Dear Campers and Parents

We're so excited that Summer 2020 is just around the corner!

This summer, we'll debut a new enrichment camp for 4 year olds. **Fabulous Fours** will be offered at Main Campus and Woodward North, in response to families who asked for the opportunity for their younger kids to experience all that WA Summer Camps have to offer.

Our littlest campers will spend their mornings engaged in fun and academically enriching activities with Woodward faculty members who specialize in understanding the needs of four year olds.

Meanwhile, **kids ages 5 to 17** can choose from a wide array of academic, enrichment, and athletic camps where they can learn and grow while making new friends. New camps this year include **Shark Week**, when campers will learn all about what makes sharks unique, from their skin to their teeth; **Slime City**, when kids will make multiple types of slime and use it to conduct scientific observations; and **Jump Start Geometry**, which will teach terminology and concepts to lay a foundation for a successful academic year.

Now is the time to begin planning, so please take a look at this magazine for a glimpse into what awaits campers in Summer 2020. For all camp descriptions and to register, go to woodward.edu/camps, where you'll also find helpful information and FAQs.

If you have any questions, please feel free to reach out to me directly as well.

I can't wait to see you this summer!

Dr. Jamy Lea Juhan, Ed.D

Director of Summer Programs

Get to Know Our Staff

“I enjoy camps because everyone involved has a summer mindset for growth. We are all excited, relaxed, and ready for something new and engaging to shape our lives. As a community, we share this special and unique time to grow, bond, and learn in ways that build lasting relationships and lifelong memories. In addition, we get to have a whole lot of fun, eat great food and snacks, and play some wicked fun games!”

— Ryan Heming

Mr. Heming has taught and coordinated instructional technology in the Primary School for 18 years. When he isn't teaching computer, library, and maker skills, he can be found mountain biking, playing ice hockey, or jumping into glacial rivers in Iceland. Your child can join Mr. Heming this summer for MineCraft EDU and Robot Wars, Bot Battles, and Game camps.

“I love making games out of everything we do in camp, and I enjoy having extended periods of time to work on STEAM projects with my campers.”

— Chuck Marshall

Mr. Marshall joined the Summer Camps team in 2017. He hosts a variety of camps each summer including Introduction to Robotics, Robot Warriors, and YouTube Junioriversity. Mr. Marshall teaches STEAM (Science-Technology-Engineering-Arts-Math) in the Woodward Academy Middle School.

“The most enjoyable aspect of camp for me is the campers! Experiencing their enthusiasm and willingness to explore creative activities makes every summer fulfilling and fun! People often ask me why I ‘give up’ my summer to host camps. I always respond by quoting Rumi, ‘Let what you love be what you do.’”

— Jasmine Wakeel

Ms. Wakeel is the Primary School After School Care Director and a 2011 Woodward graduate. She hosts a variety of camps including Slime City, Candytopia, and “Nailed It” Baking Challenge.

What Kids Parents Are Saying

"We are a new Woodward family, so basketball camp and academic camp introduced our son to his new school and allowed him to get comfortable with all aspects of the Academy. Everything from riding the bus every morning, making friends, eating in the cafeteria, and meeting teachers prepared George to jump right in and feel a part of things. We will definitely do the camps again next summer, and I would highly recommend them to new or returning families."

Carolyn Patterson, Mom of **George** (3rd Grade)

"My son loves Woodward Summer Camps. For years, he struggled with learning how to swim. After only one week of swim camp, he was swimming like a fish. I was so amazed and proud of what the team at Woodward had accomplished in just one short week! WA Summer Camps offer so many great classes that allow the kids to learn while having fun. Marquis makes new friends every year and speaks highly of the staff. We continue to have positive experiences, and my son can't wait to come back again next summer!"

Katrina Bivins, Mom of **Marquis** (5th Grade)

"As a parent, I love the variety of the Woodward Summer Camps. My two daughters, Sophie, Class of 2024, and Audrey, Class of 2026, have very different interests, yet they both found personally fulfilling camps that they didn't want to miss. Sophie (pictured) loved the expert coaching in the Triathlon Camp as well as the extra instruction she received in math camp. Audrey had a literal blast in science camp. She came home each day telling us about the objects she learned to propel!"

Ronda Zents, Mom of **Sophie**, (8th grade) and **Audrey** (6th grade)

More **Camper Profiles** on the next page

“We loved having the option to choose different camps each week to keep it fresh! Everyone was so friendly and helpful, which made my son excited to go to camp each day. We can’t wait until next year.”

Leticia McCadden, Mom of **Jace** (Kindergarten)

“I loved learning to code, and I made two apps during camp!”

— **Elizabeth McGivern** (5th Grade)

“We loved the convenience and versatility of Woodward camps! Our daughter enjoyed seeing Woodward classmates and making new friends while coding, learning robotics, and participating in recreational activities.”

— **Deb Houry**, Elizabeth’s Mom

“Woodward Summer Camps allow for kids to have a balance of both enrichment and fun. From coding video games to swimming to learning new math concepts, our son has had a well-rounded experience.”

Fonda Martin, Mom of **Pierce** (1st Grade)

“I loved science camp because I got to do all kinds of fun experiments and learn the science behind them!”

— **Evie Semaan** (5th Grade)

“My kids loved the Woodward Summer Camps! What’s not to love: entertaining and engaging teachers; caring and supportive student helpers; not to mention the kids raving about the food!”

— **Jane Semaan**, Evelyn’s Mom

CAMPS
