The little freshmen won the pep rally, although it was debatable. But their answers to these questions won our hearts.
We asked little Gabrielle how she felt about being student of the month and she said "They could have picked anyone... but they picked me. I have to do good for myself and my school."

Marcus was asked the same question too "you know, I feel honored, being chosen to represent Novembers Freshman Student of the Month, I have to show they picked me for a reason." Marcus says, while nothing but smiles were given from him.
