Approved minutes from October meeting

School Improvement Plan

Principal Kennett Reviewed process for writing plan

- RISE data not yet available
- January and February - data dives in order to identify needs, committee will then begin writing new plan
- March – plan solidified

- Committee tasked with researching other school's plans

Financial Report

Principal Kennett Reviewed report

- Goal #1 – Addendum recommended as payment for tutoring was not written into our original plan
- Discussed monies that could be reallocated, groups of 4-6 students, 2-3 days for 30 min, pre and post data submitted
- Tutoring had been eliminated last year because it cost the school too much money because we were using wrong payrate.
- Member proposed using data to track student progress to be sure the practice proves effective
- Kennett will monitor the money in order to notify Teachers
- Addendum Approved – Kennett will write up addendum and share with committee for approval
- Money allocated for 1 Teacher split between 1st and 3 paras who received weeklong training
- Clarified the fact that the State paid for Acadience licenses for 1-3, our plan provides funding for 4-6 at risk students
- Shared plan for carry-over of larger than projected spending
