**Career Day Topics of Interest:** *Writing; Marketing and Communications; Journalist*

**Profession:** Morning reporter for 7News Today in New England

**Current Title:** News Reporter

**Profile:** John Cuoco's day as a TV reporter begins when he arrives at 7News at 3 a.m. and gets his assignment. He heads out with a photographer and spends the next 10 hours gathering facts, refining his story, and reporting live until noon, doing repeated "hits" on camera.

John is a 2004 graduate of Austin Prep. A member of the cross-country and track teams in middle and high school, he went on to run for the University of Rhode Island, where he fell into broadcast journalism.

John says persistence is key to working in television. After graduating URI in 2008, he got his break at ABC 40 in Bryan, Texas. (Never heard of Bryan? Neither had John.) He quickly moved to the "bigger" sister station in Waco, Texas, News Channel 25, his chance to learn more about the job and work in a faster news environment.

John next spent four years honing his craft at CBS58 in Milwaukee, Wisconsin, where he received his first Emmy nomination and win.

In 2015, John decided to gamble on himself and move home to Massachusetts without a job. He hoped to be hired in Boston, one of the biggest television markets in the country. That gamble paid off. Within weeks, John was working as a freelance reporter for 7News, and after several months of proving his value to the news team, he was hired full time to report for the morning show Today in New England.

### **John Guanci**

#### **Class of 1992**

**Career Day Topics of Interest:** *Career Services*

**Profession:** Executive Coach

**Current Title:** Life, Business, and Leadership Coaching

**Profile:** John coaches restless achievers towards inner and outer success. He helps business owners, entrepreneurs, and leaders discover a deeper purpose, eliminate fear, and lead lives they've only dreamed of living.

His professional coaching career began shortly after selling his business in the fall of 2013. John wanted to help people who were in the position he was once in - forever restless, unfulfilled, and fearful.

He coaches people who are in a hurry to get somewhere - only they're not sure where they're going. Or, maybe they have a dream but it's starting to fade from all of their half-hearted attempts at attaining it. This hurts. It leads to feelings of guilt, sadness, and shame. Enough to derail anyone from going after what it is they truly want.

But not John's clients. They know a higher calling - a king or queen in them wanting to emerge. Others, especially those close to them, are waiting for it too!

He has found they just need help out of the starting gate and soon they'll find their stride. Most of it coming once they shatter the barriers that live within the mind. New habits are then created, ones that are aligned to getting the things they most want. From here anything is possible.

The world of sports television is hectic and fast paced and it's part of his job to stay on top of all that happens depending on the season. Much like the athletes and coaches he covers, preparation and adjustments are crucial in his line of work when thinking on the fly is just as important as trusting his training. Drew's role was created specifically for him and two colleagues, so there's no playbook to base their day to day on. They're making it up as they go which is just as fun and exciting as it is uncertain and scary. Not many people get to say they can create

something every day at work and Drew takes great pride in the fact that he can put his stamp on something that the world (or at least New England) sees!
