

CENTER FOR INNOVATION & ENTREPRENEURSHIP BOOT CAMP

JOIN US FOR
A MORNING OF INNOVATION
SATURDAY, FEBRUARY 8
10 AM - 12:30 PM
ALL STUDENTS GRADES K-8 WELCOME

K-3: Light, Color and Energy

Bootcampers will participate in a series of hands-on activities designed to spark curiosity and strengthen the practices of science and engineering. It will be a bright and colorful morning of STEAM projects followed by a high-tech challenge -- breaking out of an escape room!

4-8: Escape the Room

Participants will learn how to design an escape room, first by creating a mystery narrative, and then by using lasers, puzzles, graphic design and coding to set up a series of challenges that need to be unlocked. When the room has been completed, the K-3 bootcampers will have to solve the mystery in order to go home!

****The C.I.E. Boot Camp is free for all attendees.****
