road, traffic, and facilities including schools, hospitals, shopping center etc. need to be put into place before building more houses. Strongly suggest to build new schools, including elementary school and middle school in the area to relieve the situation in the area. Families move here mainly for its high quality of schools and students, we call for Improved school/teacher resources in order to keep up the fast development of this area. Thank you for giving us a chance to express our opinions. Let's work together and come up with a practical and feasible plan, to accommodate the growing needs for all levels of education. With Best Regards, Annie

11/14/2019	Jianqiao Huang	huangjianqiao@gmail.com	Springville K-8	Stoller MS	Westview	new MS boundary should be decided based on distance to new MS. Findley is one of three schools closest to MS (less than 2 miles) and should be assigned to new MS. Springville has no other MS within 5 miles except stroller MS, so Springville should continue to go to Stoller.	

11/14/2019	Jan K White	Partyofsix97@hotmail.com	Findley Elem	Stoller MS	Sunset	After reviewing the maps and suggestions, it is clear that the students and families would be safest, more engaged as a community, increase parent volunteering and support if elementary schools feed into the middle school that is closest in proximity. Please consider keeping Findley and Jacob Wismer boundaries in place and feeding into Stoller. Thank you, Jan K White President Willow Creek Heights HOA
11/14/2019	Gauri Trivedi	Gauritri@gmail.com	Springville K-8	Stoller MS	Westview	BSD, Thank you for taking steps to reduce the overcrowding at Stoller middle School via the re-boundary process. Keeping in mind the district's goal of providing equal and accessible learning To students of all strata of the community, DO NOT move Springville school community out of Stoller MS. With the middle school option already being phased out of the Springville K - 8 school, Stoller is the only option Within a reasonable distance. Proposing Five Oaks as an alternative would be disastrous for the students involved looking at the commute time involved. There would be hardly any time left for students to pursue any other recreational activities or sports, which are much needed for their all Around development and health. I hope the district will keep in mind the best interests of the students in this whole process.
11/14/2019	Kaan Oguz	kaanoguzz@gmail.com	Rock Creek Elem			Hi, I wanted to express my family's position regarding the boundary change for Beaverton Middle schools. 11/14/2019	Sunil Unadkat	Neal_unadkat@hotmail.com	Sato Elem	Stoller MS	Westview	It is totally unacceptable to adjust the boundaries where students are shuffled to the inferior five oaks school from Sato, Springville and other school which are highly rated. It seems to me that BSD wants good students to under perform by shipping them to inferior schools. All Bethany area residents have paid high taxes to not deserve this. I urge all to protest this from BSD and voice the concerns.
11/14/2019	Devu Pandit	dspandit@rocketmail.com	Bonny Slope Elem	Meadow Park MS	Sunset	I find the idea of sending kids who feed into Springville Elementary School to Five Oaks absolutely ridiculous. Children who live in North Bethany should continue to stay at Stoller. Please note the comments that I have made in the first week that comments were accepted. A long time ago, I prepared a presentation that proposes what the new boundaries should look like. Anybody who is reading these comments can send me an e-mail requesting that presentation and I will try to send it to you. You can take that presentation and send it on to Steve Sparks and the boundary committee members and reference it when giving your own opinions on what the boundaries should look like.
11/14/2019	Tarek Massoud	tarek.massoud@gmail.com	Rock Creek Elem		Westview	It came to my knowledge that there is a proposal to move Rockcreek elementary school to the five oaks. As a parent to students in Rockcreek I find this proposal very inconvenient. 1. As a parent I moved to this neighborhood looking for the best schools for my kids. Rockcreek lived up to my expectations, Stoller does too but five oaks does not. 2. Home values in our neighborhood would drop which result in a financial loss for a lot of home owners. I am happy stating in Stoller or move to the new School but do not punish our kids, especially that we did our part in selecting the best schools when we chose our home.

							Dear Officer, We live in Springville school district at a walking distance from elementary school. I have two kids. We are deeply concerned by the proposals to remove Springville as a feeder school for Stoller middle school. These proposals suggest sending Springville kids to very far middle schools like Five Oaks middle school. These proposals will make the middle school commute time for my kids to be more than an hour. This will negatively impact their growth and development as it will take away time from activities that they enjoy. This will require crossing over US26 which has bad traffic in morning as well as evening times. Our kids have friends that already go to Stoller middle school and they look forward to going to the same school as well. Springville elementary has a good mix of socio-economic backgrounds (both low and high income families). This enables Springville to feed this good mix of students to Stoller MS. Any proposal to remove Springville as a feeder school will impact the mix of students in Stoller and bias it more towards high income families. Therefore, I strongly oppose any proposal to remove Springville as a feeder school to Stoller. Stoller middle school is closest to us at 2.1 miles from our house while any other school is at least 5 miles away. Thanks, Himanshu Jain
11/14/2019	Himanshu Jain	hjain81@gmail.com	Springville K-8				
11/15/2019	Albert Serkovich	Serkovich86@gmail.com	Springville K-8	Stoller MS	Westview		We need to keep Springville feeding Stoller and of Five oaks. It twice the distance!
11/15/2019	Natalya Serkovich	Natalie.khokhlov@gmail.com	Springville K-8	Stoller MS	Westview		Our currently assigned middle school - Stoller, is only 2 miles away, and it doesn't make sense for me that our kids will ride a bus over a highway for 4 miles when we practically live in the neighborhood
11/15/2019	Lynnsey Sitter	lynnseysitter@gmail.com	Findley Elem				Our kids go to Findley and we are essentially across the street from Stoller Middle School. Our oldest will start middle school next year. There have been suggestions that Findley should move to the new middle school. If that happens, instead of walking less than two-tenths of a mile to our neighborhood middle school, we'd have to drive/ride a bus over 4 miles to the new school. That certainly seems contrary to the district's policy regarding consideration of neighborhood proximity. Findley should continue to feed to Stoller.
11/15/2019	Anh Pham	Anh.pham2@nike.com	Rock Creek Elem				We'd propose 2 options, aiming to keep Rock Creek with Stoller:- Findley, Bonny slope, Cedar Mills and Terra Linda go to the new school. Springville, Sato, Jacob Wismer and Rock Creek continues to go to Stoller- Make Springville K-8, so Sato, Jacob Wismer, Rock Creek and Finley go to Stoller.
11/15/2019	Carol Anne Ben-Ari	carolcheslek@gmail.com	Rock Creek Elem	Stoller MS	Westview		Dear BSD, It is hard to express the depth of the things the Rock Creek Elementary community is feeling right now, but I'm going to try! Something that is so deeply important to us as a community IS our community! We have no community near Five Oaks Middle school, which is 3.5 miles from my family's home and so many of our neighborhood families' homes. Stoller is 1.5 miles away. Stoller is where older sisters and brothers have gone, where Rock Creek parents have been so involved in the PTO and other school programs. Stoller is part of our community, and part of the lives of former Rock Creek students, and should continue to be part of the future of our children now! Please do not push our children more than 3 miles out to a school we don't want them to attend, when a school we are so connected to is right down the road for so many of us. Thank you, Carol Ben-Ari

11/15/2019	Shruti	sonia.manoranjana@gmail.com	Jacob Wismer Elem	Stoller MS	Westview	My kids go to Jacob Wismer. And in two years one of them will be going to Stoller MS. Stoller is just next to Jacob Wismer and my kids are going to bike there. Since Kindergarten, they knew that one day they are going to a bigger school which is right across the street. Every year the Stoller buddies visit them and talk to them about how fun Stoller is. Also, Stoller has SUMA program and my kid is already targeting that. She has received 99 percentile in her cogat screening and is confident that she will get into the prestigious SUMA program of Stoller. It will be heartbreaking from them to know that they can not go to Stoller anymore because of boundary adjustments. When I told her about boundary adjustment discussion, her response was - the new communities should get a new school. It is unfair to ask us to go to a new school and let new community kids come to stoller. If a 3rd grader can understand this, I am sure we as an adult should think about this too. I strongly support Jacob Wismer kids continue going to Stoller MS.
11/15/2019	Fam Mohnen	afmemohnen@comcast.net		Stoller MS	Westview	Overcrowding in our schools and boundary adjustments seem to really stem from a lack of long-range planning on school population growth. Population growth is substantially bigger in the northwest side of 26 - and residents in this area definitely need a new middle school and high school. With removing the K-8 model, and interest of short-term to medium term concern, is it feasible to modify/ expand Springville into a middle school instead and then re-distribute the Springville K-5 into nearby existing elementary schools (Sato, Wismer, Rock Creek and Bethany)? This way we have a new middle school in the north side, since all growth is happening in the north side.
11/15/2019	Theresa Kidd	moedodgekidd@gmail.com	Rock Creek Elem	Stoller MS	Westview	I think Stoller needs to have student feed into it geographically, meaning elementary schools north of hwy 26. Also, RockCreek has more economic diversity (on the north side of hwy 26) than the other schools that feed into Stoller. This would at least even out the economic diversity for Stoller.
11/15/2019	Sameer J Ruiwale	sameer_ruiwale@yahoo.com	Findley Elem	Stoller MS	Sunset	The committee and school district needs to consider out of the box options for the boundary process. The new middle school has been built in an incorrect location and does nothing whatsoever to reduce overcrowding in Stoller MS which is already at 150% of its capacity. To top that - growth continues unabated in the North Bethany area without a middle school planned in that area. It makes no sense to penalize neighborhoods in proximity to Stoller MS and move them farther away to a different school - and not sure that will solve the problem anyway. Options such as keeping 6th thru' 8th at Springville need to be on the table - so that North Bethany growth can be funneled there and not to Stoller. In reality the school district needs a middle school in the north area -- Stoller cannot continue to be the only school around -- the sooner the district can start putting concrete plans towards this, the better it will be for the community. Thanks Sameer Ruiwale.

							My children is currently attending Springville K-8. We have been living here for 3 years living normal life until this year we heard Springville K-8 might be converting to pure elementary school and middle school boundary might be redrawn. I hope BSD would seriously consider not to disrupt us with 2 bad news at the same time. Many folks who live in my neighborhood stretched their economic burden to the limits to move here based on proximity of school and quality of school district. Our growing community is very healthy and diverse and we contribute more property tax to fund BSD than other communities in exchange for quality education you promised us with the existing school boundary. The move from Springville K-8 (less than 1km) to Stoller (3km) is still fair, but definitely unacceptable to move us to Five Oaks (>10km) in any proposals. My children after school activity will be ruined and crossing Hwy-26 in peak traffic hours is unsafe if they miss the school bus. Also no one in my neighborhood in their right mind would have thought a new middle school Timberland built 10km away would ever disrupt our school feeder pattern and daily life. I urge you to seriously consider our concerns and refrain from any unfair and imprudent middle school adjustment. Also to be fair to general public, you really need to invest and promise and ensure the Timberland NMS will be great. I also urge BSD to seriously consider making and calling the NMS the Stoller Branch School and offer Summa at both locations and offer NMS to all current Stoller feeder schools so we are all treated equally without discrimination.
11/15/2019	David Lee	rallart_kei@hotmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	
11/15/2019	Alden Eld	eldalden@gmail.com	Rock Creek Elem	Stoller MS	Westview		Moving Stoller Elementary students to 5 Oaks is not logical. All students would have to be bussed which would be illogical and expensive.
11/15/2019	PEI-LING HU	peiling_hu@yahoo.com	Sato Elem	Stoller MS	Westview	ISB	We live in North Bethany and I have a fifth grader at Sato ES. I don't see any other options but for the Sato kids to attend Stoller MS. We are also considering ISB. If we are lucky and get into ISB, WE WILL MOVE simply because the distance(close to 8 miles) is too difficult to manage. Please consider the proximity of the schools when drawing the boundary.
11/15/2019	SUDDHASHIL CHATTOPADHYA	beji123@gmail.com	Rock Creek Elem	Stoller MS	Westview		Most logical solution would be to move Cedar Mills/Bonny Slope/Terra Linda and Findley go to the new MS (Timberline). The second MS coming up north of US-26 can absorb the rest of the growth in the upcoming years.
11/15/2019	Lisa Renee Bradburn	lisa@gorealtorgroup.com	Rock Creek Elem	Stoller MS	Westview		My preference for our Stoller Farms Subdivision of approx. 250 homes between phase 1 & 2, is that our neighborhood stay within it's namesake middle school - Stoller Middle School. We are only approx. a mile from the school, and the Stoller Family still lives here, and they still own as a family multiple properties (4 tax lots in Stoller Farms subdivision specifically). It seems disjointed to move families out of the school that is so closely associated with the heritage of the Stoller family and this community. As a Realtor I am also concerned about the repercussions of negative home value impacts to this neighborhood if this change for our neighborhood were to occur.

							<p>First - thank you so much for all the work you are doing. It is not a job I envy! With priority to decreasing overcrowding at Stoller while maintaining communities, I believe that Stoller should be comprised of: Jacob Wismer - since Stoller is within the JW boundary Sato - since at least half of Sato can walk to Stoller Springville - since it is a "sister school" to Sato and a large part of the Bethany and North Bethany community Walkable portion of Findley that is directly south of Stoller With the large amount of growth in North Bethany, these schools would likely fill the 90% capacity suggested for Stoller while also providing growth to fill the school in the upcoming years. Also, since overcrowding is a main issue, the SUMMA program needs to be moved out of Stoller so that neighborhood kids can attend their neighborhood school. Depending on school numbers, the Timberland school should be comprised of: Cedar Mill - Timberland is within this boundary Bonny Slope Terra Linda The rest of Findley (if it is split) Also depending on numbers, either Oak Hills or West TV could be added to Timberland and Rock Creek - Bethany could be moved to Five Oaks. I think decreasing the amount of travel time above/below 26 should be a priority, if numbers allow, because of traffic flow and increased time on buses. Additionally, walkability should be a priority, especially for a school such as Sato. If Sato students are moved to a different middle school, they will have NO school (elementary, middle, or high) to which they can walk. It would also be an unreasonable amount of change for current 5th graders at Sato. They already had to move to a new elementary in 3rd grade. Moving to Stoller for 5th, then a different middle school for 6th and 7th, and then again to a high school in 9th does not provide them any sense of stability and also divides their community even further. Thank you.</p>
11/15/2019	April Powers	POWERS.VMD@GMAIL.COM	Sato Elem				
01/25/1978	Graham Taylor	grahamjt@yahoo.com	Rock Creek Elem	Stoller MS			<p>Keep Rock Creek students going to Stoller. It's our community! Crossing the freeway for Five Oaks or going to the new Middle School are not community options.</p>
11/15/2019	Sharon	Didimore3@yahoo.com.tw	Springville K-8				<p>For the relief of the student number at Stoller middle school, one suggestion is that the elementary at the outer edge use the natural boundary to draw. For Findley, use Bronson Creek as the boundary, northern part feed to Stoller, southern goes to other MS. For Rock Creek, use West Union road as the boundary, northern part feed to Stoller. Both school share the portion to relief the overcrowded Stoller is more reasonable. Have to do as minimum change as possible, otherwise for all those years these residents paying high property tax for Stoller and suddenly force to change to another totally different rating school is just unacceptable and unfair.</p>
11/16/2019	Priya	swapriya@gmail.com	Springville K-8	Stoller MS	Westview		<p>Dear MS Boundary Team, I have gone through the maps and proposals about the boundary changes. As a parent my concern is kids traveling long hours to reach middle school will be a big impact on their curriculum. Kids cannot take after school activities and also too much strain for them to travel morning and evening. Stoller is the closest middle school for us. Five oaks is more than 5 miles. Very few Findley families are closer to stroller and many are closer to Timberland and Five oaks. If this change is really for the benefit of the students and community then springville should be continued with Stroller or Middle school in Springville should be continued. We totally disagree With Springville moving to Five oaks and traveling long hours in school bus. It is very risky for kids during bad weather days etc.</p>
11/16/2019	Dmitry	MEHANIK@GMAIL.COM	Rock Creek Elem				<p>Honorable committee members, I believe it is the standpoint of majority of rock creek elementary parents, that a boundary change for our school to attend five oaks MS is impactful both to our children and to our home values. If I wanted less of my children education, I would not invest in a higher value property in Bethany and will go to live in other neighborhoods. Now it seems like we are being punished for no reason. I would like the committee to reconsider and roll back their decision on rock creek elementary and leave the boundaries for this school in place to attend stoller MS. Thank you, Dmitry</p>

11/16/2019	Devu Pandit	dspandit@rocketmail.com	Bonny Slope Elem	Meadow Park MS	Sunset	<p>Hello there, My apologies for repeated and long comments but after studying this issue more closely, I realize the main issue with the boundary plan I proposed in comments on 10/24 and have created a presentation around as well. Moving the Rock Creek kids to Meadow Park and the Findley kids that are south of Bronson Creek or Ward Creek and east of NW 130th to Timberland likely does not sufficiently 'deplete' Stoller. However, I still think moving ALL Springville kids, a majority of whom live east of PCC and north of Springville road to Five Oaks is NOT the answer. Among other issues, it is too far for most Springville families. I feel the proposal I made is still good but I would add the following:- Feed the Springville kids that are west of PCC and southwest of PCC to Meadow Park. This is a small portion of the Springville population so a majority of the families will still remain content by staying at Stoller.- Feed the Sato kids that are south of Laidlaw to Meadow Park.- Feed the Jacob Wismer kids only south of Laidlaw or south of Kaiser to Meadow Park. It is unfortunate that Springville, Sato, and Jacob Wismer have to be split up like this. But this is a much better option than taking kids who live east of Springville all the way to Five Oaks. In Summary: Old Stoller: Findley, Jacob Wismer, Rock Creek, Sato, and Springville New Stoller: Approximately 1/3 of Findley, most of Jacob Wismer, most of Sato, and Springville Old Meadow Park: Barnes, portion of William Walker, Oak Hills, Bethany New Meadow Park: portion of Barnes, Oak Hills, Bethany, Rock Creek, portion of Springville, portion of Sato, portion of Jacob Wismer All other changes mentioned in my 10/24 comments and the presentation I have referred to apply. Thanks!</p>
11/16/2019	Ehud Ben-Ari	ehud.ben-ari@intel.com	Rock Creek Elem	Stoller MS	Westview	<p>We are shocked by efforts to push Rock Creek children out of our neighborhood school, Stoller, to bus our children out to a school over 3 miles away that we have no connection to and do not want our children to attend! Our children want to attend the school our community has a past, present, and should have a future with, their neighborhood school, Stoller!</p>
11/16/2019	Urmila	Urmidinu@yahoo.com	Findley Elem	Stoller MS	Sunset	<p>Findley should feed into Stoller due to the proximity.</p>
11/16/2019	Khayer	bappit095@yahoo.com	Findley Elem			<p>My elder son goes to Findley Elementary, and our closest MS is Stoller. Our recommendation is to keep Stoller as the MS for our Findley community for the convenience of the kids commute, etc. It should be a general rule to have communities attached to schools in terms of how close it is to the school.</p>
11/16/2019	Dinesh Nasarpuri	dnasarpuri@yahoo.com	Findley Elem	Stoller MS	Sunset	<p>We are in Findley Heights stay north of Stoller and less than a mile from Stoller. When the new boundaries are made, it should be based on closest proximity. This saves Kid's daily commute and help focus their energies on academics and other activities. The Findley ES. area is also stable School with not lot of growth. If the goal is to reduce overcrowding in future years, we should retain Findley School in Stoller. Findley E.S. is 1.2 miles from Stoller and there are Findley kids within 5 mins walking distance from Stoller.</p>
11/16/2019	Alekya pedapudi	Apedapudi@gmail.com	Findley Elem	Stoller MS	Sunset	<p>Findley is closer to Stoller compared to Springville. Since the school recommendations are based on distance, I strongly urge BSD committee to keep Findley in Stoller</p>
11/16/2019	Curie Kalagara	q4curie@gmail.com	Findley Elem	Stoller MS	Sunset	<p>ISB</p> <p>The tool does NOT have the option of selecting the option to continue with Stoller. Stoller is 1 mile from our community and moving the kids to a different school that is further away is not in the best interest and creates uncertainty if distance is NOT considered as a primary factor in the analysis. Considering just qualitative inputs/opinions is like a wish list consideration of the individuals that are NOT happy with their current school and trying to get into Stoller. There should be more quantitative evidence based decision in boundary adjustment with distance to school given key consideration.</p>

11/16/2019	Kaustubh S. Gadre	ksgadre@gmail.com	Rock Creek Elem	Stoller MS	Westview	<p>Hello, Thank you for considering needs for students to be appropriately assigned to schools from elementary to Middle. I understand its very passionate, contentious and heated subject for lot of localities who made their decisions to invest in particular area knowing existing school boundaries. I would like to know last 5 yrs of in flow into particular middle school from different seed schools and projections for next 5 years. That would make my understanding of proposed changes to existing boundary well balanced and appropriate. As a parent whose one kid is in middle school and one in elementary, I would like to have opportunity given to family to choose same middle school as siblings attending if family choose to do so. Regards, Kaustubh</p>
11/16/2019	Sudha Venkat	Sunivi@gmail.com				<p>Please look at this https://pdxscholar.library.pdx.edu/enrollmentforecasts/134/Maximum growth in Sato and Springville schools from 2014-2018. If Stoller wants to control overcrowding they should not include areas that are growing rapidly.</p>
11/16/2019	Sohana khayer	Sohanab20@yahoo.com	Findley Elem	Stoller MS	Sunset	<p>We live 0.8 miles from Stoller middle school. My son is now fifth grade. We always talk about stroller middle school. Heard that some people are talking about bringing new communities to stroller middle school and get findley kids out from stroller middle school. To me it[?]s super wired!!! Why bring new communities????? And replace existing communities?????We don't want to rearrange middle school boundary.</p>
11/16/2019	Yun	Liyun@gmail.com				<p>Maybe BSD needs to have students attend Stoller according to the distance they reside like within 2 mile radius. And be fair to all.</p>
11/16/2019	Girish	Giyah@yahoo.com	Findley Elem	Stoller MS		<p>Findley is established school for Stoller, why should we have to change if new developments are coming in please have them go to new school.</p>
11/16/2019	Bharti	Bharathi.sabapathy@gmail.co	Findley Elem	Stoller MS	Sunset	<p>Requesting The boundary changes proposed for stoller middle school to include Findley elementary school as well since this is closest to findley school than other proposed middle school</p>
11/17/2019	Chung-Han Lin	chunghan.lin@gmail.com	Rock Creek Elem			<p>It is not fair to move Rock Creek student to attend to Five oak. Most of the proposal on the table is to re-direct five different schools of student to accommodate the change/growing of the new area. This is unreasonable. My recommendation is to move students from the new growing area to new school. While at the same time either build a new middle school or remodel a K-5 school to K-8. The change of the student attendance boundaries only can contain the issue for a period of time. This issue will come back again when more new developments happen in the north bethany area. The new development will need new schools for the future.</p>
11/17/2019	Tracy Shaw	seneca932@gmail.com			Westview	<p>Dear Committee Members, thank you for taking on this difficult challenge. I would like to echo what many other parents have said in regards to urging you to consider the distance from the actual neighborhoods to the proposed schools. Our traffic in the Bethany area has become extremely congested over the past couple of years and this congestion adds quite a bit of time to our commutes to and from our schools. Please consider this fact the MOST, because adding more commute time to bussing our students even further away from their neighborhoods puts student safety and mobility at risk. We live in the Stoller Farms subdivision, which is NORTH of West Union - only 1.7 miles from Stoller M.S. As it stands now, students in our neighborhood do not arrive home by bus until approximately 4:15 pm. If we were being bused from Five Oaks M.S., students would not be arriving to our neighborhood until MUCH later due to the heavy traffic at that time and distance traveled from Five Oaks, and would likely add significant costs to bus transportation. Additionally, having students arrive home so late would make after-school activities most difficult. It doesn't make sense to move Rock Creek Elementary students to Five Oaks, when you consider the locations of the neighborhoods that actually feed into Rock Creek E.S. Please consider the enrollment numbers that feed into Rock Creek E.S. who reside in neighborhoods that are located NORTH of West Union and not south of West Union. On the map, our neighborhoods may look insignificant, but I assure you, Rock Creek E.S. has large enrollment numbers of students who live NORTH of West Union. The neighborhoods that feed into Bethany E.S. and Oak Hills E.S. are actually closer in proximity to Five Oaks M.S., than the neighborhoods that feed into Rock Creek E.S. It further doesn't make sense to move students who reside in the Springville neighborhoods to Five Oaks, since they are even further NORTH of West Union. Plus, I have empathy for Springville, since they are losing their 6-8 middle school option; I also want to echo what other parents have stated with regard to keeping schools in tact for feeders, rather than splitting schools into feeders, if at all possible. Since, part of the problem that you are trying to fix is the overcrowding issues at Stoller M.S., why not consider moving the southeastern most elementary school that feeds into Stoller, which is Findley E.S. to Timberland MS? If the enrollment figures are correct that are on the bottom of each school's homepage, Findley's enrollment numbers are at 701. Removing that high number of students out of Stoller M.S. would certainly help alleviate the overcrowding issues at Stoller. Findley feeds into Sunset H.S. anyways, and this would help maintain Stoller feeding into Westview, rather than having it split into Westview and Sunset. It is unfortunate, that the beautiful new middle school - Timberland - is located so far south of our overcrowded Bethany area. It would have made more sense to build a middle school on the north side to alleviate our overcrowding issues. Lastly, please also consider IB learner profile schools when considering feeding. I realize that both PYP and MYP were cut this year due to budget constraints, but hopefully that is a temporary situation. I would hope that when considering middle schools that are of approximately equal distance from neighborhoods, you could also consider having PYP elementary schools feeding into MYP middle schools to keep consistency. Thank you for your time and attention to this matter.</p>

11/17/2019	Bob K	Bhavik.kanabar@gmail.com	Findley Elem			FINDLEY ELEMENTARY STUDENTS SHOULD FEED INTO STOLLER MIDDLE SCHOOL: Findley and Stoller are walking distance from each other, so no matter what boundary conditions the Beaverton School district considers, FINDLEY ELEMENTARY STUDENTS SHOULD FEED INTO STOLLER MIDDLE SCHOOL. The overcrowded situation in Stoller has happened due to additional students coming from Springville and Sato due to the new construction/development and thus Springville and Sato should feed into Five Oaks middle school and that should take care of the overcrowding.
11/17/2019	Deepak Selvanathan	dselvanathan@gmail.com	Findley Elem	Stoller MS	Sunset	Stoller MS is about 1.2miles away from Findley ES and a recent THPRD extension of the trail from Saltzman to Laidlaw provides safe pedestrian/bicycle access to Stoller MS for all kids living in and around Findley ES. Also the growth of Findley ES is limited to about 600 kids as there is no further housing development around the area. Thereby the influx of Findley ES students into Stoller MS is approximately a fixed number. On the contrary, Springville ES is in a growth zone with further expansion planned and the present overcrowding of Stoller MS is primary due to the influx of students from the Springville neighbourhood. The Findley and Jacob-Wismer are the closest neighbourhood ES around Stoller MS and they are the ones that should be feeding in students into Stoller MS. Proximity of Stoller to the Findley neighbourhood and a history of Findley ES students attending the Stoller MS is a strong reason to NOT remove Findley ES from the current school boundary. Our eldest son went to Stoller MS and it is not correct to ask my younger one to move to a different MS. We had infact moved into the Findley neighbourhood so that my elder son could attend the Stoller MS. Springville Option school was a K-8 school and now it is being changed to an K-5 ES. This is a poor planning on the BSD administration to not have the foresight to build a new MS for the Springville neighbourhood. To remove Findley ES from this school boundary is ridiculous as we are not the cause for the current overcrowding issue at Stoller and it is grossly unjust for our kids to be asked to move out of Stoller MS to enable Springville K-8 school kids to attend Stoller MS.
11/17/2019	Pavounambigai Kanagavally	pavouna@yahoo.com	Findley Elem	Stoller MS	Sunset	My son is looking forward to go to Stoller MS like his elder brother and it is not correct to ask him to move to a different MS on account of Springville K-8 school being converted into a ES. Stoller MS is our neighbourhood MS and there is a safe pedestrian and bicycle access for all kids in the Findley neighbourhood with the construction of the THPRD trail behind the Evergreen Fire Station. Our neighbourhood kids are all planning to bike to Stoller MS and to ask them to be bused to a different MS is not right. There is a limited number of new construction of houses around the Findley neighbourhood to cause any increase in the influx of students from Findley ES to Stoller MS unlike the Springville neighbourhood which is a growth zone for the city. Proximity of Stoller MS to the Findley neighbourhood should be the main reason why Findley ES should continue to be the feeder school for Stoller MS.
11/17/2019	Pavan Akkisetty	avspavan@gmail.com	Findley Elem	Stoller MS	Sunset	Request to have findley continue to feed into stoller. Reasons:1. Distance - stoller is the closest middle school for my kids. Planning for after school activities gets difficult, if middle school is changed from stoller 2. Findley school zone is stable and not growing, if middle school boundary change for stoller is to reduce its enrollment, it is sensible to remove either fully or partially the elementary schools that are growing - findley is not such a school. As BSD wants a long term solution, Stoller should be planned to not have more than 1 growing feeder elementary.
11/17/2019	Akm Ahsan	Arifahsan74@gmail.com	Findley Elem	Stoller MS	Sunset	We think and suggest Finley ES feeds into Stoller MSThank you
11/17/2019	S M Sarif Masud	sasmusbd@yahoo.com	Findley Elem	Stoller MS	Sunset	Findley Elementary should continue feeding students to Stoller Middle as it is in proximity, ~1.25 miles away. Parents can easily commute to school and kids can also walk home in some parts using sidewalk.

11/17/2019	Deepak Khunteta	deepak_khunteta@hotmail.com	Findley Elem	Stoller MS	Sunset	ISB	BSD should take long term view of solving the problem. If BSD is trying to solve the problem of Stoller getting over crowded that will not be solved by moving Findley out of Stoller and adding new communities like Springville feed to Stoller. Springville area is seeing lot of constructions and will continue to have more students and will result into same problem in couple of years. I believe Stoller can take feed from Findley, Jacob Wismer and Sato. Since there is not a lot of constructions happening in this Findley neighborhood it will make sure Stoller does not see over crowding problem in coming years
11/17/2019	Hari prasad	Hari.prasad@nike.com	Sato Elem	Stoller MS	Westview	ISB	Students go to the closest middle school by walk/bike and stoller is the closest less than 2 miles from Sato .pls consider Sato with stoller .
11/17/2019	Rekha	Rekhunai@infotech.com	Findley Elem	Stoller MS	Sunset		Findley should stay with Stoller. If we are looking at growth throughout the region Findley area does not have that much growth in coming years as compared to Sato and Springville. If BSD really wants to plan for the present as well as the future , the areas that are developing can't afford to feed into Stoller. They need to be removed to not have overcrowding at Stoller.
11/17/2019	Vindhya Jain	Vinds6734@gmail.com					All this problem is caused as Springville k-8 is going to stop having 6-8 grades eventually. I propose since this problem is coz of Springville .. they all should feed to the new school and since they have so many new developments it makes sense that they all feed to the new school then there should be no problem of overcrowding and no other school boundaries will be disrupted .
11/17/2019	Ravi Bella	ravi.bella@gmail.com	Findley Elem	Stoller MS	Sunset	ISB	Many families moved to Findley Neighborhood because of the schools. It's not fair to bus Findley kids to far away school from the one that's closer to their houses. Please reconsider the decision and keep Findley Kids at Stroller Middle School. Thanks!
11/17/2019	Ravi Bella	ravi.bella@gmail.com	Findley Elem	Stoller MS	Sunset	ISB	Many families moved to Findley Neighborhood because of the schools. It's not fair to bus Findley kids to far away school from the one that's closer to their houses. Please reconsider the decision and keep Findley Kids at Stroller Middle School. Thanks!
11/17/2019	Leela	Leelu_123@yahoo.com	Findley Elem	Stoller MS	Sunset		I strongly suggest that findley elementary should feed into Stoller because of Proximity to Stoller(1.2 miles) and not much new developments compared to springville. Springville & Sato are expected to grow larger in size due to many new constructions around that area which would again make Stoller overcrowded. Lee
11/17/2019	Kiran Patil	Kiran.a.patil@gmail.com	Findley Elem				Please decide school boundaries based on close proximity of the school to minimize cost if transportation and to avoid traffic problem. Likewise also not allow newer development as part of current school boundaries. This is the rule followed by Findley where if house was built beyond certain years, they won't allow even if other homes in same community are part of Findley. One more option is instead of changing existing school such as Findley, Jacob wismer: do not allow newer school (sato elementary, Springville) to be part of stroller middle school. Also please do not remove summa program from stroller middle school.
11/17/2019	Karunakara Kotary	karukotary@gmail.com	Sato Elem	Stoller MS	Westview		Please continue to keep Sato elementary with Stoller middle school. Reasons are it's 1.2 miles from home i.e. less travel for kids, it's ideal for my daughter as her brother & many other friends studying there will mentor her.
11/17/2019	Song sun	Songsun17@gmail.com	Findley Elem	Stoller MS	Sunset		Hello we think Springville needs to have its MS
11/17/2019	Sachin	Sachinvaya@yahoo.co.in	Findley Elem	Stoller MS	Westview		Findley school is 1 mile away from Stoller, have a decreasing enrollment going through 2028. Sato and Springville are both farther and are growing schools. If we are trying to solve the overcrowding issue at Stoller, we should either build a new middle school or have springville feed to Five Oaks.
11/17/2019	Ana Koveich	Kimju25@yahoo.com	Findley Elem	Stoller MS	Sunset		Findley should continue to go with Stoller.

11/17/2019	Manny	Hunaman78@gmail.com	Findley Elem	Stoller MS	Sunset		Why should all the schools suffer and kids have to be tortured and put through all this shuffling and reassigning boundaries if Springville is going so rapidly and so many developments are popping up. Why don't all of them get moved to the new middle school. When we bought our homes and compared Findley and Springville we were told by all realtors that the prices are high around Findley due to the schools, if Findley moved out of the current school selections my home values are going to drop significantly. I can't afford for that to happen and will be under water situation, BSD has to think about all this before they make the decision to impact not only the kids life but also other people's life.
11/17/2019	Rupali	Guddirup@gmail.com	Findley Elem	Stoller MS	Sunset	ACMA	Findley elementary is one of the oldest school that feeds to Stoller MS. Please be considerate in moving us (Findley community) out of Stoller boundary. The reason we have been living in this neighborhood is that my 3 kids can go to Stoller for middle school.
11/17/2019	Srikanth kamiseti	Kamisettis@gmail.com	Sato Elem	Stoller MS	Westview	ACMA	Schools
11/17/2019	Sridhar Krishnamurthy	sridhark72@yahoo.com	Sato Elem	Stoller MS	Westview	ISB	Would request to keep Sato elementary school within Stoller MS.RegardsSridhar
11/01/2019	Arijit Banerjee	arijit.banerjee@gmail.com	Sato Elem	Stoller MS			Please keep SATO ES in Stroller MS. Only reason we bought our house in the Sato's range so our child can go to Stroller MS.
11/17/2019	Anwasha Basu	anweshab2002@gmail.com	Findley Elem	Stoller MS	Sunset		We would like to feed our kids into Stoller MS from Findley Elem because of its good reputation. We bought our house keeping the school district in mind and this change of school boundary would affect the academic plan for our kids as well house pricing. Regards,Anwasha
11/17/2019	Giribabu Ponnaganti	giri.ponnaganti@gmail.com	Sato Elem	Stoller MS	Westview		In my opinion students must enjoy going to school. Students should go to a nearby middle school which saves children's precious time and also avoids growing traffic for longer periods of time. I have 2 kids, 3rd grader and kindergartner goes to Sato ES now.Stoller middle school is closest MS from our bethany creek falls neighborhood and also for most of the Sato ES boundary.THPRD is also planning to build trail in our neighborhood which directly connects to Stoller MS. Which makes Stoller MS is only 1.2 miles from our neighborhood. So kids can enjoy safer bike rides to school even without going on roads. http://www.thprd.org/parks-in-progress/bethany-creek-trail/ For these reasons I suggest Sato ES should feed to Stoller MS. I also suggest to keep ES together to feed one MS.
11/17/2019	MUTHU KUMAR	km7kumar@gmail.com	Findley Elem	Stoller MS	Sunset		We like to remain the same school boundary.
11/17/2019	Tony Bennett	haikyo@hotmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	It's illogical and uneconomical with safety concerns to have Springville area residents to be bussed across hwy26 to five oaks middle school 20+ minutes away.
11/17/2019	Somnath Paul	appusom@gmail.com	Findley Elem	Stoller MS	Sunset		Changing the middle school for Findley will lead to unwanted changes to house prices in Findley area and jeopardise the academic plan for the students who moved into this area. Families moved into this area not only for Findley but also for Stoller. Springville is a growing neighborhood and would benefit from a dedicated primary and secondary school. New residents in Springville mostly have their kids going to K8. A new secondary school in that area will create a well suited pipeline with K8. By planning a new secondary for Springville, both Findley and Springville students would also be relieved from commute troubles. Aside from Springville, the rest of Stoller's crowd is not increasing. It is therefore my request not to disturb the present arrangement between Findley and Stoller.
11/17/2019	Karthik Subramanian	Kar.subram@gmail.com	Findley Elem	Stoller MS	Sunset		I strongly support Findley Elementary school feeding into Stoller Middle School.Thanks!

11/17/2019	Sandeep Patil	patil.sandeep7@gmail.com	Findley Elem	Stoller MS	Sunset		Any school map redrawing is a process that needs a holistic evaluation and historic area development and preference along with fairness to the process. Considering that Findley school was the first elementary school and Jacob Wismer followed by other schools were started after to support growing population, it is imperative to atleast keep Findley elementary associated with Stoller area based on proximity and history of school development.
11/17/2019	Michael Jugo	mjugo@gmail.com	Findley Elem	Stoller MS	Sunset		We literally live right across the street from Stoller MS within the Findley ES attendance area and find it utterly illogical that there might be the possibility that our children would be prohibited from attending Stoller given our proximity. I think it is shortsighted to extract neighborhood attendance areas (in this case Findley from Stoller) that literally border on the school in question. Such actions further hasten the demise of the sense of cohesion that is so essential to creating a sense of community in a neighborhood school. I strongly suggest that Findley ES, given its immediate contiguous relationship to Stoller MS, remain firmly within the Stoller MS attendance area.
11/17/2019	Erick Madrigal	erickmadrigal@gmail.com	Findley Elem	Stoller MS	Sunset		Stoller is the closest middle school to Findley. And Findley is closer to Stoller vs. Springville, Sato and Rock Creek, which should be moved to other MS where the capacity is. Findley should stay together and feed Stoller. There is no reason to split the school zone and sending half the kids away from their friends to a MS that is located +4 miles away, particularly for our family that lives less than 1 mile away from Stoller (2 minutes drive). Additionally, the projected student numbers from Findley are even and stable due to limited housing development in our zone. The prices in our houses will be significantly affected. We bought a house in this area, and paid a higher price, because of the school combination which included Stoller. Please consider these points as the decision is made. Impact on our local neighborhood and community will be material.
11/17/2019	Grettel Mora-Herra	gmherra@gmail.com	Findley Elem	Stoller MS	Sunset	ISB	I believe Findley Elementary School should continue to feed into Stoller, it is by far the closest middle school to all neighborhoods that feed into Findley. It does not make sense to split the Findley population either, besides the increment in the population from Findley should be minimal since it is a quite small zone which is pretty much all developed already. Additionally, this will have an impact in the real state market for our properties, since we paid a higher price due to the combination of schools assigned which included Stoller. Because of the proximity of all neighborhoods feeding Findley, this school should not have been even considered for the new boundaries definition. I hope our feedback will be taken into account. Thanks
11/17/2019	Kshipra Bopardikar	kshipraj@msn.com	Findley Elem	Stoller MS	Sunset		We live so close to Stoller that we do not even have school bus route. My son is at Findley and yet we have to justify why Stoller should be our middle school. I would like Stoller to be our middle school.
11/17/2019	Yadi Zheng	yadizheng@gmail.com	Rock Creek Elem				I definitely disagree to move to Five Oaks middle school. I live closer to Stoller, why should my kid go to a far middle school with worse reputation? That's ridiculous! What we need is to build a new middle school in NW area.

11/17/2019	Rajneesh Chowdhury	rajneeshc@gmail.com	Findley Elem	Stoller MS	Sunset		<p>Hello, being the parent of a 5th grader who is attending Stoller next year, I would like to weigh in on the proposed MS boundary discussion. Middle school boundary should be based on closest distance from child's current elementary school to prevent hardship of long commute for the kids. Given this, Findley ES should continue to feed to Stoller. I see from public commenting that some folks are proposing moving Findley out of Stoller to the new MS in order to accommodate new construction in North Bethany. This is ridiculous IMO. Stoller is much closer (~1.2 miles) to Findley neighborhood than the north Bethany neighborhood (> 2 miles). Findley ES and neighborhood has been feeding into the Stoller MS for several years and there isn't a lot of new construction happening in the Findley ES neighborhood. Proposing to move an older neighborhood out of the Stoller boundary to make room for newer construction in a neighborhood farther away is absurd. Besides, Findley ES neighborhood will have limited growth in housing unlike North Bethany in future and hence moving Findley out of Stoller is not a long term solution to the overcrowding in Stoller. Please keep Findley ES in the Stoller MS boundary and may I propose to convert Springville back to K-8.</p>
11/17/2019	Aditya Kapoor	kapooraditya@gmail.com	Findley Elem	Stoller MS	Sunset		<p>I want to suggest that we keep Findley students attend the Stoller middle school. For Nirth bethany there should be a newer middle school or Springville k-8 can be reinstated.</p>
11/17/2019	Vikram Vemulapalli	vikramv@yahoo.com	Findley Elem	Stoller MS	Sunset		<p>Hello We strongly urge not make any change to Findley Elementary school feeding into Stoller Middle school. Findley kids going to Stoller are within about 0 -1.2miles of the middle school and this should be absolutely considered in any boundary adjustment. Several kids walk to Stoller school. Findley has been a feeder school to Stoller for a long time as the local neighborhood elementary school. As new growth and urban growth boundary adjustments are done, we should please keep in mind that proximity is given utmost importance which has been one of the basic principles for BSD for a long time. Solutions for new developments should be found without disturbing the local families who are in such close proximity to Stoller Middle school.</p>
11/17/2019	Elizabeth Johnson	Elizkeenan@gmail.com	Rock Creek Elem	Stoller MS	Westview		<p>Our students are in dire need of a middle school North of hwy 26. Stoller is so crowded and the growth in Bethany Alone is going to intensify this situation. instead of building a new school would the district consider using a structure like Sunset Presbyterian Church on Cornell blvd for a middle school? The church is quiet M-F- there is a gym and a cafeteria and classrooms already! The church could be in session on Sunday- and our middle schoolers would get a place to call home! The parking lot is huge enough to put portables if need be-This is an urgent situation. the district does not have the time to wait to build a whole new building. We must think out of the box- I Our kids are worth it.</p>
11/17/2019	Ramachandra Munagala	chandra.munagala@gmail.com	Sato Elem	Stoller MS	Westview	Springville K-8	<p>Please keep SATO ES in Stroller MS.</p>
11/18/2019	Ram Gran	Rgran2020@gmail.com	Findley Elem	Stoller MS	Sunset	ISB	<p>Please do not move Findley students from stoller to other school or else it is going to be a MAJOR mistake in districts history!! Thanks</p>
11/18/2019	Alireza Nasiri	dr.nasiri@gmail.com	Findley Elem	Stoller MS	Sunset		<p>My first child went to Stoller MS. Her sister heard so much about it and wishes to go there too.</p>
11/18/2019	Mary Taylor	mtaylor26440@gmail.com	Findley Elem	Stoller MS	Sunset		<p>Please keep Findley with Stoller Middle School. It doesn't make sense to bus them further. Thank you!</p>

11/18/2019	Melissa Tom	melissatom45@gmail.com	Findley Elem	Stoller MS	Sunset		I would ask that BSD take into consideration the sense of community that currently exists at Stoller as students either live in the immediate vicinity of the school and can walk together to school or have existing friendships through Findley. Middle school years are challenging emotionally and students will benefit from stable friendships from elementary to middle school. To minimize transport time, busing expenditures and automobile pollution, any students in walking distance to Stoller should attend Stoller. With the Stoller already the most crowded middle school in BSD, redirecting more students to Stoller is unsafe and deteriorates teacher effectiveness and student learning.
11/18/2019	Rachel True	forevermrtrue@gmail.com	Springville K-8	Stoller MS	Westview		We recently moved into the North Bethany area and were drawn by the schools. My children attend Springville and I would like them to continue into Stoller. Stoller is closer to our house, making it easier for the kids to get to school. It's also closer to after school activities that they attend in this area. Providing buses from this area to Five Oaks or other middle schools would be impractical. Please keep Springville zoned to Stoller.
11/18/2019	AL	ameya.limaye@gmail.com	Findley Elem	Stoller MS	Sunset		I base my comments on the Beaverton school district enrollment forecasts listed here: https://pdxscholar.library.pdx.edu/cgi/viewcontent.cgi?article=1129&context=enrollmentforecasts Per the above study (see page# 37, and #38), Springville and Sato are fastest growing school districts within Stoller boundaries. If we want to reduce overcrowding at Stoller (which is the objective of this boundary change exercise) then we should not have the top two fastest growing elementary schools feeding to it. Hence my suggestion would be to move Springville to Five Oaks. Findley should be kept within Stoller boundaries for the following reasons:1. Findley is located extremely close to Stoller. Findley school district is literally across the street from Stoller.2. Population at Findley is stable. It is not growing rapidly like Springville or Sato. 3. Findley is a legacy school that has been feeding to Stoller for a long time.
11/18/2019	Padmanabhan P	padmasap@gmail.com	Findley Elem	Stoller MS	Sunset		Dear BSD Boundary Adjustment Committee,We currently reside in Bauer Highlands neighborhood in NW Saltzmann Road and my children attend Findley ES. Our neighborhood homes was constructed in year 2001 and the children from our community always attend Stoller MS after they finish elementary education. Our homes are 1 to 1.2 miles away from Stoller MS. We came to know that Springville K8 school is being transitioned to K5 school and BSD is planning to make middle school boundary adjustments to accommodate growing North Bethany residents.I sincerely request the Boundary Adjustment committee members to factor in the proximity to school and history of Findley's school kids attending Stoller MS when making middle school boundary adjustments.I personally feel making us move to a middle school which is 2 or more miles away is not fair when there is a school close to our neighborhood.Thanks & Regards,Padmanabhan.P
11/18/2019	Lunyu Ma	malunyu@hotmail.com	Findley Elem	Stoller MS	Sunset	ISB	I recently learned that BSD is planning to redraw Stoller MS boundary. We have been living in this area for decades. My older kid went to Findley ES and Stoller MS. Now the younger one is a 4th grader at Findley. Our house is less than 0.5 mile from Stoller. He can easily walk to the school within 10 min. He will be extremely sad if he is forced to go to Timberland School. It will add more inconvenience to Findley dragon families and traffic to our communities. In addition, this proposal doesn't make sense and is not fair for Findley families and kids.
11/18/2019	Qi Zhu	angela.q.zhu@gmail.com	Findley Elem				my house is next to stoller (Oak ridge community). walking distance to stoller is less than 5 min. it will be very very unreasonable to move our kid to some far away new middle school. we purchased the current home 1 year ago,just because that we want to live close to Stoller middle school. We are working parents, living close to school will help to arrange many after school events when school buses are not available. and save kids many precious sleep hours.Thank you so much for your consideration!

							Hi All! got a chance to review the current Middle school boundaries and feeder patterns. The long pole in the tent is the sheer number of kids in North Bethany development that will be feeding into Stoller eventually. Currently there are 2 elementary schools in that area: Springville and Sato which both will go to Stoller. Stoller in addition takes Jacob Wismer, Findley, and Rock Creek. Removing Findley/Rock Creek or Jacob Wismer will NOT solve the stoller overcrowding issue because the long pole/Choking point is coming from North Bethany. There is need for long term and short term solution to service the growth in north bethany. Long Term: A new Middle school is required (MUST) for north bethany to service Springville and Sato with sense of urgency. Short Term: Find a way to service the schools in the next 2-3 years. Possible proposals: 1. Convert Sato to middle school (and make it home school to north bethany) OR make Springville back to K-8 and make it home school. I am curious to know why North Bethany residents did not utilize Springville middle school when it was available. They are now arguing that Five Oaks is father and hence need Stoller. Why wasn't springville utilized when it was even closer than Stoller???? 2. Go to Five Oaks per current maps...anyway a bus is needed to transport the kids to Stoller today. AND they did not go to Springville when it was available. So the argument about Proximity doesn't apply to the neighborhood. If required lets look at adding SUMMA to Five Oaks. Another MAJOR CONCERN with boundary changes and I would like it documented is to make sure diversity is maintained in the schools. North Bethany has added over 4000 homes of which over 90% is Indian population. While this is great...maintaining racial diversity in any given schools is critical. I urge BSD to look at student body composition and maintain balance while creating new boundaries. Yet another reason to split Stoller away from North Bethany or portion of it.
11/18/2019	Andrew Chen	andrew.chen@gmail.com					
11/18/2019	Anil Kumar	anilkumar333@yahoo.com	Findley Elem	Stoller MS	Sunset		My daughter attended Findley Elementary and currently going to Stoller MS. We would like to the school to be closer to the home as the number of one criteria and offering Summa Program.The advisory committee should consider the distance for kids to travel as an metric across the whole district and then make a decision to try to accommodate the maximum number of kids.The North Bethany is growing and the new area need to have its own Middle school instead of moving kids around.
11/18/2019	Xia Su	jsuxia@gmail.com	Rock Creek Elem	Stoller MS	Westview	Springville K-8	I don't want my kids going to the Five Oaks Middle School.
11/18/2019	Kanda Palanisamy	Kandakp@gmail.com	Findley Elem	Stoller MS			Stoller middle school is located right in between the boundaries of Jacob Wismer and Findley. Keep those two schools feeding into Stoller and add adjacent schools based on the Capacity, number of students and future population growth. Considering the growth happening in north Bethany a new middle school is required to accommodate the kids from that area to reduce commute time.
11/18/2019	Karen Locke	Windrockk@frontier.com	Rock Creek Elem	Stoller MS	Westview		Five Oaks needs to change! Split those schools up to alleviate the current environment in the school. Move Bethany in to increase economic diversity and increase test scores. Rock creek boundary goes farther north than Bethany and Bethany is closer to Five Oaks. Have Stoller only feed Westview so Finley and 1/2 of Jacob Wismer go to timberland. Rock creek provides economic diversity to Stoller.How do attach files to this ?
11/18/2019	Riddhima Pareek	riddhimapareek@gmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	Looking at the situation both logically and practically it only makes sense if a nearby ES school feeds MS close to it. There are suggestions coming in that Springville ES goes to Five Oaks and it seems absurd. A quick calculation of distance travelled by Findley students to Stoller(school to school) is about 1.2 miles v/s Springville students who have to travel about 4.5 miles to Five Oaks...if Findley goes to Timberland it's about 2.6 miles and Springville goes to Stoller it's 2.2 miles...so if you have to take the proximity and distance it's only fair that Springville goes to Stoller.
11/18/2019	Erik Johansen	erikmjohansen@gmail.com	Findley Elem	Stoller MS	Sunset		I heard from someone that it was being considered to have Findley ES kids go to Timberland MS. We live in Oakridge Estates neighborhood and it is already kind of silly that our kids have to be bussed to Findley instead of a short walk to Jacob Wismer. But at least Findley is still fairly close. Having to take a bus all the way down to the new middle school instead of just walking across the street does not make any logical sense to me. Our neighborhood is right next to Stoller. Whatever you decide, please ensure that Oakridge remains at Stoller. If this would mean we have to switch from Findley to Jacob Wismer, I'm perfectly fine with that. Thanks.

11/18/2019	Alivia Sil	alivia2001@gmail.com	Findley Elem			As per the current status, Stroller is getting overcrowded and to reduce that we as a community should work along with BSD to come up with a plan that will be for the best interest of the kids. Here are some of the few points1) North Bethany/Springville is a new growing community. The way the population is growing, a middle school in the North Bethany area which will mainly enroll kids from Sato and Springville would be at the best interest of kids. The commute time would be less and neighborhood kids would be able to bike/walk to school.2) Stroller is already overcrowded and hence allowing a growing demography to join stroller will not solve any problem. 3) There are many kids in Findley who will not need bus to attend to Stroller, they can walk/bike. Hence it does not make sense for them to take a bus to a different school when they have a neighborhood middle school where they can walk/bike. Therefore for the best interest of the community and kids a middle school in the North Bethany area is the need.
11/18/2019	Erik Johansen	erikmjohansen@gmail.com	Findley Elem	Stoller MS	Sunset	"Please note that all comments will be published on our website." I looked for these, as I would like to see other people's comments, but have been unable to find them. Is this just there to encourage people to filter themselves, or where do these exist? Maybe there should be a link on this submission page for how to go to these published comments? Thanks.
11/18/2019	Priyanka Katta	kattapriyanka245@gmail.com	Findley Elem	Stoller MS	Sunset	On my opinion, Findley elementary students should go to stroller middle school due to below reasons:.Findley community is closest to stroller.Most of Findley community Students can walk/bike to school..No space for more new construction near Findley community..Springville and Sato elementary students can increase as years pass due to more land and room for new construction and we end revising middle school..Springville students had to take bus even for Stroller.. More Land available near Springville/Stroller for new middle school.
11/18/2019	Harish Venkataramani	harish.venkataramani@gmail.com	Findley Elem	Stoller MS	Sunset	We are moving from findley neighborhood to Springville next year. Having 10 yo kids travel 5 miles each way is not a workable/safe choice. They will have to spend upwards of an hour every day in a school bus, when there is one they can bike to in under 15 minutes!! Springville elementary kids need to feed into Stoller.
11/18/2019	ravi	naray041@umn.edu	Oak Hills Elem	Meadow Park MS	Westview	There are new developments coming up in north Bethany & Saltzman-Laidlaw neighborhoods. To avoid going through this boundary adjustment exercise again in couple of years, any boundary adjustment to Stoller and other middle schools should not include more than one such new development. Also, please don't have split elementary feeder pattern as these are formative years for the kids and we don't want our kids to have additional stress of finding social stability in middle school. To reduce overcrowding (both present and future) at Stoller MS, we should have only one ES in Stoller with new development and other remaining ESs in established neighborhoods. This can be followed for all middle school boundary. I would like to propose following boundary adjustment: 1.Stoller: Oak Hills, Jacob Wismer & Sato (new development in north Bethany and adding of Oak Hills will improve diversity in Stoller).2.New middle school: Cedar mill, Terra Linda, Bonny Slope & Findley (new development in Saltzman-Laidlaw area)3.Five Oaks: Mckinney (minor adjustment to Mckinney boundary to include five Oaks MS), Bethany, Rock Creek & Springville (new development in north Bethany).4.Meadow Park: Elmonica (minor adjustment to ES boundary), Beaver acres, Barnes & Aloha-Huber.5.Cedar Park: West TV, Ridgewood, William Walker & Raleigh Park. 6.Mountain View: Hazeldale, Errol Hassel & Kinnaman7.Highland Park: Fir Grove, Cooper Mountain, Sexton Mountain & Chehalam8.Conestoga: Nancy Ryles, Scholls Heights, Hiteon & Greenway9.Whitford: Raleigh Hills, Vose, Montclair & Mckay

11/18/2019	Brian Wilber	wilberbrian.bw@gmail.com		Conestoga MS	Southridge		I am currently closing on a house across from Mt. Side High School. I will be moving my daughter from Southridge to Mt. Side, likely at the semester change. I want to ensure that the community we are moving to WILL continue to be serviced by Conestoga Middle. I reviewed all uploaded maps at this time and because no maps change that directly I will likely not be attending the mapping session at Conestoga. Since a large portion of Conestoga enrolled students will attend Mt. Side I do not foresee any changes occurring that I would view as negative for my students. If any arise I will attend future planning sessions and board meetings. Great work so far! All ideas put forth look consistent and reasonable.
11/18/2019	Laura Harding	jordanconnorsmom@gmail.com	Hiteon Elem	Conestoga MS	Southridge		My hope is that all of Hiteon will all remain at one middle school, it looks like in at least one proposal, Hiteon would split between Highland and Conestoga. Hiteon is such a strong community that I think it would best serve the students to all feed into the same middle school. They all will attend Southridge, so it makes sense for them all to go to Conestoga. Thank you! Laura Harding
11/18/2019	Ravi R Hoskote	hk ravi4u@gmail.com	Findley Elem	Stoller MS	Sunset		I just heard about the Boundary change. I dont understand the rational behind moving Findley kids out of Stoller MS. If Springville K-8 if cant handle MS crowd, BSD should be looking at building a new MS in that area given the amount of development that is happening in that area. This will not only save commute time for kids it also makes sure the tax money is used for right purposes and not for transportation. We are like 1.2 miles from Stoller and the proposed new school is like more than 2.5 miles. For Springville too, Stoller MS is like 2.4 miles. Given this, Why is there no proposal to build a new MS in the Springville area.
11/18/2019	Raj Grandhi	Prince.grandhi@gmail.com	Findley Elem	Stoller MS	Sunset		Our neighborhood is always assigned to Stoller and is in close proximity to Stoller We have many students graduated from Stoller and the Neighborhood has many people move in to neighborhood for studying at Stoller (like us) We would like to be continued our assignment with Stoller Thanks Raj
11/18/2019	Rajesh Thakur	rktthakur@yahoo.com	Rock Creek Elem		Westview		I am surprised by the proposed middle school boundary adjustment for Rock Creek Neighborhood family to move to five oaks for middle school instead of stroller. Please consider changing our kid's middle school back to stroller especially when, 1. We are closer to stroller middle school location wise. The longer time it takes to reach a school is waste of extra time to learn. 2. Summa program is in stroller itself. 3. Stroller is safer for kid. My other daughter went to five oaks (enrolled in Rachel Carson) and it is not safe as there have been report of drug and alcohol abuse, regular fighting between five oaks students, and sexual harassment incident. Thank You Rajesh
11/18/2019	Inuka Gunawardana	amorvincit@gmail.com	Findley Elem	Stoller MS	Sunset		I currently reside in the Oarkridge estates community which is situated across from the Stoller middle school. My eldest daughter attends the middle school. It is a 5-10 minute walk for most residents in this community. I request that travel time and logistics be used to determine the school boundary and therefore to please give priority to residents within walking distance of the Stoller middle school. It is a convenient, logical and an environmentally friendly solution. Thanks
11/18/2019	Anu Balu	Anu.balu@gmail.com	Findley Elem	Stoller MS	Sunset	Springville K-8	I believe this boundary decisions impacts Findley children the most disrupting their everyday life. They lose access to the accelerated program, to SUMMA and to a school they can walk to. The addition of new housing never took this into impact and seems totally unfair to penalize homebuyers who are settled here fir 10 years.

							Thank you all so much for the hard work and efforts to help our community decide what the best course of action is for the boundaries of BSD middle schools. My Family moved to the Rock Creek neighborhood specifically for its top rated schools, including Stoller. We have a 7th grader at Stoller and a 5th grader at Rock Creek. My Plea for the boundary adjustment would be to keep Rock creek at Stoller. Here are my concerns with moving Rock Creek to Five Oaks. 1. Hwy 26 is a natural boundary in this part of town. Traffic issues are already a major problem on 185th and having to cross through that congestion would create more traffic issues. 2. Given the following parts of a letter written from Five Oaks to Rachel Carson families, I have safety concerns with prospect of moving my child to Five Oaks. There are many students and RC staff who are being verbally harassed on a regular basis and the behavior of some students is out of control causing even more stress and pressure on our teachers. There have been multiple incidents in PE of sexual harassment, aggressive and targeting behavior that resulted in RC students getting hurt. This past Friday, there were fights in the RC hallway as well as a mob scene of approximately 20-30 Five Oaks students taking over the RC hallway and banging on walls during 8th grade testing. Our teachers were involved in breaking up the fights, which meant leaving the RC students in the classroom while the teachers managed the incidents. This left the teachers physically and mentally exhausted. This was after both drug and alcohol incidents in the bathrooms. To keep the decision equal for all it makes sense to consider keeping the boundaries in all parts of BSD as similar to what they are now as possible and shift a few key schools over to the new middle school. This would alleviate many families frustrations that bought a house or rent in a neighborhood, that is the best fit for their child. Please also consider allowing the shift of boundaries to only take effect for incoming grades, maintaining the legacy approach for grades that have already begun at any of the middle schools. This would take a lot of stress of the kids.
11/18/2019	Carrie	pasteesh2@gmail.com	Rock Creek Elem	Stoller MS	Westview		
							Two questions -1. Summa pgm2. Advisory Committee 1. Summa pgm - Current Middle School for a Student is Stoller. with boundary change, if Student's Middle School is changed from Stoller to another school. Student is identified as Summa qualified. And this another school is with no Summa pgm - Now - Where will this Summa student go?2. Advisory Committee -Will the recommendation by Advisory Committee be really unbiased??Advisory Committee members do have kids with Elementary school. They would have then vested interest to keep their kids[?] Elementary school as a feeder school for Stoller. Will that not impact boundary decisions?
11/18/2019	Aditi Gadre	gadre.aditi.k@gmail.com	Rock Creek Elem	Stoller MS	Westview		
							I have another suggestion that I would like you to consider in this process. I would ask you to please keep Hwy 26 as a NATURAL boundary. We live north of Hwy 26 and although, this won't impact my children because they are older, I would rather have had them attending a school that was ALSO north of Hwy 26, rather than attending one where they had to cross Hwy 26 due to bad traffic congestion, more accident prone and longer commute times. Timberland would be my second choice with Stoller, our neighborhood school, being my first. Therefore, my suggestion would be to keep neighborhoods that are north of 26, in middle schools that are north of 26 also. I realize this only leaves Stoller and Timberland as those options. What is the capacity for Timberland?? I would suggest making necessary changes to Stoller to relieve its overcrowding issues, then shift neighborhoods to Timberland as much as you can. This then, opens up shifting neighborhoods south of 26 to stay south of 26 and would definitely free space at Meadow Park M.S. for this shifting. One exception to this rule, would be that if Bethany E.S. and Oak Hills E.S. are happy with their commute times with Meadow Park M.S. and it's cost effective for the school district, then leave them there. This would allow everyone else north of 26 to shift into Stoller and Timberland.I do please ask that BSD try to maintain the high school boundaries as they currently stand within this process, because the stakes are greater once students get to high school. Friendships are made and students find their niche with after-school sports and clubs. They have typically created their 4 year academic plans as freshmen, and if their boundaries change again after the district JUST went through this process, it would not be ideal to say the least. Thank you again for your consideration.
11/18/2019	Tracy Shaw	seneca932@gmail.com			Westview	ISB	
							It is important to keep Rock creek elementary going to Stoller. Rock Creek elementary provides the much needed economic diversity to Stoller Middle School - helping BSD keep its promise of fair and equitable schools for all students. There are walking paths to Stoller which provide a safe path to school without crossing HWY 26. All of the students know the Bethany area and feel safe. While I do agree Five Oaks needs to change school boundaries, the Bethany elementary school boundaries are much fit And have a close proximity.
11/18/2019	Karen Lockd	Windrockk@frontier.com	Rock Creek Elem	Stoller MS	Westview		

11/19/2019	Kaustubh S. Gadre	ksgadre@gmail.com	Rock Creek Elem	Stoller MS	Westview	<p>Hello, Please keep Rock creek elementary as a feeder school to Stoller. This is in line with maintaining diversity mandate of Beaverton School district . Rock creek is only diverse school in all schools feeding to Stoller middle school. This will bring necessary balance needed to Stoller. Another strong point for making stoller as feeder to Westview only and keep all elementary schools feeding to stoller as westview feeders. That way Jacob Wismer, Rock Creek, Sato, Springville as four schools can be in Stoller so as to make most of the middle schools with 4 elementary feeders with diversity in place. This will also get close to 90% capacity requirement put forward. Stoller and Timberline are only 2 schools north of 26 and can be used to have existing north of 26 elementary schools continue feeding to those middle schools. Main objective of school district for making stoller population balanced and creating new school boundary for Timberline can be done by moving Findley to Timberline which will have brand new school and facilities. Thanks Kaustubh Gadre</p>	
11/19/2019	Michael Fitzgerald	Mfitzpdx@gmail.com	Rock Creek Elem	Stoller MS	Westview	<p>I was disappointed to see the discussion around pulled Rock Creek Elementary out of Stoller. I've lived in the area almost 12 years and now have a child just a few years out of middle school. I've seen others with plans on how we can remain in that school and hope to see one of those adopted versus the current proposal.</p>	
11/19/2019	Anant Jahagirdar	anantshruti@gmail.com	Findley Elem	Stoller MS	Sunset	<p>PLEASE KEEP FINDLEY SCHOOL WITH STOLLER. I DONT UNDERSTAND THIS ARGUMENT. WE SPENT TAX PAYERS MONEY TO BUILD K-8 SCHOOL (SPRINGVILLE) AND NOW IT IS SUCH A WASTE. AND WE ARE MODIFYING EXISTING SCHOOL TO ACCOMMODATE THAT WASTE? THIS IS AS GOOD AS ANY SCHOOLING DECISIONS HERE. HOPE PEOPLE SITTING ON THE BOARD REALIZE THE MISTAKE AND FIGURE OUT A WAY TO KEEP FINDLEY IN STOLLER AND ARRANGE NEW MIDDLE SCHOOL TO NEW SCHOOLS.</p>	
11/19/2019	Teju	reshmap2829@gmail.com	Rock Creek Elem	Stoller MS	Westview	Springville K-8	<p>My daughter is in the fifth grade and will be the second batch in Five Oaks if this move happens. I have no doubt that Five Oaks will be a very good school if Springville, RC and Bethany move there. However note that when the first batch moves there, grades 7th and 8th will still be from the old composition. With the issues going on in Five Oaks currently I am really concerned about the first batch being the "Guinea Pigs".</p>
11/19/2019	Himabindu Puligadda	puligadda.himabindu@gmail.com	Sato Elem	Stoller MS	Westview	<p>Please keep elementary feeder schools together and prioritize walkability. SATO is closer to Stoller than any other middle school, so it makes sense to keep this school fed into Stoller.</p>	
11/19/2019	Sammie Weaver	Sammie_h63@yahoo.com	Rock Creek Elem			<p>My husband and I spent a large amount of time researching schools when we were looking to buy our house and even more time looking for a house in the location that allowed our children to go to the elementary (Rock Creek), middle school (Stoller), and high school (Westview) that we wanted. It's frustrating to see there is a possibility that they could potentially being moved to Five Oaks with the new boundary proposals. I understand that populations fluctuate and new schools are added but I never thought crossing Hwy 26 would be an option, it seemed like a natural boundary line. The ratings for Five Oaks are much lower than those at Stoller, and I don't see how the district can improve them.</p>	
11/19/2019	Sharada Jahagirdar	anantshruti2@gmail.com	Findley Elem	Stoller MS	Sunset	<p>PLEASE KEEP FINDLEY SCHOOL WITH STOLLER. I DONT UNDERSTAND THIS ARGUMENT. 11/19/2019	Angie	hillang2000@ohsu.edu	Bethany Elem	Meadow Park MS	Westview	Please consider moving Rachel Carson MS students to Timberland MS and OUT of Five Oaks. They are the only options school which is housed within another school—they are a smaller group of students and as an options school, it is not unreasonable for those students to need to be housed/bussed further away from their home school. Currently a small, but influential group of Five Oaks students are creating a hostile and unsafe learning environment for the Rachel Carson students housed there and while that MUST be addressed asap, it also occurs to me that overall the culture at Five Oaks would be significantly altered if all students there were attending just one school together. Five Oaks would also benefit from having a different group of elementary schools feeding into it. In addition, it would be wise to consider moving SUMMA school to Timberland as well—this will relieve crowding at Stoller and again, since SUMMA draws students from all over the district, it is not unreasonable for those students to need to be housed/bussed further away from their home school.
11/19/2019	Sharon	Sharonzell@yahoo.com	Rock Creek Elem	Stoller MS	Westview	This is a difficult process and likely there will be people who are not pleased with the final outcome, as there is no perfect solution. In exploring possible moves, it would be helpful if the district would provide information about growth projections, the capacities for each of the schools in question, etc. It would also be helpful if the district provided information about how programs like SUMMA affect the overall grade of a school. For example, when calculating the achievement of Stoller students, are the SUMMA students included? This would help people compare schools in a more equitable fashion. It would also be helpful if there were some clarity about what are options for a family if they have a child who qualifies for SUMMA but whose Middle School does not provide this program. I hope there will be consideration for legacy students, who will be caught up in the this transition. Asking a child to go to a new school (when they go to Middle School), then moving them after a year or two, then having to move yet again for high school seems like a terrible burden for a young kid in a challenging moment in their lives. As for boundaries for my particular home school (Rock Creek), it seems that there are two options.1) Rock Creek stays at Stoller. Rock Creek is the most economically diverse school that will possibly feed into Stoller, and this economic diversity is a good thing. Furthermore, Stoller feeds primarily to Westview, which is the high school for Rock Creek students, allowing friendships made in middle school to continue. It also keeps the community boundary which effectively ends at HWY 26, as there is a break in residential housing around that boundary.2) Rock Creek moves to Five Oaks along with Bethany and/or Springville. This plan would disrupt community boundaries, and possibly have traffic implications. A plan for SUMMA students would need to be communicated to parents. However, this plan would bring some needed economic diversity to Five Oaks. This plan would also mean some of the current schools feeding into Five Oaks would need to be moved further south to other middle schools. Again, this is where numbers about enrollments and capacity would be useful.
11/19/2019	Madhusudhan Vankayalapati	madhusoftech@gmail.com	Rock Creek Elem	Stoller MS	Westview	We would love to have Stoller Middle School as we my kid currently goes to this school and I would like to send my other kid to the same school.
11/19/2019	Tara Powers	torandpowers@hotmail.com	Rock Creek Elem	Stoller MS	Westview	Dear BSD and the Boundary Adjustment Committee, Please keep Rock Creek Elementary at Stoller MS. If distance and proximity are a consideration, the Rock Creek Elementary school boundary extends as far North as Springfield Road—within walking distance (on foot path) to Stoller. Bethany is our neighborhood and our kids live, walk and bike the roads trails/paths to the schools and parks in our area. Our children cannot walk or bicycle safely over HWY 26 to middle school. Rock Creek Elementary also has the most economically diverse student population of all the feeder schools that make up Stoller. This should be a MAJOR (if not the biggest) consideration for redistricting Stoller, unless the district and committee are committed to it being only for the privileged and wealthy.
11/19/2019	Hoa Truong	andytruong503@gmail.com	Rock Creek Elem			We propose that Findley, Bonny slope, Cedar Mills and Terra Linda go to the new school. Springville, Sato, Jacob Wismer and Rock Creek continues to go to Stoller

11/19/2019	Katie Paul	katiem.paul@gmail.com	Rock Creek Elem	Stoller MS	Westview	When reviewing the school district's priorities, it becomes clear that there could be several possible options that the committee and the superintendent should consider. Feeder patterns and neighborhood/community proximity are the highest priorities in my mind when considering these changes. Given Stoller's current composition, it makes sense to make Stoller a Westview feeder only. This would mean peeling off Findley and half of Jacob Wismer's students and sending them to the new middle school giving Stoller space to keep current feeders and allow room for growth. It also allows Stoller to retain the socio-economic diversity that comes from Rock Creek that does not exist at any other current feeder school.
11/19/2019	Amy Pham	amypham8524@yahoo.com	Rock Creek Elem			Please consider this proposal: Findley, Bonny slope, Cedar Mills and Terra Linda go to the new school. Springville, Sato, Jacob Wismer and Rock Creek continues to go to Stoller. We moved to Springville/Bethany area so our 2nd grader can go to Stoller when she's in middle school. Stoller is 2 miles from our home compares to Five Oaks is 5 miles away (with 185th heavy flow traffic morning/afternoon). That's why it makes no sense to me when she CANNOT go to the school near her house.
11/19/2019	Bharadwaj ananthan	B_ananthan@yahoo.com	Rock Creek Elem	Stoller MS	Westview	I understand that BSD is looking to decongest Stoller, and hence built Timberline.1) Given Findleys proximity to Timberline, it would best to have them feed to the new school2) keeping rock creek feeding to Stoller maintains the population diversity at Stoller. Amongst Springville,Findlay and rockcreek, rock creek has the lowest math, science scores as well as highest percentage of kids on free and reduced lunch programsI hope you consider these when finalizing the MS boundaries
11/19/2019	Charles Paul	charles.paul1@gmail.com	Rock Creek Elem	Stoller MS	Westview	Please maintain Rock Creek's feeder status to Stoller. My son is currently a sixth grader at Stoller having his best academic year thus far. The teacher's are fantastic, motivating and committed. We fully believe he would not be thriving if he were not in the community of excellence Stoller provides. We hope that BSD will create a legacy policy allowing current students to stay at their current schools. We are also hopeful that our younger kids will get the opportunity to have the same experience at Stoller. It makes sense to adjust Stoller boundaries to make it a Westview only feeder school and also allow Rock Creek students to rise up to the high academic standards set by Stoller faculty and staff. Thank you for your consideration.
11/19/2019	Julie Sutton	juliesutton@gmail.com	Rock Creek Elem	Stoller MS	Westview	In aligning with BSD's stated mission and goals it makes sense to keep Rock Creek ES attending Stoller MS and look at moving out Findley ES and possibly the Sunset feeder portion of Jacob Wismer ES to attend the new Timberland MS. In keeping the student composition diverse, Rock Creek has the economic diversity that would be lost if moved out of Stoller MS, leaving an economically homogeneous student body, also to the detriment of Rock Creek ES students. This also allows sufficient population for future growth in the NW boundary of BSD. Moving the Sunset feeder schools to the new Timberland MS also aligns with BSD factors of looking at feeder school patterns. Stoller would become a Westview exclusive feeder and the students designated to attend Sunset would attend middle school with similarly situated students. Keeping Rock Creek within the Stoller boundaries also works to keep neighborhoods together and address travel time and accessibility. Highway 26 is a natural boundary and Rock Creek students consider the Bethany/Stoller area to be within our community. We ride bikes to school and play at the Pirate park and utilize and access the trails and paths in our area. South of Hwy 26 is not within our community. Additionally, the traffic and congestion crossing over the hwy is already difficult throughout the day but especially at school hours, I cannot imagine how long the commute would be to get our students to Five Oaks MS. This would be difficult for Rock Creek families and the greater community by aggravating an already congested area of travel. Please keep Rock Creek ES within the Stoller boundary.

11/19/2019	Mary Dillon	marydillon1976@gmail.com	Rock Creek Elem	Stoller MS	Westview	ISB	We bought our house in a neighborhood specifically so that our sons could attend Stoller middle school. Our family is familiar with the school and how it operates. 5 oaks is not a suitable alternative and a very unfair decision. There are several options available mentioned by other rock creek parents. My question is if my son enters Stoller in September 2020 will he be allowed to remain there? or do you move All of the kids, 7th and 8th grade or does the new boundaries start with incoming 6th graders in 2021? Thank you.
11/19/2019	Sandhya Maminda	mamindlasandhya@gmail.com	Rock Creek Elem	Stoller MS	Westview	ISB	Please keep the rock creek school part of stroller middle school
11/19/2019	chao yan	ycl.cyan@gmail.com	Rock Creek Elem	Stoller MS	Westview		Base on the fact that stoller MS is so crowded, it's better to move students from stroller to the new school directly. Otherwise, it requires significant boundary changes of lots of schools. I proposed to move Findley ES and a part of Jacob ES to the new MS for several reasons. 1. They are very close to the new school. 2. They are in Sunset HS, this will keep the MS and HS consistent. 3. This will drop the Stoller MS students below 1000. And the new MS will have about 1100 students (Findley, part of Jacob in Sunset HS, Bony Slope and Cedar Mills). This is the plan with minimum changes. Another plan is to move Findley ES to the new MS, and move Summa as well. Re-allocate Rock Creek and Springville to Five Oaks is a terrible plan for many reasons. 1. Five Oaks is already crowded, this requires move other ES to other MS, which will make other MS crowded as well. 2. Rock Creek and Springville are so far from Five Oaks, with crossing 26 HWY, make it very dangerous for students, especially those who prefer biking or skateboarding. 3. This will make Five Oaks cover a large area, a challenge for school bus.
11/19/2019	Lydia Li	lydiazjee@gmail.com	Rock Creek Elem	Stoller MS	Westview		Please consider rezoning to impact as few schools and neighborhood as possible and avoid crossing the major traffic corridors for safety issues. Since we now have a new middle school in the north of 26. We should consider keeping Stoller for the students that currently feed to West View and move future Sunset students to the new middle school, which is close to Sunset High. As a Stoller Farm neighbor on Laidlaw, we are concerned about our kids' safety to ride bus in the traffic to cross hwy 26 everyday. On the other hand, Rock Creek school is an important addition of economic diversity to Stoller. Please keep us in Stoller.
11/19/2019	yingchan li	yingchanli@gmail.com	Rock Creek Elem	Stoller MS	Westview		Please keep Rock Creek ES in Stoller MS. Otherwise, it will reduce the diversity of Stoller MS significantly. For example, there are about 30% of low-income families in Rock Creek. There is no or little in Findley or other ES in Stoller. Similar demographic data as well. Rock Creek is also very far from Five Oaks middle school as well.
11/19/2019	Tarek Massoud	tarek.massoud@gmail.com	Rock Creek Elem				The Middle school boundary in my opinion should reflect the priorities of BSD with minimal disturbance to our students and their potential. Given those points, I believe it makes sense to keep Rock Creek a feeder for Stoller, for the following reasons: 1. Rock Creek is one of the most diverse schools feeding into Stoller and keeping it will ensure Stoller will maintain diversity in its student body composition. 2. Most of Stoller feed into Westview HS, it would make sense to prioritize keeping Elementary schools who would feed into Westview in Stoller and if needed move schools that feed into Sunset to be together in Timberline MS. 3. If not feeding into Stoller, the proposal of moving Rock Creek to feed into Five Oaks, is disturbing since: a. Stoller is equipped with a lot of amenities that would ensure the best possible education for our kids, on the other hand Five Oaks does not have the same level of preparedness, this is definitely impacting the potential for our kids. b. It makes the travel time to MS more than 2x what it is now to Stoller and it goes over a freeway. c. Five Oaks suffers from a lot of problems and moving Rock Creek to it will not help solve those problems, if any it will expose the Rock Creek kids to more problems that could be avoided if they stay feeding to Stoller as they are today.

11/19/2019	Mahesh Nalasoni	Mnalasoni@gmail.com	Rock Creek Elem	Stoller MS	Westview	We live in Bethany within Rock creek elementary boundaries. We moved here few years ago, just for our kids schooling. Moving from Stoller to Fiveoaks , is not convenient for kids from Bethany. I think we need to do further research to solve this problem without impacting the kids. I think, we should not take a hasty decisions that benefits few and impact many other kids. We strongly protest this thought of moving Rock creek kids from Stoller.
11/19/2019	Leslie Batdorf	Lesie.batdorf@gmail.com	Rock Creek Elem	Stoller MS	Westview	As a resident of the rock Creek Elementary school boundary I want to voice my opinion in the displeasure of the possibility of moving the school district for middle school to five Oaks. My kids have grown up going to rock Creek Elementary I've had kids it's Stoller and I have had kids at Westview. It is our hope that they remain going to Stoller for middle school
11/19/2019	Kaan Oguz	Kaanoguzz@gmail.com	Rock Creek Elem			Hi I request the middle school to stay the same for rock creek elementary school students. Stoller middle school is the best fit both economically and geographically. Thanks
11/19/2019	Laurelyn Wilde	lwilde78@gmail.com	Cooper Mountain Elem	Mountain View MS	Mountainside	Clean feeds (all kids in one elementary school are zoned to the same middle school). We need clean feeds into the schools, especially middle schools. Most of the kids at Cooper Mountain go to Highland. There are only a handful that go to Mountain View (that is where we are zoned). It has been a real struggle for my kids to transition into a middle school with no friends from their elementary. Middle school is a tough age and friends are important at this time of their lives. It would be great to see clean feeds into the middle schools so that the transition is easier.
11/19/2019	Erin Boling	Bolingerin@aol.com	Rock Creek Elem	Stoller MS		It does not make sense to move Rock Creek Elementary out of Stoller based on the economic diversity that the Rock Creek boundary provides. Schools should be based in the community where the kids live. Rock Creek kids live in the Rock Creek/Bethany area. Stoller is the best school for kids at Rock Creek to attend because it's in their community, and it's near the high school that they will attend too, Westview HS.
11/19/2019	Deniz Gezer	deniz.g.oguz@gmail.com	Rock Creek Elem	Stoller MS	Westview	Hi, I have two girls that's why we moved to this area for Stoller Middle School which has very good rate. Rock Creek Elementary School's students deserve to go to the Stoller Middle School. We don't want to change our Middle School...
05/31/1981	Mohammad Ghaffari	m.corr.ghaffari@gmail.com	Rock Creek Elem	Stoller MS	Sunset	I dont want to change school district
11/19/2019	Trevor Bodtker	Tbodtker@gmail.com	Rock Creek Elem			Keep Rockcreek kids at Stoller middle school
11/20/2019	Sushma chennu	schennu9@gmail.com	Findley Elem	Stoller MS	Sunset	Please keep Findley students feed to stoller
11/19/2019	Brandy Ramer	brandy.m.ramer@gmail.com	Rock Creek Elem	Stoller MS	Westview	I understand changes have to occur. But I hope my son (who went to Rock Creek and is currently a 6th grader at Stiller) doesn't have to change schools the last year of middle school. That's very disruptive for a kid!
11/19/2019	Jennifer Mathieson	Jennifermathieson@me.com	Rock Creek Elem			We currently attend rock creek elementary school and absolutely love it. We moved here from California last year and fought to get a house in this neighborhood. We chose it specifically for the high ratings of rock creek, stroller, and Westview schools. We have loved every teacher and administrator at rock creek. We are very saddened to see that our school would be moved from a 10 rating to a 4. We moved from a school that had a 4 rating and that difference in parent involvement, teachers, staff, and students is remarkably different I know Beaverton school district holds high standards to their schools but it feels our kids will now receive a lower standard of schooling while other areas are getting a newer school and better schools. We really plead you to rethink what you are doing with the boundaries to all families.

11/19/2019	Lorie Bartee	geologychick@yahoo.com	Sato Elem	Stoller MS	Westview	I live within the Pirate Park area and do not believe that we should be included in the latest boundary adjustment. This will be our neighborhood's 5th... NOT 1st, NOT 2nd, NOT 3rd, NOT 4th... BUT 5th time we will be moved. This is completely unacceptable. We are within walking distance of Stoller. It is the only school that we can walk to and will ever be able to walk to. Please take this under consideration when making this decision. Thank you,Lorie Bartee
11/19/2019	Anil	anilb2906@gmail.com	Rock Creek Elem	Stoller MS	Westview	Hi BSDConsidering the below points, I strongly feel Rock creek should stay/feed to Stoller . Proximity:- School boundaries is all about proximity. Going to close by school is helpful in many ways. It can avoid traffic congestion. Less time to travel. In case of emergencies like snow, lock downs, it would be helpful for parents to pick the kids.Distance from center of RC to Stoller - 2 milesDistance from center of RC to five oaks - 5 miles. Have to cross US-26, which is huge risk to the kids of that age.Ethnic diversity:- To have a good composition, each school should have healthy diversity index. Rock creek is perfect fit and it has the best diversity rate. Rock creek has the good diversity as below.White (59% of students)Asian (18% of students)Hispanic (13% of students)Future availability of space: -Currently, below is the number of students in each school.Rock Creek - 582Springville - 697Jacobwismer - 739Findley - 827It makes more sense to feed Rock creek to stoller which is already crowded along with other school which has less countThanks
11/19/2019	ltrombley	lmsmith_2001@yahoo.com	Findley Elem	Stoller MS	Sunset	Our Son has just started 6th grade this year at Stoller. He has the opportunity to walk to and from each day to school. It is important to our family that he remains at Stoller and that the boundary line doesn't change. He is thriving at Stoller and having him nearby to home is important for our family logistics.Please don't remove the Oackridge estates neighborhood from the Stoller boundary!Linda Trombley
11/19/2019	Marie Knapp	lknapp@gmail.com	Springville K-8			Currently, every elementary school in the Beaverton School District feeds into a middle school less than 4 miles away. Most are much closer. If Springville changes to feed into Five Oaks, it will be the longest feeder elementary to middle school distance in the district. Springville should feed into Stoller as it is the only middle school within a reasonable distance from our homes.
11/19/2019	Beth and Jeremy Rear	jeremybeth@comcast.net	Rock Creek Elem	Stoller MS	Westview	We are very upset about the possibility of moving Rock Creek to Five Oaks. Stoller is a mile up the street from our home and our family is very entrenched in the local community. The thought of uprooting our kids and shipping them across the freeway to a community and school that we have zero connection is not one that we support. Additionally, Five Oaks is not acceptable from an academic and safety point of view. We have come to expect a higher standard from the Beaverton School District, with kids at Rock Creek, Stoller and Westview currently. Five Oaks does not meet acceptable standards - period. Whoever gets pulled out of Stoller needs to be offered an EQUAL educational opportunity.
11/19/2019	Devdatta Kulkarni	kdevdatta@gmail.com	Springville K-8	Stoller MS	Westview	Hi, I saw proposed maps for new middle school boundaries. 22/25 maps show Springville out of Stoller. That does not make sense at all.With least disturbance to other ES school boundaries, maintaining diversity criteria across BSD and to solve stoller overcrowding issue, best way will be Findley ES to feed into new MS timberland. Distance wise they will be closer than Springville residents. Also, I would recommend/solicit to have one member from each ES to represent MS boundary decision. I fear that due to 2 members from each MS will have biased opinion or conflict of interest for one non represented ES.Thank youDevdatta
11/19/2019	Vicki Weiss	mvweiss@frontier.com	Bethany Elem		Westview	Stoller is not a designated IB school. Meadow Park is. Sunset High School is IB. Westview is not. All of Findley, except for those students who are admitted into summa, should attend Meadow. You should keep continuity of learning. The rub is Jacob Wismer, whose students now all will attend Sunset.You should keep summa at Stoller.

11/19/2019	Uma Surya	vumaravi@gmail.com	Findley Elem	Stoller MS		<p>Hello,I have 2 kids and we live close to Findley elementary school.I heard about the school boundary changing from Stoller to some other middle school, and I want to express my concerns over this change for 2 main reasons.1. Proximity: When you are ready to make a decision, please consider the proximity for a given neighborhood (how far they live from the school). The Bauer highlands neighborhood that I live in is, 1.2 miles away from Stoller middle school which is pretty nearer. So pushing that to some other school does not make sense and it only increases the commute, increases traffic on the roads, and increases problems for families.2. A right for siblings to attend the same school. A lot of Findley kids have elder siblings that went to Stoller middle school, so it immensely helps parents and kids by sending kids to the same school. By changing middle schools will jeopardize our ability to send our child to middle school. For these reasons, our community would like to strongly urge the Beaverton School District to consider keeping the boundaries (Allow Findley students to go to Stoller Middle School).</p>
11/19/2019	Linda Waara	lmwaara@gmail.com				<p>As a parent of grown children, daughters that spent all their elementary years at Rock Creek, some of their years at Five Oaks and Stoller middle schools, and all of their high school years at Westview, I have seen much. I was a stay-at-home mom in those days and avid volunteer at all of those schools on a regular basis. I was treasurer in the parent organizations at Rock Creek and Five Oaks, and treasurer for the Westview marching band, as well as field trip and dance chaperone. I was able to get a pretty good feel for the culture in all of those schools and got to know the administrative staff in all schools, as well. All in all, I have been pleased with the education my daughters have received from the Beaverton School District, despite certain incidents and circumstances with teachers and administrators along the way. Middle school, in my opinion, is the toughest age. Most kids are at an awkward time in their lives where they are not "little" anymore, but, not yet independent enough to hold their own like the high schoolers. They have such a ferocious need to belong and be accepted, sometimes to their detriment. I spoke with my daughters about this potential boundary change, and they agreed with me in the fact that Stoller is by far a safer, kinder and more nurturing environment out of the two middle schools. With all due respect for the heavy decisions that will have to be considered and ultimately made, and the burden of position that puts on the people that have to make these difficult decisions, I urge you to keep the Rock Creek kids feeding into Stoller. I am active in my neighborhood and in my community and see how upsetting this has been for the young families involved. Please, do not change this boundary.Thank you for your service.Warm regards,Linda Waara</p>
11/19/2019	Jill Hough	jill@jehough.com		Stoller MS		<p>Re: Proposed school boundary changes:I have an 8th grader who attends a Stoller Middle a School; prior to that, he attended Rock Creek Grade School. As a parent and homeowner, I am AGAINST the proposed BSD school boundary change that would force Rock Creek students to attend Five Oaks Middle School. If my son had to attend Five Oaks, it would be a hardship for us as a family due to the distance from our home. It would have also impeded our son from making friendships with students in our immediate area. Please avoid making Rock Creek students attend Five Oaks in the future unless you intend to improve its scholastic record and general rating as a middle school. Questions? Please contact me at 503-645-1169. Regards, Jill Hough</p>
11/19/2019	Yuan	jymitchellfam@gmail.com	Rock Creek Elem	Stoller MS	Westview	<p>Hi, I'm a parent with three children—one of them currently attending Stoller Middle School and the other two at Rock Creek.I feel very strongly that Rock Creek should continue to feed into Stoller. Based on where we currently live, it is safe and easy for my son to ride his bike via trail to Stoller. He enjoys doing that with friends from Rock Creek, and I hope that when my other two kids are old enough they will not be robbed of this wonderful experience.Also, my daughter is identified as TAG in reading, and it's possible that she will qualify for SUMMA when entering middle school. It would not be fair to her to have to be rezoned to a school that does not offer the SUMMA program.Please kindly consider continue to feed Rock Creek into Stoller.</p>

11/19/2019	T Bodtker	tbodtker@gmail.com	Rock Creek Elem	Stoller MS	Westview	As a parent of a current 4th grader, any proposed changes would directly affect my child. In the interests of their education (And all other current 4th graders) , I would like to understand if they will be offered a similar level of education in any of the proposed middle school changes. Will there be areas that they will be left behind, or areas of study that are not support in a changed school? or will it be a like for like exchange? Where are the findings of these studies?Change is a good thing, however a change of this degree takes time and all current 4th graders will have to endure the brunt of all of these changes in order for some middle schools to develop. Changes are both a move to a middle school and a move to a different school to their older siblings or elder school peersA couple of questions that would need to be addressed for all proposed changes?1.Has traffic management been addressed on all proposed routes?2.How will the proposed changes and continuous urban growth been reviewed- where are the findings of these reports? If these have been reviewed, why is there an under utilised middle school that has not been fully utilised3. What are the forecasting reports for population growth in all middle schools in the district?- have we accurate modelled(Forecast) v's actuals- where are these published - will we be faced with another change if forecasting is inaccurate4. In this proposed changes we are hearing reports of the "ugly" sides of all the middle schools- Bullying, drugs etc etc - what is BSD doing to address these issues in any of the middle schools as it is not painting a good picture for any school in the districts. What does these changes do to current community spirit, while lower down the priorities, this still needed to be addressed. Many children have peers from other elementary in various external activities (Soccer/ Swimming/ Theatre etc) 6. How does the proposed changes affect the socio economic and diversity traits of any of the middle schools There seems to be an enormous push to move both Springville and Rock Creek out of Stoller, however there are many other solutions that need to be addressed (and answered) that may work for all sides in the North BSD
11/20/2019	Devi	Devikatari@yahoo.com		Stoller MS	Sunset	The reason for buying the home was for the school boundary, if that changes there will be lot of effects on us parents as well. As Findley was always with Stoller, that should be kept as it is and newer schools can be given to new schools like springville.
11/19/2019	Aija Butler	butleraija@yahoo.com	Rock Creek Elem	Stoller MS		Rock Creek Elementary School should continue to feed in to Stoller Middle School for the following reasons:* Economic Diversity: Keeping Stoller economically and culturally diverse is critical. Rock Creek, has the lowest economic profile and adds the most economic diversity to Stoller. *Moving Rock Creek students to Five Oaks would create large amounts of traffic and congestion.*Legacy: Students should not have to change schools mid-way through, during an already tumultuous time.*Forecasting Accuracy: Middle school students should feed into the same high school.
11/19/2019	VAIBHAV KHANE	vaibhavkhane@gmail.com	Springville K-8			Sir/MadamThe new Timberland Middle school was built on North side of US-26 to take care of elementary schools on north side of US-26. If certain elementary school does not want to go to new middle school because of 'No ratings' and suggesting to change middle school boundary of other elementary schools, it is pure waste of tax-payers dollars spent to built the new middle school. Also, it is waste of time and effort of BSD staff and members. Please make sure that new middle school meets its capacity goal which is very important to ease the pressure on Stoller middle school. ThanksVaibhav
11/19/2019	SARITHA M	sarisoftech@gmail.com	Rock Creek Elem	Stoller MS		ROCK CREEK ELEMENTARY As a parent I vote for Stoller Middle SchoolReasons: Stoller Middle School is a highly rated, Strong progress in academic skills and the school is doing a better job at supporting academic growth than most other schools.(5 star Rating school).Distance From Rock creek to Five Oak : 5miles . Moreover : 2 star rating . This school has large achievement gaps.My primary concern is for kids who are in Summa and what the plan is for them, whereas that's already in place at Stoller. These are my concerns and questions.

11/19/2019	Arta Montero	arta.pecaj@gmail.com	Rock Creek Elem	Stoller MS	Westview	ACMA	I am very concerned about school boundary change proposal. I have a 9 year old and 5 year old that go to Rock Creek. My parents live with me as well. I was looking to purchase a 4 bedroom so my mom and my kids can have their own room. My kids didn't want to separate from their friend at Rock Creek and therefore just purchased a 4 bedroom at Rock Creek. I would have never purchased this house if I had any idea that Rock Creek would be kicked out of Stoller. So, these decisions have huge impacts in peoples lives since I ended up purchasing a house that I have to work most of my lifetime to pay for because I wanted my kids to go to Stoller and now I realize I am not even looking forward to move into my new house. I understand, this is not all about me, but I am hoping that these changes will have minimal impact on all of us. I think the best solution to minimize impact include moving Finley and may be part of Jacob Wismer that goes to Sunset to the new middle school and leaving everyone else as is. This way, all the kids that go to Stoller will be going to the same high school (Westview) and everybody going to the new middle school will feed to Sunset. I am assuming that moving Finley to the new school will reduce the number of students at Stoller by about 500 and this will be sufficient. Another solution (if moving Finley doesn't solve the problem) would then include to send Rock Creek, Springville and Bethany to Five Oaks along with Oak Hills. This way, Rock Creek will be mixed with other similar schools at Five Oaks and all will feed to Westview. This is still not ideal from a traffic standpoint since even though Five Oaks may appear close in distance to Rock Creek having to cross highway 26 to get there will definitely increase commute time. This would make me happier than moving Rock Creek to Five Oaks all alone since this will help diversify Five Oaks student population and make it a better school.
11/19/2019	M.	spislafamily@gmail.com	Findley Elem	Stoller MS	Sunset		Findley should feed into Stoller for several reasons. One is to maintain and retain local community. The proximity of the school is also key. These schools are nearby each other, cutting down on transportation expenditures. Last, many Findley students depend on the Summa program for their academic needs.
11/19/2019	Gabe Montero	gabe.montero@gmail.com	Rock Creek Elem	Stoller MS	Westview		I think the best solution to minimize impact include moving Finley and may be part of Jacob Wismer that goes to Sunset to the new middle school and leaving everyone else as is. This way, all the kids that go to Stoller will be going to the same high school (Westview) and everybody going to the new middle school will feed to Sunset. I am assuming that moving Finley to the new school will reduce the number of students at Stoller by about 500 and this will be sufficient.
11/19/2019	Dinesh Bhat	Dravbhat@gmail.com			Sunset		The most logical thing in terms of proximity is to continue Findley ES feed into Stoller MS. Any plans to disrupt this due to undue pressure from communities much farther than Stoller is not an acceptable solution. I'm sincerely hoping and confident the board will make the correct decision.
11/19/2019	Jeremy Johnson	doublej13@att.net	Rock Creek Elem				I'm very concerned about the time and environmental impact of driving Rock Creek students across Highway 26 to Five Oaks Middle School.
11/19/2019	Chris McIntosh	c1mcintosh@gmail.com	Rock Creek Elem	Stoller MS	Westview	ISB	I'm favor of keeping school boundaries as they are today. The disruption of moving kids from Stoller to Five Oaks would not only take tremendous resources and be a huge undertaking it would increase risk of kids getting hurt while traversing highway 26. Is BSD prepared to pay to improve roads, expand lanes and create more foot bridges? Is it worth needless congestion to already congested roads? Are Rock Creek families supposed to pay taxes toward Stoller but attend five oaks? Most of all, this doesn't solve the underlying problem of student classroom density.. it just moves it to someone else to deal with. Please let common sense prevail.. The move would result in the following: - increase commute times - increase traffic - expose children to safety risks - take resident's taxes and turn away their children - not solve the problem!
11/19/2019	sundeep palla	psr232@gmail.com	Rock Creek Elem	Stoller MS	Westview		Stoller Middle school is close by to commute than Five Oaks. Also it avoids traffic at the peak hours. I strongly recommend RC should feed to stoller.

11/19/2019	Lori Spivey	lorispivey2001@hotmail.com	Rock Creek Elem	Stoller MS	Westview	I currently have a 6th grade daughter that attends Stoller and a 4th grade daughter at Rock Creek. Although middle school has been a big adjustment, I am very pleased with how well my daughter has transitioned to middle school. My hope is that she will be able to stay at Stoller and my other daughter will be able to join her there in a few years. If we are looking to have more economic diversity at our middle schools, Rock Creek is the school closest to Stoller that would provide the most economic diversity. The commute to Stoller is much quicker than it is to Five Oaks from our house. Right now, my daughter gets home at 4:20 from Stoller which barely gives her enough time to change and get out of the house to attend extra-curricular activities. If she attends Five Oaks, I would imagine she wouldn't get home until after 4:40. Although that is only a 20-minute difference, when trying to get multiple kids to different locations, every minute counts. If the idea is to change the whole composition of Five Oaks, I would hope that if you add Rock Creek to that middle school boundary, you would also add either Bethany, Springville, or Oak Hills.
11/19/2019	Ayumi Furuya	ayuyamail.g@gmail.com	Rock Creek Elem	Stoller MS		Hello, I'm mother of children that go to Stoller Middle and Rock Creek Elementary. I heard that there is a possibility that my children go to Five Oak Middle which rate is really low compared to Stoller Middle. It seems to have more violence and drug problems in Five Oaks and I don't want my children to go there. It's also far from where I live. I know it will be hard to make a decision, but I really hope that my kids stay in Stoller Middle and get a good education in a good environment.
11/19/2019	Aahlad Mallajosyula	aahladm@gmail.com	Findley Elem	Stoller MS	Westview	Our daughter goes to Findley Elementary school. We moved from Hillsboro to Bethany so that our kids could go to Findley Elem and Stoller Middle school. If overcrowding is the problem at Stoller then having both Springville and Sato Elem kids go to Stoller defeats the purpose as these two are growth schools whereas Findley is a non-growth (student population is projected to decline). Having Findley school students attend Stoller will help with reducing the overcrowding in future if kids from the growth schools move to other middle schools.
11/19/2019	Drew Butler	butlersdrew@yahoo.com	Rock Creek Elem	Stoller MS		It seems advantageous to BSD that Rock Creek ES students feed into Stoller MS for a number of reasons. One, if you take Rock Creek out you lessen the economic diversity at the school and I believe BSD values and in fact may be mission-focused on all types of diversity. The goal of boundaries should steer clear of elitist (public) middle schools, even when the intent is good. Two, on the topic of diversity, extracting Rock Creek students will further homogenize the student make-up at Stoller, a toll that will be felt long-term on the Stoller student body. Three, sending hundreds of cars over Hwy 26 during rush hour will have an extreme ripple effect to the roads and streets in an already overly congested area and should be further evaluated by other city and county departments, especially as we try to reduce our carbon footprint locally. Thank you.
11/19/2019	Wei-Ting Jonas Chan	jonas.tanuki@gmail.com	Rock Creek Elem	Stoller MS	Westview	As a parent living in Rock Creek ES area, I hope Rock Creek can keep the current assignment to feed to Stoller MS. Our concerns about moving south to Hwy-26 (to Five Oaks MS) involve the follows: Increasing commuting distance and impact on traffic. Moving to Five Oaks boundary will increase the commuting distance for children and family, and may increase the traffic flowing into current traffic hotspots, for example, Hwy-26/185th junction and West Union/185th cross. The move will create much burden for families and even for public transportation. Impact on accessibility to Summa Sites. Five Oaks MS does not provide Summa program while Stoller MS does. Summa students in our neighborhood will need to go to Meadow Park MS for Summa program if Rock Creek ES moves from Stoller boundary to Five Oaks boundary.

11/19/2019	Swati Sutar	swati.s.lohar@gmail.com	Springville K-8	Stoller MS	Westview	We give first priority to schools when buying house for our family, if we look at distance it makes sense to keep Springville kids in stoller middle school, there is no other choice for Springville kids ,only stoller is the right option, after looking at Suggested maps by people from last meeting does not make any sense to send Springville kids to some other middle school , looking at distance all other middle schools are far away than Stoller, so consider Springville to go under Stoller middle school.	
11/19/2019	Sophia	Johnnmh@hotmail.com	Rock Creek Elem	Stoller MS	Westview	Springville K-8	Stoller MS boundary should include all 97229 zipcodes north of HW26 and south of Springville rd to consider both diversity and geological locations.
11/19/2019	Sj	Shuchij27@gmail.com		Stoller MS			The boundary decision should be really considering students who fall in the no bus zone at the Extreme boundary of Stoller middle school and west view and are not walking distance from school (so a safe all is also not an option for them). This way those students will get an option to go by bus as it becomes a very tumultuous task for parents to drop and pick those students every day by car and adds on to the traffic on the road too .
11/19/2019	Xiaojin Jiao	xj.jiao@gmail.com	Rock Creek Elem	Stoller MS	Westview		<p>I have a 3 grader right now attending Rock Creek ES, and a 4 years old, a future RC kindergardener. I have heard/read a lot of discussion/comments about kicking rock creek ES out of Stoller MS.</p> <p>The following are my serious concerns considering the factors mentioned in Board Policy JC.</p> <ol style="list-style-type: none"> 1. Student body composition: Rock creek has about 20% students from low incoming families (I used Free/discounted lunch recipients ratio from https://www.schooligger.com/go/OR/schools/0192001227/school.aspx), which is the bigger factor to maintain the economic diversity in Stoller MS. Without rock creek would drastically change that ratio (currently 11%) in Stoller MS since other elementary schools are all on the other side of distribution (Springville: 15.9%, Sato: 12.9% JW: 5.6%, and Findley 5.5%) 2. Neighborhood proximity and accessibility. If rock creek students got moved out of stoller MS, they would have to go to a middle school on the other side of highway 26 due to the middle-school shortage on this side. It would definitely make the traffic congestion even worse at some locations such as Hwy -26/185th junction and West Union/185th cross, and raise the safety concerns. It makes the biking to school a highly risky and impossible mission. 3. Feeder patterns from elementary, middle to high school: Rock creek - Stoller - Westview has been a well-established academic path for all students in our neighborhood. Students studying in the same elementary, middle and high schools can have more opportunities to build strong and stable childhood friendship, which has positive impact on their mental healthiness. For example, researcher has found "Young adults who had no childhood friends had higher odds of psychological difficulties than those with at least one friend". (https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4398590/) <p>In summary, I strongly against the proposal to just simply kick the kids from rock creek elementary out of Stoller MS. Please kindly consider all factors when you make decisions, and please remember your decision will re-shape many kids' and their families' future life. In the long term, I believe adding new middle schools in the north side of highway 26 should be the correct way to go!</p>
11/20/2019	Hrushi Ketineni	hrushik@gmail.com	Findley Elem	Stoller MS	Sunset		Findley and Stoller are the neighborhood schools for our community, within a mile or mile half. These are inextricably linked with lot of history with siblings, extended family & friends who have gone to Stoller from Findley, this is a big emotional psychological consideration for kids. In addition, kids can walk to Stoller from the Findley neighborhood – highlights the roots these schools have with community. Findley's enrollment numbers are expected to be stable and continuing to feed into Stoller is the only fathomable option With ever increasing need for housing the new developments / communities should be feeding into schools which are in proximity - if there are no schools close by and if they have to take transportation adding few minutes to reach an uncrowded school must be explored e.g. Springville ideally should be K8 school or feed into less crowded school.

11/20/2019	Tracey Vorderstrasse	Tracey.Vorderstrasse@LibertyMutual.	Rock Creek Elem	Stoller MS	Westview	It has been brought to my attention that there are changes being considered relative to adjustment of middle school boundaries. This was brought to my attention by way of a neighbor sharing this information. This information could have significant financial implications to many homeowners who have homes in the area being effected. Has the school district considered the financial implications it may cause to the public in general? Has notification to the public and homeowners that may be effected been sent and/or other notification been posted and/or mailed? Rock Creek Elementary school feeds into Westview Highschool and this needs to be strongly considered. As adjustment from a middle school environment to high school is already a challenge for students, attending a school with a whole new group of peers would be quite overwhelming. I am opposed to moving Rock Creek Elementary to Five Oaks MS.
11/20/2019	Shivani	goelshivani@yahoo.com	Findley Elem	Stoller MS	Sunset	Findley and Jacob Wismer are neighborhood schools to Stoller MS, in that they are literally across the road from Stoller. There should be no adjustments to Findley and Wismer feeding to Stoller when kids can walk to school and there is no additional expense on providing school buses. This makes sense all year round as well as during weather emergencies. The Springville neighborhood is growing rapidly. It makes sense to augment the capacity of existing schools or add new neighborhood schools there.
11/20/2019	Katie Murry	Katieemurry@hotmail.com	Rock Creek Elem	Stoller MS	Westview	I do not think that Rock Creek should be zoned for any other middle school besides Stoller. That is the closest middle school to our neighborhood by far- and we live in Stoller Farms! Stoller Middle School continues the needs of Rock Creek students in their pathway to success. Stoller is in the same community as Rock Creek- all around the heart of Bethany. Other middle schools would be in different communities causing Rock Creek students to feel separated and alone. Stoller Middle School fosters the love of the community of Rock Creek and Jacob Wismer- two elementary schools close into the heart of Bethany. Please don't break up our community.
11/20/2019	Phromporn	Phromprnp@yahoo.com	Findley Elem	Stoller MS	Sunset	We would like to keep our home in Findley/ Stoller/ Sunset area. We bought our house In 2015 specifically for this very reason that our sons have an option to be in these schools let alone dropping in house value if we are out of these zones. So I hope district would not just do that.
11/20/2019	Ritochit Chakraborty	ritochit.chakraborty@gmail.com	Findley Elem	Stoller MS	Sunset	Findley is a feeder school for Stoller MS which is within walking distance for most kids. Kids at Findley have siblings who are at Stoller. They also have tight interactions with kids from nearby schools (such as Jacob Wismer) at after school activities. Being ~1 mile away, on unforeseen inclement weather days or unannounced early closure, kids can actually walk back home (maybe walk down to Laidlaw and then follow Thompson if need be). At the new MS, walking back >2.5 miles along Saltzman which does not have sidewalk on either side all along the way, kids have to cross the road at times to maintain their course posing serious safety concerns. Kids who have spent their formative years together develop deeper friendships than most of us adults can establish. So the request is to (a) maintain Findley as a feeder school for Stoller MS, and (b) do not break the feeder system at Findley based on zonal partitioning as this will negatively impact the emotional development for our kids.
11/20/2019	Wenting	luwenting20@hotmail.com	Jacob Wismer Elem			I understand all the elementary schools/ middle schools, especially in bethany area are exploding. And district is trying to alleviate it by adjusting middle school boundary. I also understand parents' concern why they don't want to, or hesitant at adjusting middle school assignment. The main concern I see are 1: concerning feeder elementary schools to middle school, 2: proximity to middle school for commute, 3: summa program availability. As a parent, I care a lot how this is handled. I believe most of us choose to live in this area because of school. And I hope the changes would address parents concern, and keep providing their kids the same level of support as before.

11/20/2019	Glen Marcusen	ghmarcusen@gmail.com	Rock Creek Elem	Stoller MS	Westview	ACMA	Dear BSD and the Boundary Adjustment Committee, We chose to live in Rock Creek because of the wonderful community and schools. Our child is expecting to go to Stoller middle school in the Fall of '21. Many of the maps drawn by non-Rock Creek parents at the at boundary adjustment meetings taking place are suggesting the district move Rock Creek to 5 Oaks MS. Why are so many parents and kids vying to stay within Stoller's boundaries? It's near our homes! Proximity, neighborhood access and familiarity are hugely important, but interestingly the vision of both schools are vastly different. If you haven't read Stoller's Mission Statement, it's abundantly clear that the teachers, staff and community are committed to creating a creative, safe, challenging and willing to be challenged, global, encouraging, risk-taking, independent and collaborative environment where all student can push themselves to their highest potential. Stoller Middle School's Mission Statement: Stoller Middle School is committed to promoting a safe, supportive learning community that fosters high academic achievement and lifelong learning. We Believe.....the staff, students, parents, and community all share responsibility in creating a positive and emotionally safe school environment....in providing a comprehensive activity-based program based on best practice promoting choice and addressing a student's social, ethical, emotional, physical, and academic needs....all students, staff, parents, and community members need to recognize local and global diversity....creative problem-solving and risk-taking are an effect of continued growth towards independent thinking and learning. Thank you for your time and attention. ...age-appropriate teaching strategies and interactions enable students to be successful, learn and have fun....it is important to recognize the growth and development of early adolescents as they transition from elementary to high school....students should be responsible for their actions and be aware of their effect on others....students should be challenged and challenge themselves to reach their highest potential....students should be recognized for their achievements and accomplishments....technology is an integral part of the learning process. [?] In contrast read 5 Oaks Mission Statement. 5 Oaks Mission Statement: We empower students to become compassionate members of a global society. Rock Creek students are ALREADY empowered, compassionate members of our community and society. We speak over 30 languages at our school and we are practiced in being open-minded, caring, risk-taking, reflective, as well as creative thinkers and inquirers. I want my child to reach his highest potential and he is PRIMED and ready for academic challenge. It is not lost on me that the academically, uninspired mission statement AND MOST IMPORTANTLY, the school data for 5 Oaks clearly paint a dreary picture for kids who attend this school. We want to stay at Stoller because it's in OUR neighborhood and it shares the SAME VISION for learning. Lastly, Rock Creek elementary is the least "advantaged" elementary school that feeds into Stoller. Stoller needs the economic diversity Rock Creek brings to ensure and create equal opportunities for all students.
11/20/2019	Raj Bopardikar	kshipraj@msn.com	Findley Elem	Stoller MS	Sunset		Findley Elementary currently feeds into Stoller Middle school. This works very well from proximity point of view. Findley families live very close to Stoller. For example, I live in the Bannister Heights neighborhood, 1 mile from Stoller. We don't even have a school bus to Stoller, because it is walking distance. Changing this will result in much longer commute and hardships for Findley families. Also, my older son went to Stoller, and we want our younger son (currently in Findley) to have the same middle school as his sibling. Considering the growth in new housing expected in Northwest Bethany, it would be ideal to have a separate middle school catering to that area. Disrupting the middle school for Findley families doesn't make sense.
11/20/2019	Anuja	anuja1234@gmail.com	Findley Elem	Stoller MS			I strongly believe that Findley students should continue to go to Stoller MS. The proximity to Stoller for most Findley students would allow kids to walk/bike to school with their friends. Also, student growth population feeding into Findley is expected to stay constant which would prevent overcrowding issues at Stoller.
11/20/2019	Aparna Kanabar	Aparnakanabar@gmail.com	Findley Elem	Stoller MS	Sunset	ISB	We live walking distance to Stoller middle school. My kids go to Findley right now. they can walk to Stoller when they're in middle school next year. makes no sense to move Findley to a new middle school which is more than 3 miles from my house this is disrupting traffic and adding commute for all Findley families. Need to keep Findley students stoller. Schools that are far from Staller need to be given another middle school option close to their homes

11/20/19	Yinfun Chu	lanlanj@ gmail.com	Rock Creek Elem	Stoller MS	Westview		Rock Creek help stabilize Stoller's population Rock Creek Elementary has a relatively developed neighborhood so few new houses are adding. Rock Creek Elementary has forecast a steady student count, about 550-580 each year. Unlike other elementary schools like Sato which is forecast to have students increased from 596 (2018-19) to 792 (2028-29). Therefore, keeping Rock Creek help stabilize the student count in Stoller. In other words, moving Rock Creek away from Stoller cannot solve the overcrowding problem. Stoller's overcrowding problem will come back in a few years if the feeder schools keep expanding. Establish another good Middle School to share Stoller's popularity – a long term solutionBSD has other middle schools in the area but parents still prefer to send their children to Stoller, because Stoller is a good school. We are going to have a new middle school, Timberland in 2021. Feeding academically strong students to Timberland helps create good reputation of this new school, therefore parents are more willing to send their children to it and thus lessen the burden of Stoller. Findley has a lot of academically strong students so moving Findley to Timberland could be a good start.
11/20/19	Stacey Delsma	stacedelsman@ gmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	My family currently lives in Arbor Oaks which is home to Springville K-8. We have three sons; our oldest attended Springville, Stoller, and now Westview. Our middle son, Springville K-8 (currently a 6th grader there), and our youngest is a 4th grader at Springville. What the district is doing with our schools and boundaries is so disappointing! We have just learned that you are taking away the ability for our kids to attend Springville as a middle school and now you'd like to take away the option of Stoller. Our kids deserve the opportunity to stay in the Stoller boundary (especially if our neighborhood option school will no longer be an option). Many of our kids walk and ride bikes to and from school which will no longer be possible if the boundary is adjusted to send them to Five Oaks. Perhaps the district should be making arrangements for a new middle school to support Springville, Sato, and the future development of North Bethany before they start closing middle schools and redrawing boundaries. These schools are opening and functioning at/or near full capacity as is. Continuing to re-draw boundaries is not the answer, being prepared is. Be proactive instead of reactive. If Springville isn't keeping 6, 7, 8 then build a new North Bethany MS or keep our kids at Stoller.
11/20/19	Yugandhara kangutkar	yuga.kangutkar@ gmail.com	Findley Elem	Stoller MS	Sunset	ISB	Boundary discussion is an important topic and every voice should be heard but its equally imp that judgment should be based upon what's logical and not based on how many people vote towards each school. We have to ensure that it would not bring us back in the same position for at least next 10 yrs Findley is an old established elementary school and has been fed into stoller in the past, few of the things which I would like to point out are listed below-1. Findley is in close proximity to Stoller, for lot of families its under 1.5miles away2. Count of Springville kids is high and its still going up bcoz of new upcoming houses so Stoller will have same overcrowding problem if all the springville kids fed to stoller, instead Findley count is more stable, it makes sense to fed Findley to stoller as it used to be in the past.3. New schools (Springville, Sato) have been added in the 97229 zip neighborhood (which are from growing communities), and its city who is responsible for planning and providing middle schools to new schools, how can it be fair that Findley students get affected because of this imbalance, In past the Findley has been fed to stoller and it should continue doing that. Things to Think: * Springville school was built as K to 8 with the intention to accommodate all these new counts, knowing that Stoller would not be able to take these big numbers. And now when springville can not serve middle school either then it should be diverted to a school which is close proximity but off-course other than Stoller as it can not take these numbers.* Another adjustment that can be done is to move part of population from Springville to Sato, so springville can continue to run as K-8 rather than changing it to an elementary school.
11/20/19	Shivaji Nimase	shivaji.nimase@ gmail.com	Sato Elem	Stoller MS	Sunset		Sato elementary school should be in Stoller middle school boundary.

11/20/19	Koy Reyes	reyesk1220@gmail.com	Rock Creek Elem	Stoller MS	Westview	Stoller Middle School is a better school academically by the numbers and socially with how they handle bullying. Our oldest son went to Stoller and we prefer our younger kids to attend Stoller also.
11/20/19	RAYMUND MANABAT	ray73331f@yahoo.com	Rock Creek Elem	Stoller MS	Westview	We would like to request to keep the same school district please due to geographic location to where we lived.
11/20/19	JM Hsu	Jmhsu1217@gmail.com	Rock Creek Elem			For the relief of student number in Stoller , here are some thoughts of why keep Rock Creek in Stoller & feed Finely to Timberland will be the solution to bring balance to the schools and the region.1. Bring necessary ETHNIC DIVERSITY to both Stoller and Timberland. Rock Creek will be a good fit for Stoller and provide the diversity, and so as Finely to Timberland. Finely students will help new school[?]s rating and therefore build another great MS for the region.2. Minimizing the IMPACT cause by the change. Which one cause bigger impact to a family? Move their students from rated 8 school to new school or move from rated 8 school to rated 4 school ? The impact to the rare one could be huge, not only to the family also to the area and their elementary school, maybe high school too. Please minimize the gap that can possibly impact the families in all regions. Keep Rock Creek in Stoller & feed Finely to Timberland could bring the balance and make the impact smaller in many ways. Please give our kids a better education opportunity. Thank you !
11/20/19	Maria Mateus	alegriam1@hotmail.com	Springville K-8	Stoller MS	Westview	The main criteria for establishing school boundaries is proximity. Springville Elementary is 2.2 miles away from Stoller MS and 4.5 miles away from Five Oaks. That alone should eliminate the possibility of Springville feeding into Five Oaks. The idea of creating a new Middle School in the Northern part of the District was to improve middle school education in a very crowded area. We all agree that Stoller is overcrowded and needs to reduce the number of students if it wants to continue giving quality education. But now that the new school is about to open it seems it is actually affecting the area in a negative way rather than improving it. There has to be a better way of modifying the MS boundaries so that students got to the school closer to their homes with minimal impact in relation to the current situation. There is definitely the need for another Middle School in this area.
11/20/19	Christy Constantine	christyconstantine75@gmail.com	Rock Creek Elem			Regarding boundary changes, BSD has stated it would be considering the following points so I would like to address my feedback around these categories as you consider the future of Rock Creek students.Neighborhood proximity: I see highway 26 as a very definite natural boundary in both commute and community. Students North of 26 walk and bike with freedom to their middle school and throughout these communities, but rarely cross 26. During school snow days Rock Creek parents have walked, along an integrated trail system, to pick up their students. And while the school building of Rock Creek lies deceptively close on a map, our attendance area stretches much further away from 26, so using the school as commute measurement is inaccurate. From a practical community standpoint, adding traffic to 185th near the 26 interchange in the morning commute would be a nightmare. The time it takes to pass the fire station is already delayed. So also, as regards proximity, we need to consider not just distance, but also traffic flow and impact on the existing traffic patterns. When did the district last do a traffic study around this?Student composition: This is phrased ambiguously. However, during the discussion of high school boundaries, this was described as an attempt to address equity and socioeconomic diversity across our district. Sending Rock Creek out of Stoller, and across 26, will only widen the severe equity gap in BSD middle schools. Feeder patterns: Stoller should be restricted to feeding Westview. It is overpopulated and the district has stated that feeding patterns are a priority. Thankfully, Timberland is coming on board in reasonable proximity, north of 26, and was built to help alleviate this growth North of 26. That was its purpose and we should see that through. Therefore, students nearer Timberland, who will later feed into other high schools, should be shifted that direction.Thank you for accepting community input and considering these factors!!

11/20/19	Usha Praveen	ushapraveen06@gmail.com	Rock Creek Elem	Stoller MS	Westview		Hi, It makes sense for kids to go to schools in the 'neighborhood' -- for Rock creek, Stroller is the logical neighborhood and not Five Oaks which is on the other side of Hwy 26 and clearly NOT in the neighborhood. Commute time for kids will likely double considering the congestion to cross over to other side of Hwy 26. It is also important to make sure school transitions (elementary to middle to high) are kept smooth for kids by assigning schools of similar comparative rankings they feed into. For kids going to Rock creek the current path of StrollerMS and WestViewHS puts them in a similar comparative ranking of schools, making their school transitions smoother. If MS changes to Five Oaks which is presently much lower in comparative ratings, both of their school transitions (middle and high) will be much harder and not fair to Rock creek kids. For de-congesting Stoller, we should look at ways to assign current elementary schools on the east side to the new Timberland school.
11/20/19	priti khunteta	priti_khunteta@hotmail.com	Findley Elem	Stoller MS	Sunset		BSD should take long term view of solving the problem. If BSD is trying to solve the problem of Stoller getting over crowded that will not be solved by moving Findley out of Stoller and adding new communities like Springville feed to Stoller. Springville area is seeing lot of constructions and will continue to have more students and will result into same problem in couple of years. I believe Stoller can take feed from Findley, Jacob Wismer and Sato. Since there is not a lot of constructions happening in this Findley neighborhood it will make sure Stoller does not see over crowding problem in coming years
11/20/19	SAMIRA RANJBARIAN	samirar20@yahoo.com	Rock Creek Elem	Stoller MS	Westview	Health and Sciences/SST	Considering the distance and neighborhood. Stoller is 1 mile away from us. Five oaks would be 7 miles away! Rock creek students have to commute a much longer distance to five oaks! As a parent I strongly want my kids to go stoller. I'm objecting to go to five oaks.
11/20/19	Halima Khatun	munne_masud@yahoo.com	Findley Elem	Stoller MS	Sunset		Stoller Middle school should continue to accept Findley Elementary graduates as it is the 2nd closest Elementary school after Jakob Wismer Elementary school. Many students walk to school as it is convenient to them. School district should build a new middle school at North Bethany to support fast growing North Bethany population.
11/20/19	Jyothi	nagajyothi.cse@gmail.com	Findley Elem	Stoller MS	Sunset		I strongly recommend Findley elementary to be fed into Stoller middle school. More than half of Findley students are in walking distance to Stoller, and these communities are already established and no growth expected. To accomodate new construction in North Bethany, there is a need for new middle school in North Bethany to feed springville and Sato schools. Other option is to leave Springville as K-8, make this as their home school, and remove Stoller for springville. To address overcrowding issue for Springville school, elementary schools boundaries should be adjusted if needed.
11/20/19	Usha Ketineni	ushaketineni@gmail.com	Findley Elem	Stoller MS	Sunset		Thanks for giving opportunity to give our input. Findley and Stoller are our neighborhood schools which are within couple of miles. Given proximity and long history of Findley families going to Stoller, Findley should continue to feed into Stoller. Overcrowding in Stoller is a problem coming from new development in north bethany, this problem is going to be exacerbated with more development - ideal solution is to feed the north bethany development into less crowded school. Findley and Jacob Wismer are proximity schools that should continue to be part of the Stoller middle school community.
11/20/19	Kiran	kkumar.edu@gmail.com	Findley Elem	Stoller MS	Sunset		Springville k-8 school has been built to accommodate both elementary and middle school needs for new construction. Changing this to only elementary will not be a solution. This should be K-8, and Stoller should be removed for Springville students. Elementary school boundaries can be adjusted if needed to accomodate this. I strongly oppose disturbing already established communities in favor of new constructions.

11/20/19	Alex	Alex_p_sutton@hotmail.com	Rock Creek Elem	Stoller MS	Westview		Shifting Rock Creek students from Stoller to Five Oaks will totally upend our community. The idea of busing our children over highway 26 into a new and distant neighborhood seems totally contrary to the goals of this board. It would also stifle economic diversity and further homogenize an already too similar student body at Stoller. From a parent's perspective, we moved to our neighborhood largely so that our children could attend good local schools, this is not what we planned or bargained for. This will be a step backwards!
11/20/19	SANYASI DASARI	sunny_dsn@yahoo.com	Findley Elem	Stoller MS	Sunset	ISB	Dear Sir/Madam,My daughter and son studying in Findley Ele school, they suppose to goto Stroller in 2021 but due to these boundary changes we will be going to a different school, which is new and very far for us. Our main concern is Kids has to dependent on school bus all the time and it will kill most of their time and they get strain every day. If it is Stroller it is very easy for our commute and close to our home. Kids can go by walk in summer time.It would be good & preferred to have STROLLER as our middle school.Thanks for understanding.Dasari & Family.
11/20/19	Pam Sandusky	Pamsandusky@hotmail.com	Rock Creek Elem	Stoller MS	Westview		Please keep Rock Creek students feeding into Stoller. We moved to our neighborhood because of our 3 schools and continuing to go to school in our community (on the North side of the highway) is very important to us. Not to mention how bad the traffic would be if our kids had to go over the Highway to go to school.
11/20/19	Roberto Morescalchi	roberto.morescalchi@gmail.com	Rock Creek Elem	Stoller MS	Westview		Dear Members of the Boundary Committee, School Board, and Families,This is clearly and emotionally charged matter with widespread and long term implications. As Parents of a family with our oldest child finishing eight grade at Stoller and our youngest soon to start sixth, We have multiple and strong concerns about the proposals or opinions of shifting to have Rock Creek Elementary feed into Five Oaks Middle School going forward. Though it may look good on paper or on a map, this would be myopic at best.While budget and resources are already constrained and, sorry, no BSD is perfect, Five Oaks seems to have issues performance, staffing, and student body issues to address before even considering adjusting the existing boundaries to potentially increase and destabilize its community and population. Please weigh with great care the input you are receiving directly or indirectly which could impact the thousands of children, parents, friends by a decision not carefully thought out. As a Rock Creek family of a long established community, and obviously as so many others that chose to set roots in specific neighborhoods that would afford their children the best educational opportunities with means available, our family kindly asks you to have Rock Creek Elementary continue to grow the Stoller Middle School community going forward, at the very least until the other BSD options have proven to overcome what could be interpreted as disparities that would put our children at immediate risk, harm, and disadvantages for years to come. Kind regards.
11/20/19	Shipra	Shipra.tandon@gmail.com	Findley Elem	Stoller MS	Sunset		I strongly request not to disrupt existing neighborhoods in lieu of new neighborhoods. Kids are looking forward to go to Stoller, walk to school or in some cases ride to bus within a mile. We are paying good amount in house taxes and picked up expensive homes based on the schools not to get to a point where boundaries are changed when kids are ready to go to MS. It's essentially forcing parents to look for private schools. No boundary change for Findley Elementary please, it should stay with Stoller and continue to have SUMMA program.

11/20/19	Satish	Itsmemm@yahoo.com	Rock Creek Elem	Highland Park MS	Westview	<p>Hi BSD, My kids go to Rockcreek elementary. Rockcreek elementary has been part of Stoller ever since Stoller was built. Later, Bethany area got crowded and many new elementary schools were built, but not enough number of middle schools. Ultimately all these new schools came under Stoller. I believe when county gives approvals for new homes, they should plan properly and make sure if they have enough number of seats in middle school. If not, build a new one. It is not fair to build new communities and new elementary schools and feed to the existing middle schools and kick out the existing elementary schools like Rock creek elementary. I believe Rockcreek should continue to be under Stoller middle school boundaries. I request the BSD board members to consider this and do not impact Rockcreek elementary which was always part of Stoller to accommodate new schools. New elementary schools deserve a nice new middle school. Thanks !</p>
----------	--------	-------------------	-----------------	------------------	----------	---
