Please note that this list is provided to assist Harrison families in renting or purchasing an instrument and is not intended to be an endorsement or referral to any particular business. If there is a local business that we have omitted, please let us know so we can add it!

Please be aware of internet auction sites, internet wholesale sites, and retail stores that sell anything other than music supplies! There may be some incredible looking deals here, but they are far more trouble than they are worth. All rented or purchased instruments should come from a reputable music store that offers an insurance policy as well as a repair policy.
