Kids R King

Chess Clubs

Kids R King and its professional coaches are bringing the timeless game of chess to your school, and all the benefits that come with it. Our program includes classroom instruction with a coach, based on skill level as well as hands-on play, with different levels of competition. We also host local tournaments to build a sense of school pride through team-based competition.

What you can expect from our program:

- **Math** – Students will be engaged with both arithmetic and coordinate systems commonly found in Algebra
- **Education** – Students will learn about the history of the game, and different thinking processes that offer solutions to complex chess problems
- **Planning** – Students will be engaged in thinking 'ahead', which is essential to successful planning, including schoolwork and homework
- **Respect** – We teach students to understand the merit of playing chess and how to respect your opponent, regardless of whether you win or lose. Each game is an opportunity to learn something new!
- **Fun** – We believe that chess can offer opportunities for both social and competitive interactions that engage students beyond the game
- **Competition** – As students advance, we prepare them to participate in regional, state and national tournaments
