a note from the teacher

Dear Students and Families,

I hope that everyone had a nice Thanksgiving Break with their family and friends! We enjoyed another wonderful TLC feast at school this year to help celebrate the holiday. This month we will focus on graphing for math and for reading we will focus on word meanings while we read/listen to various texts. As always students will continue to work on achieving their individual IEP goals and developing life skills. We will also continue to practice making small purchases in the community. I am looking forward to another great month of fun and learning!

Mrs. Jessica
