Statement of Purpose	3
Introduction	4
Unit Objectives	6
Unit 1 – Exploring Music Through Singing	7
Unit 2 – Learning Music Through Sight-Singing	9
Unit 3 – Exploring Music Through Rhythmic Activities	11
Unit 4 – Exploring Music Through Composition	13
Unit 5 – Exploring Music Through Performance (Vocal)	15
Unit 6 – Exploring Music Through Performance (Instrumental)	17
Unit 7 – Exploring Music Through Listening Analysis	20
Unit 8 – Exploring Music Through Compositional Analysis	22
Unit 9 – Exploring a Major Musical Work	24
Unit 10 – Comparing Major Musical Works	26
Unit 11 – Exploring Music Through Cultural Literacy	28

APPENDICES

- A Performance Assessments
- B Course Texts and Supplemental Materials
- C Technology/Website References
- D Edison's Essential Instructional Behaviors; NJCCCS & Glossary

Modifications will be made to accommodate IEP mandates for classified students.

STATEMENT OF PURPOSE

Music and Visual Arts are a significant and integral part of our culture. It is, therefore, the responsibility of every visual art and music educator to help students become more appreciative of all styles. It will contribute to the success of the students as we forge ahead into the millennium.

The Grade 8 - Music program serves as a follow-up to the sixth and seventh grade programs. One of the benefits of the vocal and instrumental music program is an appreciation of the aesthetic and expressive values of music. Development of technique, performance and comprehension at the eighth grade level will contribute to the appropriate preparation for participation at the high school. Through varied music literature, students will be exposed to music of quality and develop criteria for discriminating taste. Membership in music teaches the student cooperation and responsibility.

Our school district provides an extensive arts program, which will enable students to succeed and compete in the global marketplace using the New Jersey Core Curriculum Content Standards in conjunction with the New Jersey Visual and Performing Arts Curriculum Frameworks and technological exploration.

This curriculum guide was prepared by:

Marc Conley, Herbert Hoover Middle School Brooke Hamel, Thomas Jefferson Middle School

Coordinated by:

Robert Pispecky - Supervisor of Music and Art

Introduction

The most precious resource teachers have is time. Regardless of how much time a course is scheduled for, it is never enough to accomplish all that one would like. Therefore, it is imperative that teachers utilize the time they have wisely in order to maximize the potential for all students to achieve the desired learning.

High quality educational programs are characterized by clearly stated goals for student learning, teachers who are well-informed and skilled in enabling students to reach those goals, program designs that allow for continuous growth over the span of years of instruction, and ways of measuring whether students are achieving program goals.

The Edison Township School District Curriculum Template

The Edison Township School District_has embraced the backward-design model as the foundation for all curriculum development for the educational program. When reviewing curriculum documents and the Edison Township curriculum template, aspects of the backward-design model will be found in the stated enduring *understandings/essential questions, unit assessments,* and *instructional activities*. Familiarization with backward-deign is critical to working effectively with Edison's curriculum guides.

Guiding Principles: What is Backward Design? What is Understanding by Design?

'Backward design' is an increasingly common approach to planning curriculum and instruction. As its name implies, 'backward design' is based on defining clear goals, providing acceptable evidence of having achieved those goals, and then working 'backward' to identify what actions need to be taken that will ensure that the gap between the current status and the desired status is closed.

Building on the concept of backward design, Grant Wiggins and Jay McTighe (2005) have developed a structured approach to planning programs, curriculum, and instructional units. Their model asks educators to state goals; identify deep understandings, pose essential questions, and specify clear evidence that goals, understandings, and core learning have been achieved.

Program based on backward design use desired results to drive decisions. With this design, there are questions to consider, such as: What should students understand, know, and be able to do? What does it look like to meet those goals? What kind of program will result in the outcomes stated? How will we know students have achieved that result? What other kinds of evidence will tell us that we have a quality program? These questions apply regardless of whether they are goals in program planning or classroom instruction.

The backward design process involves three interrelated stages for developing an entire curriculum or a single unit of instruction. The relationship from planning to curriculum design, development, and implementation hinges upon the integration of the following three stages.

Stage I: Identifying Desired Results: Enduring understandings, essential questions, knowledge and skills need to be woven into curriculum publications, documents, standards, and scope and sequence materials. Enduring understandings identify the "big ideas" that students will grapple with during the course of the unit. Essential questions provide a unifying focus for the unit and students should be able to more deeply and fully answer these questions as they proceed through the unit. Knowledge and skills are the "stuff" upon which the understandings are built.

Stage II: Determining Acceptable Evidence: Varied types of evidence are specified to ensure that students demonstrate attainment of desired results. While discrete knowledge assessments (e.g.: multiple choice, fill-in-the-blank, short answer, etc...) will be utilized during an instructional unit, the overall unit assessment is performance-based and asks students to demonstrate that they have mastered the desired understandings. These culminating (summative) assessments are authentic tasks that students would likely encounter in the real-world after they leave school. They allow students to demonstrate all that they have learned and can do. To demonstrate their understandings students can explain, interpret, apply, provide critical and insightful points of view, show empathy and/or evidence self-knowledge. Models of student performance and clearly defined criteria (i.e.: rubrics) are provided to all students in advance of starting work on the unit task.

Stage III: Designing Learning Activities: Instructional tasks, activities, and experiences are aligned with stages one and two so that the desired results are obtained based on the identified evidence or assessment tasks. Instructional activities and strategies are considered only once stages one and two have been clearly explicated. Therefore, congruence among all three stages can be ensured and teachers can make wise instructional choices.

At the curricular level, these three stages are best realized as a fusion of research, best practices, shared and sustained inquiry, consensus building, and initiative that involves all stakeholders. In this design, administrators are instructional leaders who enable the alignment between the curriculum and other key initiatives in their district or schools. These leaders demonstrate a clear purpose and direction for the curriculum within their school or district by providing support for implementation, opportunities for revision through sustained and consistent professional development, initiating action research activities, and collecting and evaluating materials to ensure alignment with the desired results. Intrinsic to the success of curriculum is to show how it aligns with the overarching goals of the district, how the document relates to district, state, or national standards, what a high quality educational program looks like, and what excellent teaching and learning looks like. Within education, success of the educational program is realized through this blend of commitment and organizational direction.

UNIT OBJECTIVES

Students will:

- develop listening skills and critical judgment in differentiating vocal classifications according to age, gender and physiological make-up and apply knowledge learned in practicing efficient vocal techniques accordingly. 1.3.8.B.2, 1.3.8.B.3*
- 2. understand that melodies correspond with written notes which have value and pitch and the notes relate to each other intervalically. 1.1.8.B.1, 1.3.8.B.1
- understand that the length of time for which a note is held directly corresponds to the way the note is written and that rhythm is an essential element to the sound of a piece of music. 1.1.8.B.1, 1.2.8.B.1, 1.3.8.B.1
- 4. understand that composing involves having an understanding of the many elements of music and making thoughtful decisions about them while taking the performance into consideration. 1.1.8.B.1, 1.1.8.B.2, 1.3.8.B.1, 1.3.8.B.3, 1.3.8.B.4, 1.4.8.A.3
- 5. understand that a choral performance requires preparation which includes research, rehearsal, the implementation of proper technique, protocol, and structure. 1.1.8.B.1, 1.1.8.B.2, 1.2.8.A.2, 1.3.8.B.1, 1.4.8.A.1, 1.4.8.A.5
- 6. understand that an instrumental performance requires preparation which includes research, rehearsal, the implementation of proper technique, protocol, and structure. 1.1.8.B.1, 1.1.8.B.2, 1.2.8.A.2, 1.2.8.A.3, 1.3.8.B.1-3, 1.4.8.A.1, 1.4.8.A.5
- 7. develop listening skills and musical understanding through the identification of musical form, instrumentation, musical style, and genre, as well as through the identification and discussion of melody, accompaniment, theme, and variation. 1.1.8.B.1, 1.1.8.B.2, 1.4.8.A.1, 1.4.8.B.1
- 8. develop compositional skills and musical understanding through the study of various compositional works, focusing on areas of form, melody, harmony, accompaniment, major/minor identification, solo, design, as well as various composers and time periods. 1.1.8.B.1, 1.1.8.B.2, 1.4.8.A.7, 1.4.8.B.1
- 9. develop vocal skills as well as deeper musical understanding through the study, preparation, and performance of a larger musical work or works in the operetta genre. Students will also examine various aspects of operetta, incorporating visual arts, dance, and theater. 1.1.8.B.1, 1.2.8.A.3, 1.4.8.A.4
- 10. develop vocal skills, listening skills, as well as deeper musical understanding through the study, preparation, and performance of a larger musical work or works in the opera genre. Students will also examine various aspects of opera, incorporating visual arts, dance, and theater, and comparing historical works with more recent works. 1.1.8.B.2, 1.2.8.A.2, 1.3.8.B.2, 1.4.8.A.5, 1.4.8.B.3
- 11. develop an understanding of various cultures through the listening, watching, and performing of their music. Students will broaden an understanding of cultural differences as well as similarities through the study of music from the various cultures, while incorporating other aspects of each culture (dance, art, food, holidays, etc.) in their study as well. 1.2.8.A.2, 1.2.8.A.3, 1.4.8.A.1, 1.4.8.A.3, 1.4.8.A.4

*Numbers refer to the New Jersey Core Curriculum Content Standards for Visual and Performing Arts.

Vocal/General Music Grades 6 & 7

Unit 1: Exploring Music Through Singing

7

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will develop listening skills and critical judgment in differentiating vocal classifications according to age, gender and physiological make-up and apply knowledge learned in practicing efficient vocal techniques accordingly.

Conceptual Understandings/Essential Questions: How is voice produced? Why are male and female voices different? What are the differences among the child, the adolescent male and female and the adult voices? What are the different voice classifications? What are some healthy and efficient vocal techniques that an adolescent male and female choir member need to practice to develop range, accuracy in matching pitches and independence in holding on to his/her own part? How do dynamics and expression affect a performance?

Unit Assessment: Students will sing using correct dynamic and expressive inflection, individually and in groups, using tone that is appropriate to their age level.

Unit 2: Learning Music Through Sight-Singing

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will understand that melodies correspond with written notes which have value and pitch and the notes relate to each other intervalically.

Conceptual Understandings/Essential Questions: How do notes relate to each other? Why is it important to learn music through sight-singing? How can we recognize patterns in music? What are the benefits of being a strong sight-singer? What are the qualities of a strong sight-singer?

Unit Assessment: Students will learn and perform choral repertoire by sight-singing in central focus and individual focus.

Resources: Essential Materials, Supplementary Materials, Links to Best Practices	Instructional Adjustments: Modifications, student difficulties, possible misunderstandings Classroom activities can be modified to fit the individualized needs of each student based on IEP, 504, Behavioral Mods., etc., while maintaining highest level of expectation and encouraging understanding among peers and peer interactions

Vocal/General Music Grades 6 & 7

Unit 3: Exploring Music Through Rhythmic Activities

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will understand that the length of time for which a note is held directly corresponds to the way the note is written and that rhythm is an essential element to the sound of a piece of music.

Conceptual Understandings/Essential Questions: What is the difference between beat and rhythm? How can differing rhythms change a melody? How does steady beat affect a performance? What are the ways in which a beat can be divided? What role do rests play in rhythms? How do duple and triple meter feel different? How does tempo affect rhythm? How does rhythm affect the way we feel about a song? How we move to the music?

Unit Assessment: The students will demonstrate an understanding of the notation and performance of rhythm by modeling, speaking, composing, notating, and playing rhythms, individually and with classmates.

Unit 4: Exploring Music Through Composition

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. **1.4 Aesthetic Responses & Critique Methodologies:** All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will understand that composing involves having an understanding of the many elements of music and making thoughtful decisions about them while taking the performance into consideration.

Conceptual Understandings/Essential Questions: What are the freedoms that composers have when writing a piece of music? What considerations must a composer take into account when writing for a performer(s)? Is it ethical to alter another composer's work? What are some of the decisions a composer must make before beginning to write? Is it ethical for a performer to take liberties with a composer's work? What are some things that a composer must specify in order for a piece to sound the same way each time it is performed? What are some of the guidelines that composers of different eras used when writing music? What are the pros and cons of using patterns when composing?

Unit Assessment: Students will present individual and small group compositions through written notation and performance in the classroom setting.

Unit 5: Understanding Music Through Performance (Vocal)

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.2: History of the Arts and Culture: All students will understand the role, development, and influence of the arts throughout history and across cultures. 1.3 Performance: All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. 1.4 Aesthetic Responses & Critique Methodologies: All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will understand that a choral performance requires preparation which includes research, rehearsal, the implementation of proper technique, protocol, and structure.

Conceptual Understandings/Essential Questions: What are the benefits and challenges of performing with a large group? How can preparing for a vocal concert as a group help us with other situations that arise in our lives? What makes a performance successful? Who is responsible for the success of a choral performance? How can we be respectful audience members? What are strategies for dealing with nerves? What are practices that will keep our voices healthy and performance ready?

Unit Assessment: Students will participate in the Winter and Spring Concerts by performing and observing and analyzing as audience members.

Unit 6: Exploring Music through Performance (Instrumental)

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.2: History of the Arts and Culture:** All students will understand the role, development, and influence of the arts throughout history and across cultures. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. **1.4 Aesthetic Responses & Critique Methodologies:** All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will understand that an instrumental performance requires preparation which includes research, rehearsal, the implementation of proper technique, protocol, and structure.

Conceptual Understandings/Essential Questions: What are the benefits of being able to play an instrument? What are some of the challenges that instrumentalists face? What career possibilities are available to instrumentalists? What is the best process for learning to play a song on an instrument? How can the process of preparing for a musical performance help us in other areas of life? Is the success of a performance solely dependent upon the performer or are there external influences to consider? What are some strategies for dealing with nerves?

Unit Assessment: Students will participate in an in-class piano recital by performing learned pieces and listening/analyzing as audience members.

1.3.8.B.3: Apply theoretical understanding of expressive and dynamic music terminology to the performance of written scores in the grand staff.	and tempo markings within music Know the elements of a constructive critique	Play simple melodies on the piano with two hands by reading written notation		
1.4.8.A.1: Generate observational and emotional responses to diverse culturally and historically specific works of dance, music, theatre, and visual art.		Play pieces with appropriate tempo, expression, and dynamics		
1.4.8.A.5: Interpret symbolism and metaphors embedded in works of dance, music, theatre, and visual art.		Self-critique performances in a constructive manner		

Unit 6: Exploring Music through Performance (Instrumental) (con't)

Resources: Essential Materials, Supplementary Materials, Links to Best Practices, xylophones, electric keyboards, acoustic piano, Beginner Piano repertoire	Instructional Adjustments: Modifications, student difficulties, possible misunderstandings Classroom activities can be modified to fit the individualized needs of each student based on IEP, 504, Behavioral Mods., etc., while maintaining highest level of expectation and encouraging understanding among peers and peer interactions

Unit 7: Exploring Music Through Listening Analysis

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.2: History of the Arts and Culture: All students will understand the role, development, and influence of the arts throughout history and across cultures. 1.3 Performance: All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. 1.4 Aesthetic Responses & Critique Methodologies: All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will develop listening skills and musical understanding through the identification of musical form, instrumentation, musical style, and genre, as well as through the identification and discussion of melody, accompaniment, theme, and variation.

Conceptual Understandings/Essential Questions: What are musical form and its purpose? What effects does instrumentation have on the listening experience? What is musical style and how does one differentiate one from another? What are theme and variation and how are they related? How does melody influence accompaniment, and vice versa?

Unit Assessment: Students will demonstrate knowledge and understanding of targeted objectives through listening quizzes, group projects, notational quizzes, notational worksheets, classroom discussion, group presentations, and classroom performance.

Unit 8: Exploring Music Through Compositional Analysis

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.2: History of the Arts and Culture: All students will understand the role, development, and influence of the arts throughout history and across cultures. 1.3 Performance: All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. 1.4 Aesthetic Responses & Critique Methodologies: All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will develop compositional skills and musical understanding through the study of various compositional works, focusing on areas of form, melody, harmony, accompaniment, major/minor identification, solo, design, as well as various composers and time periods.

Conceptual Understandings/Essential Questions: What compositional techniques are common among the various pieces? What is the importance of a melody or theme in a piece of music? Why do composes change from major to minor keys? What similarities exist between compositional styles? What differences exist between compositional styles? How could one create their own composition, and what tools are necessary to do so?

Unit Assessment: Students will demonstrate knowledge and understanding of targeted objectives through listening quizzes, compositional projects, group projects, notational quizzes, notational worksheets, classroom discussion, group presentations, and classroom performance.

Unit 9: Exploring a Major Musical Work

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. **1.2: History of the Arts and Culture:** All students will understand the role, development, and influence of the arts throughout history and across cultures. **1.3 Performance:** All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. **1.4 Aesthetic Responses & Critique Methodologies:** All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will develop vocal skills as well as deeper musical understanding through the study, preparation, and performance of a larger musical work or works in the operetta genre. Students will also examine various aspects of operetta, incorporating visual arts, dance, and theater.

Conceptual Understandings/Essential Questions: What is an operetta? How are the components of music, theater, dance, and visual arts combined in operetta? What are the characteristics of the music in an operetta? Can such a large production still be created at the middle school level? What is the significance of the story in an operetta?

Unit Assessment: Students will demonstrate knowledge and understanding of targeted objectives through listening quizzes, group projects, notational quizzes, notational worksheets, classroom discussion, group presentations, and classroom performance.

Unit 11: Exploring Music Through Cultural Literacy

Targeted Standards: 1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.2: History of the Arts and Culture: All students will understand the role, development, and influence of the arts throughout history and across cultures. 1.3 Performance: All students will synthesize those skills, media, methods, and technologies appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art. 1.4 Aesthetic Responses & Critique Methodologies: All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Unit Outcomes/Unit Objectives: Students will develop an understanding of various cultures through the listening, watching, and performing of their music. Students will broaden an understanding of cultural differences as well as similarities through the study of music from the various cultures, while incorporating other aspects of each culture (dance, art, food, holidays, etc.) in their study as well.

Conceptual Understandings/Essential Questions: What music is unique to a particular culture? How are certain cultures different from one another? How are certain cultures similar? What instrumentation is used in different cultures? What other aspects are unique to each culture?

Unit Assessment: Students will demonstrate knowledge and understanding of targeted objectives through listening quizzes, group projects, notational quizzes, notational worksheets, classroom discussion, group presentations, and classroom performance.

APPENDIX A PERFORMANCE ASSESSMENTS

MUSIC DEPARTMENT AUDITION WORKSHEET

NAME:			
DATE:			

MUSICIANSHIP

l	Characteristic tone quality/timbre
	Consistently demonstrates tones of superior
	tone color.
_	Usually demonstrates a strong concept of tone color, except at extreme ranges of tess/tura.
	Has a concept of characteristic tone quality, but
	is not able to demonstrate consistently.
╵╙	Does little to demonstrate a characteristic tone color.
	Intonation
	Consistently demonstrates understanding of
	intervallic relationships between notes in all
	ranges. Usually demonstrates understanding of
_	intervallic relationships between notes
	except at extreme ranges of tess/tura.
	Makes an effort to demonstrate ability to hear
	intervallic distances but is not always
	successful.
	Does little to adjust between pitches. Is not aware of any pitch alterations that are
	necessary.
_	Expression, Phrasing, & Dynamics
╵	Consistently demonstrates an understanding of
	musical expression, with and without markings. Breathes/pauses musically.
П	Follows all markings found in the music, but
	performance seems contrived. B reathes/ pauses are usually placed musically.
	performance seems contrived. B reathes/ pauses are usually placed musically. Makes an effort to demonstrate some
	performance seems contrived. B reathes/ pauses are usually placed musically. Makes an effort to demonstrate some expression, but lacks maturity to express
	performance seems contrived. B reathes/ pauses are usually placed musically. Makes an effort to demonstrate some expression, but lacks maturity to express consistently. Breathing/pauses somewhat

	performance seems contrived. B reathes/ pauses are usually placed musically. Makes an effort to demonstrate some expression, but lacks maturity to express consistently. Breathing/pauses somewhat arbitrary. Does little to follow the written markings. Breathing/pauses are arbitrary. Is not aware of the need for musical expression

with proper style. TECHNIQUE

Stylistic Accuracy

Consistently demonstrates an understanding of the proper style required for the music.

□ Usually performs music with proper style.
 □ Has a concept of stylistic consideration but is not always able to demonstrate it.
 □ Does little to perform with any degree of style.
 □ Is not aware of the necessity to perform

Rhythmic Accuracy Consistently demonstrates an understanding of pulse control and rhythmic placement. Demonstrates an understanding of rhythmic relationships, but unable to maintain steady beat. Has some difficulty in performing rhythms accurately. Steady beat is usually not present. Has great difficulty in performing rhythms accurately. Steady beat is usually not present.	 <u>_</u>

Self-Observation/Self-Assessment

Listen to your performance and then answer the following:

1.	This is what I did well.
2.	This is what I think I need to improve.
3.	This is my recommendation for a plan for improvement.
Other	Comments/Observations:

VOCAL PERFORMANCE CRITIQUE

Prior to writing their self-critiques, the students are reminded to be specific and to provide details for each of their comments. They will be used to evaluate their written critiques:

- 1. the student's appropriate identification of the strengths and weaknesses of his/her performance (accuracy, technique, expression, ensemble technique).
- 2. the effectiveness of the student's suggestions for improvement.
- the student's accurate reference to musical events.
- 4. the student's accurate use of musical terminology.
- 5. the student's accurate analysis of the elements of music: pitch, rhythm, tempo, harmony, dynamics, texture, and form, when appropriate.

The following three levels of student performance have been identified for this type of activity:

Advanced. The student:

- 1. accurately describes and analyzes the specific strengths and weaknesses of his/her performance.
- 2. gives effective suggestions for the improvement of weaknesses.
- 3. specifically refers to musical events.
- 4. accurately uses musical terminology.
- 5. demonstrates an understanding of the elements of music.

Proficient. The student:

- generally describes and analyzes some of the strengths and weaknesses of his/her performance.
- 2. gives some suggestions for improvement.
- 3. generally refers to musical events.
- 4. accurately uses music terminology.
- uses the elements of music.

Can you hear the melody at all times?

Basic. The student:

- 1. minimally describes and analyzes some of the strengths and weaknesses of his/her performance.
- 2. gives limited or vague suggestions for improvement of weaknesses.
- 3. makes limited reference to musical events.

 shows limited use of music terminology. demonstrates limited understanding of the elements of music.

Behavior Assessment Middle School Vocal Music

Student Name Teacher Name		Section: Art Unit:	Dates:	
Behavior Skill	Rarely / Never (0-5 pts)	Sometimes (6-7 pts)	Most Times (8-9 pts)	Always (10 pts)

On Time and Prepared

- 1. Arrives to class on time
- 2. Brings necessary materials
- 3. Completes homework

Respects Peers/Classmates

- 1. Respects others property
- 2. Listens to peers
- 3. Responds appropriate to peers
- 4. Respects others opinions
- 5. Refrains from abusive language

Respects Teacher/Staff

- 1. Follows directions
- 2. Listens to Teacher/Staff
- 3. Accepts responsibility for actions

Demonstrates Appropriate Character Traits

1. Demonstrates positive character traits

(kindness, trustworthy, honesty)

2. Demonstrates productive character traits

(i.e. patience, thorough, hardworking)

3. Demonstrates a level of concern for others

Demonstrates a Level of Concern for Learning

- 1. Remains on task
- 2. Allows others to remain on task
- 3. Works to best of ability
- 4. Completes all assignments with accuracy

Performance Assessment

Listen to the performance, then write your responses:

1.	Write three (3) things you like about this performance. Be as specific as possible, and address issues that are important to performance.
2.	Write one suggestion, or improvement that could be made on this performance. Be as specific and helpful as possible.

APPENDIX D

EDISON ESSENTIAL INSTRUCTIONAL BEHAVIORS, NEW JERSEY CORE CURRICULUM CONTENT STANDARDS & GLOSSARY

Essential Instructional Behaviors

Edison's Essential Instructional Behaviors are a collaboratively developed statement of effective teaching from pre-school through Grade 12. This statement of instructional expectations is intended as a framework and overall guide for teachers, supervisors, and administrators; its use as an observation checklist is inappropriate.

1. Planning which Sets the Stage for Learning and Assessment

Does the planning show evidence of:

- a. units and lessons directly related to learner needs, the written curriculum, the New Jersey Core Content Curriculum Standards (NJCCCS), and the Cumulative Progress Indicators (CPI)?
- b. measurable objectives that are based on diagnosis of learner needs and readiness levels and reflective of the written curriculum, the NJCCCS, and the CPI?
- c. lesson design sequenced to make meaningful connections to overarching concepts and essential questions?
- d. provision for effective use of available materials, technology and outside resources?
- e. accurate knowledge of subject matter?
- f. multiple means of formative and summative assessment, including performance assessment, that are authentic in nature and realistically measure learner understanding?
- g. differentiation of instructional content, processes and/or products reflecting differences in learner interests, readiness levels, and learning styles?
- h. provision for classroom furniture and physical resources to be arranged in a way that supports student interaction, lesson objectives, and learning activities?

2. Observed Learner Behavior that Leads to Student Achievement

Does the lesson show evidence of:

- a. learners actively engaged throughout the lesson in on-task learning activities?
- b. learners engaged in authentic learning activities that support reading such as read alouds, guided reading, and independent reading utilizing active reading strategies to deepen comprehension (for example inferencing, predicting, analyzing, and critiquing)?
- c. learners engaged in authentic learning activities that promote writing such as journals, learning logs, creative pieces, letters, charts, notes, graphic organizers and research reports that connect to and extend learning in the content area?
- d. learners engaged in authentic learning activities that promote listening, speaking, viewing skills and strategies to understand and interpret audio and visual media?
- e. learners engaged in a variety of grouping strategies including individual conferences with the teacher, learning partners, cooperative learning structures, and whole-class discussion?
- f. learners actively processing the lesson content through closure activities throughout the lesson?
- g. learners connecting lesson content to their prior knowledge, interests, and personal lives?
- h. learners demonstrating increasingly complex levels of understanding as evidenced through their growing perspective, empathy, and self-knowledge as they relate to the academic content?
- i. learners developing their own voice and increasing independence and responsibility for their learning?
- j. learners receiving appropriate modifications and accommodations to support their learning?

3. Reflective Teaching which Informs Instruction and Lesson Design

Does the instruction show evidence of:

- a. differentiation to meet the needs of all learners, including those with Individualized Education Plans?
- b. modification of content, strategies, materials and assessment based on the interest and immediate needs of students during the lesson?
- c. formative assessment of the learning before, during, and after the lesson, to provide timely feedback to learners and adjust instruction accordingly?
- d. the use of formative assessment by both teacher and student to make decisions about what actions to take to promote further learning?
- e. use of strategies for concept building including inductive learning, discovery-learning and inquiry activities?
- f. use of prior knowledge to build background information through such strategies as anticipatory set,
 - K-W-L, and prediction brainstorms?
- g. deliberate teacher modeling of effective thinking and learning strategies during the lesson?
- h. understanding of current research on how the brain takes in and processes information and how that information can be used to enhance instruction?
- i. awareness of the preferred informational processing strategies of learners who are technologically sophisticated and the use of appropriate strategies to engage them and assist their learning?
- j. activities that address the visual, auditory, and kinesthetic learning modalities of learners?
- k. use of questioning strategies that promote discussion, problem solving, and higher levels of thinking?
- I. use of graphic organizers and hands-on manipulatives?
- m. creation of an environment which is learner-centered, content rich, and reflective of learner efforts in which children feel free to take risks and learn by trial and error?
- n. development of a climate of mutual respect in the classroom, one that is considerate of and addresses differences in culture, race, gender, and readiness levels?
- o. transmission of proactive rules and routines which students have internalized and effective use of relationship-preserving desists when students break rules or fail to follow procedures?

4. Responsibilities and Characteristics which Help Define the Profession

Does the teacher show evidence of:

- a. continuing the pursuit of knowledge of subject matter and current research on effective practices in teaching and learning, particularly as they tie into changes in culture and technology?
- b. maintaining accurate records and completing forms/reports in a timely manner?
- c. communicating with parents about their child's progress and the instructional process?
- d. treating learners with care, fairness, and respect?
- e. working collaboratively and cooperatively with colleagues and other school personnel?
- f. presenting a professional demeanor?

7/2009

New Jersey Core Curriculum Content Standards for Visual and Performing Arts

INTRODUCTION

Arts Education in the 21st Century

Creativity is a driving force in the 21st-century global economy, with the fastest growing jobs and emerging industries relying on the ability of workers to think unconventionally and use their imaginations.

The best employers the world over will be looking for the most competent, most creative, and most innovative people on the face of the earth ... This will be true not just for the top professionals and managers, but up and down the length and breadth of the workforce. ... Those countries that produce the most important new products and services can capture a premium in world markets ...

(2007, National Center on Education and the Economy)

Experience with and knowledge of the arts is an essential component of the P-12 curriculum in the 21st century. As the state of New Jersey works to transform public education to meet the needs of a changing world and the 21st century workforce, capitalizing on the unique ability of the arts to unleash creativity and innovation in our students is critical for success, as reflected in the mission and vision that follow:

Mission: The arts enable personal, intellectual, social, economic, and human growth by fostering creativity and providing opportunities for expression beyond the limits of language.

Vision: An education in the arts fosters a population that:

- Creates, reshapes, and fully participates in the enhancement of the quality of life, globally.
- Participates in social, cultural, and intellectual interplay among people of different ethnic, racial, and cultural backgrounds through a focus on the humanities.
- Possesses essential technical skills and abilities significant to many aspects of life and work in the 21st century.
- Understands and impacts the increasingly complex technological environment.

Intent and Spirit of the Visual and Performing Arts Standards

The intent and spirit of the New Jersey Visual and Performing Arts Standards builds upon the philosophy and goals of the <u>National Standards for Arts Education</u>. Equitable access to arts instruction is achieved when the four arts disciplines (dance, music, theatre, and visual art) are offered throughout the P-12 spectrum. Thus, the goal of the standards is that all students have regular, sequential arts instruction throughout their P-12 education.

Appendix D

The expectation of the New Jersey arts standards is that all students communicate at a basic level in each of the four arts disciplines by the end of fifth grade, using the vocabularies, materials, tools, techniques, and intellectual methods of each arts discipline in a developmentally appropriate manner. Beginning in grade 6, student instruction in the arts is driven by specialization, with students choosing one of the four arts disciplines based on their interests, aptitudes, and career aspirations. By the end of grade 12, students are expected to communicate proficiently in one or more arts disciplines of their choice. By graduation from secondary school, all students should, in at least one area of specialization, be able to:

- Define and solve artistic problems with insight, reason, and technical proficiency.
- Develop and present basic analyses of works of art from structural, historical, cultural, and aesthetic perspectives.
- Call upon their informed acquaintance with exemplary works of art from a variety of cultures and historical periods.
- Relate various types of arts knowledge and skills within and across the arts disciplines by mixing and matching competencies and understandings in art-making, history, culture, and analysis in any arts-related project.

Revised Standards

The revised 2009 visual and performing arts standards align with the National Standards for Arts Education. In addition, they correlate structurally to the three arts processes defined in the <u>2008 NAEP Arts Education</u> <u>Assessment Framework</u>: creating, performing, and responding. When actively engaged in these processes, students not only learn about the arts, they learn through and within the arts.

The state and national standards are deliberately broad to encourage local curricular objectives and flexibility in classroom instruction. New Jersey's revised 2009 visual and performing arts standards provide the foundation for creating local curricula and meaningful assessments in the four arts disciplines for all children. They are designed to assist educators in assessing required knowledge and skills in each discipline by laying out the expectations for levels of proficiency in dance, music, theatre, and the visual arts at the appropriate level of study.

Organization of the 2009 Standards

This organization of the 2009 visual and performing arts standards reflects the critical importance of locating the separate arts disciplines (dance, music, theatre, and visual art) as one common body of knowledge and skills, while still pointing to the unique requirements of individual disciplines. There are four visual and performing arts standards, as follows.

Standards 1.1 and 1.2, respectively, articulate required knowledge and skills concerning the elements and principles of the arts, as well as arts history and culture. Together, the two standards forge a corollary to the NAEP Arts process of *creating*. Standard 1.1 includes four strands, one for each of the arts disciplines: A. Dance, B. Music, C. Theatre, and D. Visual Art; standard 1.2 includes a single strand: A. History of the Arts and Culture.

Standard1.1 The Creative Process: All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art.

Standard 1.2 History of the Arts and Culture: All students will understand the role, development, and influence of the arts throughout history and across cultures.

Appendix D

Standard 1.3 is rooted in arts performance and thus stands as a corollary to the NAEP Arts process of *performing/interpreting*. Like Standard 1.1, standard 1.3 is made up of four arts-specific strands: A. Dance, B. Music, C. Theatre, and D. Visual Art.

Standard 1.3 Performing: All students will synthesize skills, media, methods, and technologies that are appropriate to creating, performing, and/or presenting works of art in dance, music, theatre, and visual art.

Standard 1.4 addresses two ways students may respond to the arts, including (1) the study of aesthetics and (2) the application of methodologies for critique. Standard 1.4 provides a corollary to the NAEP Arts process of *responding*. This standard pertains to all four arts disciplines, and is comprised of two strands related to the mode of response: A. Aesthetic Responses and B. Critique Methodologies.

Standard 1.4 Aesthetic Responses & Critique Methodologies: All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.

Proficiency Levels and Grade Band Clusters

The grade-band clusters for the 2009 visual and performing arts standards correspond to new federal definitions of elementary and secondary education, which may have implications for instructional delivery according to licensure. The expectations for student achievement increase across the grade band clusters as follows:

- Preschool: For those preschool programs that offer appropriate time and frequency of instruction in the visual
 and performing arts, all students should be given broad-based exposure to, and be provided opportunities for
 exploration in, each of the four arts disciplines. The goal is that preschool students attain foundational skills that
 later lead to <u>basic literacy</u> in the content knowledge and skills delineated in the K-2 and 3-5 grade-level arts
 standards, as developmentally appropriate.
- Grades K-2 and 3-5: All students in grades K-5 are given broad-based exposure to, and are provided opportunities for participation in, each of the four arts disciplines. The expectation at this level is that all students attain <u>basic literacy</u> in the content knowledge and skills delineated in the K-2 and 3-5 grade-level standards for the arts.
- Grades 6-8: In grades 6-8, student instruction focuses on one of the four arts disciplines, as directed by choice.
 The expectation at this level is that all students demonstrate <u>competency</u> in the content knowledge and skills delineated for the selected arts discipline.
- Grades 9-12: Throughout secondary school, student instruction continues to focus on one of the four arts
 disciplines, as chosen by the student. By the end of grade 12, all students demonstrate <u>proficiency</u> in at least
 one chosen arts discipline by meeting or exceeding the content knowledge and skills delineated in the arts
 standards.

Teaching the Standards: Certification and Highly Qualified Arts Educators

The visual and performing arts are considered a "core" subject under the federal No Child Left Behind Act (NCLB-2001).

Therefore, all visual and performing arts teachers must meet the "Highly Qualified Teachers" standards within their certificated arts discipline(s). State licensure is the initial gatekeeper for highly qualified status.

Education in the Arts: National and State Advocacy

Appendix D

- The <u>Arts Education Partnership</u> provides research information and other guidance to assist in advocating for arts education at the national, state, and local levels. The Partnership also provides information on government funding at the federal and state levels, including the grant programs of two federal agencies: the U.S. Department of Education and the National Endowment for the Arts.
- At the state level, the <u>New Jersey Arts Education Partnership</u> was established in 2007 as a clearinghouse for information and best practices in arts education, and calls attention to the contribution arts education makes to student achievement. The report, <u>Within Our Power: The Progress, Plight, and Promise of Arts Education for Every Child</u>, is the NJAEP's response to the New Jersey Arts Census Project, the most comprehensive survey ever compiled on the status of arts education in New Jersey's public schools.
- A Glossary of arts terms used in the 2009 visual and performing arts standards was designed to support implementation of the arts standards.

				пропак в
		Numerous formal choreographic structures can be used to develop the elements of dance in the creation of dance works.	1.1.8.A.1	Interpret the choreographic structures of contrast and transition, the process of reordering and chance, and the structures of AB, ABA, canon, call and response, and narrative.
		Styles and techniques in dance are defined by the ways in which the elements of dance and choreographic principles are manipulated in the creation of dance compositions.	1.1.8.A.2	Analyze dance techniques and styles to discern the compositional use of the <u>elements of dance</u> and choreographic principles relating to dynamics, as well as to discern spatial relationships.
		Dance employs various themes and arts media to engage the viewer, develop meaning, and communicate emotions.	1.1.8.A.3	Examine how dance compositions are influenced by various social themes and <u>arts media</u> (e.g., dance for camera, interactive, telematics).
		The quality of integrated movement depends on body alignment and the synchronized use of major and minor muscle groups. Variety in body patterns, range of motion, application of the elements of dance, and skill level enhance dance compositions and performance.	1.1.8.A.4	Integrate a variety of isolated and coordinated movements in dance compositions and performances, making use of all major muscle groups, proper body mechanics, body patterning, balance, and range of motion.
1	2	NOTE: By the end of grade 12, those students choose PROFICIENCY in the following content knowledge:		as their required area of specialization demonstrate
		Creating master works in dance requires ability to comprehend, articulate, and manipulate time, space, and energy across and within a broad spectrum of choreographic structures and through the use of many choreographic devices.	1.1.12.A.1	Articulate understanding of choreographic structures or forms (e.g., palindrome, theme and variation, rondo, retrograde, inversion, narrative, and accumulation) in master works of dance.
		Acute kinesthetic awareness and mastery of composition are essential for creating and interpreting master works of art.	1.1.12.A.2	Categorize the <u>elements</u> , principles, and <u>choreographic</u> <u>structures</u> of dance masterworks.
		Interpretation of dance is heavily reliant on its context.	1.1.12.A.3	Analyze issues of gender, ethnicity, socio-economic status, politics, age, and physical conditioning in relation to dance performances.
		Artistry in dance performance is accomplished through complete integration of anatomical principles and clear direction of intent and purpose.	1.1.12.A.4	Synthesize knowledge of anatomical principles related to body alignment, body patterning, balance, strength, and coordination in compositions and performances.

GLOSSARY

Archetypal work of art: An artwork that epitomizes a genre of art.

Art genres: Artworks that share characteristic approaches to content, form, style, and design. Each of the four arts disciplines is associated with different genres.

Art media: Artistic methods, processes, or means of expression (e.g., presentation mechanisms such as screen, print, auditory, or tactile modes) used to produce a work of art.

Art medium(s): Any material or technique used for expression in art. In art, "medium" refers to the physical substance used to create artwork. Types of materials include clay, pencil, paint, and others.

Artistic processes: For example, expressionism, abstractionism/nonobjectivism, realism, naturalism, impressionism, and others.

Balance: For example, in dance, complementary positions that are on or off the vertical, horizontal, or transverse axes.

Basic Literacy: A level of achievement that indicates a student meets or exceeds the K-5 arts standards. Basic Literacy is attained when a student can:

- (1) Respond to artworks with empathy.
- (2) Understand that artwork reflects historical, cultural, and aesthetic perspectives.
- (3) Perform in all four arts disciplines at an age-appropriate level.
- (4) Draw similarities within and across the arts disciplines.

Body patterning: For example, in dance, unilateral movement, contra-lateral movement, upper/lower body coordination, or standing or moving on two feet vs. one foot during movement patterns.

Characteristics of a well-made play: Inciting incident, confrontation, rising action, climax, dénouement, and resolution.

Choreographic structures: For example, AB, ABA, canon, call and response, narrative, rondo, palindrome, theme, variation, and others.

Competency: A level of achievement that indicates a student meets or exceeds the K-8 arts standards. Competency is attained when a student can:

- (1) Respond to artworks with developing understanding, calling upon acquaintance with works of art from a variety of cultures and historical periods.
- (2) Perceive artworks from structural, historical, cultural, and aesthetic perspectives.

Appendix D

- (3) Perform in a chosen area of the arts with developing technical ability, as well as the ability to recognize and conceive solutions to artistic problems.
- (4) Understand how various types of arts knowledge and skills are related within and across the arts disciplines.

Compound meter: A time signature in which each measure is divided into three or more parts, or two uneven parts, calling for the measures to be played with principles, and with subordinate metric accents causing the sensation of beats (e.g., 5/4 and 7/4 time, among others).

Consummate works of art: Expertly articulated concepts or renderings of artwork.

Discipline-specific arts terminology: Language used to talk about art that is specific to the arts discipline (dance, music, theatre, or visual art) in which it was created.

Ear training and listening skill: The development of sensitivity to relative pitch, rhythm, timbre, dynamics, form, and melody, and the application of sight singing/reading or playing techniques, diction/intonation, chord recognition, error detection, and related activities.

Effort Actions: "Effort actions," or more accurately "incomplete effort actions," specifically refers to nomenclature from Laban Movement Analysis—perhaps the most commonly employed international language of dance. The term refers to any of eight broad classifications or categories of movement: gliding, floating, dabbing, flicking, slashing, thrusting, pressing, and wringing. Each effort action has a specific relationship to the elements of dance (i.e., time, space, and energy) and is paired with another effort action (gliding & floating, dabbing & flicking, slashing & thrusting, pressing & wringing).

Elements of art: The compositional building blocks of visual art, including line, color, shape, form, texture, and space.

Elements of dance: The compositional building blocks of dance, including time, space, and energy.

Elements of music: The compositional building blocks of music, including texture, harmony, melody, and rhythm.

Elements of theatre: The compositional building blocks of theatre, including but not limited to plot, character, action, spectacle, and sound.

Exemplary works: Works representing genres of art that may be examined from structural, historical, and cultural perspectives.

Formalism: The concept that a work's artistic value is entirely determined by its form—the way it is made, its purely visual aspects, and its medium. The context for the work is of secondary importance. Formalism predominated Western art from the late 1800s to the 1960s.

Historical eras in the arts: Artworks that share distinct characteristics and common themes associated with a period of history.

Home tone: The first or key tone of any scale; the same as the tonic.

Kinesthetic awareness: Spatial sense.

Kinesthetic principles: Principles having to do with the physics of movement, such as work, force, velocity, and torque.

Appendix D

Locomotor and non-locomotor movements: Locomotor movements involve travel through space (e.g., walking, running, hopping, jumping, leaping, galloping, sliding, skipping), while non-locomotor movements are performed within a personal kinesphere and do not travel through space (e.g., axial turns).

Media Arts: For example, television, film, video, radio, and electronic media.

Mixed meter: Measures of music in which the upper numerator is divisible by three such as 6/8 or 9/8 time.

Movement affinities: The execution of dance phrases with relation to music. Dancers tend toward either *lyricism* (using the expressive quality of music through the full extension of the body following the accented beat), or *bravura* dancing (in which the dancer tends to accent the musical beat). Both are technically correct, but are used in different circumstances.

Musical families: The categorization of musical instruments according to shared physical properties, such as strings, percussion, brass, or woodwinds.

Music composition: Prescribed rules and forms used to create music, such as melodic line and basic chordal structures, many of which are embedded in electronic music notation programs, and which can apply equally to improvised and scored music.

New art media and methodologies: Artistic works that have a technological component, such as <u>digital art</u>, <u>computer graphics</u>, <u>computer animation</u>, <u>virtual art</u>, <u>computer robotics</u>, and others.

Orff instruments: Precursors to melodic musical instruments, such as hand drums, xylophones, metalliphones, wood blocks, triangles, and others.

Ostinato: A short melodic phrase persistently repeated by the same voice or instrument.

Physical and vocal skills: For example, articulation, breath control, projection, body alignment.

Principles of design: Balance, proportion, rhythm, emphasis, and unity.

Proficiency: A level of achievement that indicates a student meets or exceeds the K-12 arts standards. Proficiency is attained when a student can:

- (1) Respond to artworks with insight and depth of understanding, calling upon informed acquaintance with exemplary works of art from a variety of cultures and historical periods.
- (2) Develop and present basic analyses of artworks from structural, historical, cultural, and aesthetic perspectives, pointing to their impact on contemporary modes of expression.
- (3) Perform in a chosen area of the arts with consistency, artistic nuance, and technical ability, defining and solving artistic problems with insight, reason, and technical proficiency.
- (4) Relate various types of arts knowledge and skills within and across the arts disciplines, by mixing and matching competencies and understandings in art-making, history, culture, and analysis in any arts-related project.

Sensory recall: A technique actors commonly employ to heighten the believability of a character, which involves using sense memory to inform their choices.

Technical proficiency and artistry in dance performance: Works executed with clarity, musicality, and stylistic nuance that exhibit sound anatomical and kinesthetic principles.

Technical theatrical elements: Technical aspects of theatre, such as lighting, sets, properties, and sound.

Theatrical genres: Classifications of plays with common characteristics. For example, classical plays, post modern drama, commedia dell' arte, historical plays, restoration comedy, English renaissance revenge plays, and others.

Utilitarian and non-utilitarian art: Art may be functional (i.e., utilitarian) or decorative (i.e., non-utilitarian).

Visual communication: The sharing of ideas primarily through visual means—a concept that is commonly associated with two-dimensional images. Visual communication explores the notion that visual messages have power to inform, educate or <u>persuade</u>. The success of visual communication is often determined by measuring the audience's comprehension of the artist's intent, and is not based aesthetic or artistic preference. In the era of electronic communication, the importance of visual communication is heightened because visual displays help users understand the communication taking place.

Visual literacy: The ability to understand subject matter and the meaning of visual artworks within a given cultural context; the ability to communicate in a wide array of art media and express oneself in at least one visual discipline.

Vocal placement: The physical properties and basic anatomy of sound generated by placing the voice in different parts of the body, such as a head voice and chest voice.
