Ford Middle School Facility Information

The district's first junior high school was built in 1958 and expanded in 1965. It was named for Morris E. Ford, the district's first superintendent. Ford became a middle school in 1985. The campus-style facility contains 40 classrooms built around a landscaped, central courtyard which was completely repaved in 2010. In 1991, the football field was renovated; in 1992, the soccer and baseball fields were renovated and a new fire alarm system was installed. In 1994, we converted an unused storage area into a modern art room to better serve our students. Ford's first major remodel occurred in September of 2000. After a levy was passed to start a complete remodel of our cafeteria, construction began during the 2015-16 school year. The project was completed in the summer of 2016. In Summer of 2017 began the work of another remodel on campus. Our gymnasium and courtyard was fully demolished in the fall of 2017. We had a grand opening for students and staff in the fall of 2019.

Plans for Learning Improvement

Ford believes in continuous improvement and students ability for increased academic achievement. Key areas of focus this year are surrounding Math and English Language Arts interventions. The Math team is focusing on increasing student time spent on math discourse and identifying and providing additional supports to students experiencing challenges grasping the content. The English Language Arts team is incorporating intentional focused notetaking and an increase of critical reading strategies. Both content areas receive continuous professional development on best practice instructional strategies and are provided collaborative time as a team to make plans around student achievement goals.
