Thomas Jefferson Middle School Presentation

Mrs. Antoinette Emden, Principal, informed the Board that for the 2016-2017 school year, her staff focused their efforts on empowering students to have a voice and be leaders in the school community. She stated that a student leader is an integral part of a successful school, because they create a community of shared responsibility and accountability. Student leaders have character, grit and purpose to excel, trying their best in all that they do. Mrs. Emden introduced three eighth grade student leaders: Emily Heller, Vincent Nguyen and Abigail Alvarez who are perfect examples of student leadership. They consistently model the behaviors and attitude that all students must have to be successful. Each one shared one focus area they feel makes Thomas Jefferson Middle School a great place to learn and grow.

#1. Problem-based Learning – Thomas Jefferson Middle School’s building-level goal is inquiry based learning, which is a student-centered approach where students learn about a subject by working in groups to solve an open-ended problem. The problem is what drives the motivation and the learning of students. Abigail Alvarez shared her experience with problem-based learning and how this approach has helped her to improve her learning, literacy and life skills.

#2. Student Leadership – Emily Heller discussed how learners are given leadership opportunities in the building. She answered the question, “How are students empowered to share their voice and assume a leadership role”. For example, students are identified to facilitate student award programs, create bulletin boards for the school community, create activities/events to engage the school community, and represent their grade-level as Jaguar Ambassadors. She also shared how the diversity at Thomas Jefferson Middle School has enriched her experience as a student.

#3. AVID College Fair – Vincent Nguyen discussed the AVID College Fair event which was developed by students who wanted the school community to learn about different colleges in the United States. Students selected a college to research and create a presentation board. During the school day, students visited the presentations and used a QR code to vote on the best college presentation. With this event, the students promoted interests and communicated attending college is a possibility for all learners who consistently apply themselves.

Discussion:

- Chartwells Dietitian, Ms. Krista Petersen, ran a power point presentation showing the new federal commodities that are available to the district and explained the five components of a school lunch. The students must take at least three components in order for it to be considered a reimbursable lunch for state and federal funding.
- Chartwells announced that they will have Celebrity Chef Bal visit the district during the week of March 27<sup>th</sup> and will pilot a food station called Bal's Fresh Flavors at Edison High School on April 20, 2017.
- The school representatives discussed the following:
  1. The students really enjoy Dominos Days, but there were some delivery issues during the last Dominos Day. *Chartwells stated that they had been in contact with Dominos corporate office to work with the local Dominos store to ensure prompt service for future Dominos Days.*
  2. The schools lunch staff is sometimes moved to other locations causing serving issues. *Chartwells explained that when they have numerous absences, they must shift employees around to cover the absence. They are attempting to hire additional substitutes.*
  3. The fruit served for breakfast is nearly always an apple. Can other fresh fruits be offered? *Chartwells explained that the federal commodities always include apples, which are available all year. They tried oranges, but the younger children had problems peeling them and got very sticky from the juice. Chartwells stated that they would try to introduce other fresh fruits, such as bananas and pears.*
  4. There was a discussion regarding the possibility of changes to the federal guidelines that may give the district more flexibility to the portion sizes and the whole grain requirement. *Chartwells is waiting for the federal guideline updates to see if there are any modifications.*
  5. Many schools were concerned about how much food is discarded by the students. *Chartwells stated that some schools have started a "Share Table" where students can place their unwanted food, such as milk, cereal bars, fruit, etc. into a basket and other students can help themselves if they are still hungry. In addition, John P. Stevens High School has recently started a compost for food waste to be used in their greenhouse.*
- The meeting adjourned at 5:54 P.M.
