## STATEMENT OF PURPOSE

Music and Visual Arts are a significant and integral part of our culture. It is, therefore, the responsibility of every visual art and music educator to help students become more appreciative of all styles. It will contribute to the success of the students as we forge ahead into the millennium.

The Grade 7 - Music program serves as a follow-up to the sixth grade and elementary school programs. One of the benefits of the vocal and instrumental music program is an appreciation of the aesthetic and expressive values of music. Development of technique, performance and comprehension at the seventh grade level will contribute to the appropriate preparation for participation in eighth grade as well as at the high school level. Through varied music literature, students will be exposed to music of quality and develop criteria for discriminating taste. Membership in music teaches the student cooperation and responsibility.

Our school district provides an extensive arts program, which will enable students to succeed and compete in the global marketplace using the New Jersey Core Curriculum Content Standards in conjunction with the New Jersey Visual and Performing Arts Curriculum Frameworks and technological exploration.

## Introduction

The most precious resource teachers have is time. Regardless of how much time a course is scheduled for, it is never enough to accomplish all that one would like. Therefore, it is imperative that teachers utilize the time they have wisely in order to maximize the potential for all students to achieve the desired learning.

High quality educational programs are characterized by clearly stated goals for student learning, teachers who are well-informed and skilled in enabling students to reach those goals, program designs that allow for continuous growth over the span of years of instruction, and ways of measuring whether students are achieving program goals.

### The Edison Township School District Curriculum Template

The Edison Township School District has embraced the backward-design model as the foundation for all curriculum development for the educational program. When reviewing curriculum documents and the Edison Township curriculum template, aspects of the backward-design model will be found in the stated enduring *understandings/essential questions, unit assessments, and instructional activities*. Familiarization with backward-design is critical to working effectively with Edison's curriculum guides.

### Guiding Principles: What is Backward Design? What is Understanding by Design?

'Backward design' is an increasingly common approach to planning curriculum and instruction. As its name implies, 'backward design' is based on defining clear goals, providing acceptable evidence of having achieved those goals, and then working 'backward' to identify what actions need to be taken that will ensure that the gap between the current status and the desired status is closed.

Building on the concept of backward design, Grant Wiggins and Jay McTighe (2005) have developed a structured approach to planning programs, curriculum, and instructional units. Their model asks educators to state goals; identify deep understandings, pose essential questions, and specify clear evidence that goals, understandings, and core learning have been achieved.

Program based on backward design use desired results to drive decisions. With this design, there are questions to consider, such as: What should students understand, know, and be able to do? What does it look like to meet those goals? What kind of program will result in the outcomes stated? How will we know students have achieved that result? What other kinds of evidence will tell us that we have a quality program? These questions apply regardless of whether they are goals in program planning or classroom instruction.

The backward design process involves three interrelated stages for developing an entire curriculum or a single unit of instruction. The relationship from planning to curriculum

design, development, and implementation hinges upon the integration of the following three stages.

*Stage I: Identifying Desired Results:* Enduring understandings, essential questions, knowledge and skills need to be woven into curriculum publications, documents, standards, and scope and sequence materials. Enduring understandings identify the “big ideas” that students will grapple with during the course of the unit. Essential questions provide a unifying focus for the unit and students should be able to more deeply and fully answer these questions as they proceed through the unit. Knowledge and skills are the “*stuff*” upon which the understandings are built.

*Stage II: Determining Acceptable Evidence:* Varied types of evidence are specified to ensure that students demonstrate attainment of desired results. While discrete knowledge assessments (e.g.: multiple choice, fill-in-the-blank, short answer, etc...) will be utilized during an instructional unit, the overall unit assessment is performance-based and asks students to demonstrate that they have mastered the desired understandings. These culminating (summative) assessments are authentic tasks that students would likely encounter in the real-world after they leave school. They allow students to demonstrate all that they have learned and can do. To demonstrate their understandings students can explain, interpret, apply, provide critical and insightful points of view, show empathy and/or evidence self-knowledge. Models of student performance and clearly defined criteria (i.e.: rubrics) are provided to all students in advance of starting work on the unit task.

*Stage III: Designing Learning Activities:* Instructional tasks, activities, and experiences are aligned with stages one and two so that the desired results are obtained based on the identified evidence or assessment tasks. Instructional activities and strategies are considered only once stages one and two have been clearly explicated. Therefore, congruence among all three stages can be ensured and teachers can make wise instructional choices.

At the curricular level, these three stages are best realized as a fusion of research, best practices, shared and sustained inquiry, consensus building, and initiative that involves all stakeholders. In this design, administrators are instructional leaders who enable the alignment between the curriculum and other key initiatives in their district or schools. These leaders demonstrate a clear purpose and direction for the curriculum within their school or district by providing support for implementation, opportunities for revision through sustained and consistent professional development, initiating action research activities, and collecting and evaluating materials to ensure alignment with the desired results. Intrinsic to the success of curriculum is to show how it aligns with the overarching goals of the district, how the document relates to district, state, or national standards, what a high quality educational program looks like, and what excellent teaching and learning looks like. Within education, success of the educational program is realized through this blend of commitment and organizational direction.

**COURSE OBJECTIVES**

Students will understand:

1. that artistic creativity is expressed through the application of music literacy.  
[1.2.8 B.1, 1.2.8 B.2, 1.3.8 B.1, 1.3.8 B.2] (1)
2. that reading music at sight results in better musicianship.  
[1.2.8 B.1, 1.3.8 B.1, 1.3.8 B.2] (2)
3. that quality tone production and intonation are necessary components of proper playing.  
[1.3.8 B.1, 1.4.8 B.2] (3)
4. the structure and uses of scales.  
[1.3.8 B.2] (4)
5. that the concepts of rhythmic literacy, rhythmic accuracy, steady tempo and subdivision work together to form musical unity and variety.  
[1.2.8 B.1, 1.3.8 B.2] (5)
6. how to play with musicality by incorporating dynamics, articulations and knowledge of style.  
[1.3.8 B.1, 1.4.8 A.2, 1.5.8 B.1] (6)
7. that many components of music (literacy, aesthetics, tempo, rhythm, tonality, melody, harmony, dynamics, articulation, phrasing, breath control/support, etc) work together to create a work of art.  
[1.2.8 B.1, 1.2.8 B.2] (7)
8. that the process of critique is essential to the development of all proper performance practices.  
[1.4.8 A.1, 1.4.8 A.2, 1.4.8 B.1, 1.4.8 B.2] (8)

## Unit 1: Grade 6– MUSIC LITERACY

**Targeted Standards:** Students will perform compositions containing progressively complex notation. **(NJCCCS 1.2.8 B1)** Students will analyze the application of the elements of music in a diversity of musical works. **(NJCCCS 1.3.8 B1)** Students will examine how aspects of meter, rhythm, tonality, intervals, chords, and harmonic progressions are organized and manipulated to establish unity and variety in musical compositions. **(NJCCCS 1.3.8 B2)** Students will perform independently and in groups a repertoire of diverse genres and cultures with appropriate expressive qualities. **(NJCCCS 1.2.8 B2)**

**Unit Objectives/Conceptual Understandings:** Students will understand that artistic achievement in instrumental music is expressed through the application of music literacy. Students will understand that the steps to successful music reading must be followed carefully in order to achieve an outstanding and enjoyable performance.

**Essential Questions:** How does improving our music reading enable us to become better musicians? What are the necessary tools needed to successfully perform a piece of music?

**Unit Assessment:** Students will demonstrate the ability to read musical symbols in order to perform a musical selection.

### Unit 3: Grade 6 – TONE PRODUCTION AND INTONATION

**Targeted Standards:** Analyze the application of quality tone production and intonation in a diversity of musical works. (NJCCCS 1.3.8 B.1) Compare and contrast the technical proficiency of other artists/themselves in the area of tone production and intonation. (NJCCCS 1.4.8 B.2)

**Unit Objectives/Conceptual Understandings:** Students will understand that quality tone production and intonation are necessary components of proper playing.

**Essential Questions:** What is the difference between an in tune pitch and an out of tune pitch? What are the essential elements in creating a quality and in tune sound? What are the characteristics of a good sound on your instrument?

**Unit Assessment:** Students will demonstrate an accurate knowledge of the subject matter by individually performing all pieces/exercises with a quality, in tune tone.

## Unit 4: Grade 7 – SCALES

**Targeted Standards:** All students will perform scales with varying aspects of meter, rhythm, articulation, and tonality while also examining how they are organized and manipulated to establish unity and variety in musical compositions. (NJCCCS 1.3.8. B.2.)

**Unit Objectives/Conceptual Understandings:** Students will understand the structure and uses of the C major, F major, B<sup>b</sup> major, E<sup>b</sup> major, A<sup>b</sup> major, D<sup>b</sup> major, G major, D major, A major and chromatic scales.

**Essential Questions:** How do you perform one of the required scales? How do you recognize one of the required scales?

**Unit Assessment:** Students will demonstrate an accurate knowledge of the subject matter by individually performing the scales along with stating the key signatures.

## Unit 5: Grade 6– RHYTHM

**Targeted Standards:** All students will perform rhythmic patterns with varying aspects of meter and rhythm while also examining how they are organized and manipulated to establish unity and variety in musical compositions. **(NJCCCS 1.3.8. B.2.)** Perform compositions containing progressively complex notation and use standard notation to record musical ideas. **(NJCCCS 1.2.8 B.1.)**

**Unit Objectives/Conceptual Understandings:** Students will understand that the concepts of rhythmic literacy, rhythmic accuracy, steady tempo, and subdivision work together to form musical unity and variety. The complexity of the assessed rhythms will be whole notes, half notes, dotted half notes, quarter notes, dotted quarter notes, eighth notes, sixteenth notes (in groups of four), as well as the parallel rests.

**Essential Questions:** What are the relationships between the various types of rhythms and what relationships do they all have to a “common time” meter? How do you perform one of the required rhythms?

**Unit Assessment:** Students will demonstrate an accurate knowledge of the subject matter by individually performing, saying, and/or clapping the rhythms while tapping a consistent tempo with his/her foot.

How the different rhythmic values relate to each other. 2. What rushing or dragging sounds like. 3. How to define the terms associated with each rhythm. 4. What the difference between tempo and rhythm is.	1. Perform/clap each of the required rhythms in varying combinations. The combinations may incorporate both notes and rests of varying lengths. 2. Explain the relationships between the various rhythmic values. 3. Count, in time, varied rhythms with syllables, both rehearsed and unrehearsed.	1. The teacher will demonstrate how to say and play the different rhythms; first in homogenous sets and then in different combinations. 2. The students will solve addition and subtraction problems using different notes in small musical math problems. The notes/rests will substitute numbers. 3. The students will be required to play musical programs which incorporate pieces of diverse rhythmic compositions. 4. The students will systematically warm up with increasingly complex rhythms throughout the year.	1. Each student will take individual performance assessments of which rhythm will encompass a significant part of the grade (enough to raise or drop one letter grade). 2. Students will periodically be given written quizzes which concentrate on note names, rhythmic relationships, time signatures, and rhythmic terms. 3. The students will be required to “say” warm-up rhythms at the end of each marking-period.

### Unit 6: Grade 6 – MUSICALITY

**Targeted Standards:** Students will compare artistic content among contrasting art works in the same domain in order to help develop musical expression skills. **(NJCCCS 1.4.8 A2)** Students will analyze the application of the elements of music in a diversity of musical works. **(NJCCCS 1.3.8 B1)** Students will identify the common artistic elements that help define a given historical period. **(NJCCCS 1.2.8.A.3)**

**Unit Objectives/Conceptual Understandings:** Students will become familiar with music of different cultures/genres. Students will understand how to play with musicality by incorporating dynamics, articulations and knowledge of style. Students will develop a concept of balance and blend in relation to ensemble playing.

**Essential Questions:** How is reading notes and rhythms different from playing with dynamics and proper articulations? How does the latter enhance the final performance? How does playing with improper balance and blend affect the group's performance? How does learning about different genres of music increase our musical vocabulary and allow us to give more meaningful performances?

**Unit Assessment:** Students will demonstrate the ability to react to dynamics and perform subtle nuances in band literature. Students will correctly identify music from different genres/cultures. Students will learn how to make their sound "fit in" by understanding concepts such as balance and blend. Students will give a meaningful performance by playing with stylistic accuracy.

How to react to musical symbols (including dynamics, articulations) 2. How to phrase properly. 3. How to differentiate music from different genres/cultures/time periods. 4. How to actively listen to a recording or live performance and discuss the aspects of musicality with his/her teacher /classmates. 5. How to make their sound "fit in" to the ensemble.	1. Perform with dynamics, phrasing and correct articulations 2. Discuss form and details of music from different genres/cultures/time periods. 3. Aurally identify (through means of recording/live performance) dynamics, phrasing and articulations. 4. Identify the melody/accompaniment.	1. The teacher will demonstrate proper phrasing/balance in a musical selection. 2. The teacher will play an example using different articulations/dynamics and ask students to identify which dynamics/articulation markings have been used. 3. The teacher will play recordings of music from different genres/cultures/time periods and will discuss the similarities and differences.	1. Students will be given performance assessments to show their understanding of musical phrasing. 2. Students will show understanding of dynamics and the use of musical nuances by successfully reacting to the conductor's cues. 3. Students will show understanding of balance/blend. 4. Students will aurally identify music from different time periods.

**Unit 6: Grade 6 – MUSICALITY (continued)**

**Resources:** Professional recordings, performance preparation, student recordings, festival performances, professional concerts, hand-outs with information about different cultures/genres

**Instructional Adjustments:** Modifications, student difficulties, possible misunderstandings

- Cultural Selection related to secular/seasonal demands
- Immersion for ESL students
- IEP adjustments as needed per student
- Due to the level of experience, some students may be required to learn musical selections at a slower rate than the rest of the class.

## Unit 7: Grade 6 – PERFORMANCE

**Targeted Standards:** Perform compositions containing progressively complex notation and use standard notation to record musical ideas. (NJCCCS 1.3.8.B.1) Perform independently and in groups a repertoire of diverse genres and cultures with appropriate expressive qualities. (NJCCCS 1.3.8.B.2)

**Unit Objectives/Conceptual Understandings:** Students will understand that many components of music (literacy, aesthetics, tempo, rhythm, tonality, melody, harmony, dynamics, articulation, phrasing, breath control/support, etc.) work together to create a work of art.

**Essential Questions:** How do you manipulate the many aspects of music to communicate through your music?

**Unit Assessment:** Students will demonstrate the ability to perform in dynamic tempos, ranges, volumes, meters, keys, and articulations in front of his/her instructor, classmates, and large audiences.

How to convey emotion which was originally intended by the composer. 2. How to cope with performance anxiety. 3. What it means to blend into an ensemble and to rise to the foreground. 4. How to follow a conductor. 5. React to competing voices in the same ensemble.	1. Perform many works of varying styles. 2. Discerningly blend with an ensemble. 3. Keep eye-contact with the conductor as well as follow his/her baton. 4. Perform in front of small to large audiences. 5. Analyze their pieces at a sixth grade level (be able to talk about the different components of each of their works).	1. The instructor will rehearse the ensemble's concert literature as well as rhythmic and tonal warm-up exercises. 2. The students will perform (at the very least) a winter concert, a spring concert, and an elementary school concert (winter or spring). 3. All students will be provided with the opportunity to take part in higher level performances whether they be solos, jazz bands, small ensembles, etc.	1. Each student will be given a formal, individual performance assessment on any at least one of the concert pieces which will be performed in each concert. 2. Students will be assessed at the performances (the various concerts of the school year).

## Unit 8: Grade 6 - CRITIQUE

**Targeted Standards:** Explain the process of critique using the progression of description, analysis, interpretation, and evaluation. **(1.4.8 A.1.)** Compare artistic content among contrasting art works in the same domain. **(1.4.8 A.2.)** Evaluate the judgment of others based on the process of critique. **(1.4.8 B.1.)** Compare and contrast the technical proficiency of artists. **(1.4.8 B.2.)** Distinguish among artistic styles, trends, and movements in various art forms. (1.1.8 B2) Work in collaboration with peers and experts in the field to develop a product using the design process, data analysis, and trends, and maintain a digital log with annotated sketches to record the development cycle. **(N.J.C.C.S.-Technology 8.2.8.E.1)**

**Unit Objectives/Conceptual Understandings:** Students will understand that the process of critique is essential to the development of all proper performance practices.

**Essential Questions:** What do you need to know in order to be a successful critic? How should you respond to someone else's or your own critique? What is the point of a critique?

**Unit Assessment:** Students will demonstrate the ability to critique/receive critiques and to constructively use this information to enhance their musicianship.

What constructive criticism is. 2. The value of a negative and a positive critique. 3. How to react when being critiqued. 4. That in order to critique one must be very competent in the field in which they are evaluating.	1. Critique their own playing. 2. Critique other musicians. 3. Respond to criticism by trying to solve the apparent deficiencies in their performance. 4. Compare and contrast two different performances. 5. Evaluate others' critiques.	1. The instructor will provide daily critique for the band. 2. Group discussions will be held concerning critique during rehearsal. Students will either see how similarly or differently they critique. Their exposure to each other will provide perspective which is crucial in critique. 3. Students will listen to recordings of themselves, (in class and/or at home from on-line wave files) both from rehearsals and performances, and discuss strengths as well as areas that are in need of improvement. 4. Where possible, students and teacher will discuss progress made from the sightreading done at "welcome to middle school band night" to the point of performance.	1. Each student will be given a critique form to fill out after each one of their performances. 2. Later in the year students may evaluate the previous year's recordings. 3. The students will evaluate the performances of other ensembles with a critique sheet.

# MUSIC DEPARTMENT AUDITION WORKSHEET

## MUSICIANSHIP

### Characteristic tone quality/timbre

- Consistently demonstrates tones of a superior tone color.
- Usually demonstrates a strong concept of tone color, except at extreme ranges of tessitura.
- Has a concept of characteristic tone quality, but is not able to demonstrate consistently.
- Does little to demonstrate a characteristic tone color.
- Has trouble making a characteristic sound.

### Intonation

- Consistently demonstrates understanding of intervallic relationships between notes in all ranges.
- Usually demonstrates understanding of intervallic relationships between notes except at extreme ranges of tessitura.
- Makes an effort to demonstrate ability to hear intervallic distances but is not always successful.
- Does little to adjust between pitches.
- Is not aware of any pitch alterations that are necessary.

### Expression, Phrasing, & Dynamics

- Consistently demonstrates an understanding of musical expression, with and without markings. Breathes/pauses musically.
- Follows all markings found in the music, but performance seems contrived. Breaths/pauses are usually placed musically.
- Makes an effort to demonstrate some expression, but lacks maturity to express consistently. Breathing/pauses somewhat arbitrary.
- Does little to follow the written markings. Breathing/pauses are arbitrary.
- Is not aware of the need for musical expression or proper breathing or phrasing.

NAME: \_\_\_\_\_

DATE: \_\_\_\_\_

### Stylistic Accuracy

- Consistently demonstrates an understanding of the proper style required for the music.
- Usually performs music with proper style.
- Has a concept of stylistic consideration but is not always able to demonstrate it.
- Does little to perform with any degree of style.
- Is not aware of the necessity to perform with proper style.

## TECHNIQUE

### Rhythmic Accuracy

- Consistently demonstrates an understanding of pulse control and rhythmic placement.
- Demonstrates an understanding of rhythmic relationships, but unable to maintain steady beat.
- Has some difficulty in performing rhythms accurately. Steady beat is usually not present.
- Has great difficulty in performing rhythms accurately. Steady beat is usually not present.
- Is unable to perform many rhythms accurately. Has a great deal of trouble keeping a steady beat.

### Melodic Accuracy

- Consistently performs with accurate pitches.

## ***Rubric Construction Form***

Performer's Name \_\_\_\_\_

Construct your own rubric by determining which features you will assess, then name at least three levels of competence, from less to more skilled. Determine the maximum number of points which may be received from each feature. Then add these for the total possible number of points.

Use this rubric to score performances.

## ***Self-Observation/Self-Assessment***

Listen to your performance and then answer the following:

1. This is what I did well.

---

---

---

2. This is what I think I need to improve.

---

---

---

3. This is my recommendation for a plan for improvement.

**BAND PERFORMANCE CRITIQUE**

Prior to writing their self-critiques, the students are reminded to be specific and to provide details for each of their comments. They will be used to evaluate their written critiques:

1. the student's appropriate identification of the strengths and weaknesses of his or her performance (accuracy, technique, expression, ensemble technique).
2. the effectiveness of the student's suggestions for improvement.
3. the student's accurate reference to musical events.
4. the student's accurate use of musical terminology.
5. the student's accurate analysis of the elements of music: pitch, rhythm, tempo, harmony, dynamics, texture, and form, when appropriate.

The following three levels of student performance have been identified for this type of activity:

**Advanced.** The student:

1. accurately describes and analyzes the specific strengths and weaknesses of his or her performance.
2. gives effective suggestions for the improvement of weaknesses.
3. specifically refers to musical events.
4. accurately uses musical terminology.
5. demonstrates an understanding of the elements of music.

**Proficient.** The student:

1. generally describes and analyzes some of the strengths and weaknesses of his or her performance.
2. gives some suggestions for improvement.
3. generally refers to musical events.
4. accurately uses music terminology.
5. uses the elements of music.

**Basic.** The student:

1. minimally describes and analyzes some of the strengths and weaknesses of his or her performance.
  2. gives limited or vague suggestions for improvement of weaknesses.
  3. makes limited reference to musical events.
  4. shows limited use of music terminology.
  5. demonstrates limited understanding of the elements of music.

**Curriculum and Instruction**

Draft 14

**Essential Instructional Behaviors**

*Edison's Essential Instructional Behaviors are a collaboratively developed statement of effective teaching from pre-school through Grade 12. This statement of instructional expectations is intended as a framework and overall guide for teachers, supervisors, and administrators; its use as an observation checklist is inappropriate.*

**1. Planning which Sets the Stage for Learning and Assessment*****Does the planning show evidence of:***

- a. units and lessons directly related to learner needs, the written curriculum, the New Jersey Core Content Curriculum Standards (NJCCCS), and the Cumulative Progress Indicators (CPI)?
- b. measurable objectives that are based on diagnosis of learner needs and readiness levels and reflective of the written curriculum, the NJCCCS, and the CPI?
- c. lesson design sequenced to make meaningful connections to overarching concepts and essential questions?
- d. provision for effective use of available materials, technology and outside resources?
- e. accurate knowledge of subject matter?
- f. multiple means of formative and summative assessment, including performance assessment, that are authentic in nature and realistically measure learner understanding?
- g. differentiation of instructional content, processes and/or products reflecting differences in learner interests, readiness levels, and learning styles?
- h. provision for classroom furniture and physical resources to be arranged in a way that supports student interaction, lesson objectives, and learning activities?

**2. Observed Learner Behavior that Leads to Student Achievement*****Does the lesson show evidence of:***

- a. learners actively engaged throughout the lesson in on-task learning activities?
- b. learners engaged in authentic learning activities that support reading such as read alouds, guided reading, and independent reading utilizing active reading strategies to deepen comprehension (for example inferencing, predicting, analyzing, and critiquing)?
- c. learners engaged in authentic learning activities that promote writing such as journals, learning logs, creative pieces, letters, charts, notes, graphic organizers and research reports that connect to and extend learning in the content area?
- d. learners engaged in authentic learning activities that promote listening, speaking, viewing skills and strategies to understand and interpret audio and visual media?
- e. learners engaged in a variety of grouping strategies including individual conferences with the teacher, learning partners, cooperative learning structures, and whole-class discussion?
- f. learners actively processing the lesson content through closure activities throughout the lesson?
- g. learners connecting lesson content to their prior knowledge, interests, and personal lives?
- h. learners demonstrating increasingly complex levels of understanding as evidenced through their growing perspective, empathy, and self-knowledge as they relate to the academic content?
- i. learners developing their own voice and increasing independence and responsibility for their learning?
- j. learners receiving appropriate modifications and accommodations to support their learning?

### 3. Reflective Teaching which Informs Instruction and Lesson Design

*Does the instruction show evidence of:*

- a. differentiation to meet the needs of all learners, including those with Individualized Education Plans?
- b. modification of content, strategies, materials and assessment based on the interest and immediate needs of students during the lesson?
- c. formative assessment of the learning before, during, and after the lesson, to provide timely feedback to learners and adjust instruction accordingly?
- d. the use of formative assessment by both teacher and student to make decisions about what actions to take to promote further learning?
- e. use of strategies for concept building including inductive learning, discovery-learning and inquiry activities?
- f. use of prior knowledge to build background information through such strategies as anticipatory set, K-W-L, and prediction brainstorms?
- g. deliberate teacher modeling of effective thinking and learning strategies during the lesson?
- h. understanding of current research on how the brain takes in and processes information and how that information can be used to enhance instruction?
- i. awareness of the preferred informational processing strategies of learners who are technologically sophisticated and the use of appropriate strategies to engage them and assist their learning?
- j. activities that address the visual, auditory, and kinesthetic learning modalities of learners?
- k. use of questioning strategies that promote discussion, problem solving, and higher levels of thinking?
- l. use of graphic organizers and hands-on manipulatives?
- m. creation of an environment which is learner-centered, content rich, and reflective of learner efforts in which children feel free to take risks and learn by trial and error?
- n. development of a climate of mutual respect in the classroom, one that is considerate of and addresses differences in culture, race, gender, and readiness levels?
- o. transmission of proactive rules and routines which students have internalized and effective use of relationship-preserving desists when students break rules or fail to follow procedures?

### 4. Responsibilities and Characteristics which Help Define the Profession

*Does the teacher show evidence of:*

- a. continuing the pursuit of knowledge of subject matter and current research on effective practices in teaching and learning, particularly as they tie into changes in culture and technology?
- b. maintaining accurate records and completing forms/reports in a timely manner?
- c. communicating with parents about their child's progress and the instructional process?
- d. treating learners with care, fairness, and respect?
- e. working collaboratively and cooperatively with colleagues and other school personnel?
- f. presenting a professional demeanor?

# New Jersey Core Curriculum Content Standards for Visual and Performing Arts

## INTRODUCTION

### Arts Education in the 21<sup>st</sup> Century

Creativity is a driving force in the 21st-century global economy, with the fastest growing jobs and emerging industries relying on the ability of workers to think unconventionally and use their imaginations.

*The best employers the world over will be looking for the most competent, most creative, and most innovative people on the face of the earth ... This will be true not just for the top professionals and managers, but up and down the length and breadth of the workforce. ... Those countries that produce the most important new products and services can capture a premium in world markets ...*

(2007, National Center on Education and the Economy)

Experience with and knowledge of the arts is an essential component of the P-12 curriculum in the 21st century. As the state of New Jersey works to transform public education to meet the needs of a changing world and the 21st century workforce, capitalizing on the unique ability of the arts to unleash creativity and innovation in our students is critical for success, as reflected in the mission and vision that follow:

**Mission:** *The arts enable personal, intellectual, social, economic, and human growth by fostering creativity and providing opportunities for expression beyond the limits of language.*

**Vision:** An education in the arts fosters a population that:

- Creates, reshapes, and fully participates in the enhancement of the quality of life, globally.
- Participates in social, cultural, and intellectual interplay among people of different ethnic, racial, and cultural backgrounds through a focus on the humanities.
- Possesses essential technical skills and abilities significant to many aspects of life and work in the 21st century.
- Understands and impacts the increasingly complex technological environment.

### ***Intent and Spirit of the Visual and Performing Arts Standards***

*The intent and spirit of the New Jersey Visual and Performing Arts Standards builds upon the philosophy and goals of the [National Standards for Arts Education](#). Equitable access to arts instruction is achieved when the four arts disciplines (dance, music, theatre, and visual art) are offered throughout the P-12 spectrum. Thus, the goal of the standards is that all students have regular, sequential arts instruction throughout their P-12 education.*

The expectation of the New Jersey arts standards is that all students communicate *at a basic level* in each of the four arts disciplines by the end of fifth grade, using the vocabularies, materials, tools, techniques, and intellectual methods of each arts discipline in a developmentally appropriate manner. Beginning in grade 6, student instruction in the arts is driven by specialization, with students choosing one of the four arts disciplines based on their interests, aptitudes, and career aspirations. By the end of grade 12, students are expected to communicate proficiently in one or more arts disciplines of their choice. By graduation from secondary school, all students should, in at least one area of specialization, be able to:

- Define and solve artistic problems with insight, reason, and technical proficiency.
- Develop and present basic analyses of works of art from structural, historical, cultural, and aesthetic perspectives.
- Call upon their informed acquaintance with exemplary works of art from a variety of cultures and historical periods.
- Relate various types of arts knowledge and skills within and across the arts disciplines by mixing and matching competencies and understandings in art-making, history, culture, and analysis in any arts-related project.

### ***Revised Standards***

The revised 2009 visual and performing arts standards align with the National Standards for Arts Education. In addition, they correlate structurally to the three arts processes defined in the [2008 NAEP Arts Education Assessment Framework](#): creating, performing, and responding. When actively engaged in these processes, students not only learn about the arts, they learn through and within the arts.

The state and national standards are deliberately broad to encourage local curricular objectives and flexibility in classroom instruction. New Jersey's revised 2009 visual and performing arts standards provide the foundation for creating local curricula and meaningful assessments in the four arts disciplines for all children. They are designed to assist educators in assessing required knowledge and skills in each discipline by laying out the expectations for levels of proficiency in dance, music, theatre, and the visual arts at the appropriate level of study.

### **Organization of the 2009 Standards**

This organization of the 2009 visual and performing arts standards reflects the critical importance of locating the separate arts disciplines (dance, music, theatre, and visual art) as one common body of knowledge and skills, while still pointing to the unique requirements of individual disciplines. There are four visual and performing arts standards, as follows.

**Standards 1.1 and 1.2**, respectively, articulate required knowledge and skills concerning the elements and principles of the arts, as well as arts history and culture. Together, the two standards forge a corollary to the NAEP Arts process of *creating*. Standard 1.1 includes four strands, one for each of the arts disciplines: A. Dance, B. Music, C. Theatre, and D. Visual Art; standard 1.2 includes a single strand: A. History of the Arts and Culture.

**Standard 1.1 The Creative Process:** *All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art.*

**Standard 1.2 History of the Arts and Culture:** *All students will understand the role, development, and influence of the arts throughout history and across cultures.*

**Standard 1.3** is rooted in arts performance and thus stands as a corollary to the NAEP Arts process of *performing/interpreting*. Like Standard 1.1, standard 1.3 is made up of four arts-specific strands: A. Dance, B. Music, C. Theatre, and D. Visual Art.

**Standard 1.3 Performing:** *All students will synthesize skills, media, methods, and technologies that are appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.*

**Standard 1.4** addresses two ways students may respond to the arts, including (1) the study of aesthetics and (2) the application of methodologies for critique. Standard 1.4 provides a corollary to the NAEP Arts process of *responding*. This standard pertains to all four arts disciplines, and is comprised of two strands related to the mode of response: A. Aesthetic Responses and B. Critique Methodologies.

**Standard 1.4 Aesthetic Responses & Critique Methodologies:** *All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.*

### ***Proficiency Levels and Grade Band Clusters***

The grade-band clusters for the 2009 visual and performing arts standards correspond to new federal definitions of elementary and secondary education, which may have implications for instructional delivery according to licensure. The expectations for student achievement increase across the grade band clusters as follows:

- **Preschool:** For those preschool programs that offer appropriate time and frequency of instruction in the visual and performing arts, all students should be given broad-based exposure to, and be provided opportunities for exploration in, each of the four arts disciplines. The goal is that preschool students *attain foundational skills that later lead to [basic literacy](#)* in the content knowledge and skills delineated in the K-2 and 3-5 grade-level arts standards, as developmentally appropriate.
- **Grades K-2 and 3-5:** All students in grades K-5 are given broad-based exposure to, and are provided opportunities for participation in, each of the four arts disciplines. The expectation at this level is that all students *attain [basic literacy](#)* in the content knowledge and skills delineated in the K-2 and 3-5 grade-level standards for the arts.
- **Grades 6-8:** In grades 6-8, student instruction focuses on one of the four arts disciplines, as directed by choice. The expectation at this level is that all students *demonstrate [competency](#)* in the content knowledge and skills delineated for the selected arts discipline.
- **Grades 9-12:** Throughout secondary school, student instruction continues to focus on one of the four arts disciplines, as chosen by the student. By the end of grade 12, all students *demonstrate [proficiency](#)* in at least one chosen arts discipline by meeting or exceeding the content knowledge and skills delineated in the arts standards.

### ***Teaching the Standards: Certification and Highly Qualified Arts Educators***

*The visual and performing arts are considered a “core” subject under the federal No Child Left Behind Act (NCLB-2001). Therefore, all visual and performing arts teachers must meet the “Highly Qualified Teachers” standards within their certificated arts discipline(s). State licensure is the initial gatekeeper for highly qualified status.*

### **Education in the Arts: National and State Advocacy**

- The [Arts Education Partnership](#) provides research information and other guidance to assist in advocating for arts education at the national, state, and local levels. The Partnership also provides information on government funding at the federal and state levels, including the grant programs of two federal agencies: the U.S. Department of Education and the National Endowment for the Arts.
- At the state level, the [New Jersey Arts Education Partnership](#) was established in 2007 as a clearinghouse for information and best practices in arts education, and calls attention to the contribution arts education makes to student achievement. The report, [Within Our Power: The Progress, Plight, and Promise of Arts Education for Every Child](#), is the NJAEP's response to the New Jersey Arts Census Project, the most comprehensive survey ever compiled on the status of arts education in New Jersey's public schools.
- A [Glossary](#) of arts terms used in the 2009 visual and performing arts standards was designed to support implementation of the arts standards.

2	<b>NOTE:</b> By the end of <a href="#">grade 2</a> , ALL students progress toward <a href="#">BASIC LITERACY</a> in the following content knowledge and skills in DANCE.		
	Original choreography and improvisation of movement sequences begins with basic understanding of the elements of dance.	1.1.2.A.1	Identify the <a href="#">elements of dance</a> in planned and improvised dance sequences.
	Original movement is generated through improvisational skills and techniques.	1.1.2.A.2	Use improvisation to discover new movement to fulfill the intent of the choreography.
	There are distinct differences between pedestrian movements and formal training in dance.	1.1.2.A.3	Demonstrate the difference between pantomime, pedestrian movement, abstract gesture, and dance movement.
	The coordination and isolation of different body parts is dependent on the dynamic alignment of the body while standing and moving.	1.1.2.A.4	Apply and adapt isolated and coordinated body part articulations, body alignment, balance, and <a href="#">body patterning</a> .
5	<b>NOTE:</b> By the end of <a href="#">grade 5</a> , ALL students demonstrate <a href="#">BASIC LITERACY</a> in the following content knowledge and skills in DANCE.		
	Basic choreographed structures employ the <a href="#">elements of dance</a> .	1.1.5.A.1	Analyze both formal and expressive aspects of time, shape, space, and energy, and differentiate basic <a href="#">choreographic structures</a> in various dance works.
	Movement is developed and generated through improvisation. Form and structure are important when interpreting original choreography.	1.1.5.A.2	Analyze the use of improvisation that fulfills the intent of and develops choreography in both its form and structure.
	Musical and non-musical forms of sound can affect meaning in choreography and improvisation.	1.1.5.A.3	Determine how accompaniment (such as sound, spoken text, or silence) can affect choreography and improvisation.
	Compositional works are distinguished by the use of various body movements and sources of initiation (i.e., central, peripheral, or transverse).	1.1.5.A.4	Differentiate contrasting and complimentary shapes, shared weight centers, body parts, <a href="#">body patterning</a> , <a href="#">balance</a> , and range of motion in compositions and performances.
8	<b>NOTE:</b> By the end of <a href="#">grade 8</a> , those students choosing DANCE as their required area of specialization demonstrate <a href="#">COMPETENCY</a> in the following content knowledge and skills.		
	Numerous formal <a href="#">choreographic structures</a> can be used to develop the <a href="#">elements of dance</a> in the creation of dance works.	1.1.8.A.1	Interpret the choreographic structures of contrast and transition, the process of reordering and chance, and the structures of AB, ABA, canon, call and response, and narrative.
	Styles and techniques in dance are defined by the ways in which the elements of dance and choreographic principles are manipulated in the creation of dance compositions.	1.1.8.A.2	Analyze dance techniques and styles to discern the compositional use of the <a href="#">elements of dance</a> and choreographic principles relating to dynamics, as well as to discern spatial relationships.

	Dance employs various themes and arts media to engage the viewer, develop meaning, and communicate emotions.	1.1.8.A.3	Examine how dance compositions are influenced by various social themes and <a href="#">arts media</a> (e.g., dance for camera, interactive, telematics).
	The quality of integrated movement depends on body alignment and the synchronized use of major and minor muscle groups. Variety in body patterns, range of motion, application of the <a href="#">elements of dance</a> , and skill level enhance dance compositions and performance.	1.1.8.A.4	Integrate a variety of isolated and coordinated movements in dance compositions and performances, making use of all major muscle groups, proper body mechanics, <a href="#">body patterning</a> , <a href="#">balance</a> , and range of motion.
12	<b>NOTE:</b> By the end of <a href="#">grade 12</a> , those students choosing DANCE as their required area of specialization demonstrate <a href="#">PROFICIENCY</a> in the following content knowledge and skills.		
	Creating master works in dance requires ability to comprehend, articulate, and manipulate time, space, and energy across and within a broad spectrum of <a href="#">choreographic structures</a> and through the use of many choreographic devices.	1.1.12.A.1	Articulate understanding of choreographic structures or forms (e.g., palindrome, theme and variation, rondo, retrograde, inversion, narrative, and accumulation) in master works of dance.
	Acute <a href="#">kinesthetic awareness</a> and mastery of composition are essential for creating and interpreting master works of art.	1.1.12.A.2	Categorize the <a href="#">elements</a> , principles, and <a href="#">choreographic structures</a> of dance masterworks.
	Interpretation of dance is heavily reliant on its context.	1.1.12.A.3	Analyze issues of gender, ethnicity, socio-economic status, politics, age, and physical conditioning in relation to dance performances.
	Artistry in dance performance is accomplished through complete integration of anatomical principles and clear direction of intent and purpose.	1.1.12.A.4	Synthesize knowledge of anatomical principles related to body alignment, <a href="#">body patterning</a> , <a href="#">balance</a> , strength, and coordination in compositions and performances.

	<a href="#">Ear training and listening skill</a> are prerequisites for musical literacy.	1.1.2.B.1	Explore the <a href="#">elements of music</a> through verbal and written responses to diverse aural prompts and printed scores.
	The <a href="#">elements of music</a> are foundational to basic music literacy.	1.1.2.B.2	Identify musical elements in response to diverse aural prompts, such as rhythm, timbre, dynamics, form, and melody.
	Music is often defined as organized sound that is dependent on predictable properties of tone and pitch. Musical notation captures tonality, dynamic range, and rhythm.	1.1.2.B.3	Identify and categorize sound sources by common traits (e.g., scales, rhythmic patterns, and/or other musical elements), and identify rhythmic notation up to eighth notes and rests.
	Musical instruments have unique qualities of tonality and resonance. Conventional instruments are divided into <a href="#">musical families</a> according to shared properties.	1.1.2.B.4	Categorize families of instruments and identify their associated musical properties.
5	<b>NOTE:</b> By the end of <a href="#">grade 5</a> , ALL students demonstrate <a href="#">BASIC LITERACY</a> in the following content knowledge and skills in MUSIC.		
	Reading basic music notation contributes to musical fluency and literacy. Musical intelligence is related to <a href="#">ear training and listening skill</a> , and temporal spatial reasoning ability is connected to listening skill.	1.1.5.B.1	Identify the <a href="#">elements of music</a> in response to aural prompts and printed music notational systems.
	The <a href="#">elements of music</a> are building blocks denoting meter, rhythmic concepts, tonality, intervals, chords, and melodic and harmonic progressions, all of which contribute to musical literacy.	1.1.5.B.2	Demonstrate the basic concepts of meter, rhythm, tonality, intervals, chords, and melodic and harmonic progressions, and differentiate basic structures.
8	<b>NOTE:</b> By the end of <a href="#">grade 8</a> , those students choosing MUSIC as their required area of specialization demonstrate <a href="#">COMPETENCY</a> in the following content knowledge and skills.		
	Common, recognizable musical forms often have characteristics related to specific cultural traditions.	1.1.8.B.1	Analyze the application of the <a href="#">elements of music</a> in diverse Western and non-Western musical works from

			different <a href="#">historical eras</a> using active listening and by reading and interpreting written scores.
	Compositional techniques used in different styles and <a href="#">genres</a> of music vary according to prescribed sets of rules.	1.1.8.B.2	Compare and contrast the use of structural forms and the manipulation of the <a href="#">elements of music</a> in diverse styles and genres of musical compositions.
12	<b>NOTE:</b> By the end of <a href="#">grade 12</a> , those students choosing MUSIC as their required area of specialization demonstrate <a href="#">PROFICIENCY</a> in the following content knowledge and skills.		
	Understanding nuanced stylistic differences among various <a href="#">genres</a> of music is a component of musical fluency. Meter, rhythm, tonality, and harmonics are determining factors in the categorization of musical genres.	1.1.12.B.1	Examine how aspects of meter, rhythm, tonality, intervals, chords, and harmonic progressions are organized and manipulated to establish unity and variety in genres of musical compositions.
	Musical proficiency is characterized by the ability to sight-read advanced notation. Musical fluency is also characterized by the ability to classify and replicate the stylistic differences in music of varying traditions.	1.1.12.B.2	Synthesize knowledge of the <a href="#">elements of music</a> in the deconstruction and performance of complex musical scores from diverse cultural contexts.

2	<b>NOTE:</b> By the end of <a href="#">grade 2</a> , ALL students progress toward <a href="#">BASIC LITERACY</a> in the following content knowledge and skills in THEATRE.		
	The elements of theatre are recognizable in theatrical performances.	1.1.2.C.1	Identify basic <a href="#">elements of theatre</a> and describe their use in a variety of theatrical performances.
	Theatre artists use precise vocabulary when staging a play.	1.1.2.C.2	Express stage directions, areas of the stage, basic stage movements, and parts of a script using correct theatre terms (e.g., setting, costumes, plot, theme, etc.).
	Creative drama and storytelling use voice, movement, and facial expression to communicate emotions. Creating characters is an act of intention in which actors play themselves in an imaginary set of circumstances.	1.1.2.C.3	Distinguish between characters, actors, and the self by demonstrating respect for personal space, creative movement, and pantomime skills while interacting with others in creative drama and storytelling.
	The <a href="#">technical theatrical elements</a> and theatre architecture are inherent in theatrical design and production.	1.1.2.C.4	Describe the use of the technical theatrical elements by examining examples of theatrical design in productions.
5	<b>NOTE:</b> By the end of <a href="#">grade 5</a> , ALL students demonstrate <a href="#">BASIC LITERACY</a> in the following content knowledge and skills in THEATRE.		
	The well-made play uses a specific, identifiable narrative structure (e.g., inciting incident, climax, dénouement, etc.).	1.1.5.C.1	Evaluate the <a href="#">characteristics of a well-made play</a> in a variety of scripts and performances.
	The actor's physicality and vocal techniques have a direct relationship to character development.	1.1.5.C.2	Interpret the relationship between the actor's physical and vocal choices and an audience's perception of character development by identifying examples of vocal variety, stage business, concentration, and focus.
	Time, place, mood, and theme are enhanced through use of the technical theatrical elements.	1.1.5.C.3	Analyze the use of <a href="#">technical theatrical elements</a> to identify how time, place, mood, and theme are created.
	<a href="#">Sensory recall</a> is a technique actors commonly employ to heighten the believability of a character.	1.1.5.C.4	Explain the function of sensory recall and apply it to character development.

	Emotion and meaning are often communicated through modulations of vocal rate, pitch, and volume.	1.1.8.C.3	Differentiate among vocal rate, pitch, and volume, and explain how they affect articulation, meaning, and character.
	A team of artists, technicians, and managers who collaborate to achieve a common goal uses a broad range of skills to create theatrical performances.	1.1.8.C.4	Define the areas of responsibility (e.g., actor, director, producer, scenic, lighting, costume, stagehand, etc.) and necessary job skills of the front and back-of-house members of a theatre company.
12	<b>NOTE:</b> By the end of <a href="#">grade 12</a> , those students choosing THEATRE as their required area of specialization demonstrate <a href="#">PROFICIENCY</a> in the following content knowledge and skills.		
	Theatre and the arts play a significant role in human history and culture.	1.1.12.C.1	Analyze examples of theatre's influence on history and history's influence on theatre in Western and non-Western theatre traditions.
	Characters have physical, emotional, and social dimensions that can be communicated through the application of acting techniques.	1.1.12.C.2	Formulate a process of script analysis to identify how the physical, emotional, and social dimensions of a character are communicated through the application of acting techniques.
	Theatre production is an art, but it is also a science requiring knowledge of safety procedures, materials, technology, and construction techniques.	1.1.12.C.3	Apply the basic physical and chemical properties (e.g., light, electricity, color, paint, scenic construction, costumes, makeup, and audio components) inherent in technical theatre to safely implement theatre design.

## GLOSSARY

**Archetypal work of art:** An artwork that epitomizes a genre of art.

**Art genres:** Artworks that share characteristic approaches to content, form, style, and design. Each of the four arts disciplines is associated with different genres.

**Art media:** Artistic methods, processes, or means of expression (e.g., presentation mechanisms such as screen, print, auditory, or tactile modes) used to produce a work of art.

**Art medium(s):** Any material or technique used for expression in art. In art, “medium” refers to the physical substance used to create artwork. Types of materials include clay, pencil, paint, and others.

**Artistic processes:** For example, expressionism, abstractionism/nonobjectivism, realism, naturalism, impressionism, and others.

**Balance:** For example, in dance, complementary positions that are on or off the vertical, horizontal, or transverse axes.

**Basic Literacy:** A level of achievement that indicates a student meets or exceeds the K-5 arts standards. Basic Literacy is attained when a student can:

- (1) Respond to artworks with empathy.
- (2) Understand that artwork reflects historical, cultural, and aesthetic perspectives.
- (3) Perform in all four arts disciplines at an age-appropriate level.
- (4) Draw similarities within and across the arts disciplines.

**Body patterning:** For example, in dance, unilateral movement, contra-lateral movement, upper/lower body coordination, or standing or moving on two feet vs. one foot during movement patterns.

**Characteristics of a well-made play:** Inciting incident, confrontation, rising action, climax, dénouement, and resolution.

**Choreographic structures:** For example, AB, ABA, canon, call and response, narrative, rondo, palindrome, theme, variation, and others.

**Competency:** A level of achievement that indicates a student meets or exceeds the K-8 arts standards. Competency is attained when a student can:

- (1) Respond to artworks with developing understanding, calling upon acquaintance with works of art from a variety of cultures and historical periods.
- (2) Perceive artworks from structural, historical, cultural, and aesthetic perspectives.

- (3) Perform in a chosen area of the arts with developing technical ability, as well as the ability to recognize and conceive solutions to artistic problems.
- (4) Understand how various types of arts knowledge and skills are related within and across the arts disciplines.

**Compound meter:** A time signature in which each measure is divided into three or more parts, or two uneven parts, calling for the measures to be played with principles, and with subordinate metric accents causing the sensation of beats (e.g., 5/4 and 7/4 time, among others).

**Consummate works of art:** Expertly articulated concepts or renderings of artwork.

**Discipline-specific arts terminology:** Language used to talk about art that is specific to the arts discipline (dance, music, theatre, or visual art) in which it was created.

**Ear training and listening skill:** The development of sensitivity to relative pitch, rhythm, timbre, dynamics, form, and melody, and the application of sight singing/reading or playing techniques, diction/intonation, chord recognition, error detection, and related activities.

**Effort Actions:** “Effort actions,” or more accurately “incomplete effort actions,” specifically refers to nomenclature from Laban Movement Analysis—perhaps the most commonly employed international language of dance. The term refers to any of eight broad classifications or categories of movement: gliding, floating, dabbing, flicking, slashing, thrusting, pressing, and wringing. Each effort action has a specific relationship to the elements of dance (i.e., time, space, and energy) and is paired with another effort action (gliding & floating, dabbing & flicking, slashing & thrusting, pressing & wringing).

**Elements of art:** The compositional building blocks of visual art, including line, color, shape, form, texture, and space.

**Elements of dance:** The compositional building blocks of dance, including time, space, and energy.

**Elements of music:** The compositional building blocks of music, including texture, harmony, melody, and rhythm.

**Elements of theatre:** The compositional building blocks of theatre, including but not limited to plot, character, action, spectacle, and sound.

**Exemplary works:** Works representing genres of art that may be examined from structural, historical, and cultural perspectives.

**Formalism:** The concept that a work’s artistic value is entirely determined by its form—the way it is made, its purely visual aspects, and its medium. The context for the work is of secondary importance. Formalism predominated Western art from the late 1800s to the 1960s.

**Historical eras in the arts:** Artworks that share distinct characteristics and common themes associated with a period of history.

**Home tone:** The first or key tone of any scale; the same as the tonic.

**Kinesthetic awareness:** Spatial sense.

**Kinesthetic principles:** Principles having to do with the physics of movement, such as work, force, velocity, and torque.

**Locomotor and non-locomotor movements:** Locomotor movements involve travel through space (e.g., walking, running, hopping, jumping, leaping, galloping, sliding, skipping), while non-locomotor movements are performed within a personal kinesphere and do not travel through space (e.g., axial turns).

**Media Arts:** For example, television, film, video, radio, and electronic media.

**Mixed meter:** Measures of music in which the upper numerator is divisible by three such as  $6/8$  or  $9/8$  time.

**Movement affinities:** The execution of dance phrases with relation to music. Dancers tend toward either *lyricism* (using the expressive quality of music through the full extension of the body following the accented beat), or *bravura* dancing (in which the dancer tends to accent the musical beat). Both are technically correct, but are used in different circumstances.

**Musical families:** The categorization of musical instruments according to shared physical properties, such as strings, percussion, brass, or woodwinds.

**Music composition:** Prescribed rules and forms used to create music, such as melodic line and basic chordal structures, many of which are embedded in electronic music notation programs, and which can apply equally to improvised and scored music.

**New art media and methodologies:** Artistic works that have a technological component, such as [digital art](#), [computer graphics](#), [computer animation](#), [virtual art](#), computer robotics, and others.

**Orff instruments:** Precursors to melodic musical instruments, such as hand drums, xylophones, metalliphones, wood blocks, triangles, and others.

**Ostinato:** A short melodic phrase persistently repeated by the same voice or instrument.

**Physical and vocal skills:** For example, articulation, breath control, projection, body alignment.

**Principles of design:** Balance, proportion, rhythm, emphasis, and unity.

**Proficiency:** A level of achievement that indicates a student meets or exceeds the K-12 arts standards. Proficiency is attained when a student can:

- (1) Respond to artworks with insight and depth of understanding, calling upon informed acquaintance with exemplary works of art from a variety of cultures and historical periods.
- (2) Develop and present basic analyses of artworks from structural, historical, cultural, and aesthetic perspectives, pointing to their impact on contemporary modes of expression.
- (3) Perform in a chosen area of the arts with consistency, artistic nuance, and technical ability, defining and solving artistic problems with insight, reason, and technical proficiency.
- (4) Relate various types of arts knowledge and skills within and across the arts disciplines, by mixing and matching competencies and understandings in art-making, history, culture, and analysis in any arts-related project.

**Sensory recall:** A technique actors commonly employ to heighten the believability of a character, which involves using sense memory to inform their choices.

**Technical proficiency and artistry in dance performance:** Works executed with clarity, musicality, and stylistic nuance that exhibit sound anatomical and kinesthetic principles.

**Technical theatrical elements:** Technical aspects of theatre, such as lighting, sets, properties, and sound.

**Theatrical genres:** Classifications of plays with common characteristics. For example, classical plays, post modern drama, commedia dell' arte, historical plays, restoration comedy, English renaissance revenge plays, and others.

**Utilitarian and non-utilitarian art:** Art may be functional (i.e., utilitarian) or decorative (i.e., non-utilitarian).

**Visual communication:** The sharing of ideas primarily through visual means—a concept that is commonly associated with two-dimensional images. Visual communication explores the notion that visual messages have power to inform, educate or [persuade](#). The success of visual communication is often determined by measuring the audience's comprehension of the artist's intent, and is not based aesthetic or artistic preference. In the era of electronic communication, the importance of visual communication is heightened because visual displays help users understand the communication taking place.

**Visual literacy:** The ability to understand subject matter and the meaning of visual artworks within a given cultural context; the ability to communicate in a wide array of art media and express oneself in at least one visual discipline.

**Vocal placement:** The physical properties and basic anatomy of sound generated by placing the voice in different parts of the body, such as a head voice and chest voice.
