 - a. Human Anatomy and Physiology - presented by Tim Percoski
 - b. ECE Popular Music and Diversity in American Society - presented by Mary DiRoberts
 - c. Computer Aided Drafting and Design - presented by Michael Sanchez

All three courses will provide students with the opportunity to explore and expand their knowledge within a particular subject area. Each course will also provide rigor within the subject matter, challenge students to expand their knowledge base, think critically and improve skills related to those fields.
