

Creating a Gmail Account

Go to www.gmail.com
Click **Create an Account**.

Gmail will redirect you to the **Create a new Google Account** window.

Your Google Account is more than just Gmail.

Talk, chat, share, schedule, store, organize, collaborate, discover and create. Use Google products from Gmail to Google+ to YouTube, view your search history, all with one username and password, all backed up all the time and easy to find at (you guessed it) Google.com.

Confirm your password

You will now need to fill out a form with your information. Type your **first name** and **last name**.

Type the Google **username** you want to use. This will become your Gmail email address. Google checks the availability of the username to make sure that name hasn't already been taken.

Elena.Casarosa@gmail.com

Type your desired **password**. Just like with any online service, it's important to choose a **strong password** - in other words, one that is **difficult for someone to guess**. When you type your desired password, Gmail will tell you whether it is strong enough, and if it's not strong enough you can **modify** it.

Enter your birthday month, day, and year. Select your gender.

Typing Birthday and selecting Gender

Optional: If you would like for Google to text you your password if you ever forget it or need to reset it, enter your **Mobile phone number**. This is not required to sign up for a Google Account.

Optional: If you would like for Google to help keep your account secure by emailing you if there is unusual activity happening with your account, enter an alternate email address in the **Other email address** box.

Then, you will need to type the **verification text** that you see below the Default homepage. You will also need to select your **location**.

Next step

The **Create your profile** page will appear. Click **Add Profile Photo** if you wish to add a photo to your **Google+** profile. If you do not want a profile photo at this time, click **Next step**. You can add a profile photo later, if you change your mind.

The **Google welcome page** will appear. This page will help explain the basics of your Google account and remind you of your Gmail address and Google username.

You have completed the signup process. **Click Continue to Gmail.** You will be redirected to your new Gmail inbox.
