## **Core Music: Kindergarten**

*Families as Partners in Learning*

The focus for the music department is to develop units of instruction and assessments for our four Artistic Processes: (1) making meaningful expression such as performing on an instrument or singing (**PERFORMING**), (2) expressing personal ideas by composing or improvising music (**CREATING**), (3) responding to music such as critiquing the work we hear (**RESPONDING**), (4) interpreting symbolic expression by different disciplines, cultures, and history (**CONNECTING**). The integration of technology with music specific digital tools is ongoing to enhance the learning opportunities for all students, “Communicate effectively for a given purpose” and “Recognize and respect other cultural contexts and points of view.”

All students will develop knowledge of the varied career pathways that can be accomplished while participating in core music.

All students will prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.

As a means of having a uniform teaching approach and methodology for core music, grades Pre-K through 5<sup>th</sup> grade, the core music faculty implements the music curriculum created by Dr. John Feierabend. A national leader in music education, Dr. Feierabend is Professor Emeritus of Music Education at The Hartt School of the University of Hartford and is a past President of the Organization of American Kodály Educators.

First Steps in Music for Preschool and Beyond<sup>[1]</sup> is Feierabend’s text for Pre-K through the end of 1<sup>st</sup> grade. Its focus is developing singing and movement skills, and it is rich in traditional folk music. The design encourages students to be “tuneful, beatful, and artful” (p.10). He suggests the following “musical workout:”

1. Pitch Exploration
2. Song Fragments (echo/call & response songs)
3. Simple Songs
4. Arioso (Child-created Tunes)
5. SongTales (songs that tell a story)
6. Movement Exploration
7. Movement for Form and Expression
8. Movement with the Beat

Based on this methodology, the Pre-K/Kindergarten and Grade 1 Core Music Units of Instruction include three strands—Tuneful, Beatful, and Artful. At the end of first grade, students are assessed for their readiness to move into Conversational Solfege.

- Humans are born with an instrument for making music - the voice.

#### Creating

- Improvisation expresses ideas in the moment.

#### Responding

- People listen to music for a variety of reasons.
- Listening to music evokes emotions.

#### Connections

- Music connects us to the past, present, and future.

Recognize same/different in Level 1 'ariosos.'

Discover different ways I can move my body.

Move in my own personal space.

Move expressively to recorded music.

Make connections between the songs and movements I make in class to other disciplines (math, language arts, P.E., art) and to my daily life.
