616 SCHOOL DISTRICT SYSTEM ACCOUNTABILITY

I. PURPOSE

The purpose of this policy is to focus public education strategies on a process which promotes higher academic achievement for all students and ensures broad-based community participation in decisions regarding the implementation of the Minnesota Academic Standards and the No Child Left Behind Act.

II. GENERAL STATEMENT OF POLICY

Implementation of the Minnesota Academic Standards and No Child Left Behind Act will require a new level of accountability for the school district. The school district will establish a system to transition to the graduation requirements of the Minnesota Academic Standards. The school district also will establish a system to review and improve instruction, curriculum, and assessment which will include input by students, parents or guardians, and local community members. The school district will be accountable to the public and the state through annual reporting.

III. DEFINITIONS

- A. “Credit” means a student’s successful completion of an academic year of study or a student’s mastery of the applicable subject matter, as determined by the school district.
- B. “Graduation Standards” means the credit requirements or Minnesota Academic Standards that school districts must offer and certify that students complete to be eligible for a high school diploma.
- C. “World’s Best Workforce” means striving to: meet school readiness goals; have all third grade students achieve grade-level literacy; close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty; have all students attain career and college readiness before graduating from high school; and have all students graduate from high school.

IV. ESTABLISHMENT OF GOALS; IMPLEMENTATION; EVALUATION AND

REPORTING

A. School District Goals

1. The school board has established school district-wide goals which provide broad direction for the school district. Incorporated in these goals are the graduation and education standards contained in the Minnesota Academic Standards and the No Child Left Behind Act. The broad goals shall be reviewed annually and approved by the school board. The school board shall adopt annual goals based on the recommendations of an Advisory Committee for Continuous Improvement of Student Achievement (Advisory Committee).
2. The improvement goals should address recommendations identified through the Advisory Committee process. The school district's goal setting process will include consideration of individual site goals. School district goals may be developed through an education effectiveness program, an evaluation of student progress committee, or through some other locally determined process.

B. System for Reviewing All Instruction and Curriculum. Incorporated in the process will be analysis of the school district's progress toward implementation of the Minnesota Academic Standards. Instruction and curriculum shall be reviewed and evaluated by taking into account strategies and best practices, student outcomes, principal evaluations under Minn. Stat. § 123B.147, Subd. 3, and teacher evaluations under Minn. Stat. § 122A.40, Subd. 8, or 122A.41, Subd. 5.

C. Implementation of Graduation Requirements

1. The school board shall annually review and determine if student achievement levels at each school site meet federal and state expectations. If the school board determines that student achievement levels at a school site do not meet federal and state expectations and the site has not made adequate yearly progress for two consecutive school years, the school site shall adopt a plan to raise student achievement levels to meet federal and state expectations. The plan must include parental involvement components.
2. The educational assessment system component utilized by the school board to measure individual students' educational progress must be based, to the extent annual tests are administered, on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or district-wide assessments. The school board will utilize

models developed by the Commissioner for measuring individual student progress. The school board must coordinate with MDE in evaluating school sites and continuous improvement plans, consistent with best practices.

D. Advisory Committee for Comprehensive Continuous Improvement of Student Achievement

1. The Advisory Committee, working in cooperation with other committees of the school district will provide active community participation in:

 - d. A local plan to evaluate student progress, using a local process, shall be used for developing a plan for assessment of student progress toward the Graduation Standards, as well as program evaluation data for use by the Advisory Committee in the instruction and curriculum review process. This plan shall annually be approved by the school board.
