Students must earn 130 credits to graduate.

A GPA is computed for each student at the end of the second, fourth, sixth and eighth semesters. Only courses taken in the high school during the regular school year are included in the weighted GPA. A quality point value is assigned to each letter grade and then is multiplied by the number of credits received for each course. The sum is divided by the number of credits. This weighted GPA is reported on the transcript. 6.05 is the highest GPA that can be attained.

Students who have taken all their high school courses in Edison and/or other high schools in New Jersey (public/parochial/private) receive a weighted GPA and are included in the GPA Distribution Chart. Students from outside New Jersey who transfer to Edison following the first marking period of the junior year are not included. The transcript includes information pertaining to classes taken at the previous high school(s) at the time of transfer. Additionally, all high school courses taken in Edison are included.
