

Endowed Faculty Chairs & Directorships

These funds recognize excellence in teaching and support robust professional development, and more. Faculty chairs serve as models of excellence for other faculty, enriching the curriculum and strengthening methods of instruction at Burroughs.

An initial gift of \$100,000 or more is required, and faculty chairs and directorships require an endowed fund of \$1,000,000 or more to be activated. Once a fund reaches a value of \$1,000,000, donors and their designees receive notification of their beneficiary inclusive of the faculty member's background, academic success, etc. Lifelong relationships often develop between donor and beneficiary.
