

## MODIFIED DIPLOMA AGREEMENT

The team has reviewed and discussed Roseburg Public School’s graduation options and agrees that a Modified Diploma plan best meets \_\_\_\_\_ needs. Our team understands:

1. A **Modified Diploma** does not meet traditional diploma requirements and \_\_\_\_\_ will not be eligible for a traditional diploma under this plan.
2. A **Modified Diploma** signifies the successful completion of a modified high school program with modified course choices and/or modified curriculum, course expectations and grades.
3. Upon graduation, the student’s transcript will reflect that a modified diploma was granted.
4. The pass/no pass or letter grading option may be utilized in a modified course. A “NP” is zero units of credit. A “P” will not count in the computation of a grade point average, but will accumulate credits.
5. That a modified diploma
  - a. may or may not be regarded as meeting entrance requirements for the military.
  - b. will not typically be accepted for entrance requirements in a four-year university.
  - c. may be accepted at a community college if the student is able to pass an entrance exam
6. That once it is agreed that the student will pursue a modified diploma and his/her academic course of study has been modified, he/she will not receive a regular diploma unless a revised plan is developed and the student completes the requirements for a standard diploma.

I/We understand the **Modified Diploma Agreement** and the need for recommending placement of this student on a Modified Diploma Plan.
