
BUILDING BRAINS, BUILDING PARENTS

Parenting is hard yet there is new information that can help us use science to better connect with our kids. We are going to play games, work on skills and learn how to support our developing brains.

Whether you have teens or elementary students, this class will be here to support you and give you help during those challenging times.

Presenters - Ruth Charles, Angela McQuinn, Dawn Lueck, Kathy Welch

Join us for this FREE class!

Tuesdays ~ January 28 & February 4, 2020

6-7:30 PM

Winona Senior High School Learning Commons
