

Suspend and Amend the Education Transformation Act of 2015

We the undersigned request, that in order to prevent further damage to the education of public school children across our state, legislators must immediately:

1. Suspend the Education Transformation Act of 2015 and maintain the current system for one year.
2. Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year.

We repudiate the false narrative persistently perpetuated about public education by NYSED, and further, reject the poorly researched and misguided reform agenda they have pursued. We are unequivocally committed to systems of accountability for teacher performance and student growth, but these systems must be constructed carefully and aligned with research, not political rhetoric.

As parents, school board members and leaders in public schools, we are acutely aware of the damage that has been perpetrated on children as a result of these mandates, and that the damage will expand and accelerate unless there is an immediate suspension of the latest recklessly formulated statutes regarding teacher evaluation and the use of state assessments.

There have been too many rushed and ill-considered changes in New York K-12 education policy. It is time for the Board of Regents to consult experts -- educators and researchers -- in order to create a system that meets the goals of improving teacher practice and student learning. Our 3.1 million children deserve a sound basic education based on evidence-based education policy.

It's not too late to get it right, stop wasting time, energy, resources, and instructional opportunities for students.

We seek your support to create a coherent and thoughtful process to improve teacher practice and the opportunities afforded our children.

This is a chance for parents, legislators and leaders to do what is right; we need your support and courage to make this a reality.

Diana Abbale, Northport - East Northport School District “Especially the requirements for Special Education students. The requirements are ridiculous and place undue stress on students that are already struggling. My son's special education teachers work hard to help him with his multiple learning difficulties and he does not test well. Both his teacher's and also his test grades are not a reflection of the hard work they are both putting in. There should also be a non-regents diploma that special education students can receive that will allow them to move on to college. I don't think anyone making these requirements has a special education student. You are limiting the potential of these students. The teacher's work hard to come up with alternatives to help my son learn. You won't find that kind of dedication in a test result. Wake up and find a new alternative.”

Rich Abbate, “Get it right”

Sonya Abbye Taylor, Carmel Central School District “Let the educators do their jobs. Provide support for their work not regulations that limit them.”

Dina Abdel Wahab, Harrison Central School District “we need to improve teachers' practice to enhance our kids education. Teachers and students should be fairly evaluated on all their efforts and progress they achieve throughout the year and not to be harassed by these assessments. We want the best for our kids to serve the community and the country in the future.”

Maria Abeshouse, Pelham Union Free School District “The current education agenda is abusive to children.”

Bruce Abramowitz, Lakeland “Stop looking to blame educators and look at the family unit.”

Lidia Accetta, North Rockland “I'm sending an SOS to

Save our students, Save our schools and save our society from being impacted!”

Daniel Acheampong, Yorktown “We want the best for our kids.”

Theresa Acosta, Arlington Central School District “Please hold yourselves to the same level of accountability you (rightly) expect from your teaching population. Use credentialed educators and researchers to develop accurate teacher evaluation processes. Review, revise and improve your process, as we expect of our students. Admit when you get it wrong, do a little work, and you will get it right in the end!”

Amy Adams, Piffisford Central School District “This act needs to be suspended and then amended. It is taking steps backward. Please, listen to the teachers, we know the students and the education process the BEST.”

Tj Adams, South Huntington Ufsd “Fix this mess! Stop selling our kids to the highest bidder.”

Stan Adler, Plainedge “The Education & Transformation Act is not for us.”

Lilly Adorno, Yonkers “It is ludicrous to fire teachers over test scores.”

Peter Agro, Monroe Woodbury “Let's get it right!! We owe it to our kids!!!”

Gwendolyn Agthe, Hamburg Central School District “Students are more than a test score and teachers are more than a statistic. Respect public education.”

Michael Ahn, Ardsley “This is ridiculous.”

Alan Aja, Nyc “Parent, educator and SLT member of PS 264 in Brooklyn.”

Alan Alan Weinstein, East Ramapo “suspend or amend transformation act of 2015”

Joe Alati, Monroe Woodbury “Now this makes sense.”

Stephanie Albanese, Valhalla “Do the right thing for our students!”

Lisa Alberto, Patchogue - Medford School District “Suspend the act”

Lisa Albi, Mount Pleasant “Let our teachers teach! We need experienced educators making policy, not politicians.”

Victor Alcalde, White Plains “The governer doesn't care about children or teachers.”

Barbara Alessi, Yorktown “Please consider suspending, amending, and reforming the Education Transformation Act so education can benefit all students and teachers can be evaluated fairly. I ask that you also develop an evaluation system by specialists in the field of education.”

Courtney Alexander, Skaneateles “Walter Sullivan would be an excellent consultant.”

Karen Alexander, Hauppauge “We need to cut back on testing and come up with an evaluation system that is fair and accurate”

Sharon Alexander, Yonkers “Also I work in the City School District of New Rochelle.”

Jo-Ann Alford, Hendrick Hudson “Please do the right thing for our kids and teachers!”

Barbara Allen, Nyc “I'm grateful for this action.”

Cheryl Allen, New Hartford “This is a necessary step to correcting the injustices that Gov. Cuomo and the state legislators have imposed on the public education system. Experts and those currently teaching should be making decisions based on research and practical experience. This would produce the best results for our students.”

Christine Allen, Connetquot “Thank you ?Š”

Neal Allen, Irvington “The current system of evaluation and punishment has destabilized school systems and confused educators about goals and responsibilities.”

Tricia Allen, Monroe Woodbury “Do the right thing!”

Carl Alm, Nyc “education has become a political football hurting all”

Russell Alonzo, Byram Hills Central School District “STOP NOW! MAKING SUBURBAN KIDS DUMMER WON'T MAKE INNER CITY KIDS SMARTER!”

Steven Alper, Putnam Valley “It is time to return control of education to the local level.”

Linda Alster, Hendrick Hudson “Do not pass the act”

Susan Altman, Rye Neck “Please suspend and amend immediately”

Eileen Alvarez, Lakeland “Ridiculous bill. Separate church and state... Support public schools.”

Eileen Alvarez, Peekskill “Support our public schools. They are worth the effort.”

Guadalupe Alvarez, New Rochelle “Please suspend the ETA! This in no way benefits our students, rather it hurts their education! Not to mention that the students will pose a threat to the livelihood of educators if they don't perform to certain expectations!”

Joann Alvarez, Irvington “Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year. Let the experts decide!”

Anabela Alves Livorno, Mineola “Our governor needs to begin to do good for all of the children of NYS and not the hedge fund billionaires that back his campaigns. Teachers have always been evaluated. Until the issue of poverty is addresses and until our schools are properly funded NOTHING will change. Good governance is not protecting and being the champion for the few but rather the many. Public education is the catalyst to any good society. Public education serves all unlike charters that cherry pick who to serve. Until this changes, the results will be the same.”

Maria Amato, New Rochelle “Suspend and amend the NY state Transformation Act 2015”

Lisa Ambrose, Pine Bush “Get rid of common core!!!!”

Guy Amdur, Bedford Central School District “Keep overly-ambitious, out-of-touch politicians away from shaping school reform!”

Lynne Amend, Northport - East Northport School District “Let's think about evaluating how parents are doing their part.”

Joseph Amico, Byram Hills Central School District “Stop the ridiculous tests (even though my kids excel at them)

Leave control in the neighborhood, not in the Capitol.

We do a fairly decent job of keeping the good teachers and losing the bad ones - without any help from Albany.

Use Charter Schools to help the bad school districts.”

Rick Amico, Rochester “We need to have teachers, the practitioners who work with our students on a daily basis, design a system which helps everyone succeed instead of tearing everyone down.”

Linda Amitrano, Yonkers “This is urgent.”

James Amodio, Arlington Central School District “I am also a teacher in Yonkers Public Schools and I see similar problems resulting from these changes. Being a parent and a teacher gives me multiple perspectives on this issue, but they lead to the same conclusion: this Act, as written, is bad for students and needs to be thoroughly changed.”

Arca Ana M., Rye Neck “I am against the Education Transformation Act of 2015. I don't believe that the implementation of it will help children. Please stop wasting time, energy, resources and instructional opportunities for our children. Thank you.”

Carmine Anastasio, Arlington Central School District “It is only fair.”

Stephanie Anastos, Farmingdale “It is completely unfair to evaluate teachers based on students' scores. Students are not numbers and come to school with a variety of strengths and weaknesses; all of which teachers can not control”

Megan Andersen, Monroe Woodbury “Stop putting special interest groups before our children!!!!”

Jane Anderson, Rye City “Take a stand and do the right thing for students and educators!”

Kelly Anderson, Southampton “Please!!!”

Lena Anderson, White Plains “Money (my tax dollars) should not be deployed to private schools while public schools are in need. Charter schools should give teachers the same Union representation that is available to public school teachers.”

Margaret Anderson, Williamsville Central “I emphatically request that you to support this effort to re-think the current and soon-to-be amended evaluation system!”

Zachary Anderson, Carthage Central School District “signing as a parent and a teacher!”

Diana Andrade, Patchogue - Medford School District “I am a proud parent and board member at Pat-Med. Please consider this solution for our children.”

Louanna Andralliski, Harrison Central School District “Please do what is in the best interest of our most precious resource - our children/students! Suspend the Education Transformation Act of 2015 NOW!”

Dyan Andrew, Binghamton City School District “Thanks!”

Veronica Angelo-Heizman, Connetquot “The governor's current use of flawed testing and a flawed teacher evaluations is destroying education and hurting my child.”

Ellen Angeron, Dobbs Ferry School District “none”

Robert Angiello, Eastchester “Your policies are ruining education in New York.”

Joseph Annattone, Harrison Central School District “stop the NY State Education Transformation. act of 2015”

Thomas Anschutz, Binghamton City School District “Please stop this madness. The tests are invalid and penalize the neediest students.”

Aldis Ansons, Monroe Woodbury “My wife had me do this”

Wendy Ansons, Monroe Woodbury “Test data should not be tied to teacher evaluations. In addition, teachers should be evaluated in a fair, unbiased way by evaluators that are familiar with the population and with the teacher. Let's get back to the task at hand. Let's educate our students in the most developmentally appropriate way possible and take into consideration that children are NOT numbers on a paper. Every child is different with different needs, strengths and weaknesses. We need to recognize children for what they are~ little human beings, not numbers and scores.”

Lisa Antonelli, Irvington “I do not support tax dollars giving relief to religious institutions. SEPARATION OF CHURCH AND STATE!!!”

Vincent Apicella, North Rockland “Get it right”

Sebastian Arango, New Rochelle “Let's end the madness!”

Martha Arden, Pelham Union Free School District “As a former Board of Ed member, I urge you to support a research-focused, evidence-based approach to our teacher and student evaluation practices -- let's practice what we teach!”

John Arena, New Rochelle “stop underfunding the middle income city schools”

Zorina Arjune, Eastchester “let's stop blaming the teachers and start recognizing that every student learns differently. its not always about test scores. Sometimes the smartest kids test poorly. How can this be the fault of the teachers!!! you are setting our students to fail.”

Chrisine Arlt, Clarkstown Central Schools “We need to stop rushing and trying to put a make-shift system in place. CURRENT educators need to be involved in the process. This is NOT a business, our children are NOT a product. Put this new train wreck of a system on hold until such time as a reliable, research based and PROVEN system can be implemented.”

M.A. Armano, Nyack “Cuomo cannot be allowed to hijack education at the expense of our children because he is still angry at our educators for not backing his runs for Governor. I am neither a teacher nor a parent and know that this must end, he does not see clearly when it comes to teachers and education. His Mother is a teacher which makes his vehemance that much more repugnant and egregious. He needs to truly put our children first-now.”

Michele Autuoro, Mamaroneck “Murray Avenue”

Edie Ayer, Dryden Central School District “we are doing more long term harm than good when play/ experiential hands on multi-sensory based learning is replaced with test preparation learning at the elementary level. If common core goals were developmentally appropriate and the assessments and curriculum were under local control with state sets every 3 years I believe education would improve. Stop treating children like robots and begin to teach them like intelligent capable people”

Robert Ayrovainen, Hauppauge “THINK folks!!”

Robert Ayrovainen, Hauppauge “Well put!”

Deborah B., Port Washington “Tying student test scores to teacher evaluations is dangerous, and flawed policy, and has been soundly rejected by expert statisticians and others. In legal terms, it is an irrational policy and, therefore, an illegal one.”

Frances Backofen, Newburgh Enlarged City School District “It is time to stop the craziness of testing children for the sake of teacher evaluation. This accomplishes nothing. It is time to let teachers teach, not to test, but to educate. NY was well ahead of the curve for many years, when the measure of success that standardized NY State education was the Regents Testing Program, which college bound students took and others could as well. It meant the state had a standardized

curriculum plan which all students participated in, using curriculum materials affordable by the districts. And New York students, outside of NYC fared well when making application to colleges. The state syllabus based on the Regents was the guide. This worked. It is time to go back and study this, and reform it to make it better, stronger, if you will. But, this should have been sufficient to begin with. Elementary children should have portfolios of work representative of their performance, and how it meets the standards. Teachers need better preparation in Undergrad, and grad school. Certification needs to be based on the teachers preparation, ad maintained through rigorous observation, by admin, and peers. Teaching needs to become a PROFESSION. To teachers...Untio teachers monitor themselves and each other, as other licensed professionals do, teaching will not become a recognized PROFESSION.”

Mary Baldwin, Mattituck Cutchogue School District “We need to be thinking about the children we are educating and how to provide them the best possible learning experience from the expert teachers that spend their day with them. When we take them away from teaching quality curriculum created for their students with their expertise we are doing a disservice to everyone schools, teachers and especially the students they love to teach.”

Tina Baldwin, Bolivar-Richburg Central School “The Board of Regents must come into classrooms during teaching time and make wise choices when it comes to our students learning strategies. Don't discourage our teachers by making them teach only what you want them to teach. Are we leaving in a Hitler era???? Quit changing things every other year. Stick with a plan that works.”

Carina Ball, Elmira City School District “Respect us as professionals and let's work together!”

Pamela Bankey, Baldwin Union Free School District “Respect the children! Education should not be test preparation for a whole year!”

Marsha Barber, Webster Central School District “It would be very helpful if all the people who think they can teach because "anyone can do it" would teach for a week, make their own lesson plans, and manage the behaviors along with the paperwork. If I said I could be governor, people would know I was full of hot air. So why do they try to tell us they know more than a teacher with a master's degree.”

Luis Barcelo, Ossining “It is time to make education engaging again!”

Valerie Barcheski, Valley Steam “Stop jeopardizing Public Education!”

Stephanie Barg, Piffersford Central School District “Please listen to the voices of your constituents. I am a parent and a teacher as well, and I firmly believe that the direction of education with this new budget is not conducive to the success of children, and in turn, our future.”

Kate Barnwell, Harrison Central School District “Harrison CSD has been a leader in developing effective teacher evaluation programs that honor the work teachers do and MOST IMPORTANTLY serve the educational needs of our students. Use us as a model. Make well-researched policy that puts students first. Keep the big ed publishers out of the discussion, they serve their shareholders, not our children.”

Nancy Barr, Blind Brook “I have served on the school board for 6 years and I believe we need reform but putting even greater emphasis on test scores is not helping students learn -- we can do better by our students.”

Stacey Barrett, Copiague “We need testing that will drive instruction, not punish teachers for results from a test that is beyond their ability levels. I teach in a high needs-poverty district with so many factors that affect my students that can't possibly be reflected in a test score. Look at the whole picture, not a pixel or two.

Thank you”

Elise Beaulieu, Saranac Central “Please start listening to the professionals in the field, this is seriously damaging many students. What will it take to make you understand your constituents in NYS do not want, or condone Common Core. Students, teachers, parents and administrators have come out by the thousands to protest this crazy experiment on NY's children. Stop putting the billionaires and corporations first, and listen to us!”

Gillian Beck, Edgemont “While I appreciate the need to ensure better performance for poor performing schools, this will have a negative impact on the schools that perform well. Please find a way to improve the schools that desperately need it without ruining the schools that don't.”

Paul Beeken, White Plains “I work in a district that puts 99% of its students into 4 year colleges with 60% going to tier 1 and 2 schools. It's hard to imagine how more restrictive evaluations would improve our performance.”

Danielle Begina, Smithtown “THANK YOU”

Lisa Behnke, Three Village School District “We are united.”

Jan Bell, Nyc “why aren't we making children accountable in the schools? Hard to teach and counsel with the behaviors and lack of respect that go on every day”

Natasha Bell, Rochester “It is time that legislators took the needs of students and teachers in the classroom as their #1 priority in education instead catering the agendas of folks who seek to plunder tax-payer funds to profit at the expense of equitably funded public schools that serve ALL the children of New York.”

Unreasonable

Unfair to all involved especially the children

Educationally unsound”

Mary Sue Bennett, Bloomfield Central School District “This system is unfair and inaccurate, it flies in the face of current educational research. Let educational professionals create a fair evaluation system.”

Faith Benoit, Rye “Between Common Core and this ridiculous law, who in their right mind will ever enter this field? As it is, wonderful experienced teachers are leaving. This is a big state with diverse populations which will never flourish with a one size fits all philosophy. Guidelines yes, implemented as appropriate for each district.

More control at the district level!”

Jeanette Benson, Hamburg Central School District “Please allow public education to be the best it can be. Please don't take our funding!”

Mario Benvenuto, Monroe Woodbury “School taxes ridiculously high”

Dr. Merrily Besvinick, Tuckahoe “There is no positive correlation between student achievement and punishing teachers.”

Gary Bettan, Plainview Old Bethpage Central School District “I am the President of the POB Board of Education. We must stop the over emphasis on hi stakes testing. The proposed APPR changes will only make things worse.”

Christy Bezruczyk, Plattsburgh City School District “My child deserves a well rounded education and our teachers will not continue to only be test givers...what we know is right for our kiddos should not continue to be ignored by politicians who "think" they know how to run a classroom!! We were taught how to meet a variety of needs in a classroom and common core not only focuses on inappropriate high stakes testing, but also removes teacher autonomy, creative thinking, social emotional development and completely ignores the parent and teacher concerns...enough is enough...money and corporate profits are not more important than my child, or my profession. It's time to let our teachers teach and for our children to actually learn! Common core needs to stop as this type of education without representation is demoralizing and my child, all students, are losing out on critical years of development because of an ugly experiment called education reform.”

Parul Bhatnagar, Edgemont “Our kids at school should be the most benefit and nobody should be considered above their welfare.”

Alison Bianco, North Collins Csd “This law is flawed; VAM IS JUNK SCIENCE.”

Donna Bianco, Bronxville School District “What is best for children is what should be the most important consideration. Current testing is not reasonable or comprehensive. You can do better.”

Nicholas Bianculli, Blind Brook “The new evaluation system does not capture the essence of teaching. It allows no avenue for administrators to evaluate teachers on items that aren't quantifiable. It's important to recognize an axiom brought to us by Albert Einstein: "Not everything that can be counted counts, and not everything that counts can be counted.”

Madeleine Biegen, Rye Neck “Please take action to suspend this act!”

Maryann Bielfeld, Monroe Woodbury “Educate our public schools. We would love to put our children to private schools, as we did growing up, but due to HIGH UNNECESSARY

taxes that we are forced to pay, we need the public schools to help the children of the future to one day correct the mess and make a better system for ALL (rich, middle class and poor)! NOT to whom can get me votes to stay in office. STOP THE MADNESS! and do what's right for the parents and their children!”

Michelle Birnbach, Somers “Yorktown is ridiculous to stop driving kids to friends homes after school as every other district does except poverty districts social interaction is more important than evaluation tests. Ask Einstein”

Amy Blackwell, Hastings “I am parent in this district and a teacher in a neighboring district and after 25 years of teaching am finding there is little time for anything that doesn't fit inside the "box" of teaching to the standards and the test. It is very disheartening and it needs to change!”

Patricia Blaich, Wappinger Central School District “Please recind this legislative policy and start New York on an educationally sound curriculum and practice.”

Erin Blakeley, Pelham Union Free School District “Please reconsider your proposals for teacher evaluations. Our teachers deserve to be evaluated fairly, in a system that paces far less emphasis on test performance.”

Heather Blatz, Arlington Central School District “Please do the right thing by the students and educators who work hard to succeed. So many new initiatives have been rolled out in haste, without thinking them through or getting expert opinions. This has seriously and negatively impacted education in the last few years. New York state government and NYSED owe it to education to think carefully about how this will impact our state's educational system.”

Patricia Bleier, Piffsford Central School District “I am requesting that more time be allotted to develop and implement a more sound evaluation system.”

Laura Blessing, Canastota Central School District “As an educator for over 30 years, it is sad to see to see the mandates in place are greatly impacting education. There is so much more to education than a test score.”

Margaret Brady, Yorktown “Please stop the ridiculous high stakes testing. Our teachers deserve to be fairly evaluated based on classroom testing, observations, lesson plans, and parent and student surveys. Trust me, the kids know who is teaching them and who is b just there for a paycheck. I have never refused state tests for my kids but I will if that is to be 50% of teacher evaluation.”

Margaret Brady, Yorktown “Since we know that the tests have problems, how is it fair to base 50% of a teacher's evaluation on them? I believe in accountability for teachers but this won't get rid of the bad teachers and will hurt the good ones who are still trying to make education fun for our kids!”

Ted Braggins, Arlington Central School District “As an art educator I would like to see evaluations and assessments tailored to fit the content area.”

Martha Brajuha, Dover Union Free School District “let's make the change.”

Claudia Brand, North Rockland “Cuomo, you couldn't be more wrong about education and you have NO interest in the people of NEW YORK! It is clear you are in bed with corporate America and special interest groups who you owe favors to or are willing to push YOUR agenda. You are NOT your dad and you are by far the WORST governor this state has ever seen!”

Claudia Brand, North Rockland “It is clear that Gov. Cuomo is pushing forth his own agenda that has nothing to do with education but rather corporate American and the Highest of all income earners. The public school system is what makes this country great and puts everyone on a fair playing field. Cuomo is clueless to public education as he himself is not a product of the public school system. Since the onset of his governorship and all of his mandates and changes our public school system is FALLING apart. It is HE that is failing not the public school system. If he indeed was working in the private sector he would have BEEN fired by now for moving in the WRONG direction. The evidence is clear it is not teacher it is Cuomo that is failing.”

Jennifer Brendel, South Huntington Ufsd “It needs to STOP”

Kelly Brennan, Mamaroneck “I completely agree with the Time-Out initiative. I strongly support the right for us to comprise a panel of experts to redesign the teacher evaluation process. We need a thoughtful process designed by people who work in the trenches with children. We need a process that fosters learning and growth for teachers who might need support. We need trust and collaboration to design and support best practices.”

Patrck Brennan, Connetquot “I have been in both the engineering world, and the education world. Rushing to get something done, for the sake of getting it done is not effective. Take the time to get it right, and do it once.”

Robin Brennan, North Rockland “We are abusing children with the current plan. There has been too much money and time spent on the worst plan I have seen in my 25 year career.

It is a travesty.”

Caroline Brennen, Harrison Central School District “When ever did the penultimate selfish interests of a select few negatively impact so many in the public school systems of New York State? It is an incredibly sad time for public education as politicians promote their self-interests on the backs of NYS students and teachers. I am stunned and disgusted by the duplicity of those elected officials who continue the pretense of knowing what is right for everyone. Shame on you all!”

Steven Brent, Hastings “Increasing corporate and State control over local school districts will undermine and ultimately destroy our schools and our communités.”

Jamy Brice-Hyde M.Ed., Horseheads Central School District “The deadlines on this bill are impossible to meet these policies are not what is best for NYS Children”

Tamarah Bridgewater, Ossining “Wouldn't it make sense to enroll educators & experts that work within the system for insight and involvement in the revisions as a regular commonplace practice. It is inconceivable that people and/or agencies outside of the education realm dictate changes, testing, evaluations and curriculum for educating our communities with having NO hands-on experience.

Its like asking a dentist to fix your car.”

These mandates have no credibility with teachers and the students and parents they serve.”

Tom Bromage, Katonah Lewisboro “We can do better. Involve parents and teachers, as well as experts.”

Adam Bronstein, Ardsley “At a time when research and innovation is expanding the possibilities for classroom instruction and student learning, state regs have narrowed the focus and pedagogy to be centered around ELA and Math. Let's take a deep breath and rethink this system.”

Natalie Brooks, Wahingtonville Central School District “We need to get rid of current APPR and the extensive testing of our students.”

Emily Broomhead, Arlington Central School District “The panel should be comprised of teachers.”

Todd Broomhead, Arlington Central School District “This does not go far enough. The Education Transformation Act should not exist. Amendment is not enough. That said, the panel that designs the teacher evaluation system should contain actual educators, not just "seasoned education leaders.””

Marysue Brost, Camden Central School District “Please suspend and amend the Education Transformation Act of 2015. This act's sole purpose is to destroy public education. Please do not let this happen.”

Stephanie Brown, Hendrick Hudson “I truly believe my children all four of them are suffering with school due to common core . My children who were once straight A students and loved school in another state are now feeling discouraged and inadequate. Go back to the basics ex.2+2=4 no need to make equations longer”

Caroline Browne, Greenburgh Central School District “I have been teaching for the past 9 years and I have not seen improvement in scores. I have only seen the death of subjects like Social Studies and Science fall way to the test prep culture of ELA and Math.”

Robert Brownell, Peekskill “I am signing this petition”

Jeanne Brunson, Kings Park “Kids should be assessed with (quality) tests. Research says teachers should be evaluated by expert observation, meaning someone familiar with the program and population. Nancy Bucci, Harrison Central School District “I support the efforts to suspend and amend the New York State Education Transformation Act of 2015”

Pamela Burke, Croton Harmon “Fix the act. Get it right for students and teachers!”

Work on district that are failing, Don't touch what is obviously working for us and many other Districts across the state.”

Judith Calder, Ardsley “It is important to have goals and standards, but the NYS Legislature is going about it wrong - to the detriment of our schools and our teachers, and more important, to the detriment of our students, our future.

Education is about one teacher igniting one mind. If teachers must teach to exams, then they're doing it wrong - they are supposed to teach to students. Students are people, and one size does not fit all, so your methodology of over-testing is flawed ab initio.

Further, not only is each student his or her own person, but also (we hope) a member of a family and of a community. It is imperative that those who understand their students and their community (the teachers and administrators in that school district) be allowed input in the goals to be achieved and the means to achieve them. Constant state-wide testing may not be the appropriate answer for many - or perhaps even any. If you want good, healthy produce, grow and buy local. If you want educated, healthy learners, grow and teach and test local.

Moreover, we, the residents of the school districts of New York State, did not ask the legislature to plan our curriculum, hire our teachers, or analyze our childrens' strengths and weaknesses. That-s what we have school boards and school budgets and teachers and administrators for. If a school district does not do right by its students, then the State should provide additional support to those -underperforming- districts. But what the Legislature has created is the reverse of additional support - it has created additional burdens on the schools to perform the testing, without providing the financial means to do it, thereby effectively stealing our tax dollars to support this nonsense. In other words, you are no better than a -middle-man- or -jobber.- We not only want better for our schools, we expected better of you.

Instead of getting what we expected of you, we are getting something that we don-t want, and something that is deleterious to the future of education itself. You are doing to schools what the insurance industry did to medicine - creating an unwise and ill-advised barrier between the provider and the recipient. How shameful ! And you are creating an environment where the best potential teachers - those who want to inspire students - will shy away from the profession, leaving us nothing more than automatons good at meaningless paperwork. Think about the long term impact of your current plan - if teachers become as unindividual as trains, can Mussolini be far behind?”

Tiffany Carroll, Lakeland “The latest attempt at fixing something that was never broken in the first place has done nothing but more harm than good in the education of our children. More and more are hating school and they don't understand anything they are learning. Trying to teach a 6th grader what is considered high school material is absolutely absurd. To tell a parent that the answer their child put on a test is wrong because, although the answer is correct, they didn't use the nonsense new way of doing an addition problem, just goes to show that people who know nothing about education should not be creating a school curriculum. This needs to end, and it needs to end now.”

Tom Carroll, Peekskill “There is so much wrong with evaluating all teachers using the same criteria. All schools are not alike. Students who attend affluent schools have resources far beyond those students in urban and poor rural schools. In addition, what if Teacher A has honors and accelerated students, while Teacher B has inclusion and ESL students? The outcomes on state assessments will obviously be different. I have been a successful teacher for 38 years. This is one of the reasons I am leaving the teaching profession today. Would love to have this conversation with those who are making these decisions. Thanks for reading this.”

The RCSBA requests:

1. That the Board of Regents convene a task force of qualified practitioners (including Superintendents, teachers and school administrators) and independent experts (including psychometricians and other specialists in the fields of ELL and students with special needs) who will:

- Review the validity, reliability, transparency, developmental appropriateness, length and quantity of the state tests
- Determine the appropriateness of linking state tests to the proposed evaluation system and re-examine the proposed weight of those results in the teacher evaluation matrix
- Calculate and analyze the cost benefit of utilizing outside, independent evaluators

2. That school districts be given one year from the date of acceptance of the approved APPR plan to fully integrate and implement within their district

The RCSBA believes that if New York State leaders allow ample time to thoughtfully and deliberately enact education reform, with input from all stakeholders including parents, school boards, teachers and other education advocates, the outcome will build greater trust and acceptance that the potential reform is inspired by a genuine commitment to support and improve public education.”

The Research for Better Teaching model is based on a continual, reflective teaching practice that goes far beyond the "dog and pony shows" created by a formal, scripted one time observation. Teacher evaluation systems should incorporate the experience and knowledge of teachers and administrators currently at work in the profession. They are the ones who truly know what happens in the classroom everyday. we base our instruction on data and research based programs. Our evaluations should be held to the same standard.”

Julia Crupi, Harrison Central School District “Governor Cuomo,

EVERYONE tells me that this Common Core is a disaster and from everything I have read in my research, I have to agree. Do us ALL a favor, let the teachers TEACH. Let's be done with this nonsense for once and for all. Let's use common SENSE, not Common Core.”

Geoff Curtis, Katonah Lewisboro “Suspend!”

Tracy Curtis, Monroe Woodbury “We need to think of the children first. They despise this Common Core Curriculum, therefore how can teachers be rated on curriculum students don't care about and lose focus on? Unfair. Mary Deady, Arlington Central School District “While I agree that we need a rigorous curriculum for our courses, testing and irrelevant teacher evaluations do not take into account how we need to differentiate our instruction in order to meet the needs of our students. It is shameful that Pearson has taken over the education process making money that could be better spent on our students and schools.”

Jennifer Demarrais, Edgemont “The current culture of high-stakes testing needs to be eliminated, not enshrined. Even a good test would measure only part of many students' abilities and the current tests are far from good ones.”

Christine Depaoli, Harrison Central School District “I am an educator who believes that accountability is important; however, the legislators are very misguided in their approach to evaluating teachers. The greater shame is that no one in Albany is even willing to listen to what administrators, teachers, parents, and students have to say about the proposed evaluation system.

People who live and breathe education every day have far more insight into making policy than the politicians who are enforcing legislation!”

Michele Depew, Eastchester “I do not appreciate the government taking over the schools whereas the students are being taught like robots and the teachers are judged by the students grades. Bad move!”

Further, the teacher evaluation must be fair and reasonable to protect my students from unfair testing, harsh, inadequate blame on teachers and tried and true, well thought out practices to produce superior teaching and learning school environments. The current system profits test writing industries, ignores teacher expertise and undermines the high level training and practice of NY State teachers. No other professional organizations would side with the current, poorly implemented testing, now in place.”

Marilyn Derubeis, Hastings “I've been teaching for 27 years, and have always been reflective and have welcomed evaluations as an opportunity to learn and continually develop. I am proud to have worked with colleagues who feel the same and are stellar teachers. Kathy Desousa, Montauk “This sounds like a plan.”

Richard Dettwyler, Pleasantville “If you really want to help young students and make education better, you need to focus on the Administrators, not the teachers. Make the Administrators do their jobs. Make them get off their asses and get into the classrooms. Further, and perhaps more importantly, all principals should have 10 years of classroom experience, in the school they are going to lead. This is not special ed experience but real, regular classroom or modified teaching. This should be your highest priority. Then, evaluate the administrators on their performance. Additionally, make the administrators write their own reports, not get their teachers to do their work. Thank you.”

Kathleen Deuel, Irvington “Teachers are not the enemy. They are the experts and they care about their students. The state legislature needs to listen to teachers, too. If the state tests their students took were fair, reliable, and valid, teachers would not object so much to using them. That is simply not the case.”

There is so much wrong with this system that was hastily implemented.

Governor Cuomo won't even have a discussion about the wrongs. It is not too late to stop the wrong.”

David Dimeo, Lakeland “The education policies have been rushed into implementation lately. Let's learn from our mistakes.”

Lule Dine, Hastings “I have spent a tremendous amount of income and effort staying in the Hastings school district in which I trust my child to. How on earth would handing decisions over our school to Albany make us happy as premium tax payers and residents.”

Renee Dinnerstein, Nyc “Retired teacher and consultant”

Jean Dion, Three Village School District “Enough already!”

Andrew Diorio Iii, Bay Shore School District “Leave public education alone! Instead of trying to privatize it, give it the money to be more effective and efficient!”

Christine Dipaola, Sachem “This act will transform education by DESTROYING it!! This law needs a public review. If parents understood how harmful this is to their children, they would be horrified. Make the impact of this legislation understandable and clear to parents!!”

Chris Dipasquale, Somers “More teaching less tests!”

Chris Dipasquale, Yorktown “This is a travesty for both education and teachers!”

Rina Dire, Elmont Union Free School District “Do what is right for the students and teachers - keep school about the love of learning and growing as a well rounded student, not about test taking! Repeal this ridiculous law that only puts money in the pockets of Pearson!”

Mary Ann Doerr, Dansville Central School “My students lost 3 weeks of ELA and Math instruction due to the state 7-8 math and ELA testing. Can't you people come up with a better plan? Kirk Dougherty, Irvington “Choices, pls.”

Thomas Douglin, Peekskill “As a teacher with 30 years experience I shudder to think what these unfair draconian measures will do to our young promising teachers as well as to the deserving student population in Peekskill. Not only am I a teacher here but I am also a tax paying resident of Peekskill.”

Lynn Dowd, Pearl River “Stop the insanity. Stop funding Pearson and private entities that have no business in my children's education. We love our qualified exceptional teachers; leave them alone. Focus your energy on the ineffective PARENTS in your failing districts with failing students. Stand up and speak the truth- certain parents are failing their kids; not the "system". Kids cannot learn when they have absentee parents, drugs in the home, no food on the table and no one to help with homework. Call a spade a spade. THAT is the problem with education today- absentee parents and supervision. Address the REAL problem and stop dragging down the unaffected kids with this nonsense. It's insulting.”

Jessica Dubin, Briarcliff Manor “The process of educating a child should not be like filling a bucket but like lighting a fire.”

Marco Duchimaza, Port Chester “We need more support”

Dianne Duffy, Bronxville School District “Thank God I had a proper childhood. Or I'd never be prepared to fight these monsters who've been robbing our children of theirs! We want greedy corporate whores and the swill they serve our children out of our schools, and a failure to return our schools to its rightful local owners will continue to result in a cultural war which only grows more violent. Our children share the regional values of their parents more than ever. Our new-religion is really bad business for the profiteers going forward. Guaranteed.”

Theresa Duffy, Croton Harmon “Children's education first.”

Lela Dunbar, Wahingtonville Central School District “It's not too late to get it right! Let's do what is best for kids!!!!”

Dawn Dunn, Springs Public School “Please it's time to do what is right!!!”

Erica Dunn, Arlington Central School District “STOP THIS NONSENSE!”

Hannha Dunn, Bethpage “I wholeheartedly agree with the above. The test is not grade level appropriate and the evaluation is not a fair one. Like I tell everyone that I wish all my students are on the same page when taking a test and we all know that the children are not robots. Everyone gets off days and we are evaluate for this?? How can teachers be evaluate on how student perform especially in the grade level school and being 50% is totally ridiculous. We are grades 3-8 being the targeted and not all teachers have the same. Teachers from 3-8 should also receive the school's

number as well. not individual because the the 5th grade teacher had the student for only that one year. Isn't the child's learning based on K-5?"

Holly Dunn, Poughkeepsie “Over-testing students is not an intelligent or fair means of evaluating teachers.”

Tricia Dunne-Silvetti, North Rockland “Public education has become a profit- making industry for corporate special interests and a means for ambitious, self-serving politicians, who have forgotten the goal of representative government, to "earn" the powerful support of wealthy special interests .

Our students and our teachers have become a commodity. Our children....and our country...deserve better. We need legislators of integrity to stand up for what's right and save our schools.”

Lisa Duquette, Hastings “HOH is already a high-performing school district. It is the type of district to which people move in order to send their children. Its focus is ALREADY on achievement and education for the WHOLE CHILD. The accomplishments consistently made by our students and the individualized, differentiated instruction currently provided by teachers can only be HURT by the Education Transformation Act in which, for instance, ELA test scores in ONLY TWO of the four mandated language arts core standards--reading, speaking, listening, and writing--are tested (and tested with a narrow focus at that)!”

Rachel Durfee, Nyc “It is the blood, sweat, and tears of the public school teachers who work 12 hour days in abhorant conditions and who are locked into hundreds of thousands of dollars in debt for schooling and changing certification requirements that are being persecuted.

These teachers fuction as parents, guidance counselors, crisis management, and are expected to meet overwhelming needs with laughable resources. Without us, these kids will be even more succceptible to the increasing violence and poverty that already provide formidable obstacles to their education.

And yet we are treated as menial workers, micromanaged by a board of regents that is incompetant and completely removed from any true pedagogical insight or knowledge- not to mention grossly out of touch with how to impart lasting higher order thinking skills to our young people who so desperately need them.

We are undergoing reform from a govener who stands to become a billionaire if he can convince the public that charter schools should be prioritized.

And so, all the aforementioned has become irrelavant as incompetant policy makers plow through poorly concieved public school reform with a wrecking ball, leaving students, parents, and teachers as the necessity collateral damage.

In short both the money making greed of high stakes testing companies, including Pearson, The regents board, and Common Core, as well as the thinly veiled attempts of our politicians to convince educators and parents that the true intrests of our kids are being prioritized are both harmful to our communitis and deeply offensive to those in the trenches who have devoted their lives to serve the greater good.

Doctors, layers, mental health professionals, and other professioinals who have devoted their life to working within a regulated of norms to improve society would never be treated in such a manner.

Shame on you Governever Cuomo. Shame on you! Your actions have escalated from unethical, to deplorable and are now fliriting with criminal.

How dare you do this to our city, a once exemplar model of public education the world looked to for inspiration? And again I ask those that are hastily enacting reckless changes:

How dare you do this to our children?

And how on earth DO ANY OF YOU sleep at night knowing full well the destruction you have wrought.

Nancy Eaton, Webster Central School District “I am a teacher in NYS, but I am also the parent of a young women who is studying to be a teacher. She is very discouraged by the negative press about teachers in NYS and the threats to teachers published in the media by the Governor and his allies in NYSED. I also am an adjunct instructor in an education department at a local college. The students in my class are worried, discouraged and fearful of either never getting a job or being fired because they won't be able to maintain the test scores inflicted on us by the Governor. STOP THIS MADNESS IMMEDIATELY OR YOU WILL RUIN EDUCATION FOR GENERATIONS!!!!”

Obadiah Eaves, White Plains “This is severely damaging our educational system, and it's one of the top issues that I consider when voting. Move us away from the over-reliance on tests, and towards creative educational solutions.”

Brian Edmister, Genesee Valley Central School “As a Principal, in the thick of the attempt to implement this, I have not seen anything that has caused a more divisive air in and around education in the more than 20 years of experience I have. We are unequivocally committed to systems of accountability for teacher performance and student growth, but these systems must be constructed carefully and aligned with research, not political rhetoric!!!!”

Mary Ellis, Mount Pleasant “The reform agenda had the potential to significantly improve education in New York, but instead hijacked an evaluation system that should be growth oriented as well as an assessment system that should be used to help districts make programmatic decisions. Please halt the politicizing of education and return control to schools where the focus will be on teaching and learning.”

Peter Ellis, Mechanicville “I hope this works!”

Sheila Ellis, Albany City School District “Cuomo needs to go. We did not invent poverty. Do some research!”

Crystal Elmendorf, Arlington Central School District “Please let us teach and include us in the process of figuring out how to best improve teacher performance / practices.”

Christine Els, Wiliam Floyd Ufsd “True school reform needs to be slow and include educators who are in the classrooms, not the unattached hierarchy!”

Elizabeth Elsass, Nyc “Parents want educational and developmental experts guiding educational policy and no one else. Please support the development of new policy that will benefit the kids. The current high-stakes testing and teacher evaluation components are creating children who cannot think broadly. We could lose a generation of students if this is done in haste.”

Andrew Emery, Pelham Union Free School District “Suspend ETA of 2015 !”

Ralph Engel, Mamaroneck “Our children's and grandchildren's futures are at stake. Instead of politics, let's get it right, for once.”

Deirdre Ennis, Pleasantville “Children should be in classrooms that encourage creativity and stimulate thinking. Currently, children are in classrooms with frustrated teachers who are forced to teach to a test. The results of one test cannot fully evaluate a child's learning nor a teachers ability.”

Betsey Ensign, Harrison Central School District “As a parent and teacher of public school education, please, please, stop the madness. The emphasis on tests is just too much for the kids, and the pressure on creative teachers to teach towards the test is too demanding.”

Marilyn Entwistle, Ardsley “The ramifications of this are huge and are impacting on students in ways that only those of us who are "in the trenches" know.”

Jacqueline Erickson, North Bellmore Ufsd “as parent of a son with disabilities who was keeping up quite well until the rushed implementation of the common core when he began third grade, it is heartbreaking to see how he has suffered academically over the past two years. We need to take a step back and assess what will truly help our student to meet the high standards that we would want them to.”

Kevin Erickson, Cuba Rushford “Stop the insanity and be thoughtful about what is in the best interest for students and their families.”

Clare Erland'S, White Plains “Educators, students and parents should be included in determining education reform. They are the ones most affected by any changes.”

Melanie Ernst, Piffsford Central School District “Dear Senator Funke and Assemblyman Morelle,

I am asking for your support to suspend and delay this process of the proposed teacher and principal evaluation system until we have meaningfully and thoughtfully worked out a plan in the best interest of our students and overall public education system in New York. Our youngest citizens are being harmed in ways that cannot be reversed - they have one chance in their education.

Thank you for your time and consideration.

Respectfully,”

Joann Erwin, Smithtown “End the high stakes testing that is hurting our students.”

Jessica Esders, Spencerport “Please Please Please Suspend and Amend this Act. One size does not fit all!”

David Estes, Ithaca City School District “Some consequences of the focus on high stakes testing: Teachers worried about losing their jobs will feel so much pressure to have their students perform well on the test that they will 1. Skip enriching experiences that take too much time or are not covered on "the test", 2) Recommend ADHD medications for children who cannot tolerate long hours of seat work, 3) Cheat to improve test scores. Children attending schools with increased test pressure will 1. Experience high levels of stress, 2. Learn that if they are not good at traditional academic subjects (reading, writing and math) they are "failures", rather than learning to believe in themselves and pursue their individual talents, 3) Hate school. Parents with financial means who see their children suffering from the increased stress and the homogenized academic focus will pull their children from the public school system. This will only increase inequality in our public school education. The bottom line is that the focus on this testing* will not improve the educational experience for millions of children in this country. It will worsen it!

* Not to mention the fact that the tests are highly questionable. Teachers will be fired if their students don't pass an unfair, unrealistic, unreliable test? Really?”

Mayra Estrella, Port Chester “I am a school psychologist who sees the ramifications (i.e., anxiety and stress) that over testing has imposed on students and teachers, alike.”

Rachel Estroff, Harrison Central School District “Thank you to David Buchwald, George Latimer and the Westchester representatives for working with school districts to understand and advocate for needed change. Governor Cuomo, please act!”

Trevor Evan, Middle Country “It is time for our legislators to listen to the people who know best- the educators and administrators...not the test makers and text book publishers who line the pockets of politicians with shady deals. Otherwise, these lawmakers better start looking for new jobs, because we will vote for candidates that have our best interests in mind.”

Margret Evangelista, North Rockland “Our children deserve to be educated, not over tested. Please get it right, right now!”

Josulyn Evans, Greenburgh Central School District “Let's Get it Right!”

Mary Evans, Scarsdale “We need time to restore evidence-based decision-making.”

Matthew Evans, Fallsburg Central School District “This is too important to hurry for political ends. Please get it right this time.”

Miriam Ewaskio, Dobbs Ferry School District “I've seen some very negative effects on real learning and understanding in the name of core standards which seem to be in direct opposition to what they claim to try to attain. I've seen it specifically re my freshman son's geometry class for the year 2014/2015.”

James Fabbro, Monroe Woodbury “Thank you!”

Rhonda Fabbro, Monroe Woodbury “Thank you!”

Linda Fabrizio, Garden City Ufsd “allow teachers to provide intelligently designed educational opportunities which offer creative and thoughtful lessons.”

James Fahey, Perry Central School District “Please do the fair and right thing.”

James Fahey, Perry Central School District “Please do what's right, fair, and best for our students!”

Joanne Fahey, Perry Central School District “This will affect teachers who work in districts with higher poverty rates NOT poor teachers.”

Danielle Fahy, Monroe Woodbury “Common core needs to go with this ridiculous act! Neither are productive for students or staff!!!”

Paul Fakler, Byram Hills Central School District “I will vote on this as my sole issue in every election from now until the problem is solved.”

Ann Fantauzzi, Saratoga Springs City School District “Let's get this miserable idea out of the hopper now! Too many kids will suffer! Too many rich people will profit!”

Debra Faria, Hilton Central School District “please suspend and amend the NY state Education Transformation act of 2015.”

Aimee Farias, Port Chester “I disagree with what they are doing with our children. my child is struggling with these new standards. Every child learns differently and at a different pace. Please fix this broken system. If I could home school I would. That's how bad it has gotten.”

Natalie Farina, Scarsdale “Stand up for teachers! Stop making decisions about a world you know nothing about! We are professionals. Instead, turn the scrutiny on politicians and pay careful attention to who is funding them.”

Michele Farley, Wayne Central School District “Please stop and listen to parents, students and educators. Stop following corporations. I ask you read the scientifically based research.”

Tim Farley, Ichabod Crane Central School District “Let's get this right!”

Julie Farmen, Fairport Central School District “The real issue at hand is the terrible poverty many of our students live in NOT public education.”

Carin Farmer, Avon Central S D & Fairport Csd “I've sent my legislators letters. We should not be doing year end testing in April. Some kids actually don't pay attention and that is not the teacher's fault. Tests filled with typos - they are junk. Fix this now.”

Timothy Farnum, Brighton Central School District “It is impressive how much people who have never spent a day working in a classroom believe they know about how education should work. This "crisis" is not an education crisis it is a poverty crisis--schools are doing a better job than they ever have: they are graduating a higher percentage of students than ever. Has anyone checked to see how much money chicken little is likely to make from privatizing education, or selling un-necessary standardized tests?”

Lisa Farr, Lansing “Please do not let our children and future generation falter by not allowing them creative, diverse, hands-on and stable teaching - 1st priority get students excited about learning, keep them excited about it so they want to share it with others - excessive & standard tests cannot measure how each individual learns - every student is unique and to group them, as well as, teachers into molds makes for an uninteresting world.”

Alii Farrell, Brighton Central School District “This is a travesty that this was done in the first place.”

Catherine Farrell, Hunter-Tannersville Central School “Yes to research-based decisions!”

Joanna Farrell, Piffersford Central School District “Please delay for 1 year! It is essential to all!!!”

Liz Farrell, Pelham Union Free School District “this is so important. Please do this the right way and leave politics aside. This is about educating our country's future leaders. Be a model and do the right thing.”

Sarah Farrelman, Fairport Central School District “[I] repudiate the false narrative persistently perpetuated about public education...and further, reject the poorly researched and misguided reform agenda they have pursued. We are unequivocally committed to systems of accountability for teacher performance and student growth, but these systems must be constructed carefully and aligned with research [and authentic and appropriate to each teachers' students], not political rhetoric.”

Jamie Farrington, Amsterdam “This is an attack on teachers at the expense of the children.”

Maria Favre, Three Village School District “Enough is enough.”

Michele Fazio, Shenendehowa Central School District “we need to get this right, we are losing highly qualified Teachers every day! Let our Educators educate !!!”

Mark Feaster, Hastings “Wake up Albany! So many of these wonderful teachers offer our children a unique real life education that you can't possibly standarize.”

Terry Febrey, Penfield Central School District “You need to have a waiver for the schools that are above average. APPR gets in our way. When a school is successful, keep the government out of the way.”

Ryan Fedele, Schenectady City School District “As a parent in the Schenectady district I am concerned that we will hurt good teachers with this newly proposed system.”

Valerie Feit, Rye Neck “If the time, energy and resources expended on trying to make poorly constructed evaluation models work, was applied to legitimate educational objectives, we might have a chance to meet benchmarks that would actually prepare children for their futures.”

David Feldman, Hendrick Hudson “Please re-evaluate the Act. The intentions are on target, we need to take a closer look at the execution. We need to measure teacher performance, make them accountable, but also allow them to teach and not to the test only.”

Flora Feldman, Nyc “our children deserve The best educación”

Jodi Feldman, Mount Pleasant “Pleas stop giving companies all the money that belongs in our schools.”

Lisa Feldman, Byram Hills Central School District “This is Communism for our schools.”

Maya Feldman, Irvington “Please reconsider the way we are teaching our children and supporting our teachers”

Sharon Feldman, Harrison Central School District “Luckily my daughter is done with high school this year but I feel bad for all those kids that will have to deal with this.”

Margaret Felouzis, Patchogue - Medford School District “Please hit the pause button on reforms. We need to keep in mind that these high stakes tests are having negative impact on our children .”

Patricia Fernandez, Eastchester “Standardized testing does not and cannot determine if a teacher is doing his/her job well”

Linda Fernberg, Byram Hills Central School District “I deplore the evaluation system designed by Gov. Cuomo and passed by NYS Legislators. This is a wrong headed approach to improving our schools and empowering our teachers to teach. Properly funding ALL districts throughout the state and revising the tenure process for teachers would be a good start to reform. Teaching to the test has got to stop! Critical thinking is one of the things we should be focused on teaching our children. Please take the time to develop a thorough and fair evaluation system. Test scores are not indicative of a good teacher, they reflect the student. And there could be a myriad of reasons a student does poorly on a test. That should not be a large factor in evaluating a teacher.”

Ingrid Ferrara, Piffsford Central School District “PLEASE help educators be able to GO BACK to TEACHING students, not pushing curriculum down their throats when it is not developmentally appropriate....”

Dana Ferraro, Byram Hills Central School District “The tests our children and students are subjected to are not adequate measures of student or teacher achievement.”

Joe Ferraro, Valhalla “Do the right thing.”

Homer Ferreyra, Harrison Central School District “I would ask that you not only Suspend the Education Transformation Act of 2015, but that the "core curriculum" mandate be abolished as it now is. Let the local school boards revise and/or implement their own curriculum with the traditional emphasis of truly core necessities of math, reading, writing and the sciences.”

Tom Ferro, Hamburg Central School District “This law is flawed.”

Jennifer Field, Sharon Springs And Canajoharie “it truly is time to stop and reflect. If you want to make change, then talk to the people who actually teach right now. You need to have urban, suburban, AND rural representatives.”

Robert Figa, Harrison Central School District “Let's do the right thing for the next generation. Suspend the Education Transformation Act of 2015 and maintain the current system for one year”

Cynthia Filetto, Binghamton City School District “Teachers work so hard. I am at school until 7 every night. It's still not enough to help the students who are poor, excessively absent, hungry and who live with parents (one parent, grand parent, foster home, uncle, aunt, stranger) who have no "skin in the game". I do not know what the answer is, but it ISN'T BEATING THE TEACHERS OVER THE HEAD.”

Marvin Findley, Port Chester “Allow the teachers to teach. They are the Professionals.”

Helene Fineberg, Ossining “Yes. Local districts need to be heard especially since we are in direct contact with the students. This is great.”

Charlotte Finelli, Irvington “retired”

Kathryn Finnegan, Miller Place “respect our teachers”

Kevin Finnerty, Mahopac “Take time to make sensible, useful decisions.

Nor destructive, rash ones.”

Donna Finnigan, Mattituck Cutchogue School District “Slow down and get it right!”

Richard Fischer, Edgemont “Please do not group all schools into one bill”

Thomas Fischer, Ardsley “Student's and Professionals are continually taught to evaluate and learn from their actions and mistakes. The Education Transformation Act of 2015 is a clear and unequivocal mistake. Let's change it and continue to work solve the problem collaboratively.”

Jennifer Fisher, Ossining “I'm opting my daughter out of ALL testing. This is bullshit. Our children are NOT ROBOTS.”

Edward Fitzgerald, Clarkstown Central Schools “Don't allow more damage to be done.”

Lynn Fitzgerald, Greater Johnstown School District “Fulton county. This has gone too far.”

Valerie Fitzgerald, Putnam Valley “The testing is out of control. You change the curriculum and the students before they can possibly absorb all the changes. It is not fair to evaluate teachers based on test results. In a child's life there are many variables that affect them. Testing does not address them. How would you like to be judged just on testing!”

Eileen Fitzgerald-Spiehs, Cortland City School District “Please allow our elected Board leaders and administrators to set the goals and standards for our District!”

Roseann Fiumara, Nyc “its about time”

Jen Flaherty, Pearl River “Please get rid of common core, too!”

Linda Flannelly, Lindenhurst “Please read the following article
<http://zhaolearning.com/2014/09/13/fatal-attraction-americas-suicidal-quest-for-educational-excellence/>

Thank you.”

Jack Flannery, Eastchester “61% of New Yorkers disapprove of common core, why keep it? #DownWithCuomo”

Danielle Flaumenhaft, Sayville “As a parent I have signed this petition and as an educator in the Three Village School District”

Leslie Fleischman, Carmel Central School District “Stop this madness let kids be kids and teachers do what's best

Perhaps changing the retirement to 20 years will help. You would have teachers at their best before the burn out”

Greg Flick, Syracuse City School District “I work as a teacher in the North Syracuse Central School District as well.”

Svetlana Flokas, Byram Hills Central School District “We are doing just fine without Albany telling us what to do. Thank you.”

David Flores, Eastchester “Our school has done and continues to do an outstanding job in educating our children and preparing them for professions.”

Sushi Flores, Croton Harmon “Let's get it right!”

James Foiles, North Rockland “Get it right!”

Matthew Foiles, North Rockland “Get it right”

Michelle Foligno, Dobbs Ferry School District “stop the madness!!”

Robert Fonte, Byram Hills Central School District “I have been very satisfied with the level of education provided to our students, including my kids and would oppose taking the control and standards from our administration in evaluating and educating our children.”

Ann Forbes, Fairport Central School District “Politicians and education leaders thank you for listening. We all want what is best for students!”

Steve Ford, New Paltz Central School District “I believe that the edTPA should also be suspended and modified.

It is a terrible way of evaluating student teachers.”

Carla Forgione, Harrison Central School District “Teaching needs to get back to the teaching of children.”

Joanne Maria Formisano, Eastchester “The people who are in the classrooms need to be listened to. Not outsiders!!!”

Peter Forsgren, Fairport Central School District “As a parent a school board member I will continue to pull my children from the tests and encourage all parents to do likewise until change is made. Not just lip service change, but change that has real and lasting educational value.”

Gilles Fortin, Plattsburgh City School District “Indeed, it is not too late and we need to do what's best for children!”

Michelle Forzaglia, Eastchester “Do what is right for our children! Stop this madness or test refusal rates will double again next year.”

Marc Foster, Webster Central School District “We as teachers need to be a part of this process. We should not be forced to accept a tyrannical system, mandated by the state and governor.”

Andrew Fowler, Eastchester “This rushed law was a mistake that needs to be corrected. This law was not the answer to this NYS's public education problems and I am sorry my representatives passed it. I do not support this law and this mistake should be corrected now, before more damage is done. Rigid standards imposed from outside will only further weaken

poorly performing schools and undermine those schools that are performing well now. All in all, a terrible law that has to go.”

Danielle Fox, Byram Hills Central School District “We want less high-stakes testing, more local control.”

Kathleen Fox, Edgemont “If this evaluation system was meant to "improve schools" everyone would want to use it. But it doesn't improve anything except wallets of those who push this type of legislation.”

Shana Fox-Martin, Byram Hills Central School District “I believe that local schools should be controlled locally. We have a great school, and we want to keep it that way. Give me one example of how government oversight has improved education. This country ranks below Serbia, and more standardized testing has clearly not resolved that horrible standing. Our local system is pumping out highly educated young people, and let's face it, we are going to need smart people if this country is to get back to where it once was. We like our teachers, we like our administrators, and we don't want some ridiculous "formula" to decide who stays and who goes. That should be done on a case by case basis, and no one is more qualified to do so then the people who know their work, their connection with the children, and their talent. Stop this nonsense now, before we rank below Somali! Please let's listen to the people, instead of creating policy based on sound bites, bad science, and poor judgement. Thank you for the opportunity to speak my mind.”

Kandice Fraina, Eastchester “Could not happen sooner !”

Leslie Francis, Westbury School District “Our children deserve an education, not preparation for a meaningless test.”

Linda Frantzen, Monticello “It just adds pressure on students & teachers. There has to be a better way”

Nora Franzese, Patchogue - Medford School District “Let's get it right!”

Stacy Franzese, Ramapo Central “Let's put an evaluation system in place that is based on research. Let's put students' needs first and fairly evaluate teachers.”

Charmaine Fraser, Patchogue - Medford School District “I believe our kids should be challenged in their thinking but this is not a well thought out plan and our kids are paying the price.”

Gwen Freeman, Ithaca City School District “It's time to stop the nonsense. Politicians who think they know what it takes to teach should be forced to teach in a public school for one full year before than can make a single suggestion about education policy.”

Jodie Freeman, Harrison Central School District “Chair of Harrison Educational Foundation”

Laurel Freeman, Lakeland “Please take a moment to acquaint yourselves with current brain research. Among the most notable outcome is the negative effect of stress on the ability to learn. Please take notice!”

Robert Freireich, Hastings “Stop playing politics with our schools, while lining your pockets with Pearson monies”

Kim-Marie Fremgen, Williamsville Central “It's about time to let the professionals deal professionally with their occupations. Children deserve a better education, one that does not test them to death. Where is the love of learning? Where has it gone?”

Tim Freund, Byram Hills Central School District “Albany is making the most ridicules knee jerk reaction due to some districts poor performance”

Lisa Frey, Yorktown “Disgraceful that law makers allowed this!!!!”

Shelli Friedberg, Pelham Union Free School District “Children are people, not products. Teachers cannot be judged on a product, as we are not creating one, we are nurturing, educating, caring for, listening to, helping, encouraging, and fostering our children's growth, not making a product.”

Leonora Friedman, Monroe Woodbury “PLEASE SUPPORT US!!”

Richard P Friedrich, Little Falls Central School District “Give the schools back to teachers, kids and parents....keep legislators out....”

Rosalie Friend, Nyc “There is no point in using student test scores for teacher evaluation since the American Statistical Association warns that student scores will not indicate which teachers do a good job.”

Kristin Friscoe, Valhalla “I am a proud parent in the Valhalla School District & a proud public school teacher in the Ossining School District.”

Renee Frosini, Monroe Woodbury “1. Suspend the Education Transformation Act of 2015 and maintain the current system for one year.

2. Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year.”

Greg Fuchs, Nyc “Talk to teachers, students, & families. Consider class size reduction. Fund schools more, consider to the amount spent at the private schools that educate the children of the so-called bold corporate & politically conservative ed reformers”

Nancy Fuentes, Nyc “The art of education can not and should not be run like a corporation . This does not facilitate positive learning outcomes. Teachers are forced to choose between what they know is right for their students and what they are told will save their jobs. Lose lose situation.”

Edward Fuhrman, Croton Harmon “It is time to stand up for the children.”

Karen Fuller, Northport - East Northport School District “The system is broken. Action needs to be taken. Do the right thing.”

Rachelle Furlan, Ossining “To those we have elected: when oh when are you going to seriously look at the issues at hand and deal with the needs of ALL of our public school children?”

Michael Fuschillo, Ardsley “Please move forward with the current petition. Thank you,
Michael Fuschillo / Parent of 2 Ardsley students.”

Esther Fusco, Nyc “As someone who visits schools all over LI, I see the damage that all these punitive regulations have caused. Hard working teachers are discouraged by the continual attacks on their efforts.”

Danielle Gabriellini, Patchogue - Medford School District “Common core and all of its attachments (standardized tests, APPR, data mining) must go. We have wasted four years of precious learning time in school that our children will NEVER get back. Education belongs in the hands of teachers and parents, not billionaires, corporate America and the federal government. Stop playing games with OUR children's lives and trying to destroy public education. There is nothing democratic about common core, its attachments, its creation, how it was sold to the states via a bribe. Common core is nothing but a business deal, full of profit and control. We never asked for it, we don't want it and we are taking our school back. Do the right thing and do what it is best for OUR children.”

Michelle Gaffney, Shenendehowa Central School District “Most of the population is aware of the poor reliability and validity factors of the current system. These issues need to be addressed.”

Jo-Anne Gaglione, Harrison Central School District “I support this initiative.”

John Gaglione, Harrison Central School District “Do it the right way!”

Bob Gajarsky, Arlington Central School District “listen to the parents!”

Becky Galaris, Patchogue - Medford School District “Your agenda clearly isn't working. The parents have spoken loud and clear. THE TIME FOR CHANGE IS NOW!”

Becky Galaris, Patchogue - Medford School District “Your agenda clearly isn't working. The parents have spoken loud and clear. THE TIME FOR CHANGE IS NOW!”

Valerie Galdau, Greenburgh Central School District “Governor Cuomo is not an educator and doesn't know that children are not robots. Their growth and progress need time!”

Pat Galfano, Lakeland “Please use common sense when it comes to Common Core Stop the over-testing focus.”

Jennifer Gall, Beacon City School District “I respectfully ask that consideration be given to students in respect to their needs and differences. I also asked that consideration be given to teachers who have given their all to their profession, making sure their students get everything that they need for a high quality education no matter their differences and ability.”

James Gallagher, Pearl River “State Government too far reaching!”

Mary Gallagher, Dobbs Ferry School District “As a retired teacher, it has been truly disheartening to see what is happening to our children and to the morale of teachers. Wouldn't it make sense to have people who are experts in the field of education make these decisions?”

Ingrid Gallaway, North Salem “One size does not fit all! Schools that have great teachers and successful students need to be left alone to determine the needs of their district. Some of the new government interventions are having the reverse affect - dragging them down to average. No outsider can judge the students and teachers better than their own district principals.”

Elizabeth Galligan, Sachem “resident”

Diana Galovic, Westhampton Beach “Let's do what is right. Let's base our decisions on research. The current reforms are not working. They are damaging. Let's do what is right.”

Elizabeth Galvin, White Plains “Do what is right for our students and our future!”

Keith Gamache, East Rockaway School District “My children will only have their childhood once. I don't want them to be part of an experiment. I don't want our trusted locally controlled public schools privatized. Please stop this.”

Joanne Gambert, Pearl River “Amend this act and start putting our children's education first!!!”

Elizabeth Gambitsky, Wantagh School District “Let the educator's make educational decisions!”

Leave school districts alone. Let them administer themselves with parents' input. Focus on cleaning up your own mess.”

Lisa Gans, Scarsdale “Please!!!”

Janet Garcia, Port Chester “It's not too late!”

Lynn Garcia, Buffalo Public Schools “This law is a disaster for students. Stop short changing their education for the sake of tests that provide no useful data to improve instruction.”

Lynn Garcia, Buffalo Public Schools “This law is a disaster for students. Stop short changing their education for the sake of tests that provide no useful data to improve instruction.”

Mattie Garcia, Byram Hills Central School District “There are so many variables in a person's life that affect performance at all ages. We cannot hold the teachers 100% accountable for everyone's failures or accomplishments.”

Theresa Garcia, Wahingtonville Central School District “Our children should always from first, but most importantly educators should be valued for their commitment and opportunities that are presented to the students on a day to day basis.”

Judy Garnar-Wortzel, Nyc “let our teachers teach!! I want my children to learn!!!”

There is no valid argument for treating all the same.”

Celine Geary, Webster Central School District “Let teachers teach!”

Carole Gehrig, Whitesboro Central Schools “We can't afford to loose a generation of children. Teachers need to be able to instill the love of learning. Children need to be instructed for their individual learning styles.”

Roseann Geiger, Lindenhurst “Common core is nothing more than a for profit political machine. My children will NEVER take a common core exam, ever.”

Marcia Gelfand, Dobbs Ferry School District “This gotcha to the teachers must end. You say you are thinking about the children but it seems the agenda is to please your wealthy donors. Over testing is dumbing down the teaching in the schools. If my job depends on high scores then I will make sure the students can pass the tests. That is not educating our children.”

Howard Geller, Harrison Central School District “Let's think through the implementation of this and not just ram it through with little input from the professional educators. The concept and implementation do not appear to be aligned with educating our children...it seems to be all about test scores, and that does not equate with lifetime learning.”

Tom Gellert, Northport - East Northport School District “The governor and state legislators need to get their paws off of education. You are DESTROYING public schools with draconian and unproven regulations that will only further erode the quality of our schools. STOP CUOMO'S INSANITY AND REPEAL THE EDUCATION LEGISLATION NOW!”

Gail Gemmell, Wappinger Central School District “Repeal”

Alison Gencarelli, Hastings “I am in favor of suspending and amending the Education Transformation Act of 2015!”

Sharon Gerard, Monroe Woodbury “Suspend and Amend the Education Transformation Act of 2015”

Danielle Gerardi, Pelham Union Free School District “Please do the right thing for our students and teachers!”

Nancy J Gerbino, Somers “Any test, reflects ONLY on the person taking that test. The only other person the test reflects on is the person/persons who designed it.”

Sarah Gerbino, Somers “There have been too many rushed and ill-considered changes in New York K-12 education policy. It is time for the Board of Regents to consult experts -- educators

and researchers -- in order to create a system that meets the goals of improving teacher practice and student learning. Our 3.1 million children deserve a sound basic education based on evidence-based education policy.”

Elizabeth Gerling, Utica City School District “I am an elementary principal, but I am also a parent. I choose for my son to attend my public school because of the opportunities he would otherwise not have at a private or charter school. He is thriving in the public school environment. I choose public schools over private or charter, as you claim I have a choice. With your new education reform, public education will become extinct, no longer giving me the choice!!”

Robert Gessner, Port Jefferson “Testing for profit and charter schools are destroying our public school systems.”

Mary Ghiozzi, Scarsdale “I am a grandmother and retired teacher. I want to see action on this cause.”

Jason Giachetti, Levittown “LISTEN TO THE EXPERTS, NOT THE BILLIONAIRES!!!”

Colette Giardella, Islip School District “It's time to make this right and stop Cuomo's attacks on teachers, public schools and our CHILDREN!!”

Rochelle Gibbons, Warwick Valley Central School District “Over Testing a student to prove that someone else is meeting up to standards is not a one to one relationship. Many factors are involved. I feel that an end of the year anonymous evaluation by both students and parents would be alot more effective in keeping our quality of education moving forward. This would also give our students more time to learn which filling a mind with quality thoughts is more important than filling their minds with fear.”

Rachel Gibson, Hendrick Hudson “While I understand the need to get rid of teachers that are not doing their job properly. This is NOT the way to do it. Come up with a better plan.”

Bill Giddins, Pelham Union Free School District “This ain't Mississippi,”

Brad Gier, Lake Shore (Evans-Brant Csd) “Perhaps the thousands of professionals in NYS with masters degrees know better than a failed lawyer.”

Mary Gilbert, Binghamton City School District “Our children deserve better from you. They deserve to have a sound education, not just another test. Put the job of education back into the hands of the educators.”

Melissa Gildin, Hewlett Woodmere Public Schools “Do What is Right!!”

Mark Giller, Nyc “I fully support the agenda set forth to suspend and amend the Education Transformation Act of 2015”

Anne Gilvarry, Mattituck Cutchogue School District “We teach our students to make wise, thoughtful, informed decisions in life. When something goes awry, we encourage them to reflect on what occurred and only proceed once they have a clear, logical plan for how to avoid making the same mistakes. The leaders of our state need a chance to be able to do so as well, especially when the stakes are so high.”

Hilary Gleekman-Greenberg, Edgemont “This new potential ruling is a very bad idea, and I am very much opposed to the proposed changes”

Craig Goldberg, White Plains “Parents are not an interest group! They are your constituency. Stop supporting the well funded attack on public education!”

Scott Goldberg, Harrison Central School District “Does this petition affect the cap on property taxes too??”

Caitlin Goldschmidt, Pelham Union Free School District “The state needs to focus on teacher retention, not on driving dedicated teachers out of the profession. Spend money on supporting teachers in the classroom. If you want low SES children to improve, decrease student-teacher ratios and improve access to books, technology, and educational field trips. Furthermore be aware that if you impose a test that involves reading short passages as a metric for achievement, what incentive is there for teaching long format works like novels or teaching research skills that will not be measured? Yet the ability to decode long format works and to perform research is crucial for success in higher education.”

Debra Goodman, Uniondale “I’m not in favor of a statewide teacher evaluation system. I think that should be left to the local communities. Teachers need support in order to meet the needs of the children in their classrooms.”

Debra Goodman, Uniondale “I’m not in favor of a statewide teacher evaluation system. I think that should be left to the local communities. Teachers need support in order to meet the needs of the children in their classrooms.”

Laura Goodspeed, New Rochelle “I am a public teacher in the Bronx and a New Rochelle parent of a 2nd grader. I do not want my child's teachers to feel the pressure of choosing teaching points by weather PARC has decided that that's the way THEY interpret the Common Core standards. I do not like the tests length and the inability of teachers to use the data to improve and guide instruction. THE TESTS ARE NOT WORKING RIGHT. Slow down and GET IT RIGHT!”

Barry Grayson, Putnam Valley “I support this petition.”

Thomas Graziano, Nyc “I am appalled at the state's focus on test scores to somehow "measure" a student's improvement throughout the year. As hard as you try, you cant quantify self-esteem, social skills, and maturity. Where and when do the tests measure the effectiveness of child's social life, home life, or mental health on his/her studies? When did helping students learn become just a number that can be measured based on one corporation's views of what education should look like?”

Please have some self-reflection and remember that the point of schools is to encourage growth and learning for our future leaders, not to kowtow to the wishes of Pearson and the money they dangle in front of all of us.”

Angela Green, Sackets Harbor Csd “As an educator, parent, and Board of Education member, I can only hope that you listen to those who are impacted by this legislation and not those who are lobbying for the wealthy who gain from test production. Thank you for taking the time to truly do what is best for the students who benefit from public education.”

Thomas Griffin, Valhalla “Put money back in schools.”

Laurie Griffo, Harrison Central School District “Please take the time to get this right for our students!”

Susan Grodensky, Rochester “My son has an IEP and when he takes these exams his IEP is being violated. It is unfair test for children with specific learning disabilities. Free and appropriate education has allowed generations of children to access the American Dream. Is it perfect? B

No, it's not, but who is best equipped to make necessary changes? Is it politicians and policy-makers, those making a lot of false assumptions from afar? Or, should it be those that are deeply invested in the success of, and intimately knowledgeable about, their local schools. Clearly, it is the latter, and our governmental and regulatory organizations should be doing everything in their power to support our efforts, rather than driving personal and destructive agendas, that are demoralizing our State and its local communities.”

Karen Haggerty, Dobbs Ferry School District “Am end it”

Marcus Harper, Nyc “We need a better measure of teacher effectiveness that commands the respect of the profession”

IT'S TIME TO GET IT RIGHT!!!!!!”

Todd Harris, Copiague “Allow time to get this right - the previously state approved plans took far longer to develop and are now seen as flawed. Rushing this won't solve anything - it will aggravate what is already a bad situation”

Andrea Harrison, Pearl River “It is outrageous that tests are tied to teacher effectiveness. Learning is something that is not one size fits all. Some children learn visually. Some learn verbally. Some learn by doing. There are children who are challenged by cognitive and behavioral handicaps. These children may not fare well on any test and their learning must be assessed differently. This legislation was devised to destroy the present day public school system. I am completely opposed to it and hope that it is reconsidered and re-invented.”

Helen Harrison, Chappaqua Central School District “I refused the tests this year and will continue to do so until there is some evidence that they are worthwhile.”

Janice Harrison, Pearl River “Rating teachers on test scores is flawed and wrong. Moreover, the tests are age inappropriate. Politicians should let teachers do their jobs. They know better than the politicians!”

Siouxzanne Harros, Arlington Central School District “Please take your time and implement this slowly so that student growth and teacher effectiveness are real indicators! Thank you!”

Paul Hartmann, Arlington Central School District “We're asking to be treated as well educated and trained professionals instead of frauds and hacks.”

Robert Hartshorne, Hastings “The education reform agenda is a farce.”

Michael Hartz, Buffalo Public Schools “It's clear to this citizen and taxpayer that Cuomo's "reform" agenda is simply a means to turn public schools into fleecing houses for the wealthy who are seeking to enrich themselves with our tax dollars. I'd rather pay a teacher in decent salary, pension and benefits than simply hand over more money to the wealthy at the expense of kid's education and a teacher's sanity.”

Mark And Judy Harvey, Maine-Endwell Central School District “I retired from there after 33 years of teaching music/strings.”

Donna Head, Webster Central School District “Support the dedicated teachers and their students in our fine state!”

C.J. Hebert, Cooperstown “Developing a new evaluation system based on the same basic tenets that produced this year's record setting "opt-out" movement will only serve to further alienate all stake-holder groups. NY has an opportunity to invest in an evaluation system that is fair and meaningful. Don't waste scarce time and resources on a system that will produce the same results.

C.J. Hebert

Superintendent

Cooperstown CSD”

Marcia Heffler, Dobbs Ferry School District “Time to act now.

The message that we send to students will ruin education in future”

Mark Hegenauer, Brewster Central School District “We live in the greatest state in the greatest country. Our children deserve better. It's unnecessary to rush through policy when we can involve professional educators and parents and do what's best for our children. NYS needs to start over and do better.”

Patrice Henderson, Byram Hills Central School District “As a certified Teacher, I see first hand how Albany cannot manage education and is doing a disservice to our students.”

Jim Henry, Beacon City School District “It seems that the true purpose of the legislation is to create a teacher shortage that will be subsequently addressed by using technology to beam 1 "highly qualified" teacher to hundreds or thousands of classrooms, thereby allowing corporate America to pocket the savings.”

Justine Henry, Dobbs Ferry School District “Our children and students need a developmentally appropriate curriculum.”

Justine Henry, Dobbs Ferry School District “Our students deserve assessments that are developmentally appropriate.”

Marion Herring, North Rockland “Our students are being destroyed by all these tests.. It takes so much time away from actual teaching. This is creating students to have anxiety, low self esteem and it hinders teachers to teach developmentally appropriate material that can teach stunts to be creative thinkers. All this testing and you will lose artists, musicians and any other creativity

because all Cuomo cares about is a test score to find out the effectiveness of teachers. Teachers do more than just teach standards. They teach values, social skills, life skills. Teachers nurture and teach children to love to learn. That can not be measured by a test score. Students and teachers are more than a number.”

David Herrington, Shenendehowa Central School District “Stop the attack on Public Education!”

Katie Heyde, Mamaroneck “Cuomo has to listen to us!”

Matt Hickey, Ossining “With all due respect, the decision makers at NYSED and in the state government must never forget who they work for. Their constituents, by the hundreds of thousands, are demanding change. They will listen, or they will find themselves on the wrong side of history--and out of a job.”

Ellen Hickmott, Spencerport “It's time to go back to the drawing board and start over. When it affects so many lives, it's the right thing to do!”

Scott Hicks, Center Moriches School District “Enough is enough

Stop the insanity”

Alicia Hidalgo, Port Chester “Local authorities, superintendents and parents should get involved in deciding who is on charge of firing teachers that are not fulfilling with expectations”

David Hidalgo, Port Chester “My son has an excellent teacher, sadly due to the low participation of some parents with their children their lack of concern with their education, at the time of testing they do bad and that is not a reflection of the effort of a teacher in a classroom”

Betsy Hill, Pleasantville “Please! Let's be the state that leads the way to correct this. Let's take the time to get it right.”

Pete Hilling, Rochester “Dedicated teacher, lifelong Democrat, suspend and amend this bill. Thank You.”

Kenneth Hilton, “I've done years of "value added" teacher evaluation research. Additionally, I've spent 40 years as a teacher, school administrator, and college (education) professor -- and an additional three years now as a BOE member. I would be happy to help shape a fair and accurate teacher evaluation instrument.”

Susan Hirner, Comsewogue “It is time to take a stand that is motivated by a true desire to effect thoughtful positive changes, not just change for political investments . There are no words to adequately describe the damage that the recent educational "deform" agenda has caused. The time has come to have the moral courage to fix this!”

I want to raise thoughtful, intelligent, inquisitive, artistic and critical thinking citizens of the world. The state of public education today in New York is a huge roadblock to this objective.”

Dorothy Holdorf, Patchogue - Medford School District “Teachers hold themselves accountable to their students every day they enter their classrooms. We went into teaching to educate children and to let them reach their highest potential. We also nurture, care for and guide our students, in more ways than I can mention. Students are not robots! Teachers are not robots. I know that I have made a huge difference in the lives of my students, both educationally and emotionally. Whether or not they pass the state exams is NOT an indication of their growth, nor is it an indication of mine as their teacher!! Let us have the courage to amend the Transformation Act and do what is educationally and morally right. Teachers are NOT the villains!”

Debora Holling, Camden Central School District “Let's take our time and do this correctly! Not rushing in just to say it has been accomplished!”

Jana Hollingshead, Hastings “Please consider the unique ability of individual school districts to govern their system and manage their teaching staff. Do not tie testing to teacher staffing decisions.”

Maggie Holz, Bethpage “My daughters are more than a score!”

Catherine Hong, Hastings “We are a physician and a magazine editor living in New York who both grew up in this state with access to incredible public education in the 1970s and 80s. We have been deeply disappointed to see our own children subjected to an educational system that emphasizes testing and rewards teachers for focusing on testing results. Kids need to be inspired and stimulated by their teachers, not crammed with information to be periodically regurgitated. We must give teachers more credit for the art of teaching.”

Stephen Honicki, Niskayuna Central School District “In the interest of the children of NYS, PLEASE Suspend and Amend the Education Transformation Act of 2015.

Lois Houlihan, Piffsford Central School District “Let teachers teach & students learn. Stop all the testing!!!”

Patricia Howard, North Syracuse “As a retired teacher, I feel the tide against teachers and students best interests should be turned around as soon as possible.”

Ellen Hughes, Pearl River “The education of our children is too important for such a drastic change to the teacher evaluation system to be rushed. Most states are moving away from having students' standardized test scores count for much -- if anything-- on a teacher's evaluation. These tests are not designed to be used to evaluate teachers. Stop this nonsense.”

Luanne Hughes, Spencerport “If Senator Funke and others had voted against Gov. Cuomo's Education Reform in the first place, we wouldn't be using our time for this.”

Miyuki Hyden, Eastchester “This non sense teacher evaluation and control of our school and community by Govenor must to be stopped.”

Arlene Hyland, Eastchester “We have such a well run high achieving district. Please leave this successful district to operate as it has for the benefit of my children. Thank you!”

Laura Hyman, Hendrick Hudson “There is definitely a need for evaluating teachers and ensuring that we have high quality educators, but this ACT clearly isn't the way to go about it!!!”

Paul Hyndman, Putnam Valley “STOP THE MADNESS!!!!!!!!!!”

Erin Hynes, Comsewogue “Suspend and Amend this law!”

Joseph Hynes, Sayville “Enough is enough. Let educators not politicians teach our children. The governor needs to appoint renowned educators for around the state, country and abroad to put the right plan in place, not the nonsense program he is attempting to force on our educators and children. Wake up our elected representatives or you won't be elected next time.”

Linda Hynes, Sayville “suspend and amend the education transformation Act of 2015”

Michael Hynes, Patchogue - Medford School District “suspend and amend.”

Angela Iadavaia-Cox, Pelham Union Free School District “With a new commissioner coming on board, it is unfair to ask districts to change APPR before the commissioner can review the timetable, approach, etc.”

Peter Iannace, White Plains “As a parent and an educated person (an attorney) there needs to be a standard that teachers need to be judged. There also needs to be an equal level that all students of base intelligence must base at any given age, but this "common core" you have instituted is a farce and a joke. It is not fair to the students, parents at home and the teachers. Why should I as a parent have to learn a new way, a ridiculous new way of learning, to teach my children something simple like multiplication when simple memorization is the best way? In English I read my daughters 5th grade exam and got the wrong answer. ..because there were two right answers. Now on the BAR Exam I expected that not on a 5th grade common core exam.

What is your goal? To show how smart you guys are? Great. You win. Now educate our children and grade our teachers properly.”

Catherine Ibanez, Ossining “Children are not the sum of their test scores.”

Stacy Iberger, Shoreham Wading River “as a parent and an educator, things need to change for our children!!! Too much unfair testing for all of us.”

Robert Ierace, Valhalla “Give our schools back to the education experts”

Debra Ifill, Nyc “My child attends The a Neighborhood School in the east village. It is an absolutely fantastic school with amazingly talented and dedicated teachers and an equally amazing principal. They are best, when they are left alone to decide what is the right way to educate our children.”

Luis Iglesias, Ossining “Education is the future of our children, please let the teachers do their jobs.

Thank you”

Helene Imber, Irvington “I have been teaching for 34 years and I am all for high standards and rigorous teacher evaluation. However, the rushed roll-out of well-intentioned changes to the system is no longer moving n a positive direction and it is having a negative impact on student learning and on the teaching profession. Please slow down, work with the experts named in this petition and proceed with caution!!!!”

Helene Imber, Irvington “The Common Core assessments need to be revised to more accurately reflect the CCLS and to include grade-level appropriate texts.

The teacher evaluation system needs to include parent accountability. Too much weighted on student's test scores while too many parents and students don't value the tests.”

Francesca Imbesi, Mount Pleasant “Suspend and Amend the Education Transformation Act of 2015”

John Imbriale, Hicksville “I don't believe in tenure but I don't believe in teaching kids to just take tests either.”

Linda Imbriale, Hicksville “My children were learning just fine before their teachers were forced to teach them to take tests!”

Teva Ingrassia, Ardsley “1. Suspend the Education Transformation Act of 2015 and maintain the current system for one year.

2. Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year.”

Thomas Inkpen, Bethlehem Central “Let's work to repeal this bill.”

Ann Inzalaco, Mattituck Cutchogue School District “Let's do it right for the students!”

Daryl Jackson, Pelham Union Free School District “the nys education dept, needs to reevaluate itself, end of story”

Daryl Jackson, Pelham Union Free School District “the state needs to stay out of education, peroid”

Kristine Jackson, Arlington Central School District “We have the opportunity to right many of the wrongs that have been done in the educational system in the past few years. Let's spend a little more time at the beginning of a process and make proactive choices rather than reactive ones at the expense of good teachers and our students.”

Viju Jacob, Yorktown “Please let educators decide how best to teach kids, not politicians and testing companies.”

Jake Jacobs, Nyc “Simply look at page 6 of the official technical document for NY's APPR. The first line of the first paragraph says that external causes affect student growth. The error rates are enormous and the underlying philosophy is unscientifically executed.”

Peter Jacobsen, Pleasantville “Please Suspend the Education Transformation Act of 2015”

Jigar Jadav, Mamaroneck “in solidarity...”

Seema Jaggi, Scarsdale “School testing has been had many unintended consequences for my 3rd grader this year. The amount of time spent for test prep took away from valuable classroom time that could have been well spent otherwise. The testing also made my normally relaxed son very anxious. I don't see the benefit of testing for my children. The reports generated neither help my children's teachers or me as a parent to understand my children's needs as a students.”

Sushama Jaiswal, Edgemont “I am in favor of this amendment”

Joan Jakubek, Putnam Valley “Once again it is Big Bad Wolf (Government) trying to control every aspect of living. This law is a Political favor for big corporations. Do what is right for the CHILDREN, not to line pockets of corporations. The children are suffering. It is the TEACHERS that understand the children, spend hours with them, nurturing, caring, mothering, and most important educating the children.”

Pisani Jana, New Rochelle “My concern is educators are not contributing to these changes but rather non educators.”

Rudy Janowicz, Harrison Central School District “Let's stop playing politics with children's education.”

Michele Jaquez, Connetquot “This is WRONG...”

Alicia Jazayeri, Arlington Central School District “Respect our children and educators, please!”

Cathleen Jeffers, Eden Central School District “LISTEN PLEASE! The problems facing our schools did not happen overnight nor did they occur in a vacuum. For the sake of the thousands of school children under our care, please slow down and come up with carefully considered evaluation system that is designed by those familiar with the complex challenges facing public schools. The arrogant, ham-fisted, dictatorial approach of previous NYSED administrations has led to crisis in confidence by all stakeholders: parents, teachers, administrators, school boards and taxpayers. We DO need evaluation of teachers; We DO need valid assessments to guide teaching and learning. We DO NOT need one more wreckless, rushed-through, inappropriate and invalid "plan" forced upon schools.”

Nanc Jenkins, Three Village School District “Suspend the Governor-s Education Transformation Ac”

Elaine Jensen, Elmsford “I think that as a school district with such a diverse student population we are better suited to meet the needs of our students and teacher..... I do not want Albany to manage our kids.”

Karyn Jensen, Port Jefferson “The system being forced upon our schools is broken. Please let us take the appropriate time and measures to correct it. Every child deserves a free and APPROPRIATE education.”

Andrew Jeske, Edgemont “The noble goal of helping underperforming school districts is not advanced by weakening exceptional school districts. Any logical legislation would enforce standards and oversight only on the districts that need it, and would let those that don't need help to continue to manage themselves.”

Mrinal Jhangiani, Edgemont “The reason Edgemont district has distinguished itself is because we parents are so involved in ensuring our children get an outstanding education with the school structured the way it is.

We choose to control our own destiny and be responsible for it.

We trust the supt, our board and admin. They are a dedicated team who are capable of deciding what's good for Edgemont school district. How can Albany decide what's good for us when they don't know us. Meddling in our system of checks and balances must stop.”

Craig Johnson, New Rochelle “Politicians need to stay out of education and leave the teachers alone to teach instead of wasting time preparing for meaningless tests and unfair evaluations”

Scott Johnson, Sweet Home Central School District “As a school board member, I have spent hundreds of hours in classrooms. The vast majority of our teachers are doing a great job. The ones that aren't are already being worked with via the current APPR process to help them get better in a guided and detailed way. This new system will do nothing to make it better”

Tricia Johnson, Ramapo Central “Let's get it right!!!!”

Margaret Johnston, Bedford Central School District “We have excellent schools and excellent teachers!”

Laura Jones, Byram Hills Central School District “Suspend and Ammend!”

Andrew Jordan, Monroe Woodbury “Our kids and Teachers are wirth getting this right.”

Irena Jordan, Rhinebeck “It is time to "design a researched based teacher evaluation system" and to inform the public properly to set straight all this rampant misunderstanding.”

Louis Jordan, Nyc “It's only fair that teacher evaluations should be developed by experts with a sound background in education. So please suspend and amend the Education Transformation act of 2015”

Mary Elizabeth Jordan, Mamaroneck “I am a 53-year-old new teacher. Yes, a career changer. Teaching is a wonderful second career and the United States has a huge number of people who could make fabulous teachers later in life. But until you start making decisions that honor students and teachers, this fabulous untapped resource will steer clear of this dysfunctional system and try to help children in other ways. We need to attract brilliant adults into our classrooms. Please make decisions that makes that possible!”

Suzanne Jordan, Kingston City School District “The State has jeopardized our children's education and fostered an anti Public School attitude to promote big business and privatization interests. Excellence is not achieved in that manner. A coalition of educators, administrators and

legislators must convene with a commitment to improve and preserve Public Education for generations to come as the cornerstone of our democracy.”

Tom Josephson, Port Chester “Haste makes waste.”

Dinah Jowers, Ossining “Our teachers are more than a state test score!”

Elissa Jury, Rondout Valley Central Schools “The test centered curriculum is not the answer for our children nor is the funding of personal devices in school instead of textbooks. Money can be better spent and research needs to be done before more children become the guinea pigs of the testing industry and politicians.”

Jennifer Justice, Albany City School District “Repeal it!”

Teresa Kacmarski, Frontier Central Schools “Many days, as an educator, I feel like a hamster on a wheel. Working hard but getting nowhere! Educators know where we need to go. We need to take each child on their own journey. All children cannot take the same route on the road to success, but they can all get there.”

Susan Kafer, Ossining “It's time to interject some sanity and reality into this conversation. Please listen to the thousands of competent educators in this state.”

Stefanie Kahn, Putnam Valley “Stop standardized testing grades 3-9”

Rebecca Kaizerman, Nyc “Please listen to teachers! Teachers understand education much better than politicians do.”

Hiroo Kajita, Pelham Union Free School District “As a future educator at Ithaca College, I believe its valuable to not put pressure on testing. Putting that much pressure on testing can negatively affect teaching styles to fit individual students' needs.”

Angir Kakoullis, North Rockland “These mandates are unfair, unsubstantiated by data, and unrealistic to achieve. Let's figure out a better plan for our students and our teachers.”

Danielle Kalaau, Harrison Central School District “End this now!”

Anne Kanaley, Hamburg Central School District “Stop enacting changes that are not well thought out. New Algebra and Geometry standards are good but should not have been rushed into use.”

Jean Kane, South Orangetown Central School District “As both a parent and an educator, I support this petition to suspend and amend!!”

Kristina Kane, Ossining “Pease take this seriously”

Lina Kapadia, Edgemont “Control of schools should stay with the district - educators and boards are made up of parents who are genuinely for the students and they have lens to understand what makes Edgemont a great school district and why parents choose to live in this community.”

Anne Kaplan, Byram Hills Central School District “I would like my name added to the petition”

Heath Kaplan, Harrison Central School District “Putting any kind of evaluation system in place without empirical evidence attesting to its validity is incredibly irresponsible.”

Steven Kaplan, Yonkers “In addition to being a teacher in the Yonkers School District, I am also a parent. My sons attend the Long Beach School District. I am therefore invested in this effort, not only an educator, but also as a concerned parent!”

Richard Kaplin, Byram Hills Central School District “I am a former six-term member of the school board and a former member of the Westchester-Putnam School Boards Association. It is a huge mistake to not involve educators in any proposed changes to New York's K-12 education policy. They'll do it right. Give them the chance.”

Ronald Karabinos, Putnam Valley “Stop trying to run our local schools with all your government mandates. You are ruining our schools trying to save all your failing schools!!!”

Richard Karanfilian, Byram Hills Central School District “Please leave the education of our children up to local, professional educators and not beaurecrats in Albany”

Lynn Karbiener, Monroe Woodbury “Stop this senseless waste of our children's time and lets get back to teaching in the classroom.”

Tracey Kasimatis, Sewanhaka “As a teacher and a parent, I feel as though the testing and APPR policies are a complete injustice to everyone.”

Brian Katz, Plainview Old Bethpage Central School District “Stop hurting our children with your over testing and threats against our teachers.”

Rachel Katz, Irvington “we would like our teacher and students to focus on learning and just testing. these type of testing add a lot of pressure on students, take creativity out of the equation and make the teaching process aimed at scores and lack imagination”

Jennifer Kaufman, Spackenkill Ufsd “Public school students in NY deserve better... Stop ruining their education, plan this out intelligently, and do it right!”

Stephen Kaufman, Edgemont “I think holding teachers accountable is a good idea, but I don't think this Act is the best way to do it.”

Barbara Keane, Pelham Union Free School District “I agree with the suspension of the Education Transformation Act of 2015 maintaining the current system for another year. political rhetoric should not be part of the decision making process . Educated leaders should design a researched based Education System.”

Timothy Keane, Pelham Union Free School District “This process should be a collaborative effort with all concerned parties with reasonable benchmark measures agreed upon by all participants.”

Mary Kearns, Monroe Woodbury “Please save our education system.”

Susan Kearns, Westhampton Beach “The time to listen to your constituents is now.”

Colm Keegan, Eastchester “Teaching to take a test is not the same as teaching to educate. Once again unelected, feckless bureaucrats are making decisions based on political cronyism (I.e. Lining the pockets of test publishers like Pearson) rather than what's in the best interests of our children. Small wonder the education system in this country, once the envy of the world, is now on par with 3rd world countries.”

Rachelle Kehoe, Niskayuna Central School District “Let the teachers educate, not government and pearson. You have done much more harm than good to children.”

Yvonne Kehoe, Montauk “PLEASE!!”

Ann Marie Keinz, Port Chester “Standardized tests cannot measure what we give to our students. Come into our classrooms to see what we do because you clearly have no idea.”

Tammi Kellenbenz, Germantown Central “The evaluation system is not fair to teachers or administrators and it places unnecessary stress on our students.”

Amanda Keller, Eastchester “I believe in teachers, administrators, public schools and that education is more than testing. Children are individuals. Keep your politics out of our schools, or I assure you, we will remove you from politics.”

Christopher Keller, Patchogue - Medford School District “Every day of testing is another day no learning takes place.”

Michael Kellerman, Wiliam Floyd Ufsd “Do NOT subject teachers nor students to this political agenda. Create a fair and equitable process for ALL involved in education”

Dana Kelly, Eastchester “Please do not judge and assess teachers on State Testing scores!”

Eileen Kelly, Pearl River “GET IT RIGHT !!!!!!!!!!!!!!!

DO THE RIGHT THING FOR A CHANGE!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!”

Judith Kelly, Public Schools Of The Tarrytowns “As a teacher and a parent I am appalled by what transpired during the late hours of March 31 into April Fool's Day. What was passed is an abomination and an insult to anyone with a functioning brain and a conscience. I have been a committed, caring, dedicated and hard-working teacher for 21 years, and I am thoroughly disgusted and disappointed with our elected officials, governor, and the corporate interests who are bent on destroying New York State's public education system.”

Marie Kelly-Yuoh, New Rochelle “More learning, less testing”

Lora Kemp, Bayport Blue Point “I am a parent and an educator, and I therefore see what is happening to students on a personal and professional level. Something is wrong with a system of education that has my first grader crying over school work on a daily basis. Something is wrong with a system that has my fourth grader developing such serious anxiety over state testing that she gets physically ill. Something is wrong with a system that makes my sixth grader so nervous about "not wanting to make my teachers fail because of my bad work" that she is awake until 1 or 2 in the morning. Something is wrong with a system that causes high school students to shut down completely and quit school.

This misguided attempt to "fix" education in New York State has not made anything better. It has only made things worse. School should empower students, not bury them under a barrage of standardized testing. I look forward to the day when reasonable reforms, both of curriculum and teacher evaluation, are made. I look forward to the day when all stakeholders in the educational process, students, parents, schools, colleges, NYSED, administrators, school boards and superintendents, AND teachers are held accountable for the progress of New York State education, NOT just teachers alone.

This is a great state for so many reasons, but our educational system is rapidly becoming one of its major drawbacks. It is not too late to reform our educational systems in a way that is reasonable, thoughtful, and based on sound scholarship and evidence-based research, not political bombast and hysterical rhetoric.

Sincerely, Lora Kemp”

Michelle Kendel, Hendrick Hudson “Get it right!! The test scores should not be used to evaluate the teachers!!”

Jean Kennedy, Monroe Woodbury “Stop common core and start teaching again”

Melissa Kenny, Harrison Central School District “This is damaging.”

Timothy Kenyon, Northport - East Northport School District “STOP this.”

Meredith Kerr, Glens Falls City School District “The proposed teacher evaluation system does nothing but narrow the curriculum. This is not what I want for my child. I want child centered elementary schos, not test centered schools. It's not top late to get it right.”

Gail Kestenbaum, Edgemont “Suspend and amend the NY State Education and Transformation Act of 2015”

Ann Kettle, Binghamton City School District “Teachers need to be able to teach! Politicians should realize they may not know what it is like in the classroom of today.”

Value student learning”

Arlene Klausner, Yorktown “Thoroughly support suspension of NYS Education Transformation Act. Teachers are not the enemy. Let them teach!”

Jean Marie Klein, Binghamton City School District “In a district that is struggling with poverty and attendance issues, lets focus more on parenting and how we can help educate adults. Educators do need way to show the good we perform on a daily basis, but testing is not an accurate assessment. As an educator, I do so much more than testing can assess.”

Richard Klein, Edgemont “Less control for Albany”

Paula Close Klonfas, Kingston City School District “Research has shown that standardized tests do not accurately measure students' learning, and were not designed---or intended---to measure teacher effectiveness. The ONLY things that standardized tests measure accurately are 1) parents' socioeconomic status, and 2) parents' level of education.”

Amy Klopp, Sayville “This current system of testing and stressing teachers and students is not real education. My youngest son has to suffer through so many ridiculous changes and it only makes him unmotivated and not confident. Bruce Knaack, Scarsdale “It's about producing learners--not test takers. Let's do it right!”

John Kocijanski, Monroe Woodbury “Stop and think!”

Ruth Kogel, Shoreham Wading River “Please do what is right for our kids. The present system is not allowing teachers in the William Floyd School District to meet the needs of their students. This hurts the low SES students the most.”

Michael Kozak, Dansville Central School “Less government interference is better for education.”

Donald Krahling, Rochester “When is the State of New York going to give the LOTTO back to the schools here in this state. To fund the schools. That's what it is for have you forgotten. It would eradicate the need for local school taxes. That was the whole idea behind it. It wasn't designated for anything else. No pet projects, no roads brides nothing else.”

George Krajca, Rye City “Please allow all Pearson contracts to expire. Education spending should enrich students, not corporate stockholders.”

Elizabeth Kramer, Piffersford Central School District “As a teacher, I have seen first-hand the crippling impact that recent legislation has had on students and teachers alike. Anxiety among students has increased significantly, with no end in sight to the amount of time students spend testing and being assessed. With regard to staff, people are overwhelmed and uncertain about the future. To that end, I have seen many standout teachers retire early or seek to leave the profession altogether because they cannot stand to see what has happened to education, as the sound teaching practices that have made our school such a success have been forced out in order to make room for the countless hours of testing and assessing that is now required in order to support teacher evaluations (the results of which - for state tests - we never get until our students have left our setting and moved on to the next grade level). It provides no helpful, formative feedback to us what-so-ever. For students with disabilities (whom I work with), the barrage of testing undermines the confidence that we have worked so diligently to build throughout the year and their scores, inevitably lower than their peers, make it appear as if they are unsuccessful - despite the progress that they have made relative to themselves for the year. I ask you to please stand up and be willing to fix what is broken in the evaluation system and allow for people who are informed about sound educational practices and have an understanding of effective evaluation systems create a fair and effective evaluation system. I thank you for your time and would appreciate your support.”

Kathleen Kreinheder, North Collins Csd “Do what is right for our children! Put into place a policy that meets of the needs our school districts, not one that destroys it!”

Marvin Kreps, Rhinebeck “Please heed the above message as it is critical that policy be developed that provides the necessary environment to better meet the academic, social and emotional needs of our students. Students and schools are not political entities they are real and necessary public goods that serve the public good and therefore are not not not monopolies.

Therefore, it is critical that the necessary resources be available to sustain new initiatives. The current policy environment has too many unintended consequences that negatively impact our students. This is why so many parents are beginning to protest by refusing assessments. Much of the valuable in the standards is being undermined by this obsession with accountability using tests. There are many other ways to ensure quality without test based accountability.”

Laura Kretzmer, Harrison Central School District “you need to fix this! Get it right for our children”

Marvin Kreutzberger, Merrick “Gov. Cuomo has committed to payback since NYSUT did not support him in the last election. His behavior looks more and more like that of Gov. Christie. It's far worse to play revenge politics with schools than with bridge traffic.”

Laurie Labella, Dobbs Ferry School District “The damage being done to teachers and public school children must cease.”

Catherine Labick, Briarcliff Manor “Please, this implementation is not working, the tests are inappropriate and our teachers are amazing- let them teach. The quality of the education between pre-common core and now is significant- and in the negative for cc. Piersons can't create a fair balanced measuring test, and it's a joke how these tests are created and graded.”

Dr. Melissa Labonte, Pelham Union Free School District “This is far too important an issue to get wrong.”

Andrea Lacourciere, White Plains “turn this train wreck around.”

When i was in the NYC public sector for 12 years new york state did not give a hoot about my safety and that of its school. Those NYC teachers are doing missionary work with little pay and little respect!”

1. Suspend the Education Transformation Act of 2015 and maintain the current system for one year.
2. Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year.”

Shelley Langton, Ardsley “As stewards of our education system and our children's future. I implore you to find a better way to create high educational standards and to improve teacher evaluation.”

Karyn Lantier, Ardsley “Our administrators are quite capable of evaluating teachers based on many factors including test score. Please give them the ability to evaluate teachers, to reward the high performers and to easily get rid of the ineffective teachers.”

Ruth Lanton, Plainview Old Bethpage Central School District “I've seen the schools go downhill from the time my daughters went there (currently aged 19 and 20) until now, with my 13 year old son.”

Laura Last, Hastings “I moved to Hastings for the schools -- don't let Albany screw them up!!!!”

Marc Latasa, Port Chester “What will happen when all the teachers have left the field???”

Brian Latimer, Schenevus Central “I spend too much time doing things that have no real meaning for my students due to legislation - NCLB etc.. The current appr is absurd - comparing teachers based on how different groups of students perform is silly (e.g., one teacher has wealthy kids who care about school - they do well; another teacher has poor students who care less about school - and they get rated poorly). POVERTY is the issue, not teachers.”

Anne Latino, Lakeland “one of many problems: if student consistently scores high they will never show growth therefore teacher evaluation is not effective”

James Lattimer, Brasher Falls Central School District “Get it right”

Marianne Lattin, Ossining “I have a 15yr old Freshman, who is so stressed out by the addition of all these tests and training. School is about learning but it's also an opportunity for our children to mature and experience life, which is not all about testing. I plead that you please consider this request petition and do what's best for our children.”

Kelly Lauria, Hamburg Central School District “Suspend the Education Transformation Act of 2015 and maintain the current system for one year.”

Jeffery Lavalley, Plattsburgh City School District “I am so very grateful my children are missing the brunt of this foolishness and are currently in grades 12, 7 & 6. I am fearful this generation is missing out on most of the learning opportunities previous generations had with teachers that were able to be creative & take advantage of natural opportunities, discussions which enhance critical thinking skills. The ability to think critically is what seperated the United States for nearly two centuries. Somehow, it has been decided we should emulate the education model of nations that have lagged behind for those same centuries. It is not a coincidence that our system has floundered since politicians have implemented arcaic third world standards of accountability. Stop this nonsense before we are educating robots.”

Cassandra Lavarge, Shenendehowa Central School District “It is refreshing to see some common sense being implemented”

Kathleen Law-Imperato, Yorktown “I'm not against the Common Core State Standards, but I am against some of the mandates of the Act.”

Maryann Lawlee, Ramapo Central “I have been an educator all my life and cannot believe how unresponsive you have been to the comment , needs no requests of parents and children. Start listening to your educators and parents.”

Michele Lawlor, Eastchester “These NYS tests are ridiculous! I am infuriated over the lack of confidence in teachers to teach. Give teachers the time to be creative instead of having them waste their time teaching to a test that does not measure accurately the worth of a student. Most of these people who write these laws and rules have never taught in a classroom. My children will not be used as pawns in their game and used to destroy teachers. My children will continue to not take these tests. The NYS Board of Education needs to wake up!”

Richard Lawrence, Saratoga Springs City School District “politicians should keep their fingers out of something they know nothing about. Research and home work first Politicians need to remember their last blunder, THE SAFE ACCT!!”

Tracy Lawrence, Binghamton City School District “Teaching to test and the focus in the classroom on only 1/4 of the students that is the direct result of the current model damages all of the students.”

Liz Lazo, Peekskill “Look at the districts that have a high ESL population. Meet with the teachers. Look at how many of these students become honor roll students.”

William Leacock, Bellmore Merrick Central Schools “This is an opportunity to put the brakes on the educational insanity Gov. Cuomo has foisted on public education. I am happy to sign.”

Erin Leahy, Webster Central School District “Please, please, please do what is BEST FOR CHILDREN not Political donors. Don't be part of our broken democracy, be part of the solution.”

Erik Leban, Eastchester “No district can be special if they are all forced to be the same”

Maria Leeson, East Irondequoit “Evaluations based on others behavior is ridiculous. So should my dentist be fired because I have soft teeth. No common sense with politicians now a days.”

Camille Lefevre, Irvington “Please take the time to make thoughtful and well informed decisions-- for the benefit of our children and our teachers.

Thank you.”

Eleanor Levy, West Babylon “We need a thoughtful dialogue. It is important that we suspend the recent actions taken by the governor.”

Jane Levy, Shenendehowa Central School District “For the last few weeks we have spent many hours administering all kinds of tests. My students are burnt out and missing critical instruction time before they begin their summer break. We need to look at the amount of time our students are being tested and find some reasonable balance. What is happening now is bad practice and damaging to my special education students who need more instruction time than anything else.”

Valerie Lewandowski, Sweet Home Central School District “Stop destroying Public education!”

Joanna Lewick, Byram Hills Central School District “Please stop the insanity!”

Adriana Lewis, Utica City School District “Our children deserve better! All this testing is NOT preparing them for college or for functioning in the real world. Let teachers have more say in how

they teach. More creativity is good! Kids learn better when they are engage and interested not by formulas being drilled into their heads using methods that will be useless when they get a job. They need to learn how to figure stuff out on their own.”

Daniel Lieber, Shenendehowa Central School District “Stop politicizing public education!”

Nicole Liebowitz, Mahopac “Amend!!!!!”

Anthony Lieggi, Pelham Union Free School District “A balanced approach is needed”

Carol Lieto, Somers “We do not need to waste more money. This is ludicrous. The system was not broken before APPR. The paperwork, the SLOs, LAMs, Domain 4 etc. are time consuming and not at all valid. It's time to rethink what the goal is. NYS should be at the top, with talented teachers thriving instead of constantly feeling assaulted.”

Shari Light, White Plains “It-s not too late to get it right!”

Frances-Ann Lightsey, Mount Vernon City School District “This legislation is destroying public education”

Olga Likhttsinder, Monroe Woodbury “Emphasis on tests to evaluate teacher performance will negatively impact the students - all their time will be spent preparing for tests and learning nothing but how to do well in those!!!!”

Brenda Lilly, Scarsdale “Thank you !”

Gabriele Linahan, Yorktown “Its important to increase our standards and what is required to help our kids perform their best but its important to allow those closest to them to be part of the process”

Kathryn Lindholm, Oceanside School District “Let's get NYS back on track - leading the country in transparent testing. Pearson & Cuomo's anti-teacher agenda have no business in the

education of our children - spending millions of taxpayer money on "meaningless" tests that just create anxiety should be illegal, as well as immoral. The governor should be ashamed!"

Douglas Lindsay, Williamson Central "this is the only thing that can be done to get it right for public education, parents, teachers, and kids right now"

Michelle Liu, Ossining "As a former student myself from NYS, I agree!"

Verna Llee, Putnam Valley “Requiring all ESL students to pass Regents exams when they have not acquired the academic language or the nuances of the English language sets them up for failure and affects their self-esteem.”

Karen Lloyd, Nyc “I support this measure in every detail.”

Kathleen Lloyd, Eastchester “Children they learn in a variety of ways AND they show what they know in multiple ways. I believe assessment in elementary school should be to inform the teacher. There is no transparency in these tests and it is not developmentally appropriate to ask eight and nine year-olds to sit for 60 - 90 minutes, three days in a row (for two weeks- math and ELA) answering questions that are often obscure and misleading. If I was observed doing a lesson that asked kids to sit and write without interacting with materials and/or classmates for 60 minutes I would be deemed ineffective - and rightfully so! These tests do nothing other than undermine the confidence of our children and create added stress while taking away valuable teaching time from the teacher.”

Christine Logan, Bethpage “Stop common core”

Dennis Logan, Patchogue - Medford School District “We need input from people who know and can manage sound educational programs, not politicians who have destructive agendas.”

Joanne Lombardi, Pelham Union Free School District “We cannot continue in this negative direction and the decisions are being made too quickly without consideration for ramifications. PLEASE SLOW DOWN and get it right for all concerned.”

Jennifer Lonardo, Piffersford Central School District “I believe strongly that the legislation involving Education be implemented by those intimately aware of the procedures and limitations imposed on the educational system, not just politicians who more than likely have little understanding of the educational process other than as a student or parent of a student.”

Gary Londis, Yonkers “Repeal this new ed reform law now.”

Janet Longobardi, Manhasset “This is sent on behalf of the best for my grandchildren”

Miriam Longobardi, Pleasantville “After the years of collaborative work to develop state-approved local assessments that both teachers and administrators are comfortable using we should not rush to reinvent the wheel. Let's think this through!”

Adel Luciano, South Colonie Csd “Get out of education , Mr. Coumo, you are hurting our students and schools.”

Linda Luciano, Eastchester “The time for change is now! As an educator and parent this evaluation system is not an adequate measure of student growth or teacher performance.”

Victoria Luczkowski, Yorktown “This must stop!”

Victoria Luczkowski, Yorktown “This must stop!”

Heather Luis, Byram Hills Central School District “Put the interest of students first, and let teachers and administrators do the job they are highly qualified to do. Educators are professionals who care about all of their students; they want to see them learn and succeed. High stakes testing is not the answer, it hurts all communities.”

Kelly Lusak, Shoreham Wading River “Power Must Come From the PEOPLE!!! REPEAL!!!!”

Dawn Lynch, Hauppauge “Put an end to the Common Core nonsense!”

Elizabeth Lynch, Brentwood School District “It is time to stop using children for politics and profit and start letting educators, the true experts in educational matters, have the voice we deserve in decision making.”

Mary Grace Lynch, Smithtown “If the SED thinks we need better teachers, let's spend our resources on professional development as opposed to meaningless, inaccurate rating systems that have resulted in chaos.

Let's focus on teaching and learning.”

Robin Lynch, Hastings “I can report, first hand, that the New York State testing mentioned here is hurting my child without showing any benefit to his education.

In fact, I am certain he would enjoy a richer educational experience by eliminating the school-wide focus on testing that occurs every year. This negative is not NOTa hysteria generated by faculty and community, it is the implicit and explicit NYS demand that curriculum focus on preparing students for these useless tests. Instead of using the time for test prep why not expand upon students' end-of-year momentum with deep and broadening teaching and learning?”

Edward Lynn, Pawling Central Schools “As a retired public school teacher and administrator, and currently serving as a school board member, the Education Transformation Act of 2015 substitutes a political solution for educational policy. Please consider reading Stephen Jay Gould's 1984 book entitled "The Mis-Measure of Man" in order to see that the current focus on metrics as the basis of school reform is a failed approach.”

Fiona Lyons, Rye Neck “Proposed teacher eval system does not measure the real contribution a teacher makes to the education of children.”

Susan Mac Lean, Garrison Union Free Schools “Please do what's best for kids!”

Kathy Maccarthy, Carmel Central School District “Save Our children from the madness!”

Cathleen Macdonald, Pearl River “Please help save public education!”

Gilda Macdonald, Middle Country “How do you measure the effectiveness of an educator accurately? A person that teaches students, many more students than anyone could realize that live in poverty, crime and abuse. I have worked in many types of districts. The students are all the same. How on earth do you expect an educator to compensate for poor parenting?”

Adam Maciejewski, Lancaster Central School District “As a teacher of 8 years, I am appalled at the damage SED and the NYS legislature has done to our students, but it's not too late to get it right for our students and families!”

Donna Madison, Arlington Central School District “No teacher evaluation should be based on any standardized test score. This is neither a true representation of the student or teacher”

Al Madocs, Eastchester “Down with big government!”

Theresa Magaletti, Mount Pleasant “let's think about the teachers and students, not the politics”

Sal Magundi, Rockville Centre “Education has become a political talking point which has engendered a market for book publishers. The one size fits all model is directly opposite to what the principles of education are about. We should not have fear the government and we will show our discontent at the polls.”

Rebecca Mahadeva, Byram Hills Central School District “Efforts to standardize are a good idea; rolling out a program to our students without a fully developed implementation plan has been at the expense of our highly qualified teachers whose focus has been pulled away from teaching our children to struggle through understanding and teaching poorly executed state

requirements, and at the expense of our children who should be in school to learn, not to be testing puppets for the sake of measuring teacher and school performance in the eyes of the State.”

Donna Maher, Northport - East Northport School District “Please take the necessary time to truly investigate what is best for our students.”

Christopher Mahon, North Rockland “Please listen to what the people want not the governor and his big business buddies!”

Deborah Mahoney, Burnt Hills “Retired Spanish teacher.”

Janine Mahoney, Shelter Island Ufsd “It is time to get back to what is best for our students.”

Judy Mahoney, Hendrick Hudson “You've designed an unbalanced system that forces teachers to teach students to pass a test rather than learn with a curriculum that requires teachers to teach a single approach to problem solving. This will never allow our gifted students to excel, nor will it result in the success of the struggling students.”

Lisa Mahr, Patchogue - Medford School District “Thinking of the students should be everyone's number one concern and this is not helping them!!!”

Stephen Mahr, Patchogue - Medford School District “It is really time for PROFESSIONAL EDUCATORS and PARENTS to be heard in terms of the direction they would like to see public education evolve into.”

Joe Mancuso, Eastchester “It's a terrible system!”

Margaret Manetti, Hastings “I am a parent of a 6th grader and 3rd grader. I opted my sons out the tests. I am very disappointed. I voted for Gov. Coumo. He has lost my vote. Such a shame. I have always voted democratic.”

Chandra Mangar, Edgemont “Our Student need our Teacher... keep our Teacher employed.”

Harold Manis, Nyc “My adult children are special Educ administrators and they don't believe in this change which seemed to be forced on the State Educ people by politicians!”

Katherine Mannarino, Ossining “Politicians know absolutely NOTHING about how to educate a child and need to stop wasting tax payer money on unneeded and unwanted and unfounded education reforms.”

Marie Manner, Hendrick Hudson “Get it right!”

Patricia Manning, Harrison Central School District “No one wants a reasonable, equitable evaluation system more than teachers do.”

Diane Manupella, Shenendehowa Central School District “please undo the mess that has been created because of common core.”

Christine Manzi, Mamaroneck “As a retired teacher, I am saddened and shocked by what has happened to the field of education in the mere three years since I left teaching.”

Richard Marceau, Middle Country “Enough is enough. Get us back on track!”

Judith Marchese, Spencerport “Put the teachers and children first”

Wiehagen Marcie, Pelham Union Free School District “I find the testing to be focus instead of the learning and I feel that is backward. Please fix this so our youth learn. Thank you”

Barbara Marcucci, Bethpage “Follow governor Christie's lead!”

Jaime Marcus, Ardsley “Thank you for creating this petition.”

Philip Maresco, New Rochelle “Get it Right please!”

Natalie Mari Marino, Byram Hills Central School District “Are students are doing wonderful in our school district due to the amazing teachers. Why do we have to thrown in as a group with all of nys.

Each district should handle their own issued, teachers etc We pay high school taxes and this afford us to get qualified teachers. If those districts want to change if they think they need changes, that is fine, Many times I feel the people who are complaining the most are not even home owners paying towards their childrens education. When I lived in the yonkers district and I didnt like the schools I worked hard as a single parent and placed my children in private schools maria regina hs and annuciation. If NYS wants to be involved in making decisions for our school, then they should have an paid employee from NYS to come and work in our district on a daily basis before trying to just take over. This way you will see whether or not our school needs anyone outside the district to be making decisions.

Look at the graduating class for the past 10yrs and the colleges that they are attending. Then see if we need help”

Anne Maria, New Rochelle “As a teacher of academically advanced students I urge your support.”

Darlene Mariani, Lockport “This legislation will lead to a teacher shortage. Who will go to college to become teacher knowing you will be unfairly evaluated based on things of which you have no control: poverty, unstable family life, poor nutrition, etc.”

Melody Mariani, Syracuse City School District “Do what is right for all the children, teachers and taxpayers of NY and not just for big business.”

Melody Mariani, Syracuse City School District “The entire law is a fallacy in reasoning based on a desire to punish teachers for a system that is designed to create failure!”

Geri Mariano, Byram Hills Central School District “Time to correct the imposed demoralizing practices.”

Nadia Marin, Voorheesville School District “Support public education, use science to evaluate. Do not use politics!!”

Juliet Marinelli, Nyc “Stop the madness now. Remember, we vote.”

Patti Marino-Aratingi, Edgemont “As a parent I do not feel the law is addressing the best interests of the students. I am asking you to re consider the current mandate regarding tracer evaluations. I feel it will be helpful to gather data and information from people on te front line working with children directly. I also feel parents and educators in the field should be consulted to ensure that the plan is indeed in the best interests of out students who are our future!”

Jennifer Markarian, Harrison Central School District “The children of this state are depending on us to stand up for what is right.”

Laura Markevics, Eastchester “I think that all this excessive evaluations and testing are getting in the way of teachers and students and not really helping anyone. Jeannette Martimucci, Yorktown “Ever since the Federal Government got involved in Public Education the system has gone south. NYS needs to stay out as well. One plan for everyone does not work. Stop picking on the teachers and give responsibility back to the parents. It comes from the home not the school.”

Jason Martin, North Shore Central School District “I am a parent of two children in the North Shore school district, and I agree with this online petition. The teacher-evaluation system must be set up correctly, and with input from educators.”

Jane Martin-Lavaud, Nyc “Let's keep money out of politics and politics out of education! Teachers work so hard; it is unfair to treat them so abusively. Ultimately it is our children who pay the price, and they are the future. For the sake of humanity, let's do right by them!”

Marie Marzella, Nyc “i am literally in shock at what is going on in education right now. It needs to change. These children are overworked and overwhelmed and their childhood is being torn away from them. Kathy Mason, Somers “Teachers evaluated by outsiders? You are so missing the point!”

Michael Mason, Katonah Lewisboro “There is no job more important than that of teacher. Like all of us, teachers need to be held accountable to standards of excellence. This needs to be done thoughtfully and in a manner if we are to continue to attract the best qualified and retain them in the profession (especially the public schools), not make them feel under siege of bureaucracy.”

Ben Mastaitis, South Colonie Csd “Stop robbing public education to pay for hedge fund backed charter schools!”

Kate Mathews, Ossining “Including professionals in the discussion of APPR will ensure that our efforts are worthwhile and productive. Please listen to superintendents, principals and teachers about our concerns regarding many aspects of the proposed plan. It is better to take some time and effort to enact a strong, productive plan rather than rush a plan that is flawed, will cost tax payers needless money and may not be effective.”

Mary Beth Mathews, Poughkeepsie “These acts/laws are destroying education & driving excellent teachers out of the profession. Constant testing only stresses kids out-it DOES NOT help them learn. STOP THE MADNESS!”

Alyse Matsil, Monroe Woodbury “Every parent would like to see more classroom teaching time; less time spent taking tests. Evaluation is important, but should be limited. Do not use the children's standardized test results to evaluate the teachers. Use classroom observation and midterm and final exam tests if need be. Still put some responsibility for test results on the students and not all on the teachers.”

Christopher Mattison, Harrison Central School District “As both of my high school aged children were raised in another country and don't perform to the highest standards in every subject, I feel we need to develop an education system that enhances children's talents, interests and skills”

Marti Mauro, Penfield Central School District “Please work to get it right!”

Andrew Mavian, Peekskill “Students are not educated by state tests, quite the contrary, their education suffers as a result due to the emphasis that districts and teachers put on preparing the students. It is a significant loss of educational time for students and an unnecessary distraction for teachers. State testing needs to be the minimal necessary to achieve an objective evaluation of student progress. It should not be linked strongly to teacher evaluations, as that overlooks so many socioeconomic disparities between school districts and other real life factors left out of test scores. Put some common sense back into the policy for everyone's benefit.”

Maria May, Monroe Woodbury “this law needs to be repealed!”

Cathleen Maye, Pearl River “This must be reconsidered. Parents, teachers, and now students are over stressed. Small children cry because they don't want their teacher fired. It is outrageous.”

Rich Mayer, Greenburgh Central School District “get it right once and for all”

Anna Mazard, Patchogue - Medford School District “Save our education system!”

Linda Mazzeo, Rye Neck “Please suspend and amend the Education Transformation Act of 2015.”

Judith Mazziotti, Williamsville Central “Those who understand nothing about education are proposing laws that benefit the wealthy and are reminiscent of communist dictatorships. Dangerous path!!!!”

Marguerite Mazzucco, Monroe Woodbury “The governor should keep his nose out of the education of all our children, unless all districts work and teach the same subjects. All students need to be able to go into the real world and support themselves.”

Taniya Mazzullo, Putnam Valley “My child should not have to be subjected to these tests. Teachers understand that students learn by different methods. Their jobs should not be at risk for supporting each child in a different way. When are you going to understand the importance a teacher plays in the life and growth of a child? I am not a teacher. I do not work in the education field. However; my child has thrived in the PVSD because of the districts teachers. And, I will not support the Education Transformation Act of 2015.”

George Mc Innis, New Hartford “Suspend this act NOW!”

John Mc Kenna, Comsewogue “get it right”

Briggs Mcandrews, Niskayuna Central School District “Retired Superintendent very concerned with the continuing political negative and poorly thought-out changes being made to public education. It's time to sit back and rethink where we are going with the most important institution in our society and get it right for the future.”

Lynn McBride, Mount Vernon City School District “Take adequate time to evaluate staff. It not just test grades.”

Pay McBride, Pearl River “suspend & amend New York state education transformation of 2015”

Maryann McCabe, Arlington Central School District “Thank you for your time and consideration to this very important matter.”

Barbara Mccahill, Three Village School District “Ask an administrator if they need test results to evaluate their teachers-the overwhelming response is no”

Anne Mccann, Springs Public School “Let the educators drive the education bus. Keep business and politics in their own lanes.”

Carol Ann Mccarthy, Shenendehowa Central School District “suspend to protect our students.”

Jayne Mccarthy, Islip School District “It is so wrong to evaluate teachers on test score results because all teachers don't have students who are able to take tests without additional help or time.

Consider the teacher who has an inclusion class or special ed. class. What about phys. ed, music, art, & library. What about psychologists & social workers who are under the teacher's contract. There is much work to do to reach any degree of fairness!"

Jennifer Mccarthy, Harrison Central School District "Stop hurting kids!"

Timothy Mccarty, Monroe Woodbury "Please listen to the seasoned, experienced veterans of education. This legislation needs to be suspended and amended!"

Theresa Mccleary, North Salem "I wish this flawed evaluation system improved even one child's education. Instead real issues are ignored. Does every child attend school regularly, study after school, eat decent meals, feel secure in his/her neighborhood, and even play. I will support a system that can make a difference in children's lives."

Susan McCormack, Croton Harmon "It's time to stop blaming teachers and making our students suffer through a one size fits all curriculum geared toward endless testing and quantification of young children who instead should be supported and encouraged to develop at their own pace in to the complete person they are meant to be. Stop damaging our children. Standards and accountability are necessary, but not the only factor in a fully complete and developmentally appropriate education."

Patrick Mccue, Rush Henrietta Central "For a change let's make this one component of the Regents Reform Initiatives that is implemented in a coherent, well-planned, incremental fashion, grounded in research and practice, not dictated from on high."

Caryn Mccurry, Yonkers "There is more to a student than test scores. It's time we got serious about fixing our education system!"

Michael Mcdonnell, Dobbs Ferry School District "Any time local schools lose control to state and federal agencies, the results are quite negative. In addition, politicians weigh on to educational matters uninformed."

Joanne Mcelligott, Pearl River "Start considering the children instead of worrying about politics!"

Darrell Mcelroy, Monroe Woodbury "I am a National Board Certified Teacher in the Monroe-Woodbury school district and a school board member in the Middletown school district. We must get evaluation right and putting the brakes on this harmful "reform" agenda is a step in the right direction."

Elizabeth Mcfadden, Hamburg Central School District "Suspend & Amend the NYS Education Transformation Act of 2015...enough is enough...the teaching profession should be respected...students' best interests should be respected as well!"

Shane McGaffey, Pleasantville “Education is my number 1 issue and if my legislators continue to get it wrong, I will vote for someone else.”

Mary Mcgeary, Wappinger Central School District “please.... You need think it all the way through. Don't be short sighted. We have special needs kids who are being hurt by this!!”

Susan McGinn, Mattituck Cutchogue School District “A fair act is needed that supports students, teachers, administrators and parents.”

Ami McGovern, Cornwall Central School District “Suspend”

Francis McGovern, Eastchester “Put control back in the classroom. Let the people who are closest too and understand the children's needs use tests to only inform how to adapt to individual needs. Everyone up the pyramid needs to support that and get to hell out of the way.”

Kathy McGovern, Clarkstown Central Schools “Stop dumbing down America”

Patricia McGovern, Patchogue - Medford School District “lets put the love of learning and teaching back into the classroom.”

Weslee McGovern, Ossining “As a nursing educator, I agree that testing does not provide an accurate measure of excellence in teaching. I agree that there should be aresearched based teacher evaluation system. I also think that mentoring new teachers is an important part of developing excellence in teaching. Teacher education needs to be made more rigorous so that future teachers are well-versed in their subject area as well as being taught the "art and science of teaching".”

Anne Mcgrath, Rhinebeck “For the love of god, pull the plug on this nightmare. Education reform should not be guided by greed.”

Jo Ann Mcgrath, Ossining “As a seasoned teacher now retired partly due to the way the common core and all its trappings were instituted, please stop the madness. You are and will lose good teachers. You are losing students and the support of parents. A shame that our governor is so anti public education that he cannot see the forest for the trees!”

Joanne Mcgrath, Hastings “Retired educator in support of my colleagues.”

Brendan Mcguigan, Hendrick Hudson “Eliminate common core.”

Susan McGuire, Three Village School District “As teacher- we have no problem being evaluated, but we are opposed to basing our evaluation on a single high stakes test. There is no other occupation where this is done.

There are things beyond our control that can affect how our students perform on these tests.”

Michael Mchale, Greenburgh Central School District “I’m not against standardized tests. I’m against their misuse. In no way are they supposed to be used to evaluate teachers. It undermines their effectiveness, their professionalism, and it misrepresents what our students are capable of doing.”

Michael Mchale, Greenburgh Central School District “I’m not against standardized tests. against their misuse. In no way are they supposed to be used to evaluate teachers. It undermines the efficacy of the test, the teacher's professionalism, and it misrepresents what our students are capable of doing.”

Michael Mchale, Greenburgh Central School District “I’m not against standardized tests. I’m against their misuse. In no way are they supposed be be used to evaluate teachers. It undermines the efficacy of the test, the teachers' professionalism, and it misrepresents what our students are capable of doing.”

Kathleen Mchugh, Dryden Central School District “The Common Core requires that students use evidence to support their claims. Where is the research evidence to support the claims made by Governor Cuomo that our schools are failing? Where is the research evidence that demonstrates the state tests are valid measures of student achievement? Where is the research evidence to support the current and newly adopted teacher evaluation systems?”

Public education is a social contract. It should not be a political football!”

Kim Mchugh, Binghamton City School District “Please help us!!!”

Abigail Mchugh-Grifa, Rochester “Support teachers and students by giving schools the funding and support they deserve. More testing is not the answer.”

Scott Mcinnes, Hewlett Woodmere Publiuc Schools “One size fits all is never a good solution, particularly in education. While I understand that there is a need to fix some major problems in large urban school systems, rushing to come up with fast fixes and then imposing them on everyone (even districts that are currently successful). Please take the time to get this right and only apply the "solutions" to those district's than need to be fixed. Thank you!”

Lawrence McIntyre, Mount Pleasant “It's time for professional educators, not a professional politician running for President, to run education!”

Edward Mckay, Hendrick Hudson “A few hundred thousand teachers can't all be wrong...any Department of NYS likely is.”

John Mckenna, Tonawanda City School District “We must design a better system for our children and for the well being of public education.”

Laurie Mckenna, Putnam Valley “This is about our children, let's not forget that factor!”

Diane Mckenney, Syracuse City School District “Saying goodbye to Cuomo, and me a life-long registered Democrat...”

Colin Mcknight, Albany City School District “It is time for the legislature to accept responsibility for what is really broken in our educational system- the funding mechanism that creates huge disparities of opportunity. The problem is not with the teachers, but how the schools are inequitably funded.”

Sarah Mclachlan, Binghamton City School District “I lost over 6 weeks of instruction this year in order to give accommodations to SWD taking tests that were 4-6 reading levels beyond their ability!”

Carrie McLaren, Nyc “We are organizing with parents all over the district to increase opt-outs next year. And will continue to fight high-stakes testing as long as it remains.”

Christine McLaren, Somers “Lets make a choice that our children can be educated in a way that benefits each child and not each politician”

Staci Mclaughlin, Irvington “Please stop this legislation. State testing is already too emphasized.”

Katie Mclaughlin Walsh, Ossining “I work in HR and am all about assessing job performance. This amount of testing is not productive, it cuts into learning/thinking and child development time. Look instead for ways to dismiss teachers that Principals know are poor performers. Practice more common sense, good business. My kids test well - very well in fact but what I object to is the large amount of time spent "teaching to the test" and taking practice test to prepare for a rote set of data. Our kids need to learn to think, problem solve, time and project manage. Covering the basic material can be done in any way (common core, previous method, or earlier methods) but this other stuff needs administrators and teachers available to focus on what they see their kids need in classrooms (teachers) or in districts (admin). This is silly politics and overkill. Like Warren Buffet said about the financial crisis - he knows how to solve it by making the politicians jobs dependent on getting it right.”

Melissa Mclean, Wiliam Floyd Ufsd “Stop Common Core and the corporate over-reach, datamining and the destruction of our children's public education!!! A3656 and A5142!!!”

David Mcmichael, Katonah Lewisboro “Stop attacking teachers in an attempt to raise politicians' profiles! Schools are not industrial businesses!”

Lisa Mcmillen, Rocky Point Union Free School District “Common Core and high stakes testing are both ruining my children's education. I want all children in NYS to have a quality education. The system we have in place does not work!!!”

Lisa Mcmillen, Rocky Point Union Free School District “my children have suffered enough through these untested policies and I demand change.”

Randy Mcmilli, Wiliam Floyd Ufsd “This common Core crap. How can I help my child when I haven't learned it. But thats what the teachers and schools say and I say regular math was easier to understand before all this shit by a non school teacher or anyone in the education field shows you how much the government wants to intervene with everyone's life and dictate what it should be. Fucking Nazis go shove it and get a teacher and a person that would know better”

Randy Mcmillin, Wiliam Floyd Ufsd “This common Core crap. How can I help my child when I haven't learned it. Fucking Nazis go shove it and get a teacher and a person that would know better”

Melissa McMullan, Shoreham Wading River “My children will not participate in NYSED assessments, and I cannot administer them as a teacher until they accurately measure student progress and provide meaningful data that informs classroom instruction.”

Jessica McNair, New Hartford “I will refuse to allow my children (grades 1 & 3) to participate in an exam used to evaluate teachers.”

Daniel McNamara, New Rochelle “Suspend the misguided Education Transformation Act of 2015. This pernicious assault on public school students and teachers is exactly the wrong way to improve our publice schools. It is a thinly veiled effort to destroy quality public schools, which are the backbone of our democracy. It's time to put an end to Governor Cuomo's reckless meddling in public education, an area of public affairs with which he has little knowledge or experience. Stand up for public schools, public school students and public school teachers. Repeal the Education Transformation Act of 2015. We can and must do better!”

Eileen McNamara, Monroe Woodbury “Suspend and amend for our children!!!”

Elda Mcquade, Somers “The Pearson ELA tests are not aligned with the Engage NY curriculum. They do not inform anyone regarding students' progress.”

Colleen Meade-Bruen, Mattituck Cutchogue School District “Well thought out plans are much more reliable than rushed ones.”

John Meisterich, Yorktown “hi”

Robert Melia, Shenendehowa Central School District “I would be willing to assist in any way possible. This June I will begin my 38th year in education where I have filled the following roles: teacher, coach, adviser, assistant principal, principal and assistant superintendent. I can help get this right.”

Michael Melillo, Mount Vernon City School District “I am someone who has excelled in math all my life and understand it greatly. I cannot and don't understand the common core math one bit. Things need to change!!!!!!”

Suspend and Amend the Education Transformation Act of 2015.

Catherine Menzo, Monroe Woodbury “The students deserve a solid education.”

Mary Jean Merando, Lakeland “We need to take back education for our Children and protect our Teachers. We need to stop or amend Common Core, stop teaching to the tests and stop tying some ridiculous test to the teacher evaluations. We have good teachers who work well with our children and we have children who are just terrible test takers but learn well in other means. Sorry not every children is capable of Ivy League Schools but work well in Trade Schools. Protect our Special Ed Children as well.”

Kim Mercurio, Oceanside School District “The Common Core is absolutely ridiculous and wrong! It's not helping our children it's hurting them.”

Patricia Mercurio, South Country Central School District “Stop it all
www.StopCCSSinNY.com”

Joseph Merriam, Croton Harmon “I am signing this petition as both teacher and parent.”

Nicholas Merriam, Lakeland “Corporations and businesses in this country don't make sweeping changes based on minimally-researched and untested theories. Why must public education stray so far from proven successful practice?”

Cynthia Merrifield, Piffsford Central School District “As an educator and a parent I feel tying teacher scores to student performance is an outrage. Best practice does not support one score as a valid determination of a child's ability in the classroom. We do not support a one-size fits-all education system”

Shannon Mersand, Webutuck Central School District “I am a parent and I do NOT feel these new laws will benefit my child”

Alan Meschkow, Longwood “parental involvement in education should be scored...when evaluating teachers ability...”

G Meschkow, Longwood “Why not test parenting skills, administrative skills, and intelligence skills before you evaluate teaches!”

Cynthia Metcalf, Chappaqua Central School District “Get rid of this!”

Heather Meyer, Fayetteville Manlius Csd “This has gotten way out of hand and from a man who has very little understanding of public education!”

Mary Meyer, Dobbs Ferry School District “Do this NOW !”

Sharon Meyer, Baldwin Union Free School District “Evaluating teachers using a test that lacks credibility and transparency is unethical.”

Sharon Meyer, Baldwin Union Free School District “New York State's decision to use a test score to evaluate teachers reflects how little they know about the wide range of variables that are affecting the classroom today.”

Karen Meyers, Rye City “These children are our future. Please STOP and take a moment to make smart and informed decisions. They deserve it.”

Donna Meyreles, Yorktown “Suspend the Education Transformation Act of 2015.”

Alphonse Mian, Monroe Woodbury “Please suspend this act adapt !!!”

Susie Michel, Harrison Central School District “The Governor needs real experts around him...this is totally unrealistic, unfair and dangerous policy making. Thank you for taking this step to correcting this huge error.”

Maria Michelsson, Mamaroneck “I am in favor of suspending implementation to give time to re-evaluate”

Sarah Mifsud, Irvington “I have three young children in the school district who are perfectly fluent in reading and math. They desperately need science education, and the current focus on testing appears to leave little time for this. I believe that this is part of the reason the US continues to fall behind on educational scores. Additionally, I cannot believe we don't start language training until middle school, when children's brains become less receptive to learning new languages. In an increasingly global world, emphasis on learning second languages appears not to have changed at all since I was in school 30 years ago. Please reconsider the emphasis on teaching ONLY the basics and allow our teachers to enhance our children's educational experiences in science, language, and more.”

Kathleen Migliore-Newton, Nyc “I'm a retired teacher and grandmother.”

Darren Mignone, Southold Ufsd “High stakes testing=low grade education.”

Matilde Mignone, Mount Vernon City School District “Stop politics !! Think about our children.”

Ronald Mignone, Byram Hills Central School District “get rid of core now”

Susan Mignone, Byram Hills Central School District “get rid of core now!!!”

Carrie Milaccio, Eastchester “Over the years administrators and teachers have worked hard to constantly improve the education which has allowed for Eastchester to be consistently considered a high performing district. They have been able to maintain a balance to meet the needs of the students, and community. Loss of control over the process would impact the education in our district greatly. Also a formula based on test results should not be a guideline to terminate

teachers. Testing should be meant as a guideline only for both students and teachers. There are other mechanism for evaluation that should be explored.”

John Miles, Fairport Central School District “Don't delay... please act now!”

Monica Miles, Harrison Central School District “Suspend and Amend the Education Transformation Act of 2015 TODAY!!!!”

Maureen Miletta, Great Neck “get it right”

Sandy Miley, Vernon Verona Sherrill “..playing politics with our children...shameful!”

Toni Milioto, Ossining “Please leave learning to us educators.”

Alexis Miller, Victor Central School District “I wholeheartedly believe in New York State public education, our students, and our teachers. I am dismayed by the changes I have seen in recent years regarding testing and teacher evaluation. I expect a transparent process that is supported by research and experts in the field of education as well as parents and local school boards.”

Denise Miller, Mechanicville “Stop.

This is the least productive way to monitor teachers.

For all you re doing is terrorizing children.”

Giuseppina Miller, Croton Harmon “Please do the right thing for our children - do not bow to political pressure that claims to be good for our children.”

Julia Miller, Peru Central School “NOW!”

Sandy Miller, Three Village School District “I am sick of politicians that think that they are "seasoned" education leaders ~ Rushing changes into curriculum ~ Over-testing at inappropriate levels. I have removed my child from state testing. Too much, too soon, too fast.”

Margaret Minchin, Monroe Woodbury “Please suspend the Education Transformation of 2015 and maintain current system for 1 year and Amend the Education Transformation Act of 2015 once all qualified professionals have had a chance to research and review a thorough researched based teacher evaluation system for 16/17 school year.”

Donna Minicucci, Monroe Woodbury “Stop attacking teachers! They can only do so much with what God has provided each child! Not all are created equal in the intelligence arena!”

Parsa Mirhaji, Edgemont “I find it difficult to believe anyone thinks that Albany's management of Edgemont could possibly improve our performance. It will make it very difficult to maintain

the high performance that many suburban homeowners chose when they bought property in our communities.”

Andy Mitchell, Webster Central School District “Ms. Elia, I am confident that together, we can bring pride and collaboration back to NYS schools.”

Jack Mitchell, Ossining “Suspend & Amend”

Roseann Mitchell, Wallkill Central School District “This really needs to be changed”

Bob Mittelstadt, North Salem “Action needs to be taken before more damage is done to the education system of this state!”

Dawn Moccio, Comsewogue “This would be in the best interest of the children!”

Joan Moffett, Piffsford Central School District “Our district currently has rigid performance standards in place, which supports our being one of the top districts in the country.”

Richard Molino, Monroe Woodbury “Please stop using my child as a political pawn.”

Peter Mollo, Irvington “I am outraged by what I see going on right now. My son is an excellent student and does well on the tests but that's besides the point. I agree something must be done to improve lower performing schools and teachers but this is a terrible way to go about it. My children should not have to suffer because our governor thinks it's politically beneficial for him. I will personally work to oust Cuomo if we continue on this path!”

Dr. Rebecca Molloy, Byram Hills Central School District “The time has come to stop the reckless changes to the public education system. Learning and teaching under constant threat of testing will not put the US in the lead on the global theater. It is time to reevaluate your "every child left behind" policies.”

Amy Monachino, Penfield Central School District “This is a ridiculous, unenforceable law.”

Anthony Monaco, Nyc “Get it right!”

Alicia Monaghan, Longwood “We must protect our children. Common core needs to go. Our new education commissioner needs to go. This bill must pass.”

Clara Montague, Hendrick Hudson “Additionally I respectfully ask that common core's implementation be reconsidered it's been in effect for almost 3 years without much success. I'm all for higher standards but for a 6 grader to have high school level math and science without proper preparation. It's been very frustrating for children and parents alike.”

Anna Montalbano, Byram Hills Central School District “Let us continue to do the great work we do..we have amazing success..amazing kids...focus on the core problems, that are not in our district. ..”

Lisa Montalbano, Ardsley “As a parent and an educator I am vehemently opposed to the evaluation system established for students and teachers.”

Bonnie Montana, New Hartford “If this system of evaluation is not stopped, we will not be getting top of the class educators in our schools. These students will be going into other professions which will leave us with teachers who are not the most qualified to be educating our youth.”

Rosa Monteleone, Valhalla “Thank you for taking this approach”

Roy Montesano, Hastings “Let's get this right!”

Nancy Montgomery, Elmsford “It is time to stop and think and get things right not just push ill-conceived changes through.”

Joe Montuori, Mahopac “I'm a parent in Mahopac and also a teacher in the Chappaqua School District.”

Dave Moodie, Dansville Central School “Teacher evaluations being so highly based on students' performance on state test is wrong. There are so many factors that play a significant part in how a student performs. The curriculum they have been taught and by which teacher, is only a small part of what affects their performance on a test.”

Gloria Moon, Corning-Painted Post School District “STOP WITH THE POLITICS!!! Drop those who lobby for everyone but the KIDS!!! WHAT ARE YOU DOING TO OUR KIDS?????”

Diana Mooney, Scarsdale “get it right”

Luz Mooney, Saugerties Central School District “Fund Public Schools NOT Private Tests”

Angela Moore, East Meadow Ufsd “Please support teachers-- stop harassing them!”

Charles Moore, Sherburne-Earlville Central School “Listen to the voters of NY.”

Dori Moore, Islip School District “Too many changes, too fast with not enough fore thought regarding the long term implications. Slow down and get it right!”

Juan Morales, Nyc “The Education Transformation Act of 2015 is flawed and needs to be corrected. Failure to do so could result in a grade of Ineffective for all legislators in Albany that can be detrimental during the next State level Elections.”

Maryann Morano, North Rockland “End this insanity. Save our children”

Christiane Morejon, New Rochelle “I support this whole-heartedly!”

Barry Moretzky, Harrison Central School District “The common core is doing nothing but stressing out the children and making feel insecure in themselves because they are being asked to learn curriculum th at they are not mentally ready to comprehend. The common core was not developed by educators but by businessmen who have no clue.”

Tamara Morgan, Nyc “Let kids have education not become robots”

Bill Morris, Bellmore Merrick Central Schools “Please help!”

Phyllis Morris, Shoreham Wading River “I agree with the above statement.”

George Morrison, Ossining “The present act was partly the result of political pressure from the governor on the legislature and pressure from the business community. In response the teacher's union perceived the threat in political terms. Let's not be swayed by the politics. Do the right thing to correct the educational inequities in our public educational system and at the same time establish assessment tools that are fair, accurate, and educationally transforming.”

Mirla Morrison, Ossining “A quick "fix" is never the right solution.”

Pam Morrison, Croton Harmon “Please suspend and amend the Education Transformation Act of 2015”

Janice Morrispirrello, Dansville Central School “Those who know and can, teach. Apparently those who can't start making policies that muddle, strangle and kill public education. Education isn't a widget factory.”

Alan Mosher, Wellsville Central School District “lets do it right , not jump to conclusions”

Daniel Mosher, Carthage Central School District “Thank you for creating this forcefully and clearly stated petition.”

Pamela Moss, Ardsley “Stop rushing to implement-design a meaningful and fair system to evaluate public schools and then implement.”

Chris Moth, Edgemont “How can principals be accountable if teachers are going to be fired out from under them?”

Suzanne Muehleisen, Honeoye Falls - Lima Csd “If this gets voted in, NYS will have a very difficult time finding teachers willing to teach in this state! Professionals should not be treated this way!”

Paul Mueller, Three Village School District “Enough is enough! End this insanity.”

Jody Muhlmeister, Clarkstown Central Schools “Enough already! People in Albany need to start listening to their constituents! Fix the system and leave the kids alone.”

Gilbert Muirhead, Half Hollow Hills “The Common Core Testing and methods MUST END”

Maryellen Mullin-Yonkers, Bronxville School District “Save the children and public education.”

Mary Mulrooney, Newburgh Enlarged City School District “I served on the Washingtonville Schools Board of Education in the 1990's. It takes no training in educational pedagogy to be elected to the school board or appointed to the Board of Regents. It is vital that the voice of those who have been educated as to the science of education to have input into creating the curriculum and for those educators who have been trained as School Administrators to be allowed to use the education they have obtained in Master and PhD programs. The Core Curriculum has taken the focus off of education and learning and instead placed it on test taking performance. The tests provide little to no real information about how the teaching and learning process has taken place. BUt it does make money for the test prep companies who have pushed this wrong-headed idea to change the focus from education to performance.”

Thomas Mulvihill, Spackenkill Ufsd “Get it right!”

Kelly Mulvoy Mangan, Harrison Central School District “Please suspend the new legislation. Create a new assessment system that is good for students and teachers. The children of New York State deserve better than this test focused system.”

Deborah Mumford, Edd, Edgemont “Please..We have enlightened educators and families in each of our communities..Let's stop trying to look at the acquisition of learning as something that can only be measured by numbers!!! New York is better than that! We need true leadership and we can only do this when we work together to create a sustainable evaluation process that equates success with more than just the scores on a state test.”

Lois Muniente, Holland Central School District “It is essential that you please act as proposed above. Our public schools

are extremely important in our democracy. Thank you.”

Robert Munigle, Irvington “As former educator for 35 years, I know that this is a disservice to both the teachers and especially the students.”

Shari Munitz, Hendrick Hudson “Too much testing - inhibits teaching.

Pressure to teach to the tests prevents actual teaching. #'s on tests do not tell even a good percentage of the whole story!”

Nancy Munn, Romulus Central School District “Take a step back and make the decisions that will benefit our students.”

William Munro, Florida Union Free School District “tax cap with all the new mandates year to year, as fuel and health cost continue to rise just does not make sense.”

Gail Murphy, Marcellus Central School District “You are destroying our good school districts by taking funding away . Stop the Common core too. Help with improving good parenting! Let local gov't make decisions for there districts not the state!!!”

Jeremy Murphy, Williamsville Central “Bring commonsense back to Albany. My taxes should NOT be paying for private schools, vouchers or Charter schools.”

Theresa Murphy, Nyc “The commercial have an agenda of Charter Schools. How about the children who are not the best and brightest.”

Christina Murray, Ardsley “Teachers work very hard and are very passionate about what we do. We are working with children who deserve the best not something rushed, ill conceived, and poorly planned!

Take the time and research to create a valid and useful evaluation process!”

Karen Murray, Sherburne-Earlville Central School “This madness needs to stop!!!!”

Monica Murray, Eastchester “Please let our teachers and administrators run our schools. They know our children best.”

Sean Murray, Lynbrook “As both a parent and school administrator I can only see these proposed changes ruining the public education system in NYS.”

Steve Musich, Mount Vernon City School District “You are wasting millions of dollars on testing that has nothing to do with our children!”

Michele Musto, Hauppauge “Change!!!”

Nikoleta Mylonas, Monroe Woodbury “Please think of our children and DO the RIGHT thing for them. They are not specimens to be used as experiments. The right programs need to be implemented correctly after careful research is done. Pick the right individuals to do this research and PLEASE talk to the educators who are the experts of understanding how children learn and what they need in order to be independent, successful learners and future productive citizens of our nation.”

Karen N., Katonah Lewisboro “My 2nd graders are already worrying about the state testing that begins in 3rd grade. Some cry every time there is an assessment. They become so nervous that they can't perform well because they are under such stress. I've been teaching for 26 years and I have to share that I've never seen young elementary students under such anxiety and stress. This is not a way to foster and LOVE for learning. Adding more to their day will ultimately do more damage than anyone is considering right now. We have to keep our focus on the students and the impact that ALL these changes are going to have on their lives. If policies like this continue most students will need to be on some form of medication to cope. It never used to be this way! I can handle the stress but I don't want my students to experience it because it is not a healthy or productive emotion. Someone in Albany needs to consult and/or do some research with a pediatric psychiatrist or any professional who understands the importance of learning and it's

relationship to brain functioning and storage of new information. Do your homework...I have and I invite you to walk in my shoes for ONE full day to see what these students endure day after day! Please do what is right. Thank you.”

Meg Nachman, Yorktown “Please allow those identified and respected experts in the field of education to work together in the best interest of our children. You would look for the experts to assist in any personal/medical issue that may impact your life/future. Why is that not okay for our children? Their futures depend on it.”

Antoinette Nacinovich, Carmel Central School District “PLEASE - we need your help!!!!”

John Nadler, Chappaqua Central School District “Remove politicians from education. Remove testing monopolies and charter schools from education. Bring back NYS Regents curriculum. Get

Nicole Naef, Bethlehem Central “Stop holding our children to a standard that isn't reasonable!! Let the teachers teach!! The tests and the curriculum are not the same!! Let educator educate and big business cheat someone else!! Our children deserve a chance!!”

Madan Nagaldinne, Edgemont “I am disappointed that ETA 2015 was so poorly worded. How can Albany management decide what is right for Edgemont?”

Nicole Nagel, Wappinger Central School District “Enough is enough. There are too many changes as it is. How much more damage can you do to teachers?”

Dheeraj Nagpal, Edgemont “We request you to vote in favor of excellent elementary education for our kids”

Mieko Nakamoto, Eastchester “I am quite satisfied with the education my daughter is receiving in Eastchester School

District. I used to be a teacher, so I was really picky to chose my daughter's school. One of the reason we chose to live here is because of its school system. I strongly wish children can have good education in a peaceful and considerate circumstances.”

Lauren Nannariello, Harrison Central School District “Repeal and refuse!!!”

Lawrence Neeck, Webster Central School District “It's time to take the know-nothing politicians are taken out of this equation. Educators should be the ones developing new testing measures and evaluation systems for both teachers and students, based on sound educational methods.”

Esther Nefesh, Eastchester “Suspend and Amend the Education Transformation Act of 2015”

Zion Nefesh, Eastchester “Suspend and Amend the Education Transformation Act of 2015”

Kari Nelso, Ossining “Please amend this ETA!! Our kids deserve better.”

David Nelson, Middle Country “Fix the problems now!”

Katharine Nemeec, Pleasantville “please- please-please”

Karen Nesser, Nyc “I have 13 years teaching in early childhood and I find the new laws to be extremely detrimental to public education and the teaching profession. Please listen to the professionals who work in the field every day.”

Chandana Neureuther, Harrison Central School District “This is our future you are putting at risk.”

Barbara Nevergold, Buffalo Public Schools “I wholeheartedly endorse the actions of this group. Educators have not been, but must be involved in the critical issues that impact the education of our children. We can not leave these decisions and capability to legislate educational policy that is based on lack of, limited or defective knowledge.”

Sherry Nevola, Patchogue - Medford School District “The people have spoken. It is time to stop the insanity.”

Sarah. O. Newbery, Montauk “Education should not be attached to monetary rewards,nor on tests developed by non academic politicians or data collectors.True inspiration and joy in acquiring knowledge comes from charismatic adults,many of whom are teachers .Let us learn to value their insight.”

Todd Newby, Peekskill “The War on public education needs to stop! Parents, community members, students, teachers, administrators unite! Business people and politicians: find some other industry to privatize and profetize. Leave the education of future generations in the hands of educators and the public!”

Diane Newell, Dobbs Ferry School District “Let's slow down and get it right. Our children's future is at risk. We need our teachers focused on teaching and not one test. Not all students are good standardized test takers but that does not mean they will not be successful. We need teachers to focus on the whole person and not just one test.”

Erin Newton, Lakeland “My children were not instructed by tenure teacher's who felt their jobs were threatened by the standards imposed today. They did not TEACH TO THE TEST! I attribute my son, who is an Architect with a Master's, and my daughter who is an Engineer with a Master's to the wonderful instruction and love of education that was provided to them by Lakeland SD.”

Paul Nichols, Kingston City School District “Tying any test scores from students at any percent to a teacher's evaluation must end. I believe we are the only country doing that.”

Wendy Nichols, Byram Hills Central School District “There are outstanding teachers in every district as well as teachers that are not very good. In my opinion, making judgments from test scores is not an accurate way to judge teachers. Students grades can be all over the board(not necessarily to any fault of a teacher). There must be a better way to make sure teachers are doing what we need and want them to do. Thank you.”

Susan Nicoletti, Valhalla “Teachers should be allowed to teach for the love of teaching not teach to pass a test”

Lynn Nielsen, Dansville Central School “I went into teaching to TEACH, not to test. Way too many instructional opportunities are lost due to the amount of time spent testing.”

Lisa Nieves-Diaz, Connetquot “I believe in this day and age there has to be a fair and accurate way to measure teacher evaluation this is conducive to the learning environment. Student stress levels are sky high at this time and this is not acceptable.”

Terry Nigrelli, Bay Shore School District “Involve teachers and administrators in the process.”

Ellen Nigro, Wiliam Floyd Ufsd “Please restore the joy of teaching and learning for the sake of all our children”

Joanna Nigro, Sachem “As a teacher, and as a former student, I'm appalled by the changes being made in the education system. NY was once one of the best states for education, and now I highly doubt that fact. As a current teacher, I can say that the common core modules do not interest - and only confuse - my students!”

Kathleen Nikisher, Yorktown “The pressure put on my children, their teachers and administration is unfair and unjust. The education of my children is my utmost concern having the wonderful teachers the Yorktown Central School District has is critical to their success NOT the test which is what this entire year has been. It is unjust and MUST be reformed to secure our children's success as individuals who learn at different paces.”

Robyn Nimphius-Field, Ossining “PLEASE listen. We can no longer support the damage caused by current mandates. Thank you.”

Ralph Noble, Berlin School District “Garbage in garbage out is no way to improve education, take the time to do it right”

Cindy Nocero, Smithtown “I am a homeowner, thus a taxpayer where I work...”

Angela Nolan, Schroon Lake Central School “Common Core is harming our children. They deserve a good education not a one size fits all approach”

Margaret Nolan, Mamaroneck “This policy need to be revisited and massively overhauled right away by knowledgeable education professionals before the kids (and good teachers) suffer the full effects of such a poorly designed policy.”

Karen Nolte, Rye City “Basing teachers evaluations on test scores is like holding it against a nurse when a patient on her oncology unit dies!!!!!! It makes no sense and it isn't fair!!”

Mary Nonnon, Pearl River “As a parent of a DIFFICULT child. I don't believe it is right to penalize teachers for poor performance. Parents and children are also accountable. Home environment and family problems and learning disabilities are not factored in.

There are problems with education but this is not the answer.”

Heather Nordstrom, Nyc “Please consider our students before your politics! Political decisions have profound consequences for our students.”

Jerry Norris, Ossining “The goal of education is to support the growth and development of the WHOLE child.”

Stefanie Norris, Freeport Public Schools “Those on the front line should have a say. Simply going through school as a student, doesn't make one on expert on teaching.....”

Marilyn Norton, Arlington Central School District “Parents, students, taxpayers, and educators have been held hostage by political agendas for too long. Get it right!”

Chrisia Noulas, Scarsdale “is anyone thinking of the children?”

Linda Nowicki, Patchogue - Medford School District “Stop this decimation of our public schools, let's get this right before a whole generation of students suffers the consequences of this plan that is based on rhetoric instead of research.”

Bishop Nowotnik, Port Chester “Do not hobble our schools, help them.”

Maia Nuku, Nyc “I have amply informed myself on this topic- reading and digesting recent research and the many decades of experience amongst educators. It is crucial that their voice and expertise is integrated into these vital debates about the educational well-being of our children. Please accord them this opportunity and take seriously their ideas, advice and input.”

Susan Nussbaum, Monroe Woodbury “When did we forget the children? Remember when learning was creative and hands on? Young children need to use their imagination, older children need to express themselves. Please let me help light their passion to be an individual, not a cookie cutter of someone else.”

Marie Oastler, New Hartford “I support this initiative to stop current reforms passed by the legislature and governor as they only serve to undermine the quality of public education in New York State.”

Michelle Obenauer, Peekskill “Thank you for your consideration in this matter”

Pamela Obrien, Three Village School District “Testing More does not improve student learning! Read the research!!!!”

Daniel O'Brien, Yorktown “Please immediately suspend and then properly amend the Education Transformation Act of 2015!”

Kelly O'Brien, Sweet Home Central School District “Suspend and Amend the Education Transformation Act of 2015”

Nancy Occhicone, Eastchester “Voters are signing this petition for a reason don't ignore the reasons why”

Sam Occhipinti, Croton Harmon “Mr Governor, GET IT RIGHT!!!”

Yvonne Occhipinti, Harrison Central School District “I am extremely concerned about the education transformation act in how it negatively impacts students and unfairly evaluates teachers. Educators statewide have weighed in on the inappropriateness of this legislation and have been ignored. The time has come for action, and the first step is to suspend the education transformation act so that legitimated educational reform can happen”

Maureen Oconnell, Yonkers “Get it right. stop paying Pearson all that money and out of where it's needed most: in the schools.”

Katherine O'Connor, Lakeland “This must be stopped teachers are not the problem !!!”

Linda O'Connor, Port Chester “Listen to this petition!. Do not become a dictatorship. DO not take away rights to local authority.”

Eileen Oddo, White Plains “Cuomo hasn't gotten it right. You won't find an educator in this state who thinks so. And why should you? He hasn't bothered to consult any of them!”

Eileen Oddo, White Plains “cuomo is not an educator, and the people creating his education agenda do not have educational goals as their motivation. If they did, this wouldn't have happened.”

John Oddo, White Plains “Really, Gov Cuomo? Show us teachers that agree with this reform.”

Julie O'Donovan, Hastings “As a former teacher, I am appalled at what the education system has become. I have 3 kids and they all can't stand the common core and all the testing. So sad because they used to enjoy school and we live in a wonderful district but the teachers are so limited as what they are allowed to do. They are killing the zest for learning with copious standardized tests and ludicrous amounts of common core worksheets. I even changed fields because I did not want to teach this garbage that must be taught.”

Lori Offenhauser, Monroe Woodbury “Please get rid of common core. Allow teachers to teach with their own style & creativity.

If you wish to judge a teacher sit in the classroom to watch and listen how she/he teaches. Ask parents and student for their input it will give you first hand insight.

Thank you for listening,”

Deborah O'Gallagher, Rye City “It is imperative that this Act be revised before it is implemented!”

Maria Ognibene, Eastchester “As a concerned parent and citizen, I believe that state mandated testing is notable accurate reflection of the state of a district. Variables come into play which

make numbers look inflated/deflated. Control of personnel issues need to remain at the local level and districts should be allowed to use their good judgement to encourage/discourage behaviors. Eastchester is a fantastic place and these mandates are dragging us down. Leave us alone Albany!”

Antoinette O'Grady, Pearl River “I agree with the letter above. Too much time in classroom is spent on testing students on information which they are not prepared. Common core was introduced without enough training to the teachers. To that end, both teachers and students are frustrated. All the time spent testing is taking away quality education time.”

James O'Hara, Rye City “Please listen to those of us who have dedicated our lives to education and the children we work with on a daily basis. Allow us to be a part of the conversation.”

Cheri O'Hare, Wallkill Central School District “Our children and our teachers deserve so much better than Common Core and high stakes testing. Think about it. Our so called "greatest generation" who fought in world wars, put a man on the moon and built this nation into a respectable world power didn't have either of these 2 things. We have NOT made things better. We took something that wasn't broken and made it an abomination. Let's educate children the way they learn and allow teachers to do what they do best...teach!”

Susan Okeefe, Pearl River “This law is not good for the students or the teachers. We can do so much better than this.”

Helen Olchak Otero, Albany City School District “Please repeal this act it is unfair to all teachers but especially teachers working in urban scoop districts”

Florence Olson, Longwood “Please do what you were elected to do, represent your constituents and protect our children. Thank you for your cooperation in this matter.”

Theresa Olson, Wiliam Floyd Ufsd “Amend Education!”

Andrea Olstein, Hastings “Our children graduated from HOH High School in in 2011 & 2007, prior to the current culture of testing. They were extremely well prepared for college & beyond, all graduated from great schools with honors and or awards - Drexel,

Columbia, & Clark U(Worcester MA) and all are now working in the fields of their choice. Testing and oversight from the State is not necessary.”

Christina O'Neill, Eastchester “If the unnecessarily high emphasis on state testing continues I will refuse to have my son ever them again. As a former teacher, I am outraged that New York State would think that how well students do on a standardized test is the main indication of how good a teacher is; it’s just the opposite-someone who is only concerned by scores will teach to the test and there will be no room for creativity and allowing the different learning styles children have to be honored. I also think it’s about time that someone who is in Albany, at the education department, realizes that there are many other factors affecting a child’s score besides how well the teacher taught them. How about the lighting & temperature in the testing room, distractions, the possibility that the test taker was not feeling well.”

Sara Oneill-Aroune, Fairport Central School District “Well said!! Let's get this right!”

Danielle Onlrogge, Comsewogue “Having children ages 10 to 24 really makes you understand the difference in teaching and how it was before the common core. We need to go back to letting teachers do the job! I agree, some teachers should not be teaching. It's tenure that needs to be changed. Teachers shouldn't be rated by these tests. They are not magicians. Everyone has a different way of learning. The Comon Core takes that ability away from the teacher to help each student as an individual. Talk about no student left behind??? Common core is leaving some of them in them FAR behind.”

Coryn Onofri, Yorktown “We fully support this initiative for our three children.”

Terry Onofrio, Hudson Falls Central School “I do not support Governor Cuomo and Education Transformation Act of 2015. I am willing to set up at station at each school in my the District and have have each teacher fill out the petition. I am also willing to go door-to-door in my neighborhood supplying a link to this petition.”

Susan Onofry, Port Jervis City School District “I applaud all efforts in this direction and the fortitude and courage of those who take this initiative. Having been in public education for over 30 year I am appalled to see the manner in which New York State has decided to embrace the Common Core and expect all to agree without realizing the effect this would make on the masses. I consider progress and justified expectations to be a given when planning a better way to educate or children. I am encouraged by your action. I have 1 more year to teach and learn.....may your words not be wasted on deaf ears”

Rochelle Opacke, Brentwood School District “parent in Hauppauge... TEACHER in Brentwood! STOP this insanity! Let us TEACH our children how to be learners and how to soak in all they can of the world in which we live in... NOT how to bubble in answer sheets and find a MOST plausible answer”

Rochelle Opacke, Hauppauge “parent in Hauppauge... TEACHER in Brentwood! STOP this insanity! Let us TEACH our children how to be learners and how to soak in all they can of the world in which we live in... NOT how to bubble in answer sheets and find a MOST plausible answer”

Julia O'Reilly, Monroe Woodbury “Please, let's put an end to the ridiculously ill conceived common core curriculum and start putting our children and their educational needs first!”

Nancy O'Reilly, Harrison Central School District “Fix this problem! suspend the law!”

Nikaj Oriona, Monroe Woodbury “Please amend legislator to suspend New York State Education Transformation Act of 2015”

Alexis Ortiz Heaney, Port Chester “Please don't be hasty. Do take the time to get it right. I am ready to stand with you to make a difference. If you are looking for parents to help in evaluating what are the right next steps, please sign me up. As a process improvement professional, I know the benefit of obtaining diverse perspectives on issues and problems. Please listen.”

Sally O'Shea, Floral Park - Bellerose “Stop Gov Cuomo and the corporate takeover of our schools.”

Adam Osman, Nyc “Stop the craziness and just let Administrators do the job they were hired to do. Do a better job assessing the quality of administrators in NYS. Improve them and then let them judge.”

Kirsten Ostrofsky, Copiague “We will remember in November...”

Laura Osullivan, Pelham Union Free School District “The tests are too long. They don't deliver results in time to help students for the coming year. Get rid of the esoteric questions. Evaluate teachers on teaching and keeping order in their classes.”

Theresa O'Sullivan, Pearl River “My children are more than a test score and their teachers are valued and far more effective than any state test will show.”

Rita Oteri, Pelham Union Free School District “My child is not a \$. This has been a night mare. My child is in second grade being taught on a sixth grade level. Then told to go home and think about something she never was taught. Thanks to this my daughter was never taught her basic

facts. I had to pay for it !!!! This needs to STOP !!! THIS IS ABUSIVE !!!! My child cried every night since September because she could not remember. NY STATE is over loading are children . Tell BILL GATES THAT MY CHILD IS NOT SOFTWARE !!!! YOU ALL SHOULD BE ASHAMED !!!! This is a great explain . If someone tells me to look at a box and I never saw a box how would I draw a box ? I couldn't why ? because I NEVER SAW ONE !!!! Thats how these kids feel . Also you want to threaten a teachers JOB !!!! You give these teachers nothing to work with are you kidding me . Most teachers I speak with are regretting becoming teachers. They cant teach something there just learning themselves and you go fire them if they get it wrong !!!! WAKE UP NYC !!!! GOD HELP ARE CHILDREN !!!!!!!!!!!”

Tiffany Otis, Onteora Csd “repeal common core”

Colleen O'Toole, Three Village School District “As a data analyst and researcher, I realize that measuring the wrong things and faulty reporting systems are neither valid nor reliable. New York State should use scientifically proven methods in evaluating teachers, students, and schools.”

Vanessa Overfield, East Irondequoit “There is a flaw in the testing. I have not seen anywhere that these tests that we are putting in front of students are developmentally appropriate for each grade level/ age group. I have been told that the readability of some of the passages are not even grade appropriate. The length of some of the passages does not even give some of our students time to even use the supportive strategies that help them to meet success when reading for comprehension. Some of the multiplication questions are so long that the students are forgetting the initial question by the time they have read all of the choices. In looking back at some of the questions Engage NY has posted on line - some questions are so convoluted it's no wonder students are scoring poorly. We do not speak to, nor teach students in a convoluted way. Sure the top students are doing well. We did not need a test to tell us that. We need a test that is developmentally appropriate and well-written.”

Chris Gordon Owen, Nyc “I am appalled by the act & by the fact that the opinions of huge # of parents, teachers, & other community members have been blatantly ignored. Parents & teachers should be included in the decision process in future discussions.”

Brad Paddock, Liberty Central School District “Suspend the current Chancellor too. She helped usher in the travesties that now plague the NYS public schools.”

Sheryce Palleja, Yonkers “Something must be done! Our children are the ones suffering. While adults are playing games.”

Kate Palmer, Alfred-Almond “As a teacher and a parent, I see the negative changes this has brought about as teachers begin to worry more about themselves and self-preservation, than about students and doing what is best for them, regardless of what a score says.”

Leslie Palmieri, Carmel Central School District “LISTEN to the educators!”

Anne Palombo, Rye Neck “This law is a disgusting display of political manipulation at the expense of the citizens. It must be changed immediately.”

Joe Palumbo, Pleasantville “Please involve practitioners in the development of a plan that supports professional growth and student learning.”

Louis Panzanaro, Peekskill “I oppose the current teacher evaluation process.”

Ricky Papandrea, Commack Ufsd “The law forced through by the governor has stripped local control from school boards that has been in existence since the founding of this nation. The high stakes testing goes again research and will ultimately hurt the students.”

Kellene Paul, Ramapo Central “I have been a teacher in the RCSD for 25 years, receiving excellent evaluations since I was a probationary teacher. That said, never have I felt as disrespected, unappreciated, and devalued as a professional until working under the tutelage of Governor Cuomo! I'm all for asking that his Transformation Education Act be suspended and then amended but I think we should take matters a step further and call for his resignation!”

Nancy Pellegrini, Irvington “I support this as both a parent and as a retired teacher.”

Christine Pellegrino, West Islip “The linkage of this amendment to the Budget by Governor Cuomo was a cowardly political move, knowing full well that NYer's support their public schools. The passage of this bill must be repealed or amended to better reflect the thousands of people who demanded that the REFORMS be dropped. They do NOT represent what is right for students or teachers of NY! We reject the bigfoot approach to the adoption of these reforms and wholly reject their validity. Now is the time, before it is too late to fix the damage done.”

Marcy Pellenberg, Port Chester “Children's needs are more important than politician's needs.”

Teaching is not effective without both. But the focus on test-taking, teacher and school district ratings as have gone too far. I don't want bad teachers in our systems. But objective analysis cannot be the only measure because it cannot take into account the art, the caring and commitment of good teaching.”

Lori Penesis, Rye Neck “Reviews and assessments need to be meaningful to students and teachers and used to not only assess performance but also to inform ways of improving performance.”

Christine Perez, Bay Shore School District “This comman core must change”

Tyhessia Perez, Lakeland “I did not refuse the tests for my child but I do believe it is wrong to base 50 % of a few teachers' evaluation on one test.”

Kumaraguru Periakaruppan, Edgemont “This bill has the potential to impact high performing schools and bring their performance down. Instead, open up community colleges for middle and high school students so that they can enrich themselves. Conduct programs in the summer in SUNY colleges like the one run by Johns Hopkins University - Center for Talented Youth. This could be an added income to the State of NY. A student's education comprises of three components: the student, the parents and the teachers. Are we going to fire the parents for the student's bad performance. Please think about that. Thank you.”

Brian Perkins, Andover Central School “Proper evaluation of teachers is crucial to the success of small schools. There are factors that could come into play for a small school that are not accounted for in the current legislation. Take the time to get the evaluation process right.”

Denise Perrillo, Haverstraw-Stony Point C.S.D. “Public school children continue to be hurt each day that NYS educators are forced into a political agenda that has no merit. Allow educators to do the right thing by these children so that they are able to receive the education that they are truly deserving of!”

Karen Perrone, Mattituck Cutchogue School District “Educate the Whole child”

Ronald L Perry, South Kortright Central School “The law appears to me to be an overt attempt to destroy public schools while enriching private schools. It is yet another shift of focus to the wealthy.”

Tom Perry, Nyack “I have 3 children in the Nyack schools. Teacher evaluation is important, and the current system is poor. We need to make it work better for our schools.”

Emily Persons, Pleasantville “redesign the test by reducing the length to under 2 hours. allow teachers and students to see the test so that it can be a true working tool for both. Only then, can you tie the test to teacher evaluations.”

Rick Persons, Pleasantville “The tests are too long. The teachers should see the tests so it can be a working tool. Pearson's contract needs to be reevaluated.”

Elizabeth Pesce, Monroe Woodbury “We have amazing teachers in our district please let them do their jobs, which is educating each child to their ability not to a test.”

Lisa Peter, Lansing “Please do what's right. This is unfair!”

Karen Peters, Harrison Central School District “Education is too vital to be compromised by this harmful legislation!”

Mary Frances Phelan, Fayetteville Manlius Csd “I went into teaching so I could make a difference in students' lives, not so I could teach to a poorly-conceived test. When drafting plans for how to reform the system, keep creativity and innovation first and foremost in your minds.”

Cheryl Phillips, Piffsford Central School District “PLEASE consider that educators are professionals, not complainers, not out for their own good but work everyday for the growth of our students. We are incredibly knowledgeable about what is important for the child holistically. I wholeheartedly support this petition.”

Robert Phillips, Cambridge Central School “It would be nice to have a system that is fair and not a top down approach. The current system is a joke. It is meant to harm students and teachers. It is ridiculous!!!”

Robin Phillips, Baldwin Union Free School District “Where does the present rating system leave the teachers who include special needs children in their classrooms? Are they to be found less competent because they have the skills to reach those children who struggle in the classroom? Should they not try to teach that population so their other students will score higher? Does that make them better teachers?”

Sarah Phillips, Irvington “Stop the bill. it's damaging to our children and their education!”

Marcy Philo, Shenendehowa Central School District “Haste makes waste! This is New York- the Empire State. I have great pride in my community, state, and country and want what's best for students and teachers. New York should be #1 in education. Rushing into creating an even more flawed system is not going to get us there. Listening to parents and educators an engaging in conversations is key to New York coming out on top in regards to public schooling.”

David Picard, South Colonie Csd “Legislators need to abandon Cuomo's agenda to dismantle public education in NY. Try supporting the people and not ambitious leaders and their billionaire patrons.”

Candace Pinn, New Rochelle “Let's get it right and stop over burdening teachers and students with testing and paper work that does nothing to inform teaching and learning.”

Ruth Pinto, Lakeland “Our children deserve higher standards of education. Not all children are the same! In order to foster creativity, and therefore promote innovation, we need to get rid of standardized curriculum! One size does not fit all! Let's not leave millions of children behind! Let's invest in our teachers, foster science, technology, the arts, math, and higher literacy standards. Let's - indeed - take a page out of Finland's model of education and listen to the expert advice of Sir Ken Robinson. Only then American children will be on track for better and higher standards of education!

Thank you!

Sincerely,

Ruth Pinto”

Ruth Pinto, Lakeland “Please protect our future economy. Please protect our children.

Thank you.”

Michael Pipa, Guilderland Central School District “Thank very much for this effort on behalf of educators, students, and communities!”

Donna Pirro, Mount Pleasant “It is important to re-examine this for the education system as a whole, we haven't gotten it right yet.”

John Pisa, Hastings “Albany is rife with dysfunction, bribery and incompetence. Politicians care about votes not what is the best interest of our childrens education. Stay out of our local schools

and keep doing what you politicians do best; pander to special interests, get reelected and little else!!!”

Lauri Pitkus, New Rochelle “It's simple to assess a teacher's effectiveness: Just ask your kids, attend Meet The Teacher nights and take a minute to talk to the teacher. It's pretty much a no-brainer. Our children know after a week of school if they will learn anything that school year.”

Daniel Pitt, Arlington Central School District “Public education is a cornerstone of a peaceful and equitable society. It is unconscionable for politicians to use tax dollars to fund for-profit, agenda-based businesses that operate under the pretext of education reform. We must all work together to support a thoughtful, dynamic public education system. Teachers' evaluations should be based on much more than test scores and a couple of observations. A well-rounded evaluation should also include teachers' involvement in school activities and professional organizations; it should include professional development, research, and self reflection. It should include evidence of effort, such as extra help sessions, cooperation with guidance counselors, and parental contact. In addition, students and parents must accept responsibility, and we must all honestly consider the socio-economic realities that affect student growth and performance. Furthermore, healthy unions are an integral part of the economic fabric of our nation. Unionized labor has been a primary cause for a healthy middle class. Finally, let's not forget that although public education can be improved, it is nonetheless extremely successful as it is. By and large, Americans are better educated and enjoy a higher standard of living than the rest of the world's population. We should continue to strive to be better, particularly with a more equitable distribution of resources, but we must be smart enough not to let capital enterprise compromise a well-rounded and locally controlled education system.”

Rachel Piven, Mamaroneck “Let professional teachers teach!”

Toni Ann Plati, Elmsford “Our students matter!”

Tara Platt, Putnam Valley “Current teacher evaluation will be the downfall of education in this country. Teachers cannot be evaluated by the tests that have been designed to set up students for failure. ELA test passages are currently 2-3 reading levels above grade level. Only students functioning above grade level have a chance to pass. The questions are developmentally inappropriate and confusing, with more than one answer. Math tests have become reading tests as well. While it is essential to read and problem solve when working with numbers, the tests are not true evaluations of the skills learned.”

Sandra Ploetz, Eden Central School District “LISTEN PLEASE! The problems facing our schools did not happen overnight nor did they occur in a vacuum. For the sake of the thousands of school children under our care, please slow down and come up with carefully considered evaluation system that is designed by those familiar with the complex challenges facing public schools. The arrogant, ham-fisted, dictatorial approach of previous NYSED administrations has led to crisis in confidence by all stakeholders: parents, teachers, administrators, school boards and

taxpayers. We DO need evaluation of teachers; We DO need valid assessments to guide teaching and learning. We DO NOT need one more wreckless, rushed-through, inappropriate and invalid "plan" forced upon schools.”

Drucilla Pluhowski, Nyack “Cultivate integrity!”

Brandon Plunkett, Harrison Central School District “Common core is garbage!”

Marco Pochintesta, Pearl River “Legislators are implored to take advantage of this historic opportunity to make the changes needed for the future of public education in New York by suspending and amending the Education Transformation Act of 2015.”

Joe Podgorski, Williamsville Central “Please do not change the current law”

Susan Poka, Monroe Woodbury “Teachers at my school are impacted by the anxiety this causes to both themselves and the children they teach.”

Vivian Polanco, Port Chester “What each school needs is more resources to have smaller classes and provide the kids with extra tutoring or help. We have good school management but they need to have control of their schools because they are the individuals working with the staff and the students everyday not the people from Albany.”

Adrian Pollock, Clinton Central School District “It's time for Common Sense and local control to be returned!”

Robert Pollok, Elmsford “Get it Right!”

Daniel Pomerantz, New Rochelle “Stop scapegoating public schools for public policy failures. Students need adequate social support and community services not more testing.”

Carolyn Pomeranz, Mamaroneck “Standardized testing has taken the joy out of teaching and learning. Too much classroom time is devoted to test prep. It's time to re-evaluate the way we evaluate education & educators!”

Daniel Pool, Hastings “Stop the changes to fund the Pearson "education" testing racket that undermines America's traditional locally based education”

Timothy Poole-Di Salvo, Harrison Central School District “Let's do things right. Research based and not rushed.”

Kara Popiel, Yonkers “Students and teachers need stability and common sense to be returned to their educational system. Suspend and amend the 2015 Education and Transformation Act with the input of those who understand education best: teachers and educational professionals.”

Sandra Poplawski, Northport - East Northport School District “Common Core curricula is highly damaging to our children, causing average students to feel stupid, and lagging students to

completely tune out, because they are hopelessly lost. Teachers are teaching to test taking to prepare for ELA/Math Assessments, at the expense of teaching important subject material. Classics are being replaced with political brain-washing non fiction articles, which furthermore, are boring to school children, and do not engage their minds in the love of learning. Common Core curricula and ELA/Math Assessment must be repealed.”

Loetraine Porcelli, Westhampton Beach “Make the right choices! Stop the nonsense!”

Peter Porcelli, Albany City School District “keep the fight going!”

Teresa Porcelli, Putnam Valley “Please consider moving towards a reward system based on teaching skills versus testing skills. This may not be easy, but I recommend getting the best minds in education together to figure it out. Right now our kids are being made to concentrate on testing versus learning. There is a distinct difference.

Thank you...”

Kirsten Porto, Mamaroneck “THE CHILDREN ARE WHAT SHOULD MATTER MOST AND THE PROPOSED CHANGES ARE TO THEIR DETRIMENT! I AM DISGUSTED WITH THE DECION MAKERS FOR EVEN CONSIDERING PUT CHILDREN IN THIS POSITION, AND I PRAY THAT YOU RECONSIDER THE CHOICES THAT WILL DETERMINE THE QUALITY OF LIFE FOR OUR CHILDREN TODAY AND IN THE FUTURE OF THIS COUNTRY!!!!”

Barbara A Powell, Maine-Endwell Central School District “I am a retired teacher from another district. PLEASE don't further destroy the fine education programs in New York State!”

Wendy Power, Patchogue - Medford School District “Please stop using for-profit companies to define our educational system without consulting professionals. Our country has a history of providing a public education for all. If some of our schools aren't working, identify the problem

and fund the cure. Stop syphoning public education money to charter schools whose goals seem to be to line the pockets of political contributors.”

Elizabeth Powers, White Plains “You owe the citizens of this state more! The answer is NOT more testing - its more TEACHING! Let teachers do what they have been trained to do!!! No test score will ever tell you the true measure of a teacher.”

Lee Presser, Katonah Lewisboro “Let's stop using our children as pawns in a political game.”

Brian Preston, White Plains “It's time to take public education back from the politicians and profiteers who want to destroy public schools.”

Michael Preston, Pearl River “I support the petition that seeks to suspend and amend the Education Transformation Act of 2015”

Lisa Priore, Harrison Central School District “Get it right NY!!”

D Proia, Hastings “Suspend the information transformation act

We do not want our children to be further subjected to common core testing”

Megan Prokopiak, Hendrick Hudson “Our kids deserve better than what is currently underway in Albany. STOP, take a step back and then we can take more steps forward.”

Jean Philippe Provost, Edgemont “signing the petition”

Edward Prue, New Hartford “Do this, please, for the children of N.Y.S.”

Pat Puleo, Mount Pleasant “stop insanity”

Kristen Pullen, Dansville Central School “I believe in accountability, evaluation, and assessment. However, they need to be implemented properly and without interfering with what is truly important: our students. Susan Radin, South Huntington Ufsd “get it right”

Angela Radogna, Harrison Central School District “retired Principal”

Sharon Radulov, Monroe Woodbury “The best way to learn about a teacher and how well they are teaching is to talk to the students and get feedback. The administration can take part in the classroom not just sit in the back of the room once a year and judge the teacher based on a ruberick. Administration should be part of the learning experience. Administration should guide teachers when there are challenges in a classroom to overcome. Parents can be invited to the classroom to observe. Grades can be reviewed each year to determine which portion of the curriculum needs more time to review. Teachers can give an exam more then once to help achieve success. Student surveys can be conducted. Everyone knows when there is a teacher that is burned out and doesnt give a crap anymore. Parents talk to their children and we all dread it when we get a crappy teacher. Administration can take the complaints and learn how to deal with it. Tenure should not be based on time, it should be based on the level of learning the teacher is committed to. A successful teacher is one that continues to inspire their students to achieve their best. A teacher who talks to their students and learns about their lives is in a great position to change their technique. Too many teachers stick to their plan and give no flexibiity. More testing of our children will not help, better teaching methods will. Teachers who are effective should be rewarded for their hard work. If the Administrators would get more involved with what is going on in the classroom then i'm sure they can figure out who the great teachers are.”

Barry Raebeck, Southampton “a governor and legislature should be supporting and promoting public education, not destroying it for personal political reasons. The US is at a crossroads, and is becoming two nations--the have too much and everybody else. See 18th century France.”

Kendra Raffington, White Plains “I agree that it is about time to make some meaningful changes. This has gone on far too long.”

Carol Raiford, Floral Park - Bellerose “I am disappointed in the governor and his bill. I am also disappointed in the choice of Elia. Unbelievable, some one who was just fired from her job, not from the North East area and not empathetic with the opt out parents!!”

Denise Ramo, Sachem “Make teacher evaluations fair & uncouple w exams on all grade levels!!! Create a state wide attendance pct, too!”

Darla Ramos, William Floyd Ufsd “Time to put an end to reforms that are not working. Stop this madness.”

Hilario Ramos, Eastchester “What is the purpose of reducing local independence among high-performance districts and schools? To put it differently, who benefits when successful administrators are hobbled? The answer is neither their students, nor those whose schools are deemed to be failing.”

Virginia Ramsey, Port Chester “Please consider how arbitrary dismissal of teachers will affect our children.”

Elizabeth Randall, Middle Country “It's a terrible education idea to force children to try to learn material they are not ready for. Would someone please read Piaget!”

Tammy Rao, Monroe Woodbury “Our children are being failed and the education system is not working.”

Deborah Rapaport, Scarsdale “There is no evidence at all that teacher performance can be measured by student tests. It's a truly flawed

Methodology among its many other problems of teaching to the rest, loss of autonomy, discouraging the best teachers, wasting time, and stressing students and parents with no useful feedback! (Former employee of Regents College, a test based program).”

Cody Redfield, Homer Central School District “As an aspiring teacher, I feel this is completely necessary”

John Redman, Florida Union Free School District “As a 15 year Board of Ed member, I've seen a lot of good and bad ideas come out of Albany, but this latest thing is by far the worst.”

Tobias Redman, Shenendehowa Central School District “Cuomo has it all backwards....”

Kim Reed, Clifton Fine Central School “This new APPR is ridiculous. I understand we need a better system to evaluate us but please put more time and different people into revamping this. Basing my scores on kids test is crazy!!!”

Eva Regan, Piffsford Central School District “Common sense must prevail. We need local control of public schools, not corporate control. The only benefit to high-stakes testing is for the company that sells the test. Stop the madness!”

Frances Regan, Harrison Central School District “Our children deserve a sound basic education based on evidence-based education policy.”

Jennifer Regan, Brighton Central School District “I have lived on Long Island for thr first 29 years of my life. Now I'm a upstate NY resident with two young children. You are failing our children...we need change.”

Maria Regan, Mamaroneck “Stop the madness. Local schools = local control of schools”

Peggy Reich, Croton Harmon “Do it and get it right!!!”

Roberta Reid, Nyc “It is imperative and necessary that it is understood that NYS Educators and education-related service professionals do their best work, considering circumstances. What are these circumstances: Simply put, Policy put in place by policy-makers & politicians who do not have competency nor working knowledge of what an educator's role/job entails. Testing=Assessments are non-biased, diagnostic, fair in outcome/results and are NOT punitive. ALL assessments done to rate teachers should be OBJECTIVE not subjective, nothing else is acceptable nor desired.”

Roberta M. Reid, Nyc “Governor Andrew Cuomo has allowed his vitriol and dislike of NYS Public School system to cloud and to affect his judgment. His obligation is to New York State’s Public State Students, Parents, and all Education-Related service providers NOT to “for non-profit” charter school operators nor to parochial/private schools.”

Roberta M. Reid, Nyc “Governor Andrew Cuomo has allowed his vitriol and dislike of NYS Public School system to cloud and to affect his judgment. Lani Rich, Marcellus Central School District “It's harmful to both teachers and students. Enough generations of kids have been hurt by these terrible policies.”

Emily Richardson, Port Chester “Signing to support our teachers. With a large non-English speaking population our teachers are fighting incredible obstacles to get our students up to speed. A one size fits all formula does not work!!!”

James Richardson, Utica City School District “Parents should be able to be heard and the apple plan that was dismissed by albany legislature thanks to lobbying intrests and vested intrests has been able to be shot down. Iep's have to be considered. Ela students and other unfunded mandates need to be accounted for. Books should be provided. With the overemphasized on technology in classrooms many kids hit the workforce not being able to do basic math to use a register or use critical thinking/problem solving because they are teaching to the tests. Patents who would work

with them can't as text books are not allowed to leave school thanks to cuts and the districts not being paid what they are owed. We need to get back to basics. Technology should be in tech class. Stem is important but math should be able to be accomplished in your head or on a paper with pen. The kids need to have the ability to learn critical thinking and not be taught so narrowly.”

Alan Richter, Nyc “Please take immediate action on this reform initiative”

Janice Rifenburg, Arlington Central School District “We need to stand up for what is right for kids. The Pearson ELA exams this year were horrendous. Despite critical feedback, the Board of Regents continues to support both too much testing and tests that are poorly designed and therefore awful indicators of student progress. Placing more emphasis on these tests through the APPR process is just ridiculous. Utilize the expertise of those in the field of education to come up with a system that works better for all parties involved.”

Dianne Rigano, Harrison Central School District “Get it right. There's too much to lose.”

Samantha Rizzi, Elmont Union Free School District “You should be ashamed of yourself Gov. Cuomo”

Marie Robbins, Ardsley “Allow educators design curriculum, NOT businesses or politicians!”

Sharon Robbins, Putnam Valley “if the current system stays in place, the children that need the help the most will be forgotten because the teachers will have to choose between wanting the smartest kids in their class to get the high scores and helping the ones that need it most but who will get the low scores. My daughter was a terrible test taker and always scored low and had learning disabilities. she received amazing help from the teachers and went from a C student to an A-B student but her test scores never improved. Without the assistance from these dedicated teachers she would never have gotten better grades. She now is a teacher herself and is doing her Masters and has a 4.0 GPA. I totally credit this success to the wonderful support she received throughout her schooling. These teachers should NOT be penalized for poor test grades. Every child is different as well as the support they get from home and the lives they live out side of school this CANNOT be a cookie cutter review for the teachers and it should be handled on a local level with those that know the teachers as well as the students and the conditions in which they live. Please devise a reasonable guideline that can be implemented at the local level. Thank you

\\”

J Rocchio, Rye Neck “#GetitRightNY”

Catherine Rock, Elizabethtown-Lewis Central School “Do right by our children! Stop this crazy train!”

Makenzie Rodgers, Yorktown “Howard Gardner of Harvard has identified seven distinct intelligences. This theory has emerged from recent cognitive research and "documents the extent to which students possess different kinds of minds and therefore learn, remember, perform, and understand in different ways," according to Gardner (1991). According to this theory, "we are all able to know the world through language, logical-mathematical analysis, spatial representation, musical thinking, the use of the body to solve problems or to make things, an understanding of other individuals, and an understanding of ourselves. Where individuals differ is in the strength of these intelligences - the so-called profile of intelligences -and in the ways in which such intelligences are invoked and combined to carry out different tasks, solve diverse problems, and progress in various domains."

Gardner says that these differences "challenge an educational system that assumes that everyone can learn the same materials in the same way and that a uniform, universal measure suffices to test student learning. Indeed, as currently constituted, our educational system is heavily biased toward linguistic modes of instruction and assessment and, to a somewhat lesser degree, toward logical-quantitative modes as well." Gardner argues that "a contrasting set of assumptions is more likely to be educationally effective. Students learn in ways that are identifiably distinctive. The broad spectrum of students - and perhaps the society as a whole - would be better served if disciplines could be presented in a numbers of ways and learning could be assessed through a variety of means."”

Patricia Rodgers, Beacon City School District “Please do what is in the best interest of our CHILDREN!”

Cynthia Rodriguez, Wahingtonville Central School District “Get rid of it and do it right! Our future scholars depend on it!”

Donna Rodriguez, Eastchester “The legislation as it stands is harmful to our children.”

Julie Rogers, Hamburg Central School District “My children deserve a solid public education that is funded properly and is not based on test scores! These children are our future!”

Mark Rogers, Public Schools Of The Tarrytowns “We must Suspend and Amend the Education Transformation Act of 2015!!

NYS can be the state that instead sets the standard for appropriate accountability tools for all invested parties in public education.

Government officials who are privately funded and who behave as if they are above accountability to the public should not have the final word -- if we care about the future of our children and of public education!”

Roland Rogers, New Rochelle “Education can not be rushed. Doing things right takes thoughtful consideration and time. Common Core is not getting the response it should due to being rolled out poorly. Let's get it right this time.”

Cheryl Rohrer, Piffsford Central School District “Please do what is in the best interest of our educators and children, by suspending and amending the above.”

Laurie Rolfe, Delaware Academy Central School District At Delhi “Th awful common core assessments and the unrealistic, ridiculous way the standards were implemented and assessed way

too soon is leading to a whole generation of quality students who now "hate math." Teachers are forced to go so fast through the curriculum that there is zero opportunity for mastery or remediation. Wake up, New Yorkers! This must stop and it must stop NOW!"

Lisa Roloson, Arlington Central School District "More time must be taken to consider what is best for our students and our schools. The Education Transformation Act of 2015 is completely counterproductive to the culture and climate we desire in our schools."

Mary Romano, North Rockland "The students of New York State deserve better!"

Melissa Romano, Sachem "Do away with high stakes testing! Children are more than a test score. Let our teachers teach!"

Hammond Ronald, Beacon City School District "Please make changes that reflect thought, research and are inspired by children not big business. Big business like Pearson and the Koch brothers should not drive education policy."

Kathleen Roncinske, Penfield Central School District "Parent in Penfield
Teacher in Fairport"

Mary Roodenburg, Dansville Central School "Let's do a teacher exchange for one year before enacting any of this. Take the teachers in rural and urban economically deprived school districts and swap positions with Urban and rural economically prosperous districts. I believe that you will see scores in the wealthy districts increase, while scores in the poor districts decline. The teachers in the economically deprived districts work 20 times harder than those in the wealthy communities. Our state needs to address the true issue at hand, fix the economy and the opportunities for the disadvantaged."

Cathy Rooney, Monroe Woodbury "Get rid of common core and teach things the kids are going to use and stop with the Muslim books. Bring the pledge of allegiance back into the schools. Stop being politically correct we are America, we do not bend to make every nationality happy. You come to use you bend to us."

Rachel Rose, Katonah Lewisboro “High stakes testing increases stress and reduces the joy of learning.”

Linda Rosebrough, Rush Henrietta Central “It is important to support teachers and students with research based practices. Let teachers and experts in the field of education work together to develop plans that encourage children to learn at their level of development.”

Catherine Rosen, Edgemont “Please allow Edgemont to operate independently”

Danielle Rosen, Harrison Central School District “This APPR does not properly evaluate us teachers!!!!”

Martha Rosen, Valhalla “Teachers and schools need to be held to high standards, but the evaluation system in place for the 2015 school year will not evaluate schools and teachers accurately. Instead, it will encourage schools and teachers to teach to the test.”

Susan Rosenbaum, Byram Hills Central School District “We are against the Common Core mandate that we have been forced to use.”

Johanna Rosenberg, Mamaroneck “Please make the needed changes!!!”

Ken Rosenberg, Ardsley “Return control over the schools to the local districts. The state should only step in when a district is clearly failing.”

Matthew Rosenberg, Dobbs Ferry School District “Really, this thing is a mess. You can't continue to not listen to parents, educators, and researchers.”

Mark Rosengarten, Wallkill Central School District “Common Core was so badly rolled out and is now being used as justification for firing teachers and weakening teacher protections and our kids are being used as pawns in this political game. Time to put a stop to it.”

John Roslak, Mattituck Cutchogue School District “cuomo is out of control!”

Marc Rosner, Hastings “Actually we should toss out the current system, too. I like the idea of standards. But we need some standards for the people who are trying to implement them. What a mess Albany has made of our schools. How did this governor ever sneak into the Democratic party? I feel terrible for anyone wanting to pursue a career in teaching, I can't say I'd go into it myself now with all they have done to botch things up. I've spent 28 years watching our leaders' minds slowly turn. Early retirement is looking good.”

Adam Ross, Monroe Woodbury “Get corporations out of the classroom. Let teachers teach.”

Jamie Ross, Eastchester “This is not a student or teacher-centric plan. It does not create a positive learning environment that acknowledges the differences in students. It puts tremendous strain and stress on the students, teachers and school administration to no benefit.”

Rob Ross, Eastchester “This is an additional attempt by Governor Cuomo to destroy public education. I am disheartened by the impact this will have on our children.”

Jocelyn Rossini, Spencerport “Let's get it right this time - no rushing!!!!”

Michael Rothschild, Byram Hills Central School District “As a parent of two children who have now completed their high schools education , I strongly support the effort to suspend this ill conceived law that will not effectively judge the quality of each teacher”

Paul Rotmil, Hastings “I consider testing is doing lots of harm, without only marginal (if any) benefits”

William Rowan, Port Chester “I believe Portchester schools are very great My daughter is doing very well especially in the dual language program”

Alice Rowe, Fairport Central School District “Thank you for your support”

Lyndsay Roy, Lakeland “Our children have already been hurt by the disconnect between the classroom and Albany. Please make fixing the education system a priority. It is in the best interest of all people, now and in the future.”

Romana Rozsypalova, Nyc “don't destroy schools providing progressive education for children whose parents put the quality of their kids learning over testing preparation”

Eleanor Rubin, Hastings “We work hard to have our schools top quality and do not need Albany to place arbitrary regulations and impose more testing to raise the bar for lower performing districts. If our district is working let us continue to give the high quality education we do to our children.”

Emily Rubin, Irvington “Your "core curriculum" was certainly not designed by professional educators. You have eliminated cursive writing! There is little class time for thoughtful discussion. All subjects but math and ELA are given minimal attention. Language study, art, music, history, all the sciences...are all just as important. Many of our kids are graduating high school without having developed the ability to think critically and write with grammatical and literary proficiency (I tutor graduates who still need to improve their writing).”

Lou Rubin, Edgemont “More local school district control and less state control will produce greater student achievement.”

Pam Rubin, Scarsdale “We need accountability, but lets do it the right way!”

Jim Ruck, Northport - East Northport School District “Take the decisions for educating kids away from politicians and put them in the hands of people who will make research based sound decisions and include input early on by those who will have to implement those decisions.”

Lisa Rudley, Ossining “The opt-out movement is sure to grow if we don't get this right.”

Anne Rudy, Harrison Central School District “The politicians need to stop bowing to the socialists in Washington.”

Jeffrey Rudy, Harrison Central School District “NYSED and the politicians need to focus on what's best for the education of children and ignore the pressure to conform to the socialism being spewed from Washington.”

Claudia Ruggiero, White Plains “Amen”

Ken Ruppel, Lewiston-Porter Csd “We need TEACHERS to teach studies, not how to take tests. There already are several would be teachers who have switch their majors from teaching to a different major. The way state government is treating teachers and harming children it will be a wonder if there wil be any teachers left. Get rid of cimmunistice ways to guide our chuldren.”

Carol Russell, Yorktown “Enough is enough. Let our administrators do the job we pay dearly for.”

Carol Russell, Nyack “This law is not the answer to quality education!”

Marta Russell, Nanuet Ufsd “Allow your teachers to do their job well!”

Lutonya Russell-Humes, Ossining “Accountability is important and so is assessment. But I it must be done using principles grounded in sound pedagogy.”

David Rutherford, Ithaca City School District “An evaluation process that is grounded in what research says WILL NOT lead to school improvement is a waste of money. Stop this.”

A persons fait . Stop this nonsense”

Colin Ryan, Montauk “Leave our kids alone.”

Grace Ryan, William Floyd Ufsd “I am going to lose my job!”

John Ryan, Harrison Central School District “Retired”

Karen Ryan, Dobbs Ferry School District “I'm all in favor of setting high standards for teachers (myself included), but the negative impact on not only my students but my own school-age children are too significant to ignore. Please STOP making our children a pawn in your political games, Cuomo! What a disservice we are doing to the children!!”

Patrick Ryan, Wappinger Central School District “Thank you.”

Michelle Ryan-Rivers, Niskayuna Central School District “Please consider what is right for the children!”

David Ryley, Beacon City School District “This law is not well thought out and amounts to an attack on public school teachers. Let them do their job and be supportive instead of dictatorial.”

Catherine Sabol, Pleasantville “I am appalled at the current state of education. Don't use our children's education to eradicate the system of tenure. Don't blame teachers in underperforming schools for deep rooted societal issues (hunger homelessness drugs violence) that affect the capability of children to learn. And leave higher performing schools alone and give back local control.”

Raffaele Saccente, Dobbs Ferry School District “LET GET IT DONE ASAP.....”

Debra Saffos, Harrison Central School District “Because Education matters...”

Jolyn Safron, Kingston City School District “I was just in Albany yesterday with CLASS (Coalition for Legislative Action Supporting Students) advocating for legislative changes to deal with these problems as well as other educational issues that parents are concerned about.
<http://jolynsafron.com/class-goes-to-albany/>”

Barbara Sakai, Harrison Central School District “An educated populace is central to a true democracy. Educating the entire population, not just the top earners, is what our public system has always been about. If you start taking it apart, you tear at the basic foundation of what helps

us be what we are meant to be. This bill is the beginning of that tear-down. Stop and make it right.”

Mary Salai, Webster Central School District “These are my comments made online and to my local representatives:

Schools are not factories, teachers are not line workers, students are not products or lab rats. They need nurturing.

We paid our taxes, you shouldn't withhold funding from schools because parents don't want their children used as pawns in this political war and abused by testing corporations. They are holding instructional time hostage by demanding all these endless tests are given.

Teachers give daily weekly and monthly assessments to inform their instruction meaning they want to know who understood what and who needs more support or more challenging content. Yearly assessments DO NOT DO THAT, the results come back after the state along with the publisher decides what the cut score is. These are not at all designed to help schools know where their kids are, just to know if the schools are teaching Common Core curriculum modules here in NYS and what they are tested is content and vocabulary 2-4 years above their grade level. These tests are unreliable, invalid, and they don't reflect a child's achievement or ability, let alone a teacher's competence.

The parents are not putting teachers ahead of students, teachers are not putting teachers ahead of students. Parents are saying no to hours and hours of stressful invalid and unreliable tests that are robbing their children of valuable instructional time. Parents don't want their children to be pawns in this battle for control of public school education where the rewards are great for the know-nothing politicians (nice campaign donations from big money), great for the test publishers (free data to tweak from forcing districts to comply), great for the union busters ("See we told you those teachers were no good, look at those scores."), and great for the charter school investors who swoop in to make money on these failing schools (A 39% tax credit.) These parents aren't as gullible as you are.

The national big lie being repeated about education is that all schools are broken, most teachers are incompetent, unions are corrupt, tenure is unfair to poor kids, and the ONLY way to fix all this is by overtesting with invalid tests until you get the results you want, so you can defend underfunding schools, you let Pearson shut down any rational discussion of the actual tests, putting gag orders on teachers and students, and eventually closing public schools so you can build charter schools and privatize education like prisons. Cuomo has called public education a monopoly and he is doing everything he can to reward his Wall Street buddies with the tax credits on these charter schools.

Why is anyone believing this isn't about the big money, Cuomo's campaign donors, who want citizens to believe unions are bad, teachers don't work very hard, a single national curriculum will

cure all problems, and poverty isn't a major factor in a student's achievement motivation? How about some jobs locally, a living wage would do a lot for families trying to succeed.

Is it so difficult to understand that requiring hours and hours of the same tests that show dramatically different results between schools in areas of great poverty and suburban schools in areas of socially supportive and cultural experiences is wastefully and redundantly obvious and perhaps putting targeted "reforms" in place to help those students in areas of poverty is a better plan. Instead of charter schools for just the select few, do more of what we know works to educationally, socially, medically, and culturally support children living in poverty.

Why is anyone believing this overtesting isn't about big money, the test publishers who bribed state officials, Cuomo's campaign donors, who want citizens to believe: "unions are bad, teachers don't work very hard, and a single national curriculum will cure all problems."

Is it so difficult to understand that requiring hours and hours of the unreliable and invalid tests is a sham? It's a complicated ruse but why should students give up valuable instructional time to become pawns for the testing companies and the politicians. Chancellor Tisch said recently on MSNBC that the tests were a way to explain how / where the money is spent in education. Oh bullshit. Every school district has a very precise line by line itemized budget with BEDS forms due to the state every year delineating students, classes, and certification areas, among other things. This is because test and punish is easier than getting big money to pay their taxes to support public education. You can bust unions, privatize education, sell our kids living in poverty out to the highest bidder, and guarantee that 39% tax credit to charter school investors who have 500k to speculate in the "education market."

Michelle Sale, Monroe Woodbury "We appreciate your support!"

Shirley Salomon, Monroe Woodbury "Do away with common core. It's a creativity sapping curriculum. It has destroyed my children's love for learning"

Carol Salvas, Beacon City School District "Please save public education for ALL children"

Robert Sammon, Byram Hills Central School District "Our students' education belongs with the decisions of our district, the administration, faculty, students and parents. We have been more than successful in educating our students and rank among the highest in the state in college/career preparedness. We educate and we do it well! Why else would the Governor have his daughter Michela attend our schools?"

Heidi Sample, Chateaugay Central School District "Lets look at throughly and correct it."

Leah Sanft, Elmsford “Stop the Madness!!!!”

Lynne Sangaline, Arlington Central School District “Education as we know it does not stand a chance with legislation like this in place. We are driving children out of our schools and into their homes to be educated. Who would possibly want to be a teacher with this act, which basically dissolves any kind of job security.”

Jennifer Sangiacomo, Cohoes City School District “please do not hold teachers accountable for students who refuse to do work and are chronically truant or absent.”

Michael Santana, Hastings “This Act will adversely impact my children's education by the excessive focus of standardized testing and less time spend on Science, History and the Arts. This will hinder students' growth and educational development.”

Roberto Santana, Rye Neck “to suspend and amend the New York State Education Transformation Act of 2015”

Laura Santavicca, Mamaroneck “The time is now to do what's right for the children of this great state. Teachers and children deserve a thoughtful and fair plan.”

Michael Santee, Marcus Whitman Central School “As a father and educator we must repeal this law to limit government degrading our public schools. It is we the people who must have a say in our child's education not the government through Unfunded mandates. Free and equal education through our public schools run with local control.”

Elizabeth Santiago, Ossining “Stop common core as it relates to teacher evaluations and take time to look into the material and make it age appropriate. Use educators to assess new testing and stop this crazy days long testing.”

Claryssa Sattaur, Valhalla “Before a child can know that five rows of five is twenty five they need to memorize $5 \times 5 = 25$. Put classrooms back in order! Get the children back in rows, not social gathering seating styles. We are creating a generation of dumb people. When will it end??”

Bryan Savage, Wiliam Floyd Ufsd “Please stop the insanity !!!”

John Savage, Mamaroneck “Please put the needs of children first.”

Paul Sawhny, Byram Hills Central School District “I do not agree with the Education Transformation Act and this will be the biggest criteria for me in the upcoming elections.”

Melanie Scacchetti, Greece Central School District “My children attended Catholic elementary school and we were unable to sustain this financially. The biggest difference was not standards nor quality of teachers. The biggest difference for my children was the level of violence and disrespect that their peers were able to express toward each other and their teachers. Teachers have limited resources to deal with the lack of respect and lack of support they receive in dealing with the neediest few children who are then able to "take down" an entire class.”

William Scampoli, Putnam Valley “Cuomo needs to go.”

Cynthia Scavo, Shenendehowa Central School District “Thank you!”

Patricia Schaaf, Arlington Central School District “Is there a correlation between the rampant disrespect of students towards school personnel and their frustration over "the new normal" in their education?”

Denise Schnittman, Three Village School District “A way to lighten all those "heavy hearts"? Parent involvement is important too. This process of choosing behind our backs and selling to us, rather than actually involving all stakeholders is reprehensible.”

Sandie Schoell, Oceanside School District “Our children get "one bite of the apple" when it comes to their education. Let's push the pause button and make the needed adjustments. We need high standards that are developmentally appropriate. We need assessments that inform instruction and learning and we need an evaluation system that develops and mentors teachers while holding them accountable. Teachers need feedback and professional development not threats. Let's have the courage to admit our mistakes and fix this now . We need to restore our children's love of learning before it's too late.”

Jim Schofield, Syracuse City School District “NYS needs to support in all ways our public education system, not take money away from it like it has for years since the NYS Lottery began. And especially not by giving these funds to private schools and charter schools.”

Angela Scozzafava, Hendrick Hudson “Our children deserve memories from school that are not just about tests.”

Jamie Scripps, Rush Henrietta Central “As a teacher of English Language Learners, I feel this system completely disregards highly accepted research and damages students' self esteem. The tests are flawed and not developmentally appropriate. This in turn makes all those affected feel like they have failed, when in reality, they were set up for failure. I've witnessed students stating that they have disgraced their family because they could not score a 3 on the ELA after only being in this country for a little more than a year. Research proves ELLs should not have this expectation put upon them. They are still in the process of learning the language. Culturally for some students, this causes them to disgrace their families. These tests need to be developmentally appropriate and alternative solutions need to be put in place for special Ed and ELLs during their first 3 years in the language. If the tests are created to accurately assess students, only then can they accurately assess teachers.”

Lori Scripture, Smithtown “Let teachers really teach kids”

Jeanne Scudlo, Babylon Ufsd “Help Save Public Education!”

Patrice Scully, Ossining “To allow this governor to continue his tyranny over the children of this state will only result in failure, not success. If the state legislature is genuinely concerned about the academic success of all students in New York, it will end these abusive and ill informed practices now and bring about positive change.”

Justine Seeley, Monroe Woodbury “This law was not thoroughly studied. It was pushed through legislation in order to break teachers unions and start more charter schools with public funding to gain profit. It is a disgrace to mistreat teachers and to use children for political purpose.”

Laurie Seeman, Clarkstown Central Schools “Who are we all answering to, if not the children.”

Corina Segal, Mattituck Cutchogue School District “I am in favor of "Suspending the Education Transformation Act of 2015 and maintain the current system for one year"”

Ramona Segreti, Irvington “This one-size-fits-all, punitive, and anti-teacher attitude towards education is an outrage and ultimately detrimental to the students it's intended to help.”

Maggie Segrich, Irvington “teachers dictate what their students learn, not politicians with no idea what a classroom of 20+ kids are capable of - America is the home of the free and the brave, let's keep our classrooms that way.”

Katherine Sesholtz, Irvington “None”

Gloria Sesso, Patchogue - Medford School District “The Evaluation System is damaging to students, teachers, the community and the quality of education”

Eric Shaffer, William Floyd Ufsd “Well said and true, thank you!”

Ronald Shapss, Clarkstown Central Schools “Urgent”

Holly Sharpe, Harrison Central School District “The core curriculum has forced my elementary school aged daughter to attend private school next year so that she can finally learn the new concepts and catch up to the more rigorous workload. What a travesty!”

Stacy Shatkin-Cusick, Irvington “Strongly oppose all the emphasis on testing.”

Christopher Shaw, Monroe Woodbury “The entire process/legislation needs to be removed and deleted. What has been done has and continues to destroy the basis for our children to become properly educated and gain important life skills. Being graded on passing a test does not equate to learning and understanding.”

Katherine Shay, Eastchester “I am both a teacher and a parent in the Eastchester School District.”

John Shea, Byram Hills Central School District “too dumb for words”

Laura Shea, Croton Harmon “It is time to get it right. Thank you for your attention to this. It is not going away.”

Molly Sheils, New Rochelle “Let's pay close attention to the NEEDS OF THE CHILDREN”

Eileen Sheldon, Pleasantville “Please help us help our students by enacting an evaluation system that reflects the reality of our classrooms, have teacher who actually teach in classrooms right now, not 20 years ago if ever at all, determine effective manners of assessment.”

Mindi Shelow, Nyc “Stop using students as pawns for your own political agenda. Would you tell a doctor how to operate when you have no medical degree? Do you tell a lawyer how to do his job because you've watched crime shows? Stop telling teachers how to teach when you don't know child development, best educational practices, and don't pay attention to current research that shows the harm that current practices are creating.”

Julie Shelton, Edgemont “Please listen to teachers who are experienced -this will not work with high performing school districts”

Traci Shemonoski, Dobbs Ferry School District “I don't even understand how to help my third grader and 1st grader with their math!!!!”

Kelley Sheraw, Bethlehem Central “We have great schools. Our kids go to college and are good citizens. Fix the schools that are in trouble and leave the "good" schools alone.”

Don Sherman, Rochester “Support public education and not privatize it.”

Susan Sherman, East Meadow Ufsd “Let me get back to what I do best...teaching”

Kathryn Sherwood, Yorktown “Teachers are vital to the development of our children and future. Stop punishing them and start supporting them!”

Jeannine Shields, New Rochelle “If open to "intelligent" evaluation modifications, perhaps Gardner's Multiple "Intelligences" should be considered. Please consult educators as well as researchers to analyze an appropriate evaluation system that reflects the impact of learning for both teachers and students. Thank you.”

Ruth Shippee, Argyle Central School District “It is time for real reform driven by practitioners-just as other professionals and businesses drive how they improve. Developing an educated work force for NY is too important to not do correctly or well.”

Colleen Sholette, Rensselaer City School District “Let's work together to fix New York States broken education system.”

Daniel Shornstein, Arlington Central School District “I wholeheartedly support this petition!”

Irina Shrayar, Byram Hills Central School District “No Albany control over our school!”

Steven Siciliano, Harrison Central School District “If this is still a democracy, then let's act like it.”

Erika Siconolfi, Byram Hills Central School District “I chose a great school district and pay a lot of taxes for it don't destroy it and destroy my children with test that in the long run they will never benefit from. Going the common core route you will have a lot more young children failing and my children are not yoyo's between the government and my district.”

Michael Siconolfi, Byram Hills Central School District “Leave my district alone they do a great job in supporting their staff and helping my children that is why I chose to pay high taxes and will never support the lower income school districts.”

Gail Sider, Pelham Union Free School District “Our students deserve better! And effective teaching must be measured by a sounder mechanism, including growth in a child's confidence and love of school. We can do better!”

Kim Sidorski, Monroe Woodbury “I'M VERY MUCH IN FAVOR OF A MORE FLEXIBLE CURRICULUM, TAILORED TO INDIVIDUAL STUDENT INTERESTS FOR ALL KIDS EVERYWHERE!”

Steven Siebert, Hastings “I want to convey my dismay at the passing of this law in the strongest possible terms. This is a disaster for students. (I certainly want teacher accountability, but not this way.) Our daughters will be out of high school in two years, so they will survive. But what about all the others whose quality of education will be severely diminished by these ill-advised changes? Repeal this now.”

Karen Silber, Nyack “let teachers teach our kids and our future!!”

Timothy Silk, Massapequa “Please give us time to get it right!”

Carrie Silva, Hastings “New York education is not broken, but New York state education policy makers, including our governor, have pushed it to the brink of disrepair with poor decision after poor decision. Poorly created and poorly implemented tests and curriculum are not an effective way to educate our students or measure the worth of our teachers. Ignoring clear public sentiment against these recent educational blunders by ignoring parent "opt-out" movements and protest is not the answer. Listen to the communities that pay the taxes to make New York State education among the best in the country. If our voices are not heard now, they will certainly be heard on election day.”

Paul Silver, Hastings “I support our superintendent.”

Liz Silverstein, Edgemont “Albany - please listen to the Parents, Teachers & Administrators who always do what is best for the students!!!!”

Adelinda Silvestre, Irvington “I support a well rounded education for my children. Public school should not be one size fits all mentality. It must support the classic education which is fundamental to continue a society that is creative, empathic and innovative.”

Kathryn Silvestri, New Hartford “Education reform needs to be more than just political. It should be based on research and should include issues that professionals face each day (low attendance, hungry students, poor accommodations, etc). Please stop using the children as political pawns in a power struggle. They deserve respect and to say it is for the children is a bunch of bull.”

Robert Sim, Irvington “Cuomo only understands political strength.”

Aj Simiele, Ballston Spa “Get it right NY.”

Christy Simmons, Williamsville Central “Please change the current practice of not allowing parent, colleague and principal input regarding teachers' abilities and performance. More information is needed to make a thorough judgement of a teacher's strengths/needs than just a test score!”

Laura Simon, Hastings “We need to support our teachers and our children's creativity.”

Laura Simpson, Chappaqua Central School District “Focusing on standardized testing sucks the joy out of learning. I want my child to discover this joy.”

David Singer, Harrison Central School District “This approach is a smart, balanced approach to education reform not tied to any kind of special interest except what's best for students.”

Amar Singh, Valhalla “Please help us and our children!”

Liliana Singh, Yonkers “Help our children!”

Puja Singh, Yorktown “Students should not be penalized. Too much testing and pressure is not going to get kids anywhere. Yes teachers need some pressure-there are some bad apples who have become comfortable with their permanent jobs. Fix the law for it. Every other profession has some criteria for being eligible. Look how education in Finland and Canada are. See what is so different. LESS TESTS and school a fun education place.”

Carriann Sipos, Ossining “Please give us the time to do this right.”

Nancy Skean, Southampton “Keep big business out of education!”

Jonathan Skinner, Albany City School District “I also oppose the tax credit for donations to private educational institutions, as a scam to enable the rich to avoid paying for public education.”

Deborah Skoda, Greater Johnstown School District “Those who evaluate and make educational policy should have EXPERIENCE in the Field - Real experience.”

David Skolnik, Hastings “I have never been more appalled by the performance of an official for whom I voted than I am with Mr. Cuomo. Make no mistake. It is crystal clear that the Ed Transformation Act 2015 has nothing to do with the education of children. Give us all a chance to try to get it right.”

Sherry Skolnik, Bellmore Merrick Central Schools “The current law is destined to destroy public education in NYS. NYS educators know how to raise standards for students and evaluate teachers. This beaurocratic interference hurts kids. High stakes testing is antithetical to quality education because it shifts the focus to the test rather than to the process and content.”

Jennifer Skrzypek, Harrison Central School District “This current system has been implemented too quickly and is not research based. It is very important that an accountability system be put it place but it should be a well thought out system that is developed by educational experts. Please do what is right for students and teachers and allow time to make this right!”

Len Skuggevik, Shelter Island Ufsd “Please allow this to be created in a collaborative manner, relying on experts in their fields to lead the way. Decisions that will greatly impact our children's future should not be rushed, and should be based upon data, not political agendas. I thank you, my family thanks you, my community thanks you, and future generations will thank you if you take the time to do this right.”

Sharon Slaughter, Irvington “Variety is the spice of life - and classroom. My son is in Kindergarten this year and it already feels like a sea of rote math and reading worksheets!”

Brett Slavin, Port Chester “Teaching kids to pass tests is not teaching. Let's schools do their work”

George Sliter, Valhalla “Put back the confidence in the training our teachers and administrators received to educate our children. We have the best in the world!!!”

Christine Sloben, Scarsdale “No more common core - common core is a race to the bottom. No one wants to be common and we certainly don't want to provide a common education for our children!”

Georgia Sloboda, Monroe Woodbury “Get it correct Ensure the future of our youth.”

John Slokovitz, Lindenhurst “It seems that politicians think they know how education works, but they don't. Instead of making math and history more streamlined they are reinventing the wheel. What is the matter with them? As a retired boss of a construction company I find it hard to believe that they are making it harder on the children, if I were still in business I would not hire someone that wastes time doing math. This is just a money making game for them and a money costing for the public.”

Anne Smith, Mattituck Cutchogue School District “Teacher and principal practice requires careful thought and evaluation based on research based perspectives on what works for children and communities.”

Corinne Smith, Cohoes City School District “CC is money motivated - change requires an EDUCATIONAL STRATEGY and Educator Training! This has been terrible!”

Deborah Smith, Thousand Islands Central School District “Let teachers teach!!!”

Gibson Smith, Pelham Union Free School District “I am in favor of a robust teacher evaluation process that factors in both student standardized test scores and her/his classroom performance. An evidence based evaluation policy makes tremendous sense. Thank you”

Kathy Smith, Morris Central School “Consider the damage that will be done. Small rural schools do not fit into the same mold as large city schools. Create a fair system for all by considering that all schools are different with differing resources.”

Lisa Smith, Harrison Central School District “You really need to pay attention to educators and experts. Please stop just creating agendas to suit your needs. Pay attention to what is right and sound for the children and teachers!”

Madeline Smith, Pelham Union Free School District “Please, please heed our message! Thank you.”

Mary Jo Smith, Fairport Central School District “Our children's future and the future of public education in NYS hangs in the balance.”

Nancy Smith, Bethlehem Central “It is an obvious effort to destroy public education so that Andrew Cuomo can run as a republican for president.”

Naomi Smith, Nyc “Evaluations need to be school based, over time, based on a human knowing a human.”

Robert Smith, Irvington “This Act will be very detrimental to our educational system.”

Spencer Smith, Ardsley “Please support education by stopping the

grab for the money that should support

Student education.”

Ted Smith, Bethlehem Central “keep the governor's political ambitions out of our public schools”

Chris(Chengli) Smith (Sungchi), Pleasantville “Common core should get repealed. I truly believe, as a math teacher, that the old regents had better standards. The common core

doesn't focus on the basics. It tries to get all advanced but it doesn't work. I have repeatedly found mistakes in common core as well. My fellow english teachers, Mr.Hendrick Junimoso and Mrs.Goodman believe this as well. They say that the nonfiction writing doesn't help to improve writing skills and ect. I ask you mr.commission er of nysed to do all of us the favour of repealing the new education system. Cheers, Dr. Chris (ChengLi)

Thalia Smith-Segal, New Rochelle "A 360 degree evaluation of our teachers by peers, Principal and a longitudinal evaluation of the progress each student makes each year will provide a more accurate assessment of the teacher's effectiveness."

Julie Snider, Harrison Central School District "I have been a NY public special educator, first as a teacher and then as an administrator for close to 20 years now. This APPR legislation is anti-child and anti-teacher and does nothing to appreciate learning theory or child development."

Teresa Snider-Stein, Hastings "Yes, we must fix the schools in lower performing districts, but attacking teachers is not the correct way to make it happen. In face if you doubled teacher salaries you would get better teachers. I agree that there must be an easier way to remove teachers who are not doing well. BUT this is not it!!!"

Eileen Snook, Arlington Central School District "Good public policy takes time. Education policy in particular is too important to let it me trial and error. Take the time to get it right!"

Raven Snook, Nyc "In any other job, you're evaluated primarily by your direct supervisor. The percentage breakdown for principals assessing their own teachers is laughable. Good, bad and meh teachers will all fall by the wayside under this proposal, talk about throwing out the baby

with the bathwater. There's got to be a better way--frankly ANY way is probably be a better way. I hope that logic prevails.”

Kathryn Snowberger, Cortland City School District “As a retired educator, I am appalled at the recent trend designed to destroy the teaching profession all for political and monetary gain. We need to "re-humanize" our perspective and remember that "children" are and always should be our focus. Teacher accountability should be in place, but should be designed by people who actually know all the factors involved in child development and environmental impacts. Ill-advised "reforms" will adversely affect the people of New York for years. Now is the time to get back on track and focus on the multidimensional education that our children deserve.”

Ryan Snyder, Schalmont “Gross use of government.”

Harriet Sobol, Scarsdale “I am so pleased to see we're fighting for NYS kids.”

Saverio Sodano, Monroe Woodbury “CHANGE IT!”

Susan Sodano, Monroe Woodbury “It would be beneficial for the people who draft and enact these laws to actually be educators not businessmen or politicians - step into the classrooms for a month or more and see what it is like - 25+ to a class, outdated books and technology - too many state mandates putting a burden on taxpayers”

Amanda Sofko, Shenendehowa Central School District “The privatization of public schools does not benefit our students. Please consider the needs of all.”

Nicholas Sofos, Copiague “We expect and demand of our elected leaders to do what is RIGHT!

Please be a true leader and amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year.”

Elizabeth Soggs Coombs, New Hartford “Stop the private takeover of public schools. - New Hartford Central School Board of Education Member”

Joanne Sold, Ardsley “It's not too late. Please save our successful schools!”

Melissa Solomon, Hauppauge “Please, enough is enough! We are wasting so much time and money in education these days. Now we have tests administering and dictating what good education is??? We pay administrators to do that too. The tax payers and children are suffering...not to mention the teacher morale.”

Vita Somers, Monroe Woodbury “Two suggestions to improve education in this state: 1) reduce class size 2) increase time for student teachers from 8 weeks to 1 year, and give them a stipend so they can afford to take the time needed to really learn how to run a classroom.”

Laurie Sorgen, Arlington Central School District “APPR has had a very dramatic impact on academic life in NY. That impact could truly be positive if the system is developed thoughtfully and in a research-based fashion. The kids of NY deserve the best APPR system we can develop.”

Laura Sormani, New Rochelle “In typical fashion of our society today, we are blaming teachers for the deficiencies of our society. Can anybody really believe that a mathematical formula can accurately predict the impact of living in poverty on a child's test scores? I can't imagine why

anyone would want to become a teacher today. We can fix this broken system, but we are going in the wrong direction.”

Mareline Sosa, Port Chester “Teacher's careers shouldn't depend solely on test scores.”

Michael Sparcino, Hamburg Central School District “Teachers need a fair evaluative system, not the one that is currently in place.”

Aaron Sparrow, Nyc “There is such a wealth of research-based proposals for improving education, from experts like Diane Ravitch to numerous studies informed by cross-country analysis. Why policymakers in New York and elsewhere insist on adhering to a narrow, ideological "testing & accountability" movement is simply unfathomable.”

Laura Spence, Ossining “Amend the Educational Regulations”

Brodrick Spencer, Greenburgh Central School District “ITS IMPORTANT THAT WE DONT MICRO MANAGE REAL LIFE SITUATIONS WITHOUT BEING IN THE TRENCEHES FIRST HAND.”

Casey Springstead, West Irondequoit Central School District “The Governor needs to stop making teachers the enemy, stop encouraging the diversion of public education \$\$ to private and charter schools, and focus on real issues for NYS like fighting poverty.”

Maya Srivastava, Williamsville Central “I pulled my child out to private school because of common core and stupid eval

Now give back the public schools to us from those opportunists”

Susan Stearns, Binghamton City School District “It's time to do it right and make the profession about kids, not big money and politics!”

Richard Steeves, Hastings “I recently moved to Hastings on Hudson for the beautiful town and the excellent education. I was pleased to recently see that Newsweek selected my district as one of the best in the country. My son, now in kindergarten, is receiving an excellent education from excellent and dedicated educators. With all of this in mind, I am shocked that the lawmakers of New York State, including our governor, would repeatedly ignore the repeated calls from the public to put an end to the punitive and senseless choices made regarding OUR children's educational futures. Stop wasting our resources attempting to implement untested and useless state testing for the sole purpose of punishing some of the finest teachers in this country. Enough is enough!”

Kaori Stram, Eastchester “Please listen to parents' voices!”

Jennifer Strang, Yorktown “I am a special educator and the current testing and evaluation system is incredibly unfair to teachers like me who work with our neediest students. More importantly, the testing and curriculum expectations placed upon my students are unfair and detrimental. Carina Sullivan, Byram Hills Central School District “Please listen to our educators. They have advanced degrees in the areas you are trying to govern, so they have to be heard.”

Renee Tancin, Dutchess Boces “Teacher evaluation should be based on the teacher's craft and creativity, preparation, implementation of research-based teaching strategies, divergent teaching, responsive instruction, professional development, dedication to their students, their efforts that go

above and beyond what is required of them and measured progress of each student. Their evaluation cannot be so highly correlated to student test scores for two reasons. First, teachers do not have control over what happens at home (homework, conduct, values, participation in extra help, etc.). For some students, progress is hindered no matter how much is offered to them at school. Second, students may not be able to perform on these difficult tests, but they may have shown a lot of growth as an individual student. The tests, however, show that the student is a failure which is not true. The teacher may have had a significant effect on the student's study skills, understanding of a subject or reading/writing ability but the test score may only show below grade performance and a great teacher can be penalized regardless of their success.”

Mike Tangel, Middle Country “I am a retired teacher and applaud your gallant efforts to fix this broken Common Core educational system that is hurting our children. Michael P. Tangel”

Susan Tansey, Katonah Lewisboro “Please hear us and act in responsible ways to help make our NY education system a model for the country. Our students and teachers deserve no less.”

Jaimi Tarasoff, Monroe Woodbury “Our children are counting on you to put their needs first over politics. Teachers and parents are not the enemy. We are the ones in the trenches. Help us by doing the right thing. We love and care about our children and their future, please show us that you do too.”

Maria Tardio, Valhalla “I whole heartedly agree with this petition and urge you to stop this transition. It simply does not work and is hurting our children in more way than one.”

Cathy Taylor, Pelham Union Free School District “It is because of the ridiculous manner in which these reforms have been rolled out that my husband and I decided to send our daughter to private school next year. We can ill afford paying an additional \$18K, but it seemed the best option for her.”

Diane Taylor, Hastings “Let the teachers teach. Enough with standardized testing.”

Helen Teevan, Bedford Central School District “?Žto Gov. Cuomo for putting profits for millionaire friends ahead of decent public schools, and allowing charter schools to milk public funds. Shame on you, Gov Cuomo”

Maria Tejeda, New Rochelle “Amend the Education Transformation Act of 2015 to require that a panel comprised of experts in the field of psychometrics, teacher evaluation, and seasoned education leaders be convened to design a researched based teacher evaluation system to be implemented in 2016-17 school year”

Binny Tercek, Hastings “I implore you to suspend the Education Transformation Act of 2015. This act has not been designed with my children's best interest in mind.”

Barbara Terracciano, Port Chester “Our children deserve better than this. It should have nothing to do with politics and big business. Everyone should be held accountable for doing their job! We need specialists in the field of Education, people who've worked in classrooms, to work together to develop a thoughtful and coherent process.”

Annabel Terrell, Port Chester “Unfair to ELL students and their teachers !”

Lisa Terrero, Nyc “This needs to stop!!!”

Carole Terry, Mount Vernon City School District “You have this wrong...you know it...you just do not care. You and any cronies of yours will not be getting my vote! ALEC's plan is reprehensible and sadly so are you Mr. Cuomo”

Kunal Tewani, Byram Hills Central School District “Politician stay out of school systems”

Neal Tewani, Byram Hills Central School District “I support local school control”

Nina Tewani, Byram Hills Central School District “Keep politician away from local schools control”

Peter Tewani, Byram Hills Central School District “Keep schools in local control. Not some bureaucrat in Washington. Thank You”

Priya Tewani, Byram Hills Central School District “Keep schools control locally”

Jackie Thewes, Rye Neck “The inordinate amount of time our teachers spend prepping our children for Common Core tests, because their pay depends on improved results, prevents our children from being prepared to launch into worthy educational exercises and projects. I support a thoughtful review of our teacher evaluation policies, including tenure, and support change to the current evaluation policies. Our children's education is suffering and they don't get these primary years back. Please do the right thing, today.”

Jennifert Thibodeau, Tupper Lake Central School District “Let's go back to teaching our children instead of testing our children.”

Robert Thidemann, Sachem “This bill was thrown together last minute, not read or understood by many legislators, and is damaging to our schools and to teaching as a profession.”

Karl Thielking, Piffsford Central School District “In all of my 37 years as an educator in NYS, including 19 years as a school administrator (15 of which leading one of the highest performing

high schools in the state and nation), I have never seen any new initiative from the state level that has been so absolutely counter to research and common sense, nor as destructive to the sort of environment needed in order to support continuous improvement of teaching. Sadly there are little piece of the changes that might have been much more productive if the rest of the arbitrary, non-research based, and punitive pieces had not been included.”

Amy Thomas, Piffsford Central School District “Do what is right for children! Every district is unique - a "one size fits all" approach to solving failing schools is not appropriate. You are hurting our children and our schools! Take time to make an informed, well thought out plan for teacher accountability. Our district had a wonderful evaluation system prior to APPR. You are taking valuable time away from our high performing district.”

Dave Thomas, Fairport Central School District “We truly need to come to our senses!”

Michael Thomas, Yonkers “Suspend this ill-conceived, vindictive, mindless flawed disgusting law NOW.”

Ray Thomas, Shenendehowa Central School District “The whole process is a cotcha system aimed at privatizing public education.”

Shawn Thomas, Elmsford “My kids go to private school and will continue to do so, because of one thing. common core. It's a disaster for children and teachers.”

Stephanie Thomas, Monroe Woodbury “Think about how your decisions affect the students for they are the future of our country.”

Deanna Thompson, North Collins Csd “Teacher Evaluation should be implemented correctly. Please take the time to do it correctly and stop taking away valuable teaching time for students. You are hurting our children by rushing the process. My 4th grade son had anxiety about taking the State Assessments for fear his teacher would be fired if he didn't do well. This is what our NY Education has become - over testing children and blaming teachers.”

Kathleen Thomson, Irvington “The reliance on standardized testing has gone too far. Teachers, like anyone else, do their best work when they are allowed to be themselves and bring their own individual strengths to the classroom”

Michael Thomson, Copenhagen Central “Stop playing politics with education”

Kristen Thordahl, Monroe Woodbury “Please suspend and Amend the Education Transformation Act of 2015. Just let our teachers teach and our student learn. Stop making them take tests that prevent this.”

Kym Timpano, Croton Harmon “these changes are destroying the education system.”

Maryann Tina, Ardsley “education in the hands of educators not politicians or the politically motivated!”

Andrea Tipton, Sachem “Stop using our children to punish teachers.”

Billie Tisherman, Harrison Central School District “This is very important.”

Heather Tisman, Hauppauge “Multiple choice test do not show a students true understanding of mathematics. It is counter productive and does work. Students in MS do not try there best because they know the tests do not influence their grades or their ability to move up to the next grade level. How can a teacher be judged by a test that does not truly judge the student.”

Janet Tobin, Ossining “I believe in teacher accountability achievement standards for students but believe the new education regulations neither appropriate nor effective.”

Kathleen Todd, Sherburne-Earlville Central School “Stop harming our children and get it right!”

Marcia Tokson, Byram Hills Central School District “Put control of our children's education back in the hands of the local community!!”

Ivan Tolentino, New Rochelle “Fix these exams and make them developmentally appropriate for children. Then tie the scores to teacher evals but in a way that encompasses all other areas. Tests should be a MINOR part of teacher evals.”

David Tomasini, Monroe Woodbury “Suspend the Act now”

Stephanie Tomei, New Rochelle “PLEASE DO THIS FOR OUR CHILDREN, OUR FUTURE. BE THOUGHTFUL!”

Lesli Tompkins, Beacon City School District “Our children are students, not scores.”

Elena Tonna, South Huntington Ufsd “Let's end this nonsense testing and do what's right for our children!”

Barbara Tordella, Falconer Central School “Do what is right and in the best interest of our students!”

Meg Torelli, Nyc “Encourage teachers to teach instead of being rated unfairly by tying them to their students test score. Why would anyone in that case want to teach low performing students.”

Jose Toscano, Scarsdale “Please, ban VAM! It is 100% flawed...”

Terry Tousey-Wyatt, Irvington “Teachers are professionals. They need to be able to use creative measures if necessary, to give our children a well rounded education. Tying their hands instead of collaborating is unproductive. Give students a holistic education and then parse out their strengths and desires. It's not rocket science. They need to love to learn! Promote that!”

Jane Tower, Tupper Lake Central School District “Let's get it right!!”

Elizabeth Townsend, Rye City “Common Core and unfounded mandates have ruined the public school system. Please amend your previous stance and help our schools.”

Maeve Townsend, Pleasantville “Let's not turn education into a boondoggle.”

Lina Trabold, Yorktown “I totally agree with this letter. Thank you for addressing this very important topic.”

Jean Tracy, Monroe Woodbury “as a nys rn, please come up with evidence based testing to evaluate nys teachers and my daughter as a student. NY states future excellent education with positive role models to follow.”

Michelle Traub, Mattituck Cutchogue School District “NO MORE HURTING OUR KIDS !!!!!!”

Michelle Traub, Mattituck Cutchogue School District “Please give our kids a break, my son is an honor student and suffering with the core terribly. We as the parents should have some say in OUR child's education!!!! Stop before they learn to hate going to school!!!! Put the money back into the schools , not your pockets !!!!!!!!!!!!!!! Disgraceful!!!!!!!!!!”

Lisa Traum, Baldwin Union Free School District “Make changes that work!~”

Richard Trauner, Ramapo Central “Governor Cuomo is pandering to the rich and powerful that want to create a system where mediocrity is the norm. The tests have nothing to do with receiving a quality education or the evaluation of a teacher. How many of us were not good test takers but persevered to be successful in their chosen career. The one size fits all education system is creating a system that denigrates the idea that we all have multiple talents that need to taught and germinated to grow and develop.

I resent the hubris that someone from outside a district would come to a school to evaluate a teacher with no connection to the community and school.”

Pat Trehy, Valhalla “Good ideas; bad implementation”

Mary Trevor, New Rochelle “These new regulations take the joy out of teaching and learning. They do not appear to place children first. Instead, they serve to enrich the testing companies and charter schools at the expense of public education. It is public education that built this country.”

Vanessa Trezza, Port Chester “Get it Right NY!”

Claire Troy, Greenburgh Central School District “Under the proposed regulations our district will be set up for failure and we will lose experienced and talented educators. These regulations need to be repealed immediately.”

Teresa Trujillo, Spencerport “Enough is enough! How can tests that are so poorly written and questionable for our students be used to evaluate their teachers. It is nonsense!. Be fair and get it right now.”

Charles Trupia, Connetquot “Let's take the time to get it right.”

Michael Tucci, Arlington Central School District “It is important to make a change that is lasting and meaningful.”

Loretta Tularzko, Dobbs Ferry School District “NYS has start to think "mandates and processes" through before they rush and enact them.”

Miriam Tully, Lakeland “Suspend and amend.”

Steven Turiano, Webster Central School District “Cuomo's "reforms" use children as pawns in his efforts to shift educational funding into the pockets of his billionaire supporters. Let true educators and statistical experts put together a system that actually works, and prevent the privatization of the public school system that made this state great”

Michelle Turissini, Connetquot “Enough is enough. Take our schools back.”

Robert Turissini, Connetquot “Stop destroying public education. Let locals run their own districts, not politicians that know nothing and use us as their political pawns!”

Mary Jane Turner-Gibbs, Monroe Woodbury “Stop the craziness!”

Kristen Turnow, Patchogue - Medford School District “Please let the professional educators led the way. Our children are worth it!”

Marc Turof, Monroe Woodbury “It is imperative to do this, as start, to preserve and improve public education.”

Marc Turof, Middletown School District “What's best for the students, not the corporations.”

John Tuttle, Rochester “Way too flawed, sneaky and vindictive”

Maryellen Tuttle, Corning-Painted Post School District “I am alarmed at the Gov. Cuomo's undermining of public education in New York State to favor privatizing education for profit. If parents choose to send their child to private schools that is their choice, but New York State taxpayers are already providing for universal free education, there is no need to provide tax incentives to those parents who choose private schools for their children. This legislation will create even greater inequities between children of affluence and children of poverty.”

Annette Twardy, Greater Amsterdam School District “until you have a well represented committee that will take into account all aspects of education, we will continue to go in circles and not find a true solution”

Dr. Christopher Tyler, Mamaroneck “Please take into account quality research when generating a new, valid teacher assessment tool!”

Roberta Tzavaras, Nyc “i am a retired school teacher and I would like to sign the petition to suspend and amend the NY State Education Transformation Act of 2015”

David Uchetel, Putnam Valley “ABOLISH COMMON CORE NOW!”

Anmarie Uhl, South Orangetown Central School District “It is time to bring educators to the table to have a voice about these critical issues that affect our students' education.”

Marla Ulrich, Rhinebeck “Suspending and amending the Transformation Act will help us do right by all of our students. There are so many students who need to be engaged in alternate ways, in order to tap into their promise and talent as learners. The current educational environment with its over reliance on testing is causing these students to dislike school more than they already did, and to doubt their abilities. It is our responsibility to reach and engage all of our students, in every way possible. In order to do this, we need to have the freedom to create an educational system that can meet everyone's needs without the constant pressure that results from over testing. All students should love school. All students should love to learn. We need to do better by our kids.”

Dana Unger, Hastings “Do not bring our wonderful school district down to mediocrity!!!”

Val Unger, New Hyde Park “Cuomo needs to be stopped before he destroys a full generation on New Yorkers.”

Crissy Unkenholz, Hauppauge “I am both a teacher and a parent.”

Penni Urquhart, Pelham Union Free School District “Please treat our teachers with respect they deserve and don't rush into another flawed evaluation system.”

Karen Vaiano, Levittown “This is too important not to get right! This is not politics. It is our children's future we are gambling with!”

Karen Vaiano, Levittown “While New York politicians and NYSED are playing games, children are losing quality education opportunities. When you have lost the support of parents, teachers and administrators, you must know something is wrong. It is teachers, not tests, that educate students. It's time to support, not attack, teachers!”

Richard Vais, Greenburg Union Free School District “END this assault on our children!”

Melanie Valencia, Binghamton City School District “As an Arts advocate and educator, I have seen the current mandates erode the ability of many students to participate in the performing arts for various reasons: they are put into additional remedial classes to boost their math and literacy ability (this is in addition to having math and English as core subjects); they see the additional tests they take for the arts classes to be a burden (“I didn't know we had to WRITE in this class”); and their workload to keep up with the ever changing course requirements is growing every year. No wonder they “don't have time.””

Martin Valens, Ossining “Get it right!”

Paula Valente, Bellmore Merrick Central Schools “Some kids need repetition in their early years of school to build up their confidence in what they are doing. Common core has too many trick questions that require you to use a lot of your thinking skills and have a strong foundation . If you don't have a strong foundation, you will give up and just guess on the answers. This is not a strong education. If we want to evaluate the teachers have people come into the class rooms that were top rated teachers who can evaluate 4 times a year by surprise. If they don't pass the test have them go for training by the elite teachers. That is my thoughts.”

Polk Valerie, Monroe Woodbury “As an employee of this district, I, like many others, have seen and felt the negative effects of this legislation. The tension and negativity generated by the issues in education today, Common Core as another example, are creating a very sad atmosphere among both teachers and students. There has to be change, but at this point it does not appear that the process, as it is, is at all helpful.”

Patricia Valiante, Greater Amsterdam School District “Please suspend this”

Cindy Valicenti, Cornwall Central School District “I am looking into private schools for next year in the hopes of giving my child a true education, not a for profit state " education””

Debbie Van Florcke, Copiague “It's terribly unfair what has been happening. You need to change things for the better. Both the students, teachers, and parents are struggling. It affects everyone. Please listen to the public. Thank you!”

Charles Vandenberg, Victor Central School District “There is no new crisis. Poverty is getting worse and hurting many schoolchildren, but ending genuine public education is no answer.”

Katie Vaneps, East Irondequoit “Stop this insanity. Do what is right by kids, parents and all who work in the field of education.”

Diane Vanleuvan, Hyde Park Central School District “Get it right. Don't rush into something that's not thought out please.”

Kimberly Vanschoonhoven, Lockport “What our so called Governor has done to the teaching profession and our public schools is outrageous. Stop the madness now!”

Keri Vaquero, Byram Hills Central School District “As a teacher and parent, I oppose this act.”

Kendra Varbero, Mount Pleasant “let's stop wasting money and time. We want to teach.”

Marcie Variano, Ossining “Parents/Teachers/Administrators need to start being heard by Albany. Our concerns have falling on deaf ears for too long! If you choose not to represent those that elected you, then we collectively as a state and within our own districts will not choose you come election time.”

Jessica Variello, Patchogue - Medford School District “no to common core stop it now !!!”

Janice Varmon, Harrison Central School District “Please do what's right!”

Sherry Vasata-Levine, Massapequa “please help the children, parents, and teachers reclaim the joy of learning and educating.”

Aquiles Vasquez, Monroe Woodbury “Suspend the education transformation act permanent !!!!!”

Mario Vasquez, Dobbs Ferry School District “Concentrate more on educating our children and less on more and more standardized tests”

Grace Vazquez, Ballston Spa “Our schools suck. To the point of wanting to uproot and move to a state that opted out this common core bullshit and these schools are ran. Get a grip NY.”

John Vecchio, Middle Country “State government should not be involved in local issues”

Theresa Vecchio, Mount Sinai “This must be stopped”

Norma Vega, Nyc “I am deeply disturbed at how we have lost our way in education. The focus needs to be on our children and understand where they are developmentally. The state needs to genuinely reflect and educate itself on what will cause our children to thrive and be successful as people as citizens. The lack of trust and respect for children and those educating them is

extremely disheartening as is the use of our educational system to push personal agenda is troubling. I have never seen it this bad.”

Courtney Velardo, Elmsford “Stop high-stakes testing!!! The tests are unfair and are not designed to show what the students have learned and what they are capable of. Our children are so much more than a number on a test!!”

Michelle Velardo, Ossining “Be fair to kids”

Kathy Velasco, Amsterdam “Stop listening to listening to corporate profiteers and do what is right for New York's public school children. Let teachers teach- they are the trained professionals.”

Maria Velasco, Harrison Central School District “My child is in special class, he need a lot support to continue his development. Please let him get the best opportunity for his education.”

Victor Velez, Ossining “We as a state need to be progressive as we figure out how to fund our underfunded schools. Instead of each town picking up the bill for their own school we should be pooling our state taxes and determining what every student should receive and dole it out equitable. At least 35 other states do this and it is the fairest way to distributr our tax dollars so that all schools receive better funding.”

Marjorie Venegas, Port Chester “Llet me provide my students with the academic, social and even moral skills that they need to become successful citizen of the world and to be able to achieve their dreams.

Let me TEACH....”

Michele Venero, Bellmore Merrick Central Schools “We parents will never give up this fight”

Pamela Verity, Commack Ufsd “Please, this generation of children are being robbed of a well rounded education in which to find where they shine. This one size fits all agenda does not create the type of citizens we need to solve the problems this world will face in the future. I am also speaking about my own children who are in the thick of this political mayhem. Give us back our schools. Politicians and corporations should have NO place in our classrooms. Leave education to the teachers and parents of the local communities.”

Patti Verity, Mattituck Cutchogue School District “It's time to recognize what doesn't work and take the time to make it work.”

Kara Vicinelli, Mamaroneck “As a parent and a high school teacher, I urge you to reconsider. High stakes testing is NOT improving education, it is simply increasing stress and anxiety and encouraging teachers to teach to the test.”

Joseph Vick, Rochester “Please fix!”

Stephanie Victor, Rye Neck “There is no time to waste. Please act now!”

Patricia Vieira, Ossining “Let's put children first!”

K Vigil, Red Hook Central School District “I both a parent and a teacher educator at the college level who has seen the damaging results of these initiatives.”

Jill Vincent, Irvington “Stop the insanity!!”

William Visnius, Hauppauge “none”

Donna Visone-O'Brien, Wiliam Floyd Ufsd “As a parent and educator we must all stand together to prevent any further damage to our educational system because of these ill-advised educational mandates and so-called reforms.”

John Vlad, Pleasantville “There have been two many hastily decided decisions by our governor and Board of Regents in the last few years. What are you all doing? Have any of you ever been in a classroom before?”

Elaine Vlahos, West Babylon “Teachers need to be a part of any changes!”

Mona Voelkel, Valhalla “I suggest a process like the one to obtain National Board certification. It encourages teachers to reflect deeply on their practice.”

Karen Vogel, Lakeland “Please consider our children's needs and our opinions on this matter and on our teachers. Parent evaluations should be considered as pay of the plan”

Jacqueline Vollmer, Sachem “Cuomo & his cronies have NO CLUE!!!”

James Volpe, Elmsford “Let's get back to basics and stop this nonsense. The children are suffering.”

Leeann Vrablik, Arlington Central School District “Previous "signature" was incorrect!”

L W, Elmsford “Get it Right!”

L W, Elmsford “our teachers deserve fair rights”

Alfred Wagner, Brewster Central School District “It's time for Albany to stop using our children and school districts to gain political advantage, and start thinking of what's best for our kids. Let's help the children of NYS reach beyond their grasp and succeed, rather than test them into failure.”

Cathy Wagner, Wiliam Floyd Ufsd “Everyone is smart enough to see through the governors plans to put money in the hands of Pearson and Gates. Get money and politics out of education and step up to the plate. Educate yourself and our children.”

Jaclyn Wagner, Rhinebeck “Teachers do not reject the act of being evaluated; instead, we desire a thoughtfully designed evaluation system that accurately measures teacher performance--and this requires that the current criteria and weighting from Albany be revised.”

Judith Wagner, Webutuck Central School District “lets get it right NY!”

Peggy Waide, Wappinger Central School District “Get rid of the politicians and get education back to normal- former teacher”

Joseph Walden, Valhalla “The testing is out of control - the kids are having advanced concepts hurled at them without having the time to fully understand what the concepts are or developing the skills needed to reach such standards.”

Elena Walker, Peekskill “This reform was poorly thought out and badly implemented with no real benefits to our children.”

Kerry Walker, Blind Brook “Please look at all the signatures!”

Laura Anne Walker, Corona “There's no other job where one person is responsible for at least 20 people in one room all day long. Teachers are scrutinized, and blamed for all the ills of society. There are too many variables that have nothing to do with teachers that make it unfair to evaluate teachers in unfair and capricious ways.

Bank Street College of Education has a progressive, hands-on, child-centered approach to teaching children. I think Bank Street College of Education should take over the current public school system.

Meanwhile: Suspend and Amend the Education Transformation Act of 2015--It-s not too late to get it right! #GetItRightNY.

Thank you.”

Richard Walker, Rhinebeck “A valid APPR can only be developed and agree to after much thought and sincere discussion. A rushed product WILL be a disaster.”

Stephen Walker, Ossining “Our state is moving in the opposite direction of where we should be! More testing and making them higher stakes for teachers is not the answer.”

Tory Walley, Rye City “Let's be thoughtful so the new reform is something everyone can get behind and make it work to help kids!”

Cathy Walsh, Eastchester “Common Core needs to go away. Our children deserves better!!”

Kimberly Walsh, Monroe Woodbury “Teachers end up teaching for the test and not always in logical sequence--- due too much emphasis on end of year testing and its impact on evaluations. We have to get back to teaching with the main goal to be for students to Learn. And not rush

through subject by subject in order to cover all that will be on the test. Teachers need to be held to a high standard---but one test does not tell the story of a school year. What was the impact that they had on a student that performs below standard?---did they spend the time/ did they not spend the time to turn that child around? The child might score a 2 on state test---but achieved during the school year based on time spent by teacher and the child. On the other hand, I do not agree with Tenure, in this world, of what have you done for me lately. Teachers need to perform their entire career--not just to reach tenure. But their assessment cannot be based on student's performance of state testing only.”

James Walters, Greenburg Union Free School District “Please restore the level of respect due to the New York State public education system which has been a national leader for decades.”

Mark Waltzer, Nyc “Governor Cuomo's reforms will lead to the destruction of the very fabric of American society. The so called standards are causing our best and brightest educators to abandon our education system; mission accomplished Mr. Governor. The students most severely impacted are the ones in economically challenged schools; weep for them.”

Anthony Wan, Hastings “Testing is not a method of teaching.”

Christopher Ward, New Rochelle “I have watched our state education department change standards so fast that they have not even allowed the data to be collected and analyzed and in other areas let the data to be collected and analyzed. And if we are evaluating teachers let us evaluate administrators. A bad principal or superintendent or director of ... Can also make a negative impact and destroy a school or part of a school system. If we want to be seen as the great state we are. Then the negative back lash of constructing an evaluation system on the fly without testing it out. will make us all look foolish. If there are hot spots then use those hot spots as an experiment to see how the evaluation system works while putting together a team of all types of educators and politicians and parents to flush out a system that is fair for students, parents and teachers. Thank you for listening.”

Steve Wardwell, Ossining “The massive and growing number of test opt-outs should be a sign that parents in New York have lost faith in the direction of education in our State. The new law that our Governor forced through the legislature will only do further damage. It is time to reset.”

Linda Warner, Genesee Valley Central School “The legislation as it reads now is completely unfair regarding teacher evaluations. A couple of reasons are; Education has required special needs students to be a part of regular ed classrooms so how is this fair to the teacher evaluation. My biggest reason is: If you are a middle school teacher you are at a more increased failure level regarding evaluations because we all know that 7th and 8th grade students go through not only physical changes/hormones that make them struggle but academic struggles as well. And most of this is due to the many changes in puberty and the "know it all" attitudes of the age. Please reconsider the process. Thanks for listening.”

Melissa Warrick, Binghamton City School District “STOP HURTING OUR TEACHERS!!”

Susan Wartell, Patchogue - Medford School District “Get rid of common core,”

Margaret Wasnak, Pelham Union Free School District “We must abolish common core and the high-stakes testing that goes with it. For-profit corporations should not be determining the curriculum in public schools.”

Andrew C Watson, Ardsley “When these tests are used to evaluate educators it distorts the culture of schools, negatively impacts students because educators have no choice but to teach to the test, and will soon start to affect the quality of the people that choose to even enter the teaching profession.”

Marjorie Watson Ley, Yorktown “We chose Yorktown as a place to live based on the good school system.”

Joan Weber, Harrison Central School District “Stop! Make thoughtful, well researched policy that results in progress not problems. Our once heralded system of public education is being decimated.”

John Weber, Northport - East Northport School District “Listen to common sense please”

Senarath Weerasinghe, Edgemont “I don't believe the 2015 act is in the best interest of the students. I am against any act that would compromise on the quality of education.”

Andrew Weik, Rocky Point Union Free School District “Please stop trying to break our schools!”

Theodora Weik, Rocky Point Union Free School District “Enough is enough!”

Kirk Weiler, Red Hook Central School District “As a teacher, a parent, and a small business owner who's sole mission is Common Core math instruction, I completely support this petition.”

Audrey Weiner, Mamaroneck “It is time for educators to be involved in decisions made about what's best for our kids & our schools.”

Sue Weiner, Piffisford Central School District “Why is the state targeting the hard working middle class? Why are you targeting mainly middle class women? You VOTE FOR THIS and I promise to work against you in the next election.”

Patricia Weinrauch, Hewlett Woodmere Public Schools “This is long overdue.”

Michele Weintraub, Ardsley “Suspend the education transformation act. Get rid of Common Core curriculum. Let educators teach and business people stay out of it.”

Nancy Weir Werner, Arlington Central School District “Do what's right for kids.”

Stana Weisburd, New Paltz Central School District “Please fight for what is right. Please fight for our kids. You can do it! We will all remember. We vote.”

Brian Weiss, Edgemont “I believe that if the legislation is not amended, students will be negatively impacted in four ways:

The current culture of high stakes over-testing will become permanent.

Good teachers who are successful in Edgemont, or have the potential to be successful, will be fired despite our principals- and my own opinions of their work. The new rules are that Albany will decide who is fired based on a statewide formula applied to student test results.

Local control and authority over our schools- management will continue to be taken away. I find it difficult to believe anyone thinks that Albany-s management of Edgemont could possibly improve our performance.

Loss of local school control means that districts like ours will be -drawn toward the average.- While the homogenization of schools throughout the state may help the worst schools, it will make it very difficult to maintain the high performance that many suburban homeowners chose when they bought property in our communities.”

Jane Weiss, Putnam Valley “I wholeheartedly support this...happy to be signing.”

Linda Weiss, Shenendehowa Central School District “Time to put students first and hand education back to the people who have made it their life's work - the teachers!!”

Monica Weitzel, New Rochelle “#GetItRightNY”

Christopher Weitzman, Edgemont “Local control is a significant part of why Edgemont is such a strong school.”

Jacqueline Weitzman, Hastings “Don't privatize our public schools. Thank you.”

Kathryn Welch, Olean City School District “STOP THE MADNESS!”

Ashley Welde, Blind Brook “These policies are ruining my kids' education - filling in multiple choice bubbles all day makes them hate learning! Please make school about educating kids, not testing them!”

Robert Weldon, Clarkstown Central Schools “These reforms are misguided and are not worthy of the students of NY state.”

Feliz Welington, Monroe Woodbury “Suspend and amend the Education Transformation act of 2015.”

Brian Weller, Piffersford Central School District “Thank you for taking the time to listen to educators about this issue!”

Lisa Weller, Shenendehowa Central School District “lets try and do what's right for the children!”

Wayne Wellinger, Hauppauge “We need a system that makes sense. One that is fair and allows teachers to teach and students to enjoy receiving an education. Not a completely dysfunctional top down approach based on high stakes testing.”

Dan Wellington, Hilton Central School District “As President of the Hilton Board of Education I applaud you and Thank You for this effort.”

Natalie Werner, Ardsley “Common core is designed as the best way that can be thought of to fire good teachers because no one wants to pay them for their experience and knowledge and want to hire people with no experience for no money and could care less about our children's education.”

Laurie West, Ossining “As a veteran teacher, tax payer, and informed citizen, I am embarrassed by NY State's refusal to allow logic and reasoned discourse to prevail. The current emphasis on political "gotcha" and hidden agendas threatens not only our student's educational opportunities, but the very framework of the democracy we claim to support.”

Nina West, Hewlett Woodmere Public Schools “Thank- you!”

Deborah West-Arnot, Cooperstown “As a 33 year teaching professional, I implore you to stop the government take over of public education. Local control of our public schools is essential. Cuomo must be stopped. I am so disappointed in my elected officials for NOT standing up for our children and teachers.”

Michelle Westby, Middle Country “It is imperative to amend the proposed rigid and unethical evaluation system. It is unfair to our students, teachers, parents and communities. It also does not take into consideration the needs of students with disabilities at all.”

Catherine Westcott, Mahopac “I don't want my son to spend so much time on standardized test. When you tie the teacher evaluations to students test scores you force teachers to teach to the test to save their careers.”

Cindy Westervelt, Arlington Central School District “I support the petition.”

Judith Wetsig, Binghamton City School District “Please do this the right way!!”

Edward Weyhrauch, Pearl River “Let the teachers teach.”

June Wheeler, Arlington Central School District “The petition should read "research-based teacher evaluation system" and, at the end, "It's not too late to get it right and stop wasting time, energy, resources, and instructional opportunities for students." Other than those typos, I agree with every word.”

Patrick Wheeler, Ossining “Allow people who actually know about education to make decisions about it. Education should not and cannot be effectively legislated by a group of politicians who have no idea what they are talking about, especially a Governor who is trying to kill our public school system.”

Wendy Whetsel, Putnam Valley “Diversity is what makes our planet so special.”

Allison White, Port Washington “As a public school parent, I demand that the legislature stand up for public education and force the State Ed Department to act in the best interests of our schools and students. Return local control, fully fund schools and leave us alone instead of making it more difficult for our schools to function. I am tired of the legislature and the Governor playing politics with our students' future.”

Richard White, Montauk “Stop the testing.”

Robert Whiteman, Guilderland Central School District “The quality and breadth of education has actually regressed under Cuomo's administration in our award winning district. This needs to end.”

Laura Whitlinger, Ossining “Teach our kids to think and create...not how to take a test.”

Philip Whitney, Irvington “I'm a school board member but this is my personal view based on my first-hand experience of the potential negative impact of this Act.”

Monica Whitt, Hancock Central “Stop the attacks on public schools”

Terry Whitt, Hancock Central “The APPR systems which the governor and NYSED have dictated to school districts have never been shown to have any validity whatsoever.”

Anne Whooley, Northport - East Northport School District “Retired Principal”

Priscilla Wiafe, Eastchester “Please save our good teacher. Teachers in the district are doing a wonderful job.”

Paulina Wienckowski, Monroe Woodbury “Please accept this as my support for a better process”

Florence Wiles, Westhampton Beach “If you are honest with yourself, you know what the right thing to do it. Please do the right thing here.”

Bill Wilkens, Brewster Central School District “We are watching this outcome and be voting in the next election”

Cathy Wilkens, Brewster Central School District “Stop this insanity NOW”

Leigh Wilkins, Harrison Central School District “suspend act”

Sandra Wilkins, Central Square Central Schools, “This was not thought over very well and was connected to the budget as I understand it. Educators should be coming up with teacher evaluation not politicians. Suspend and Amend this and get it right!”

Thomasin Willard, Hastings “Stop putting everything on tests and evaluations and control by Albany, which has shown itself corrupt and in the service of special interests.”

Christin Williams, Vestal Central Schools “The Shaker grant from NY paid for me to obtain my National Board certification. I passed on the first try after giving up my free and family time to better myself as a teacher. I have proven myself to be a highly effective teacher, yet I could be punished because 9 year old students choose not to care about the test, or they get stressed out, or they just don't test well yet. How could I possibly end up a developing or ineffective teacher after all the work I have done? 6 days of testing 9 year olds should not determine the abilities of a teacher when there is so much more to consider.”

Claudia Williams, Harrison Central School District “IT IS NOT TOO LATE”

Deborah Williams, Spencerport “Please do not deprive our neediest students of the funding our public schools need. Separate is not equal !!”

John Williams, Copiague “I agree with the contents of the letter above.”

Karine Williams, Eastchester “It is almost insulting that such proposals are being made.”

Wayne Williams, Monroe Woodbury “I believe that revisions are appropriate but said revisions must be more effectively planned, discussed and implemented.”

Robin Willig, Blind Brook “We need to work together create a meaningful evaluation system. A system that will help teacher grow professionally.”

Lean Willock, Pearl River “Our children would be better served if their teachers had more time to spend teaching and mentoring rather than giving tests.”

Cynthia Wilson, Pifford Central School District “Our government needs to start listening to The People and stop listening to those with money to influence politics. The requirements Cuomo forced upon our public schools are hurting our students and the professionals who work with them. Please STOP THE WITCH HUNT and take real action to help public education!”

Peter Wilson, Rye Neck “Stop persecuting teachers!”

Michele Windus, Bolivar-Richburg Central School “There is not enough time to get this right. Suspend the time lines and get it right. The governor can complain all he wants, but the current plan was his idea too and now he doesn't like it. There are many inequities and they need to be fixed.”

Rachel Wineberg, Hastings “If teachers evaluation is connected to the test, they can't help but teach to the test. This means that non testing subjects--such as science, history and language--are at risk. In addition, it means that students who test above average are not given a strong education since the focus is to bring the bottom kids up and not all kids up.”

Gregory Wing, Shenendehowa Central School District “We can not fix the problems with the CCLS roll out by rushing to the next ill formed plan. Change should not be an event, but rather a thoughtful process.”

Martha Winsor, Edmeston “The rush to change has disillusioned most of us who were proud of our chosen field of education. The negative rhetoric these changes have been founded on has not convinced me that any of it is based on good scientific research. I have always believed that change is good for us and sharpens our skills, but combining the changes with evaluation systems has been demoralizing. Everyone in every school knows who the poor teachers are without ridiculous evaluation systems. Let's do something about getting a more efficient system for moving poor educators out. Right now every effort to do so will begin again every time we change the evaluation system. It is a misguided and burdensome, inaccurate mess!”

Mark Winston, Scarsdale “Educating children cannot be achieved through using a business model. Children are not commodities.”

Fayne Winter, Rochester “Get real, Cuomo”

Penni Winters, Monroe Woodbury “A child's achievement is more a product of a supportive, stable home than a teacher's instruction. Look at the research!”

Lawrence Wirth, Fairport Central School District “This plan could be more accurately titled "The Public School Destruction Act of 2015". Suspend it and repeal it!”

Deborah Wissmann, South Huntington Ufsd “Maybe all the money being spent on testing with no other purpose than to punish educators should be used to offer real services to struggling students.”

Stephen Witt, Hewlett Woodmere Public Schools “I repudiate the false narrative persistently perpetuated about public education by NYSED, and further, reject the poorly researched and misguided reform agenda they have pursued. I am unequivocally committed to systems of accountability for teacher performance and student growth, but these systems must be constructed carefully and aligned with research, not political rhetoric.”

Tammyanne Witt, Hastings “Stop this insanity.”

May Wohlfalka, Commack Ufsd “I am a teacher.”

Jeff Wolcott, Olean City School District “End this hysterical attempt to quick-fix perceived problems with bureaucratic, corrupt, Right-Wing Nut solutions!”

Heather Wolf, Greenport Ufsd “Thank you!”

Deborah Wolfe, Middle Country “Please provide me with updates on our efforts.”

Helen Wolfe, Bridgehampton UFSD “We need a different system that does not leave teachers holding the bag. There are many reasons why students fail, and although teachers are part of the equation by no means are they the whole. Let us find a reasonable system that is fair.”

Helena Wolfe, Monroe Woodbury “Let's reform education together. Stop penalty-based teaching and over testing.”

Jean Wolff, Yorktown “As a parent, teacher and registered voter, please suspend and amend the Educational Transformation Act of 2015.”

Lindy Wolverton, Harrison Central School District “Please have a group of experts put together a real evaluation system!!”

Liza Womack, Merrick “This is bad for children, families, and the teachers who work with them.”

Leslie Wong, Laurens Central School “All children deserve good public education. Teachers and Principals should be evaluated by experienced educators and researchers. The future needs all children to have a chance at a well-managed, well-rounded public school. Thank you for your consideration.”

Michele Woods, Ramapo Central “This educational act is a travesty.”

Tara Woods, South Huntington Ufsd “It's unfair for teachers to be rated on students performance. Many teachers do not teach the cream of the crop and the students do not care how they perfo on these assessments. In addition, because these students struggle on assessments in the past they have developed learned helplessness and do not want the continued disappointment of failure. Wen a test is not followed in the end, rather a different type of assessment these kids flourish. Let teachers do what they have been trained to do I. The numerous years of education and that is teach the children and help prepare them for success not disappointment!”

Rachel Woodworth, Hauppauge “Teachers just want to teach creatively to meet the needs of their children. Teaching to a test levels above is losing the engagement and passion from students.”

Theresa Wray-Dolgin, Hauppauge “Get it right!!!!!!!!!!!!!!!!!!!!!!”

Julie Wright, Irvington “Suspend and Amend the Education Transformation Act of 2015. In doing so, you will be acting in good faith on behalf of our students.”

Lauren Yang-Guo, Scarsdale “please let our children grow up as a whole human, not a part of anybody's performance. Let our society stay as one of the best in the world instead of downgrade to the 3rd world by promoting the potential destructive human nature. Thanks.”

Vincent Yeats, Nyc “Independent non biased assessment based on research please.”

Janette Yetter, Putnam Valley “Please pay attention-you are harming our children!”

Saufung Yeung, Ardsley “New york education system is great because we care about the quality. It is not because of who or where. Allow the good to trackle down, not to dump down.”

Charles Yochim, Yonkers “Cuomo is a political opportunist who must go! Impeachment now.”

Charles Yochim, Bronxville School District “Stop Cuomo's plans to kill the public schools to benefit his billionaire buddies.”

Mike Yochim, Yonkers “We can not allow the Governor and his business associates decide what is appropriate for our schools. We need the Board of Regents make an independent, professional assessment of what is appropriate. The necessary amount of time needs to be allowed.”

Michelle Yorio, Carmel Central School District “Please put our kids first.”

Hilarie Young, Mineola “Stop abusing our teachers and student!!! Stop allowing people in big business to dictate what is appropriate for education!!!”

Margaret Young, Pelham Union Free School District “It would be great if an email about schools could have proper vocabulary and punctuation. The common in the first sentence should be after the word 'that', not before, and instead of comprised it should be composed. Good grief.”

Mary Young, Ossining “We as a community implore you - listen to the voice of reason before it is too late. Our children need your careful consideration. Don't make them dislike learning while we simultaneously isolate and discourage teachers and future educators, all to enrich Pearson and their peers and feed into political machines. Our children are our future and we will not allow you to gamble with their well-being or education.”

Matt Young, Ossining “Everything you've mandated has hurt the students in my classes. I don't tell you how to evaluate the bills you vote for, or how to evaluate your donors. You know that best; I know this best.”

Michele Zanky, Pelham Union Free School District “Please kill the Education Transformation Act of 2015 as it now stands.”

Dominic Zanut, Harrison Central School District “Teachers, like any other profession, need to be held accountable. Accountability in education is unique and not always numeric, which is why a research based approach to evaluating teachers is critical. Let's get this right and become a leader on a national level regarding how to effectively evaluate and implement the evaluation of teachers in our public schools.”

Kathy Zarrilli, Farmingdale “We have had enough already! We will continue to fight for our children.”

Nancy Zbytniewski, Elwood School District “Politicians should not be dictating the educational standards of our state. Please leave that up to the educators.”

Bonnie Zdanoff, Byram Hills Central School District “I am outraged by all the testing that doesn't seem to benefiting anyone other than the people who make the tests! I believe in my school district, and am paying high taxes to be where I am. I want my children to get the education that I am paying for and stop having to take time out for all of this nonsense testing. If it continues, I will not allow my children to partake and will have others follow until the nonsense ends!!!”

Lisa Zendel, Bellmore Merrick Central Schools “GET IT RIGHT. ENOUGH DAMAGE HAS BEEN DONE”

Richard Zendel, Bellmore Merrick Central Schools “Enough already.”

Jared Zerman, Irvington “No comments beyond what's above is necessary. There's too much heavy-handed, rigid policy coming from the state government in Albany - which of course enjoys a well-deserved reputation for dysfunction.”

Michael Zettel, Piffersford Central School District “Pretty obvious the governor is setting himself for a run at the presidency next time around. God help us!”

Jennine Zezima, Mount Sinai “This travesty has been going on for far too long. Our children, our teachers, our schools, and our communities deserve better. Education should be in the hands of the education professionals not in the hands of a corporate machine.”

handle educational decisions for my children and hiring decisions for teachers. I will cast my vote against any politician that supports this Act and urge others to do the same.”

Jane Zielinski, Wiliam Floyd Ufsd “As a teacher I am not against testing - just unfair, unreliable ineffective testing especially if it harms our students!”

Robin Zilli, Yorktown “Put our children and teachers first!”

Gary Zimberg, Edgemont “I strongly support our administration and their ability to govern our school. I believe the mandatory state testing is a farce, a waste of time and money.”

Jo Zimmerman, Webster Central School District “As the wife of a teacher and the mother of 2 children who had difficulty in school due to the above-mentioned craziness, I applaud this manifesto. Politics needs to butt out of schools, let the educators educate while the parents support the system.”

Sandra Zimmerman, Pearl River “The new law would be disastrous”

Nancy Zimmermann, Comsewogue “I am in full agreement with the above statement.”

Donna Zippin, New Hartford “Please consider our children. The reform that is currently being forced upon us has very little basis in sound educational practice.”

I have been involved with a joint committee with our administration to establish fair and meaningful guidelines on this review process for three years. not only has all our hard work (and adherence to SED deadlines) been ignored and rejected but we now have even more severe guidelines and an even more accelerated guidelines. BAD DECISIONS ARE MADE WHEN PEOPLE DO NOT HAVE TIME TO CONSIDER ALL THE NUANCES INVOLVED. but we're only talking about the education of our kids...”

Sandra Kolk, “I was the assistant superintendent for curriculum and instruction for many years.

Sandra Kolk EdD”

Elliot Kotler, “Governor Cuomo should be fired for the worst educational move of all time. Holding teachers responsible for children's scores means that creativity or a student's individual differences or problems get tossed aside. Dan McConnell, “Urban numbers bolster the governor's agenda and vote count much the same way he suggests too many teachers are rated effective or higher...because of the evaluation and data that just aren't as rigorous, honest and punishing as they should be (in other words-data generated by people that matter). Be a true lobbyist for the students, focus on the kids who don't have parents or kitchen tables, support schools to where they provide/prepare equitably-let competition be available after that equitable prep.”

Marie Murphy, “Common Core Learning Standards have taken away so much from the kids; particularly the ELL students, the below poverty students and the Students with Disabilities (none of those "disability" special interest groups speak for me/my family!). It is also affecting every-day typical students. NY CAN GET IT RIGHT. I have faith!”

Susan Lee Schwartz, “IN 1998. I was the NYSEC Educator of Excellence, and the cohort for the Pew funded, National Standards Research, when they evaluated me out of the public schools. The voice the real educator needed to be silence so this sort of nonsense could be perpetrated; the perfect plan to remove the professionals from the institution and watch the students die. End this nonsense, and ask the professional what LEARNING LOOKS LIKE! It is all about LEARNING, not teaching. End the narrative they have used to end the profession of pedagogy!”

The current system of assessment lacks a strong developmental foundation, a reflection of a diversity of needs and resources within school districts and an approach to teacher evaluation that will guide professional development rather than focus on narrowly-defined criteria for performance.”

Bill Spreter, “The Governor demonizes teachers and public schools to engender support for his privatization agenda. His APPR plan is not researched based but rather a test and punish system that will cause chaos in education. It must go!”

David St.Germain, “If a little bit of something (20% of the state test counted toward a teacher's evaluation) is not working, more (50%) of that same thing won't work either!”
