Students

Student Sunscreen Use

The Groton Board of Education (Board) believes in promoting sun safety to ensure that children are protected from skin damage caused by harmful ultra-violet rays in sunlight. The Board believes that by encouraging sun safe behavior and teaching children about the risks of sunlight, they can be protected from skin damage and lessen the risk of skin cancer.

The purpose of this policy is to allow any student who is six years of age or older, to possess and self-apply an over-the-counter sunscreen product while in school prior to engaging in any outdoor activity, provided a written authorization is signed by the student's parent/guardian and is submitted to the school nurse. The written permission from an authorized health care provider is not necessary.

Implementing Procedures:

- 1. Students are allowed to carry and use sunscreen, during school hours, without a physician's note or prescription on school property or at a school-sponsored activity provided the student's parent/guardian has provided written authorization to the school nurse.
- 2. Students/Parents/Guardians are to provide the sunscreen product for school use. The sunscreen must be:
 - a. Clearly marked with the child's name.
 - b. Replenished by the parent/guardian as needed.
 - c. A product regulated by the U.S. Food and Drug Administration for over-the-counter use.
- 3. Aerosol sunscreens, as well as combined sunscreen and insect repellents are prohibited.
- 4. The District is not responsible for ensuring that the non-aerosol topical sunscreen product is applied by the student.
- 5. The sunscreen product is to be stored in the student's book bag/backpack or other location designated by the teacher.
- 6. Students are not to share sunscreen with other students.
- 7. The student must be able to apply his/her own sunscreen.
- 8. School personnel are not expected to assist students in the application of sunscreen.
- 9. Subject to the provisions of the dress code policy, students are allowed to wear articles of sunprotective clothing, including hats and glasses, when not in school buildings. Clothing that protects the skin should be worn, particularly for outdoor activities and school trips.

Student Sunscreen Use (continued)

- 10. It is recommended that the sunscreen used by students be a high factor sunscreen with a sun protection factor (SPF) rating of 15 or higher.
- 11. Parents/guardian of children with allergies or skin sensitivities should check with a health care provider before providing a sunscreen.

Revocation or Restriction of Permission to Use Sunscreen

School personnel may revoke or restrict the possession, application or use of a non-aerosol topical sunscreen product by a student if any of the following occurs:

- 1. The student fails to comply with the school rules concerning the possession, application, or use of the non-aerosol topical sunscreen product.
- 2. The student shows an unwillingness or inability to safeguard the non-aerosol topical sunscreen product from access by other students.

When school personnel revokes or restricts the possession, application or use of a non-aerosol topical sunscreen by a student, a written notice of such action shall be provided to the student's parent/guardian.

Live Animals in the Classroom

Service Animals

The Groton Board of Education adopts this policy to ensure that students or staff with disabilities are permitted to participate in and benefit from district programs, activities, and services, and to ensure that the district does not discriminate on the basis of disability.

Groton Public Schools will comply with all state and federal laws and regulations concerning the rights of students or staff with service animals

A "service animal" is a dog, or in specific circumstances, a miniature horse, that has been individually trained to do work or perform tasks for the benefit of a student or staff with a disability, and the work or tasks performed are directly related to the student or staff's disability or necessary to mitigate the disability. No other species of animal, whether wild or domestic, will be permitted in district schools, school activities or programs or school transportation vehicles as a "service animal."

The Superintendent or their designee shall be responsible for developing procedures regarding students' or staffs' use of service animals in accordance with this policy.

Live Animals in the Classroom Service Animals

This regulation is adopted pursuant to Groton Public Schools' (GPS) policy and in compliance with all state and federal laws and regulations concerning the rights of students or staff with service animals.

Definitions

Partner/Handler: A person with a service animal. A person with a disability is called a partner; a person without a disability is called a handler.

Pet: A domestic animal kept for pleasure or companionship. Pets are not permitted in district facilities. Permission may be granted by an administrator for a pet to be in a district facility for a specific reason at a specific time (e.g., a pet dog is used as a demonstration tool in a class).

Service Animal:

- Any dog that has been individually trained to do work or perform tasks for the benefit of a student or staff
 with a disability, including, but not limited to, a physical, sensory, psychiatric, intellectual, or other
 disability
- 2) A miniature horse that has been individually trained to do work or perform tasks for the benefit of a student or staff with a disability, provided that permitting the horse as a service animal is appropriate, after considering the following factors:
 - 1. The type, size, and weight of the miniature horse and whether the district facility can accommodate these features;
 - 2. Whether the handler has sufficient control of the miniature horse;
 - 3. Whether the miniature horse is housebroken; and
 - 4. Whether the miniature horse's presence in a specific district facility compromises legitimate safety requirements that are necessary for safe operation.

The work or tasks performed by a service animal must be directly related to the student or staff's disability or necessary to mitigate the disability.

Service animals do not include any other species of animal, whether wild or domestic, trained or untrained,

Emotional support animal: An animal whose sole function is to provide emotional support, well-being, comfort, companionship, or therapeutic benefits, or to act as a crime deterrent. Emotional support animals are not service animals for purposes of this regulation.

Team: A person with a disability, or a handler, and his or her service animal. The twosome works as a cohesive team in accomplishing the tasks of everyday living.

Functions of Service Animals

Service animals perform some of the functions and tasks that students or staff with disabilities cannot perform themselves. Service animals are not pets.

There are several kinds of service animals that assist students or staff with disabilities. Examples include but are not limited to, animals that:

- assist students or staff who are blind or have severe sight impairments;
- alert students or staff with hearing impairments to sounds;
- pull wheelchairs or carry and pick-up items for students or staff with mobility impairments; and
- assist students or staff with mobility impairments with balance.

Examples of service dogs include:

A *Guide*, or *Seeing Eye Dog* is a carefully trained dog that serves as a travel tool to students or staff with severe visual impairment or who are blind.

A *Hearing or Signal Dog* is a dog who has been trained to alert a student or staff with significant hearing loss or who is deaf when a sound, e.g., knock on the door, occurs.

A *Psychiatric Service Dog* is a dog that has been trained to perform tasks that assist students or staff with disabilities to detect the onset of psychiatric episodes and lessen their effects. Tasks performed by psychiatric service dogs may include reminding the handler to take medicine; providing safety checks or room searches, or turning on lights for students or staff with Post Traumatic Stress Disorder; interrupting self-mutilation by students or staff with dissociative identity disorders; and keeping disoriented students or staff from danger.

An Assistance Dog is a dog that has been trained to assist a student or staff who has a mobility or health impairment. Types of duties the dog may perform include carrying, fetching, opening doors, ringing doorbells, activating elevator buttons, steadying a student or staff while walking, helping a student or staff up after a fall, etc.

A Ssig Dog (sensory signal dog or social signal dog) is a dog trained to assist a student or staff with autism. The dog alerts the partner to distracting repetitive movements common among those with autism, allowing the student or staff to stop the movement (e.g., hand flapping). A student or staff with autism may have problems with sensory input and need the same support services from a dog that a dog might give to a student or staff who is blind or deaf.

A Seizure Response Dog is a dog trained to assist a student or staff with a seizure disorder; how the dog serves depends on the student or staff's needs. The dog may stand guard over the student or staff during a seizure, or the dog may go for help. A few dogs have somehow learned to predict a seizure and warn the student or staff in advance to sit down or to move to a safe place.

Admission of Service Animals to Schools

Groton Public Schools' will permit students or staff with disabilities to use service animals in district buildings, on district property, and in vehicles that are owned, leased, or controlled by the district, upon request, submission of required documentation, and compliance with Groton Public Schools' policy and legal requirements.

Requirements for service animals and their partners/handlers, include:

- a. Vaccination: The animal must be immunized against diseases common to that type of animal. Dogs must have had the general maintenance vaccine series, which includes vaccinations against rabies, distemper, and parvovirus. All vaccinations must be current.
- b. Licensing: Dogs are to wear an owner identification tag at all times. The dog must also wear a current

- rabies tag and dog license tag. Connecticut law requires dogs to wear a harness or an orange-colored leash and collar which makes them readily identifiable as licensed guide dogs.
- c. Health: The animal must be in good health.
- d. Under Control of Partner/Handler: The partner/handler must be in full control of the animal at all times. The care and supervision of a service animal is solely the responsibility of its partner/handler. A service animal must have a harness, leash, or other tether, unless the handler is unable because of a disability to use a harness, leash, or other tether, or the use of such devices would interfere with the service animal's safe, effective performance of work or tasks. In such cases the service animal must be otherwise under the handler's control using voice control, signals, or other effective means.

A student or staff with a disability (or his/her parent/guardian) who believes she/he needs to bring a service animal to school in order to receive a free and appropriate public education shall complete and submit the written request form to the Principal or the Section 504 or IEP/PPT team.

The appropriate team shall review the form, gather any necessary information, and determine whether the request to use the service animal will be approved.

If it is determined that an animal does not meet the definition of a service animal, or that such animal is excluded for the reasons cited in this regulation, the student's Section 504 or IEP Team shall meet to consider and document whether the animal's presence is necessary for the child to receive a free appropriate public education or to have equal access to the educational program, and, if not, whether the student needs other aids, services or accommodations.

Considerations when a Student or staff has a Service Animal

When a request to use a service animal is approved, the Principal or designee will take the following steps:

- Notify appropriate staff that a service animal will be on campus.
- Provide a process for staff, students, and parents to inform administrators of any animal allergies that may require accommodation.
- If any student or staff member assigned to the classroom in which a service animal is permitted suffers an allergic reaction to the service animal, the person having custody and control of the service animal will be required to remove the service animal to a different location designated by the Principal or designee, and an alternative plan will be developed with appropriate district staff. Such plan could include the reassignment of the person having custody and control of the service animal to a different classroom. If any student or staff member suffers an allergic reaction to a service animal while on school transportation, an alternate plan will be developed in coordination with appropriate school, district, transportation staff, and the parents/guardians of any affected students.
- Educate students and staff on proper behavior around a service animal.

Students and staff must:

Allow a service animal to accompany the partner at all times and everywhere on campus except where service animals are specifically prohibited.

Not pet a service animal; petting a service animal when the animal is working distracts the animal from the task at hand.

Not feed a service animal. The service animal may have specific dietary requirements. Unusual food or food at an unexpected time may cause the animal to become ill.

Not deliberately startle a service animal.

Not separate or attempt to separate a partner/handler from his or her service animal.

- Plan for transportation of the service animal, including on the bus and field trips.
- Develop an emergency evacuation plan to include the service animal.

In the event of an emergency, emergency responders should be trained to recognize service animals and to be aware that the animal may be trying to communicate the need for help. The animal may become disoriented from the smell of smoke from a fire or laboratory emergency, from sirens or wind noise, or from shaking and moving ground. The partner and/or animal may be confused by the stressful situation. The emergency responders should be aware that the animal is trying to be protective and, in its confusion, is not to be considered harmful. The emergency responders should make every effort to keep the animal with its partner. However, the emergency responders' first effort should be toward the partner; this may necessitate leaving an animal behind in certain emergency evacuation situations.

To help ensure appropriate emergency responder response, the Groton Public Schools' policy and administrative regulation on service animals shall be disseminated to local law enforcement and fire departments.

Any service animal accompanying a student with a disability to school or school activities shall be handled and cared for in a manner detailed in the student's IEP or Section 504 Plan.

GPS staff shall not assume or take custody or control of, or responsibility for, any service animal or the care or feeding thereof.

The owner or handler of a service animal shall be solely responsible for:

- 1. Supervision and care of the animal, including any feeding, exercising, clean up, and stain removal.
- 2. Leashing and properly restraining the animal at all times.
- 3. Damages to district buildings, property, and vehicles caused by the animal.
- 4. Injuries to students, employees, volunteers, and visitors caused by the animal.
- 5. Annual submission of documentation of vaccinations and immunizations.

Areas Off Limits to Service Animals

- A. *Mechanical Rooms/Custodial Closets*: Mechanical rooms, such as boiler rooms, facility equipment rooms, electric closets, elevator control rooms, and custodial closets, are off- limits to service animals. The machinery and/or chemicals in these rooms may be harmful to animals.
- B. Areas where protective clothing is necessary: Any room where protective clothing is worn is off-limits to service animals. Examples impacting students or staff include chemical laboratories, wood shops, metal/machine shops, and photography dark rooms.
- C. Areas where there is danger to the service animal: Any room, including a classroom, where there are sharp metal cuttings or other sharp objects on the floor or protruding from a surface; where there are hot

materials on the floor; where there is a high level of dust; or where there is moving machinery is offlimits to service animals.

Access to off-limits areas may be granted on a case-by-case basis, if warranted under the particular circumstances of such case. For instance, a laboratory instructor in a classroom or teaching laboratory with moving equipment may grant entry to a service animal, depending on the nature of the equipment or class and the best interest of the animal. For example, the equipment may have moving parts at a height such that the tail of a large dog could easily be caught, and thus a large service dog would be kept out; on the other hand, a very small service dog may be shorter than any moving parts and, thus, permitted in the classroom or laboratory.

Exclusion of Service Animal

The Principal or designee may exclude a service animal from district buildings, property, and/or vehicles under the following circumstances:

- 1. The presence of the animal poses a direct threat to the health and safety of others. Service animals that are ill will not be permitted in district facilities.
 - Service animals that are unclean and/or bedraggled may be required to leave district facilities. An animal that becomes wet from walking in the rain or mud or from being splashed by a passing automobile, but is otherwise clean, should be considered a clean animal. Animals that shed in the spring sometimes look bedraggled. If the animal in question usually is well groomed, it will be considered tidy even though its spring coat is uneven and messy-appearing or it has become wet from weather or weather-related incidents.
- 2. The owner or handler is unable to control the animal. If any service animal is out of control in the school setting or during district transportation, and the animal's handler does not take effective action to control it, the permission granted pursuant to this regulation may be immediately revoked. The parent or guardian of the student having custody and control of the service animal will be required to remove the animal from district premises immediately.
- 3. The presence of the animal significantly disrupts or interferes with the educational process, and/or fundamentally alters the school program or activity.

 A service animal that is unruly or disruptive (e.g., barking, running around, bringing attention to itself) may be excluded from district facilitates. If the improper behavior happens repeatedly, the partner may be told not to bring the animal into any district facility until the partner takes significant steps to mitigate the behavior. Mitigation can include muzzling a barking animal or refresher training for both the animal and the partner. If the animal materially disrupts or interferes with the instructional program, school activities, or student learning, or the animal's presence would result in a fundamental alteration of any school program, it may be excluded from school or school property. However, annoyance on the part of others is not considered an unreasonable risk to property or others to justify the removal of a service animal.
- 4. The animal is not housebroken.

If a service animal is excluded from district premises based upon the above reasons, the student or staff with a disability shall be given the opportunity to participate in the service, program, or activity without having the service animal on the premises.

If the Principal or designee excludes a service animal from school property, the Principal or designee must document the reasons for such exclusion and notify the Superintendent. The Superintendent or designee will make a determination on whether a service animal will be allowed to return to school and, if possible, notify the student or staff with the disability in writing of the decision within five school days of the initial exclusion.

Liability

GPS may hold the owner or handler of a service animal liable for any property damage caused by the animal to the same extent required by other GPS policy or administrative regulations that impose liability for property damage. In addition, either the owner or handler, or both, may be liable for personal injury caused by the animal or related to the presence of the animal on school property.

- I. I have read and understand GPS's policy and regulation concerning Service Animals.
- II. I understand that the presence of a service animal may present competing educational rights between my student or staff and others at school. These issues may present at any time, and I understand that the Principal must manage them immediately. I will:
 - a. Participate in any meetings requested of me by the Principal;
 - b. Participate in drafting a joint communication to notify other students and staff and their parents/guardians about the placement of the service animal; and
 - c. Authorize the school to disclose information as necessary to balance competing educational interests and integrate the animal into the classroom and the school environment.
- III. I understand that for the safety and protection of students and staff, which is necessary for the safe operation of the school, the school may revoke access because:
 - a. One of the above requirements for a service animal is not present.
 - b. The service animal displays aggression or appears to be an imminent threat to the safety or health of any person in the school. If this occurs, the Principal will immediately contact me to remove the animal from school property and summon Animal Control.
 - c. The adult handler fails to follow the Principal's instructions.
- IV. I understand that a service animal's owner is solely liable for any damage to persons, premises, or facilities that were caused by the service animal. I will hold GPS, its employee, agents, and assigns harmless for any injury to, including death of, the service animal. I understand that staff members are protected from liability arising from actions consistent with GPS policies and administrative procedures.

Opioid Overdose Prevention (Emergency Administration of Naloxone)

Opioid overdoses have become epidemic. Opioid overdose kills thousands of Americans every year. Many of these deaths are preventable through the timely provision of an inexpensive and effective drug called Naloxone (brand name Narcan), an opioid antagonist, and the summoning of emergency responders. Groton Public Schools (GPS) is committed to enhancing the health and safety of individuals within the school environment. Therefore, the GPS Board of Education (Board) adopts this policy in order to provide for opioid overdose responsive measures. The Board directs the adoption of District protocols for the use of Naloxone in emergency situations to assist individuals (students, staff and others) who are suspected of experiencing an opioid overdose on school grounds during school hours. Protocols shall be established in consultation with GPS School Medical Advisor, School Nurse Supervisor and the Superintendent of Schools.

The administration of Naloxone shall be in accordance with this policy, established District protocols, state law and regulations as well as GPS Policy 5141.21, Administering Medication.

The District's School Medical Advisor (or other qualified physician) shall approve this policy, its regulations and any changes prior to adoption by the Board.

The Board, with the advice and approval of the School Medical Advisor and the School Nurse Supervisor, shall biennially review this policy and any regulation and revise, if necessary.

Definitions

"Drug overdose" means an acute medical condition, including, but not limited to, severe physical illness, coma, mania, hysteria or death, which is the result of consumption or use of one or more controlled substances causing an adverse reaction. The signs of opioid overdose include unresponsiveness; non consciousness; shallow breathing with, rate less than 10 breaths per minute or not breathing at all; blue or gray face, especially fingernails and lips; and loud, uneven snoring or gurgling noises.

"Naloxone" (Narcan) is a medication used to n reverse an opioid overdose. As a narcotic antagonist, Naloxone displaces opiates from receptor sites in the brain and reverses respiratory depression that usually is the cause of opioid overdose deaths.

"Opioid" is an a type of drug that includes, but is not limited to, illegal drugs such as heroin, as well as opioid pain relievers (OPR) which are prescription medications used to treat pain that may include - morphine, codeine, methadone, oxycodone (OxyContin, Percodan, Percocet), hydrocodone (Vicodin), fentanyl, hydromorphone (Dilaudid), and buprenorphine.

Authorization and Standing Order

The GPS School Medic al Advisor shall be responsible for prescribing Naloxone for use in the District, establishing protocols for the stocking, storage and use of Naloxone (Narcan) and for and supervising GPS's medical professionals Naloxone who will store and administer Naloxone.

The GPS Medical Advisor shall provide and annually renew a standing order for the administration of Naloxone (Narcan) to students, staff members, or other individuals believed or suspected to be experiencing an opioid overdose on school grounds during school hours. The standing order shall be maintained in the Medical Center office and copies of the standing order shall be kept in each location where Naloxone is stored.

The Board permits school nurses who have received training to administer Naloxone (Narcan) to any person at school or a school event displaying symptoms of an opioid overdose in accord with this policy and established protocols.

Training

School nurses having custody of Naloxone (Narcan) shall be trained in its use and the training documented. Such training program shall include, but is not limited to, the following topics:

- 1. Recognition of the signs and symptoms that may indicate if an individual is experiencing an opioid overdose
- 2. Assessment of the individual suspected of an overdose
- 3. Need for immediate notification of 911
- 4. Proper use and administration of Naloxone (Narcan)
- 5. Information on potential adverse reactions
- 6. Requirements for proper storage and restocking of naloxone (Narcan)
- 7. Documentation of the event
- 8. Post administration review with School Nurse Supervisor and Medical Advisor
- 9. Maintenance of records

Acquisition, Storage and Disposal

Naloxone shall be safely stored in the Medical Center in accordance with the drug manufacturer's instructions and federal and state law and regulation and District protocols. It shall be accessible during school hours.

The school nurse shall obtain sufficient supplies of Naloxone pursuant to the standing order of the School Medical Advisor in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh Naloxone stocks, and maintain records thereof in accordance with internal procedures, manufacturer's recommendations and any applicable state or federal law and regulation and/or Department of Public Health guidelines.
