

Career Cluster Finder

Overview

The Career Cluster Finder is an online questionnaire that helps students discover career clusters that are most interesting to them. Once a student completes the Career Cluster Finder, top matching career clusters are made available for review and favoring. Adding a cluster as a favorite, adds it to the student's Careers I'm Thinking About (Favorite Careers and Clusters) list. Students can re-take the cluster finder at any time. This assessment is recommended for middle school and high school students.

Go to <https://student.naviance.com>

--Use zip code 77024

----Choose Memorial Middle School

-----Use your regular skyward login (ex: smithjoh079) and your regular skyward password

-----Select Careers (from the menu bar on the top right)

-----Select Explore Careers/Interests

-----Choose Career Cluster Finder (on the left hand side)

***Once you are done you need to favor (“heart” / “like”) three of the careers that fall within your career clusters. **This will indicate that you have completed the task.**

You can take the career cluster finder again, but if you have a printer available and want to save your results, you can right click to select “print”.
