

7444 USE OF METAL DETECTORS

The Board of Education is committed to protecting the health, safety, and welfare of all children, staff, and visitors of the school district. The Board authorizes the school district administration to use walk-through and/or hand-held metal detectors at any school district activity and in the school district's buildings or on "school grounds". These metal detectors may be used for entrance into a school building, on "school grounds", as defined in N.J.A.C. 6A:16-1.3, or at any school district activity where the Superintendent or his/her designee believes a security threat may be present.

Persons entering a school building or attending a school activity may be subject to daily, regular, or random screening with a metal detector. The metal detector may be a walk-through, hand-held, or other type of metal detection device. The Superintendent or designee shall determine if the screening shall be daily, regular, or random upon evaluating the security threat posed by the situation at the time. The screenings may take place before: entering a school building; gaining access to school grounds (as defined in N.J.A.C. 6A:16-1.3); being admitted to a school activity; boarding or unloading a school bus; and/or before gaining access to any other location and/or activity sponsored by this school district. Persons that do not consent to a metal detection screening may be denied admittance.

The Superintendent may recommend the Board purchase metal detectors approved for the school district's intended use; shall schedule training and re-training for all personnel using metal detectors; shall provide additional training for all personnel trained and authorized to use metal detectors in the event there is a security breach near or at the location of a metal detector; and shall coordinate all school district metal detector tests in accordance with the requirements as outlined in the manufacturer's specifications. The Superintendent shall maintain records for the purchase of metal detectors, training and re-training of personnel in the use of metal detectors and potential security breaches, and the testing of metal detectors.

The Edison Police Department will be immediately contacted in the event a person is found to have in their possession any item that poses a threat to the security of the person(s) or others.

All school district parent, pupil, and faculty handbooks will indicate: "The Edison Board of Education may use metal detecting devices in all school buildings, on school grounds, and at all school activities."

Adopted: 24 January 2011
