**To: Parents/Guardians of Junior Students**  
**From: John Carroll, Principal**  
**Reference: ACT/SAT Test Preparation Opportunities**

Junior students have the opportunity for special preparation for the spring ACT and SAT testing. The following is a brief synopsis of these preparation clinics. Please read them over carefully, check the dates, the cost, and use the registration form to register your student for after-school sessions and/or the three Saturday sessions as seating is limited in each clinic.

**PREPARING FOR THE ACT/SAT English, Reading, and Math Tests-**

The purpose of these offerings is to increase familiarity with the ACT/SAT tests, build confidence and reduce test anxiety. Topics include understanding the format of tests, and specific directions for each, as well as test-taking strategies for each. Grammar, usage and mechanics for the ACT English section will be reviewed. Students will discover basic approaches for solving analogies, and review methods used to successfully attack verbal math, word usage, and understanding sections of the ACT & SAT. These opportunities employ Centerville High School instructors who are well prepared to conduct these clinics.
